### Fight Classmates' Ouster

Hundreds of students at Southern University in Baton Rouge, Louisiana, lined up at registrar's office to ask for forms to withdraw from the school in protest over the expulsion of sixteen of their classmates. The sixteen were victimized for conducting lunch-counter sit-ins on March 30 in downtown Baton Rouge. Prior to their expulsion, the sixteen were jailed. This led to a protest demonstration on the steps of the state capitol by 5,000 Southern University students. Then, when the students involved in the sitdowns were suspended, the withdrawal movement began,

# Impressions of Cuba

### By Joseph Hansen

HAVANA, April 3 - At a lunch counter near the Plaza Civica where Farrell Dobbs and I stopped for a sandwich yesterday, a Cuban youth, hearing me speak Spanish, struck up a conversation with us. He was curious to know our impressions and specially whether we had encountered any anti-American sentiment.

We told him that our impression of the Cuban Revolution was very favorable and much younger in appearance that we had not yet run into a single expression of anti-American sentiment in all our roaming of Havana. In fact, we had found just the opposite: the greatest courteousness and friendliness.

"Yet the baseball clubs are afraid to come here," he said. "They seem to think Americans are being killed in the streets."

We laughed at that because the streets of Havana are as peaceable as can be imagined incomparably more so than in any city of the southern United States where a Negro youth can at any time get his skull cracked if he sits down at a lunch counter reserved for the master race.

Let me cite a few more instances of the same kind to driver, at first noncommittal, illustrate the general feeling warmed up when he discovered

We walked into a section language. He told us that the Cuba campaign seems more re- at Woolworth's was \$1.521/2 an top wage bracket which would capitalists in America and Westheadquarters of the July 26 ones at the bottom of the trouble mote than in Havana with its hour. By Murry Weiss

In last week's article on the witch-hunt against the Socialist "Trotskyist strike - fomentors" known simply as "The Club."

The News Chronicle claims credit for having sparked the witch-hunt against militant unionism, though the type of fabrications it has peddled were invented long ago.

More recently, News Chronicle has boasted that its "exposures" supplied the inspiration for a movie, "The Angry Silence," put out early this year by Boulting Brothers with a star cast. The film glorifies scabbing. Its message is that to be a scab is a mark of non-conformity. This makes violating picket lines the latest thing, and everybody ought to do it.

"The Angry Silence" is about a "wildcat" strike in a Midlands plant. A young lathe operator, played by Richard Attenborough, scabs on his shopmates. He is shunned by his fellow workers. Local "Teddies" (juvenile gangs) support the strike. "Tragic irony" is introduced when the factory management sacks the hero-scab in order to settle the strike quickly.

thrusts itself frantically into old branches of production, whose market suddenly expands, or into newly formed branches, such as railways, etc., the need for which grows out of the development of the old ones. In all such cases, there must be the possibility of throwing great masses of men suddenly on the decisive points without injury to the scale of production in other spheres. Overpopulation supplies these masses."

To show how well the more thoughtful spokesmen of the capitalist class appreciated this function of overpopulation, Marx cites a statement by H. Merivale in 1841:

"Suppose that, on the occasion of some of these crises, the nation were to rouse itself to the effort of getting rid by emigration of some hundreds of thousands of superfluous arms, what would be the consequence? That, at the first returning demand for labor, there would be a deficiency. However rapid reproduction may be, it takes, at all events, the space of a generation to replace the loss of adult labor. Now, the profits of our manufacturers depend mainly on the power of making use of the prosperous moment when demand is brisk, and thus compensating themselves for the interval during which it is slack. This power is secured to them only by the command of machinery and of manual labor. They must have hands ready by them, they must be able to increase the activity of their operations when required, and to slacken it again, according to the state of the market, or they cannot possibly maintain the pre-eminence in the race of competition on which the wealth of the country is founded."

Does that language sound a little musty, like it's from hest of mining and industrial the grave where the defenders of capitalism bury Marx a thousand times a year? Maybe you've got a point. Here's the modern shape of things as depicted in an advertisement that appeared in the New York press the first week of March 1960. In behalf of the Pennsylvania Power & Light efforts of the capitalist class to Company, the Madison Avenue hucksters printed a composite photograph of an eager-beaver, smiling worker stepping on a spoon held below a jar of instant coffee. They added this attention-grabbing headline, "Ever Hear of 'Instant People'?" The advertisement continues:

"To the firm looking for a new plant site, 'Instant People' means an immediate source of skilled and semi-skilled labor and, in Central Eastern Pennsylvania, you'll find all the honest and conscientious manpower you want!

'Just as a starter, check the 'available labor list shown to the right for four communities in Central Eastern Pennsylvania.

"It's only a sample of the experienced heavy industry men ... local people, not transients ... who can set your lathes turning and wheels spinning the day you flip the first switch!

"Add 'instant' shell buildings . . . they're brand-new, ready and waiting, at unbelievably low cost . . . to the picture and you can see Central Eastern Pennsylvania has everything to put your business in business, right in the 'Heart of the Market.' Let us show you why!"

Isn't it really more satisfying to let Marx show us why? Suppose we try to follow his analysis further as he probes deeper into what happens to the working population upon the widening of the ratio between constant and variable AFL-CIO has denounced the united socialist states of Europe. THE MILITANT

# **Red-Baiting and Civil Rights**

Red-baiting has long been a major weapon of anti-union employers and racists alike. During the thirties, for example, when modern unionism was being forged in the sitdown strikes and on the picket lines, the unions were subjected to red-baiting attack by the corporations, the kept press, the political stooges of big business and other strikebreaking agencies. The popular uprising of industrial workers against the dictatorship of the open-shop industrialists was represented as the work of "outside agitators" and "red conspirators."

Today the cry of "outside agitator" and "Communist troublemaker" is heard from South Africa to Texas. In South Africa the white-supremacists, mass murderers justify maintaining their rule by the whip, the club and the bullet as a defense of "free world democracy" against the "menace of Communism." The South African landlord and capitalist oppressors have fought the rising movement for freedom for many years with the aid of the notorious "Communist Conspiracy" Law.

In the American South — another bastion of the "free world" — the historic sitin movement of Negro students is under fierce attack by the white supremacists. The valiant young fighters in this movement are not only subjected to insults, jibes, threats, tear gas, fire hoses, vigilante mobs, mass arrests, expulsion from school and dismissal from jobs — they must also face the daily cry of the Dixiecrat press that they are the dupes of a "Communist conspiracy," witless creatures of a gang of "outside agitators."

James Jackson Kilpatrick, publisher of the Richmond News Leader, appearing on the TV program "Open End" April 3, shown in the New York metropolitan area, sneeringly dismissed the idea that Negro students had started the sit-in demonstrations of their own volition. The sit-ins were instigated by "Communist outsiders," he insisted. When asked by a Negro student leader on the same TV program how he could prove this, Kilpatrick snapped: "Circumstantial evidence."

Here was his "evidence": (a) The NAACP has been "proven" to be heavily infiltrated by "Communists" and people who joined "Communist fronts." (b) The sit-in movement was organized by the Congress of Racial Equality in a "planned, well-oiled, carefully timed" move calculated to "embarrass the South" at the moment of the civil-rights debate in Congress. (c) The Congress of Racial Equality more militant" organization that

QED: The sit-ins were instigated by the Communists.

Kilpatrick had another "circumstantial" proof that the sit-in demonstrations couldn't possibly have been initiated and organized by the Negro students them- Spanish. Furthermore, we knew selves. "Negroes are intellectually inferior no one in Cuba, we had no letto whites," he said, implying that Negro youths could therefore never stand up to the powerful intellect of the white South- there." A worried relative had ern ruling class unless they were stampeded by "trouble makers."

In Marshall, Tex., where a sit-in written, "Be careful!" demonstration of Negro students lagainst lunch-counter segregation was broken up by police violence and fire hoses, a grand jury has been summoned by Judge Sam hotel, until we tearfully said Hall to investigate "possible outside influence." At the same time Dr. Doxey later, we had one wonderful ex-Wilkerson was summarily dismissed from his job as Professor of Education at Bishop College, an all-Negro school in Marshall.

## Frame-up in Marshall

Now, Wilkerson is a former member of the Communist party. And though he says he was in one of the stores at the time of the demonstrations by sheer coincidence this flimsy alibi is not expected to deceive the keen minds on the grand jury. Clearly the link between the sit-ins and outside Communist agitators should be apparent to all - except perhaps to "intellectually inferior" people.

Racists use red-baiting to deflect the civil rights movement from its objectives the street, in the unions, in the and divide it against itself. Racists expect press rooms of newspapers, we were surrounded by 10 or 12 that when they red-bait, some of the would say, "We have nothing leaders of the civil-rights movement will start a witch-hunt within the movement we decided to hire a guide to itself in the hope that if only they get rid drive us around the city. the NAACP, therefore, (d) It was clear (at least to Kilpatrick) that CORE was even more "Communist-influenced" than the NAACP.

### Who Ordered Them to Arm?

Adlai Stevenson urged at a news conference in Caracas, Venezuela, April 4, "that Latin America take the initiative in disarmament and set the example for the rest of the world."

Why should Stevenson propose that Latin America take the initiative? If it's a good idea for Latin America why doesn't he urge it on the United States? After all, it is the U.S. and not Latin America that has been the initiator and driving force behind the armaments race. This country's arms budget comes to forty billion dollars a year.

And how about the fact that the Soviet Union has taken the initiative by its proposal for complete and general disarmament? The Soviet Union also set an example in halting nuclear tests. If Stevenson is interested in initiative and example let him start by supporting the initiative and example of the USSR.

Latin American countries are spending over a billion dollars a year on armaments at the behest of Wall Street. They

racists want to hear. This is their meat.

# "Thank" Both Sides

At an April 6 Senate hearing, James Carey, president of the International Union of Electrical Workers, charged that, with its refusal to adopt a health insurance plan for the aged, the Republican administration had made "a shameful surrender to the American Medical Association and to the insurance companies." He added that the aged "know full well whom to thank for their plight."

Everett Dirksen, Senate Republican leader, replied to Carey with such choice epithets as "stinking" and "insane."

Carey countered with the accusation that Dirksen lacked concern "for the aged people of this country and for the working people."

We certainly will agree with that. But we won't go along with Carey in his at-

tempt to fix exclusive blame for the plight of the aged on the Republicans and the AMA.

Freedom of conscience should

President Eisenhower was "happy," said

congressional leaders April 5, with the pending

"civil rights bill." Its chief enforcement pro-

vision, making it a crime to obstruct all types of

court orders seemed to be fashioned not so much

against denials of civil rights as against union

activities. Coupled with this was a "referee vot-

ing plan" - under which, after protracted liti-

gation, Federal court-appointed officials might

enroll a few Negro voters in a few Southern elec-

debate was a mock battle, elaborately staged by

Democrats and Republicans through their re-

spective leaders (Senators Lyndon Johnson and

Everett Dirksen) so that everybody — Southern

racists. Northern liberals and the Eisenhower

Administration — could "make the record" in

an election year. The final product would be

swallowed painlessly (if with a public grimace)

staging called for a scene shift back to the

Senate. Leaders there had hinted they would

maneuver around Senator Eastland's (D-Miss.)

Judiciary Committee, bringing the House bill

direct to the Senate floor. Instead they referred

it to committee with instructions to send it back

in five days. Let the committee amend the bill,

they explained; the full Senate will restore it

amendments to the House bill. The period for

preserving voting records was shortened. The

section on bombing was weakened. The section

on schooling for service children was struck.

And then occurred what Russell Baker in the

March 30 New York Times called "one of the

day's surprises." Administration leader Dirksen,

reversing his previous position, moved to broad-

en the section on obstruction of court orders to

include all court orders, including, of course,

anti-labor ones. Baker speculated that this

"clears the way for a stiff battle" by Senate lib-

erals "to kill the entire section."

March 29 the committee adopted fifteen

On March 24 the House passed a bill, and

in doing what had hitherto seemed impossible

The AFL-CIO Committee on Political Education (COPE) is doing the best it can, says Quill, but it is totally ineffective. "We are being asked daily," he con-"why do we go along and continue to support these senators in their work against the best interests of our country and our government?" There is no answer from the labor leadership. "Others in the leadership of the labor movement may have the answer to this question," he says, "but if they are in possession of this great secret they

STUMPS THE FLAG WAVERS-A growing number of scholars have rapped the widespread "loyalty-oath" requirement for teachers. But Dr. Jefferson Fordham, dean of the University of Pennsylvania law school, showed how witch-hunters can be tripped up by their own laws. He recently declined to deliver a series of guest lectures at the University of Colorado when he learned he would have to sign a state "loyalty" oath which requires, among other things, teaching respect for the flags of the United States and Colorado. Dr. Fordham advised Colorado authorities that if he took the oath he might be "swearing falsely" since he did not plan to mention either flag in his lectures.

POLISHING THE BRASS PAID OFF-The Martin Company, a leading missiles manufacturer, has shown much concern for the welfare of retired Pentagon brass hats. Sixty-two of them are on the company's payroll. Last month, Martin announced that in 1959 the company enjoyed an 8 per cent increase in sales and a 13 per cent hike in profits. This was the ninth consecutive year that Martin showed an increase in profits.

UNIONS SHOULD SPEAK UP FOR CUBA -In a letter to the Record, weekly newspaper of the Retail, Wholesale and Department Store Union, Delizabeth Misas, a member of the union, wrote: "The Cuban people and their government are being attacked by the same enemies who obstruct the progress of American workers. Why can't our unions speak up for the Cuban workers? Would it not be beneficial for the welfare and the progress of our cause to send representatives to determine if accusations against Cuba are true or not? I believe that it is our duty as unionized workers to learn the truth about the Cuban situation."

RAILROAD WORKER FILES SUIT-Waddell B. Sells, a former employee of the Pittsburgh and Lake Erie Railroad, filed a federal damage suit on March 25 for \$100,000 against the railroad and Local 353, International Brotherhood of Firemen and Oilers. Sells holds a license as a stationary engineer. He charged that, because he is a Negro, the company and union combined since 1937 to prevent him from obtaining the type of job he is qualified for. He was fired last October after working for the company for almost twenty-five years.

MAYBE IT WAS THE WAY HE PARTED HIS HAIR — According to the Illinois Division of the American Civil Liberties Union, a Chicago cop recently arrested a young industrial worker, Joseph Cholico, who, said the cop, had stared at him "peculiarly." Cholico was booked on a disorderly conduct charge and held incommunicado overnight. The arrest slip was made out to indicate he was arrested in a tavern adjoining the restaurant. However, the tavern owner, who was listed as the complaining witness, denied ever having seen Cholico. The case was finally dismissed. The Illinois ACLU has previously documented instances of illegal arrest and detention by the Chicago police.

HUNGER STRIKE - Staff members at Harlem Hospital in New York, including internes and resident doctors, staged a two-day ditions at the hospital. A spokesman for the 125 staff members said it really was a hunger strike because their wages were so low they couldn't afford to buy meals outside. He said that with payday coming up the boycott of the hospital dining room would be continued but the hunger strike would be ended.

CRAZY, MIXED-UP KIDS? - Bucknell University has temporarily dismissed three students who burned a 20-foot cross at a fraternity house whose membership includes three Negroes. A school spokesman said that the cross-burners, Robert Mize, Edgar Roberts and Gene Olgilvie, would be able to apply for readmission next term. The three explained their Klan-like action as "a childish release of energy."

\* \* \* "AMERICANIZATION" - The Voice of Israel, the Israeli government radio, has begun to carry spot commercial announcements. Harry Zindler, director of Voice of Israel, said there had been a public murmur of foreboding over this newest bit of "Americanization." He added, somewhat hastily, "This is not a bad word, you understand. It just has a certain connotation." \* \* \*
