Sit-Ins Gain a Victory

Integrate Counters At Winston-Salem By Arthur Jordan

The Southern student sit-in movement scored its second major victory May 25 when downtown stores of Winston-Salem, N.C., reopened their previously closed lunch counters on an integrated basis. Counters resuming service included two at F. W. Woolworth Co. stores and those at S. H. Kress & Co., H. L. Green Co., and Walgreen's drug store.

The victory at Winston-Salem, like that at Nashville, Tenn., two weeks before, followed several weeks of negotiations backed up by vigilant, unremitting pressure. Winston-Salem students forced the closing of downtown lunch counters at the outset of their sit-in campaign and kept them closed almost continuously over a period of fifteen weeks.

The last attempt in early May by store owners to reopen the counters on a segregated basis was promptly met by a massive demonstration, just as earlier attempts had been. The owners were again forced to close the counters with telling effect on their pocketbooks.

The Winston-Salem movement was initiated and led by a militon-Salem Teachers College and whites from Wake Forest College. Whites endured arrest together with Negroes on trespass charges brought by a Woolworth manager during a February demonstration; of twenty-two stu-dents convicted March 2, twelve were from Teachers College, ten from Wake Forest.

Significantly, in a students' poll taken a month later, almost half the Wake Forest student body voted in favor of accepting Negro students to their college.

Carl Matthews, a member of the Teamsters' union, launched the Winston-Salem struggle on February 8, a week after the first sit-down at nearby Greensboro, N.C., when he took a seat at the Kress lunch counter and Japanese students demonstrate in front of the official residence of Japanese Prime Minister

Nobusuke Kishi in Tokyo against the new military pact between Japan and the U.S. Because of steamroller tactics in pushing the pact through parliament, the students demanded that Kishi resign. They also protested the scheduled visit of President Eisenhower on June 19, the day the pact goes into effect.

On Tour

Unionists, Students **Probing New Ideas** MAY 27. - Farrell Dobbs.

Socialist Workers party candidate for president was on the New York leg of his national tour last week, and we took the occasion to interview him about his campaign on the West Coast where he spoke at meetings in Los Angeles, San Diego, San Francisco, Portland and Seattle.

Q. What kind of response have you encountered for socialist ideas and for the socialist ticket on your tour so far? A. I found a tendency among unionists, students and other participants in the mass movements to listen to our party spokesmen with more of an open mind than in past years. The questions that were asked of me at the meetings I addressed were, I felt, designed to probe what we have to say about the official ideology and the official solutions to the problems of the day.

Thus many of the questions dealt with supporting the Democratic party. The questions would counterpose arguments in favor of the Democrats to our policy of independent political action. I, felt, however, that those who were asking the questions were not arguing with me but rather presenting the arguments of the labor leaders to see how we would answer

them. The question of backing the Democrats also came up frequently at the press conferences I held. Newspapermen asked me many times what change I thought we had, seeing that the American people are satisfied to belong to the two parties.

I answered that the notion • that working people belong to the Democratic party is a myth. They don't control that party at all. They have been tricked by the union leadership to go to the polls and vote Democratic, but they have no power of decision whatever over the candidates or the is-

sues. At one press interview I cited that in West Virginia, right after Kennedy won the primaries, a leading party official sent a message to Lyndon Johnson telling him that he, Johnson, would get the bulk of West Virginia's 25 votes at the Democratic convention. The press didn't quote my remarks on this question. Nor have they ever quoted my statements that it doesn't make a nickel's worth of difference who the Republicans or the Democrats nominate since none of the prob-lems of the working people will be solved through either of the parties.

The only way in which the working people can begin to solve their problems is if the unions break from the Democratic party and launch a new party of their own.

Q. What are some of the other things you told reporters that were never printed? A. Well, the papers never printed what I told their reporters about freedom of the press in Cuba. This issue has been completely distorted in the big-business newspapers. Prensa Libra and Diario de la Marina were taken away from their owners not because the Castro regime wants to suppress freedom of the press but

By Harry Ring

When the Democrats demanded Congressional hearings on the U-2 incident and the summit collapse, many people hoped that this might touch off a "great debate" in which the Democrats would oppose the Administration's new intensification of the cold war.

But the House and Senate hearings quickly showed that the "debate" isn't even a decentsized quibble. Meanwhile, Adlai Stevenson, leading Democratic peace" spokesman, called for the forging of "a deterrent power and limited-war capability" to meet an alleged Soviet "threat."

The House Foreign Affairs Committee invited Secretary of State Herter to testify in secret May 26. Afterward, Rep. Thomas Morgan, the Pennsylvania Democrat who heads the committee, said Herter had satisfactorily answered most of the committee's questions about the sum-

The Senate "probe" also turned out to be a whitewash of the Administration by its Democratic "opponents."

The Truth About Cuba-How Cuban Army Saved Wall Street

By Joseph Hansen

Fifth in a series of articles.

Ruling as a political servant of America's top financial interests, Dictator Gerardo Machado brought Cuba's army what is wrong in this country to peak strength. Since the country has no land frontiers and in the world, why don't you to dispute over, the desire to have a big military machine tell us what you want?" So toappeared irrational to many Cubans. However, from the want - and what the poor and viewpoint of the cold-eyed men who survey this world downtrodden everywhere in the from the countinghouses of Manhattan, nothing is more world want and need and are reasonable than a disciplined body of killers, armed with destined to take for themselves. modern weapons, to protect the source of your profits.

The Cuban people did not yet grasp the full meaning where people come ahead of of this murderous force, bristling with arms, which had profits, where freedom and been put together under the political guidance of the equality flourish, where men and State Department and trained under American officers. women will be able to develop They saw Machado, not the military institution, as the all their productive powers, arprime source of the terror inflicted upon them. And it must tialities. be recognized that Machado did all he could in a personal way to deserve the nationwide fear, bitterness and hatred turned in his direction.

The people acted as people will under tyranny. Some tried short cuts, venting their feelings in individual heroic - if ineffective - acts, such as exploding bombs and where sixty-two million (onekilling the worst public officials in suicidal gestures of third of the nation) lack an "adedespair. The students began organizing more effective political protest demonstrations. Spontaneous strikes broke children go for months without out. The Communist party, although it had been outlawed milk or meat while a billionaire since 1925, gained recruits from all sides. "An entire nation folds its arms and quits work."

Fine Hand of Welles

Sumner Welles had arrived as American ambassador in May. He began his work by urging Machado to resign But the dictator took a stubborn attitude. The culmination of Welles' intervention was action by the military staff. For the first time in Cuba, the army displayed the power it had gained. The top brass informed Machado, who had built the military institution into a main instrument of rule, that his usefulness as president had ended. They advised him to resign within twenty-four hours.

Machado decided that the advice was good. On August 12 he took a "leave of absence" and left for the U.S., bullets whistling past his plane as it rose from the field.

On August 14 Carlos Manuel de Cespedes was sworn in. The conservative son of an illustrious leader in Cuba's struggle for independence from Spain, he had proved his docility by serving in Machado's cabinet. He was the choice of Sumner Welles.

But the concession of putting the name "Cespedes" in office did not halt the developing revolutionary movement. transferred 2,000 miles away be-The people were in the streets by this time hunting down cause it will mean more profit the worst government gunmen and executioners. The for some corporation that doesn't strikes continued. Workers took possession of plantations, mills and factories. In places they elected shop committees.

As the news came over the ticker tapes, the Wall Street operators deduced what might come next. They could lose their Cuban holdings. In those circles that is a fate worse than death. Where could a new strong man be found in a hurry?

Batista's "Junta" Takes Over

We want planned production so that unemployment and exploitation and hunger will vanish forever from the face of the earth. But to get these results we not only must plan our economy, we, the workers, must control it.

power. The Junta represented principally the lower officer caste in the army; but Batista shrewdly involved the leaders of the radical student forces. The Junta appointed five commissioners to form a new government and Batista went to see Sumner Welles.

The students pressed hard for Dr. Ramon Grau San Martin, a member of the commission of five, to be named president. Welles didn't like the university professor, whom Machado had imprisoned on the Isle of Pines. Obviously a leftist egghead.

But the pressure was so great that Batista kicked out Cespedes and named Grau to the job September 10. Washington refused to recognize the new government and recalled Welles. On December 18 Jefferson Caffrey arrived in Havana as "special representative" of President Roosevelt. Apparently some of FDR's famous "charm" had rubbed off on Caffrey. Things began to happen. On January 15, 1934, on Batista's order, Grau resigned.

Batista made Carlos Hevia president. That was only a tactical step aimed at confusing political opposition groups. Hevia lasted exactly two days. On January 18 Batista put in Carlos Mendieta. This was the candidate Washington wanted. In face of protests from the Cuban students at having to swallow this reactionary, Roosevelt recognized brother who would never again use a club on small chilswiftly to smash the protest demonstrations and to arrest the leaders.

of Batista's rise to power was nothing but pure chaos. They unmaker of presidents, was busy polishing up the army, are wrong. The revolutionary pressure had risen high. Batista gave the appearance of bending with it. He did henchmen, tuning up his military-political machine. this until its strength was down and his own base was firm, then he moved against it.

What He Demonstrated

During that period he had demonstrated his ability to control the army in the interests of American capitalism. At he decided he could afford to stage a normal election. A the same time, he had shown that he was genuinely popular genuine democratic facade, ending the "provisional" gov- ate with them; and because his among the majority of the professional officer caste and ernment, would have a lot of advantages. Just before the public reputation was not good: even the ranks of the army-he was a talented demagogue. election Mendieta suddenly resigned. But Batista simply His replacement of one president after another demonstrated appointed Jose A. Barnet as the fifth provisional president his tactical suppleness and his ability to confuse and break | since the fall of Machado. up the civilian political opposition. In Wall Street's balance military politician.

Something else had been proved. The military machine was now so powerful in Cuba, and in such skilled and power. He dismissed 3,000 government employees who owed understanding hands, that it was obviously no longer their posts to the dictator. That was a move Batista had not necessary for American imperialism to use direct intervention. The crude use of marines had become outmoded.

This provided a promising opportunity to prove the ber 22 the trial began. Within two days the president had sincerity of Roosevelt's "Good Neighbor Policy." SANE Group Faces Blackmail

Senator Thomas Dodd (D-Conn.) made news May 19 with his declaration that industrialist Cyrus Eaton should be jailed for having a private conversation with Khrushchev immediately after the summit blow-up. Perhaps it was coincidence, but Dodd made this proposal the same day that the Committee for a Sane Nuclear Policy was staging a disarmament rally at Madison Square Garden in New York. In any event, Dodd played a sinister role in relation to that rally and its sponsoring committee.

After the rally, the New York press disclosed that its principal organizer, Henry Abrams, had been suspended two days before it was held by Norman Cousins, national chairman of SANE. It was reported that Cousins had acted after he had been informed by Senator Dodd that Abrams was a "veteran member" of the Communist party.

In a May 25 Senate speech, Dodd offered his version of what had transpired. Cousins was summoned to Washington two days before the rally. Dodd told him what he "knew" about Abrams and pointedly advised: "I don't want to release this material 24 hours before your meeting."

Cousins took the hint, says Dodd, suspended Abrams, and "offered to open the books of his organization to the [Internal Security] subcommittee and to cooperate in every way to rid his organization of Communists.³

If Mr. Cousins or anyone else in the SANE group believes that this high-handed victimization of Abrams was justified as a means of removing the committee from the line of Dodd's red-baiting fire, he need only read the text of Dodd's Senate speech which was made a week after Abrams was purged.

rent" possible.

come to me," Dodd said, "I do not believe that the Committee for a Sane Nuclear Policy has taken the necessary measures to create a climate that is inhospitable to Communist infiltration."

What does Dodd want of the leaders of SANE? That they give the same treatment to all other persons he chooses to brand "Communist" as they did to Abrams? He does. But that's only the beginning of what he wants.

He advises the committee's leaders that they can make a "contribution" only if they "purge their ranks ruthlessly of Communist infiltration and if they clearly demarcate their own position from that of the Communist. . . ."

To obtain a clean bill of health, he brazenly declares, the committee must adopt his stand on what constitutes a basis for halting nuclear tests!

The committee can "demarcate" itself from the Communists, says Dodd, "first, by stressing the need for adequate inspection.'

And if the committee should decide. contrary to Senator Dódd, that they don't agree "adequate inspection" is essential to

is indicated, a situation in which private citizens must have the assistance of the government to cope effectively with a movement that operates by stealth and secrecy."

and bigger "deterrent" - the hydrogenbomb. This nuclear exposive is measured in millions of tons of TNT. And what happened? The Soviet Union shortly produced its own hydrogen-bomb. Both sides had reached a new level of "deterrent" capacity.

Scientists warned in agonized voices that if these nuclear "deterrents" were ever fired by either side it could mean the end of all life on earth. Even the fallout from testing such devices can cause genetic damage lasting for tens of thousands of years among future generations.

Have such warnings caused stockpilers of nuclear weapons to halt? Not at all. They are devising still another "deterrent." Since it is impossible to construct weapons more monstrous than those now piled in great heaps about the earth, the new "deterrent" consists of — using them.

This is called "pre-emptive" action. If the word sounds odd, take time out to become familiar with it. Let's at least learn to spell what we might die from.

Here is what Robert W. Kastenmeier, a Democratic congressman from Wisconsin, recently said in the House about "preemptive" action:

"The deterrent has always before been considered to be the ability to strike second with power sofrightening that it would deter anyone from striking first. Some of us now seem to have moved so far on this deterrent road that the 'deterrent' is seen as the first strike. A form of deterrent that would result in universal annihilation is clearly no defense."

Just how far have "some of us" moved down that road to nuclear obliteration? For the answer to this we turn to a frontpage article in the May 27 Wall Street Journal:

"Every minute of the day and night huge B-52 long-range bombers are cruising over the vast unpopulated subarctic stretches of this hemisphere. Every few hours each is approached at a planned moment and point in airspace by a giant tanker plane; the two couple miles in the air; thus every bomber aloft is assured ample fuel to deliver its devastating nuclear weapon to an assigned target deep in the Communist heartland."

How many U.S. bombers are cruising like that with nuclear death in their bela top secret. But the Wall Street Journal reveals this much: "This powerful though limited constant air alert was launched well before last week's brusque brush between President Eisenhower and Premier Khrushchev at the summit, but has never been announced."

Now read how the Pentagon's "top military leaders" plan to push this "deterrent" — which, says the Journal, "is slated to grow greatly" — to a new level: "They fear that flinging an air fleet up suddenly at a time of tension could be viewed by nervous Communists as a 'provocation'; it could be the very act that might unintentionally touch off a war. So their planning in the service of the working is based instead on increasing gradually the number of planes now continuously on air alert. The bombers already circling above northern Canada would gain one time, he was working as a tailor publication, Socialist Appeal recruit, then another, and later still morewithout ever confronting the Soviet with a militant unionist in the Amala shocking quick mobilization."

As final chilling knowledge on what the bipartisan coalition in Washington is sity, obtaining his degree in planning, the Journal informs us that the 1924. fatal decision rests with solely two men. One is the occupant of the White House. The other is the man designated to push the death buttons if and when he gets a fighter for the rights of workcall from the White House. You know ing people. who is in the White House now and you know the likely candidates for the next term. But do you know the man entrusted with pushing the right buttons at the right time on getting the right orders?

He is "steely-eyed Gen. Power." The robot general with the ball-bearing eyes holds "unusually great responsibility . .

More than 90% of the firepower megatons of the Western allies are at his fingertips. A few coded words spoken into the red drill. The committee's plans telephone of his control center, three include: stories below ground, could head the cruising air alert forces toward Communist targets — though only the President can ing it mandatory for unwilling authorize them to go to all the way and individuals to seek shelter durdrop their bombs."

What do you propose to do about this situation? For ourselves we can't think air-raid drills in schools because of a better way to spend our lease on life of the psychological harm they than by fighting with all our energy to get cause children. that nuclear bomb-minded bipartisan coalition out of office. We think that socialism is the only thing that can save us. What constructed in the New York do you think?

Letters from Our Readers

Voided Ballot

In Oregon

Editor:

The Oregon primary elections are now history. Voting was light we were told. Tweedledees and Tweedledums were a dime a dozen.

Perhaps the attitudes of the stay-at-homes were reflected by the thoughts of one voter who red-penciled his ballot with these profound words: "I never saw so many damn bums on one ballot."

It was gleefully announced the "vote" had been voided.

> G. D. J. Newberg, Ore.

Two Kinds

Of Politics

Editor: For many years we have had no choice in matters concerning our every-day living. We elect a "friend of labor" to office to Socialist movement. "see what he can do." Soon we forget his name and complain about how he misrepresents us.

Well, the powers that rule us Professor 'Proves' are not much interested in our grumbling or cussing (or praying), so long as that's all we do. Editor:

They're not so bad. They provide us with rock n' roll, sports, booze, songs about love in that dear old tumble-down shack, University has less intellectual newspaper (anti-labor), television, and even red-light districts. The few that own the earth

don't really hate us. They just don't know we're human because we don't have the intestinal fortitude to prove it.

We're sort of satisfied, paying off a mortgage — 'as long as we the industrial revolution and its war. have a job, grumbling about prices and taxes, paying 1,000% profit on medicine for the young the fact that the Marxists were of cleaning up the West Dallas ones and going to church to an important tendency among slums. thank God for our blessings. the workers at the end of the That's "our way of life."

The real way of life is the good old profit system. Everything the utopian socialists. But then came the payoff, produced would stop if the owners couldn't make a profit. Marx said (ran the argument)

signature.

I work for an executive and my first job in the morning is to open his mail. This is how I learned about Research Institute Recommendations, a weekly publication which has helped over 30,000 executives to "lift part of the tax load off their backs where all else failed '

For only \$24, you can get a subscription to Recommendations, with copies of two special reports, The Executive's Own Tax Methods and **Tax-Wise Handling of Travel and Entertainment Expenses.** The sales brochure promises that an executive who uses this "more tax-minded method" can cut his income tax so sharply that it will seem incredible, a real tax "miracle."

I am always hoping for a miracle that will keep my \$87 gross pay from shrinking to \$70 take-home each week, so I studied the brochure carefully. It included a tantalizing Table of Contents for The Executive's Own Tax Methods. Do you know that you can turn income from investments into Capital Gain, which cuts your tax in half? That club dues and "spending" (which I suppose covers martinis and the like) can be tax deductible? That you can pay your son's college tuition with tax dollars? That you can "unfreeze" the cash locked in a corporation, tax free? — "to mention just 4 of the 16 miracles this method performs.'

now if it hadn't been for the More important was the Bolsheviks (who were neither question of whether the NALC would be all-Negro or open to My conclusion is that under a whites too. Local NALC declining capitalist system a groups and their predecessors bourgeois professor has to dishad in practice restricted membership to Negroes. This tort history to make the system seem vital and permanent. Only resulted from their belief that under socialism will the real most Negroes, suspicious of befacts be faced without fear and trayals by white-dominated then truly free discussion of all organizations, would respond to it better that way.

But this aroused the antagonism of most top union leaders, including liberals. An all-Negro group, they charged, was "racism" and "Jim Crow in reverse." Typical was Patrick E. Gorman, secretary-treasurer of the Amalgamated Meat Cutters,

who recently said. "The NALC should not be organized any more than the white councils in the South should be organized. In the labor movement, we shouldn't be segregated."

For whatever reason, the Randolph leadership proposed that 'the primary objective" be recruitment of Negro unionists,

then added: "However, no appliprise" is being left with the job cant who is a bona fide trade unionist . . . shall be denied membership because of race, color, religion, national origin or This was adopted ancestry." work-farm. The prisoners will without discussion though some delegates later expressed uneasiness about it.

Goals

The biggest constitutional dispute centered around the definition of "objects and principles." One offered by the leadership was "to design programs to fight racism, communism, corruption and racketeering in the trade union movement." There were had said nothing publicly for or strong objections, the prevalent against the NALC; hadn't atopinion being that the NALC tacked it and hadn't defended it had one overriding reason for existence and needed only one
