Stage One-Day Japanese Unionists in Demonstration Against War Pact

Majority of People Support Struggle of Unions on Pact

By Harry Ring

The June 22 general strike of five million workers and students in Japan has given new, dramatic proof that the majority of the people there are unalterably opposed to a military alliance with the U.S. Yet Washington demands the treaty be ratified and the opposition to it be crushed.

Why does the White House, Congress and the Pentagon so bitterly oppose this popular anti-war sentiment? One would think that if a government were genuinely dedicated to peace, it would seek to ally

section of the population. Again, here is the estimate of the Herald Tribune's soberminded political analyst, Walter ippmann:

"There is no use deluding ourselves ... that the opposition to the treaty and to the President's visit was confined to a small minority of Communists incited and paid for by Peiping and Moscow.'

The preponderant opinion in Japan is neutralist, and "When we urge them to be anti-neutralist they respond by being anti-American. . . . In Tokyo mighty (Continued on Page 2)

Two days before the general protest strike of five million workers in Japan, a group of unionists are shown demonstrating together with students. Some of them wear helmets in readiness for a police attack as they march towards the Diet building. They shouted slogans against Premier Kishi and the hated U.S. war treaty which was rammed through the Diet under pressure from Washington against the overwhelming opposition of the Japanese people.

The Truth About Cuba_ July 26 Movement Leads the Revolution By Joseph Hansen

Eighth in a series of articles.

By 1954 Batista appeared impregnable. His army, equipped with the latest American weapons and advised by an American military mission, held the island's political life in a tight net. Police terror kept the meshes of the net in good repair. Business was booming and the dictator enjoyed the full support of Wall Street and the State Department. It appeared a propitious time to add some democratic camouflage. A presidential election, held November 1, was won handily by Batista after the sole token oppositional candidate, Dr. Ramon Grau San Martin withdrew in despair and disgust.

In another step calculated to lower dissatisfaction with his rule, Batista granted a concession after being sworn in as president. On May 13, 1955, he signed a bill providing a general amnesty of political prisoners.

Castro had been approached in prison with an offer of freedom in return for modifying his opposition to the dictatorship. He refused such a deal, however; and, upon arriving in Havana May 17, resumed his political attacks on the regime.

But Castro found the avenues for democratic expression so meager as to be of little consequence. He decided to go into exile in Mexico in order better to organize an underground struggle.

Learn Guerrilla Warfare

How serious Castro was in this aim can be gathered from the fact that one of his first efforts was directed at overcoming a weakness which he and his followers' felt keenly - their lack of military training. Castro succeeded in persuading Colonel Alberto Bayo to give a select group of cadres theoretical and practical training in guerrilla warfare. Bayo was well-known in Latin America as an expert in this field, having served in the Spanish forces that fought Abd El Krim in Morocco. The colonel became an admirer of the Moroccan guerrilla fighters and made a study of their tactics, which he sought, unsuccessfully, to place at the disposal of the Republican government of Spain in the civil war against Franco.

Castro himself participated only to a limited degree in this training. As the main political organizer, he spent the greater part of his time among refugee circles in Miami, Key West, Tampa and New York in search of funds and recruits.

Cuban refugee circles were divided at the time into many groups and tendencies. Castro was a member of the bourgeois-democratic Ortodoxo party, but soon found himself embroiled with the leadership over what to him was the key question — the necessity for serious preparation and active organization of the armed overthrow of the Batista dictatorship. Finally on March 19, 1956, disillusioned with the vacillations and compromises of the Ortodoxo chieftains on this issue, he announced the formation of the July 26 Movement as an independent revolutionary organization.

The most noteworthy feature of this political formation in the following years was its consistent refusal to compromise on the basic platform on which it stood -active organization of a popular uprising against Batista. Several attempts were made by leaders of the Autentico and Ortodoxo parties to get Castro to subordinate his aims to a Sierra Maestras, Castro sought to give an example to the common front in which they would have decisive voice. In farmers, sharecroppers and field workers of what they could that network. They have seen dents having taken the initiative each case he refused although he at the same time sought expect from the July 26 Movement in contrast to Batista's the Pentagon deliberately court in the fight against the U.S.united action, particularly if it would facilitate getting regime in Havana. The example was quite convincing, for war by flying spy planes over Japan treaty were set forth rematerial aid for the rebel forces in Cuba.

"FIDEL INRA"

The letters "FIDEL" and "INRA" - often combined as on the tank in this truck appear throughout Cuba. To most Cubans, Fidel Castro personifies the revolution that freed the island from the Wall Street-supported dictatorship of Batista. INRA, the National Institute of Agrarian Reform, is in charge of the sweeping change in land ownership. The Institute is now pulling the econ-

semble, in a safe place in the Sierra Maestras. Batista claimed, and apparently believed, that Castro had been killed. For a time it was difficult to obtain evidence to the contrary. Nevertheless, this small band of twelve was to swell in less than two years to an army powerful enough to | defeat Batista's well-trained and well-equipped forces and topple the dictatorship.

The leaders of the July 26 Movement ascribe their final success principally to their tactics. It must be noted, however, that the best of tactics are of little avail in the absence of favorable social and political conditions. These were quite ripe for revolution as can be judged from the fact that on July 31, 1957, a spontaneous general strike occurred in Santiago and spread swiftly throughout the country.

It should be noted, too, that in the political atmosphere generated under Batista another leadership, much like the July 26 Movement in composition and coloration, had form- they are not convinced by the ed in Havana. This was the Directorio Revolucionario, a American - inspired propaganda group centered among the university students. Under Jose Antonio Echevarria, the Directorio staged a raid on the Presidential Palace March 13, 1957 in an attempt to assassinate Batista. This terroristic action, heroic as it was, proved crippling; some of the best leaders of the group, man Rhee in power. including Echevarria, were killed and Batista only received a bad scare.

Appeal to Campesinos

As a major tactic, the July 26 Movement sought a base in the Cuban peasantry. Its main appeals were directed to a nuclear test ban; that brushes the countryside where it hoped to recruit its fighting aside disarmament proposals. forces. The leading slogan was land to the campesinos.

Setting up what was in effect a dual government in the the July 26 Movement was a spartan organization that

potential'."

By Lillian Kiezel

According to the big business press, the struggle in Japan over he "mutual security" treaty has placed democracy there in great eopardy. The student demonstrations have been represented as the actions of a small, determined minority seeking by 'violence" to impose its will on the majority, whose wishes are supposedly expressed by the Kishi government.

The issue of democracy is very losely linked to the struggles against the military treaty, but it is the Kishi regime that has been seeking to flout the popular will. On the other hand, when Zengakuren, the national student organization, launched he fight against the treaty, it expressed the sentiments of the najority of the population. In fact, the evidence of popu-

ar opposition to the Kishi-negotiated pact has been so overwhelming that even reporters for the American press have had to give an indication of its scope.

The bands became large enough to operate as an army in the amply testified to by the U.S. reconspiracy was of symptomatic importance, revealing that field. a section of the officer caste were uneasy over the unpop-

ularity of Batista and thinking of finding a more acceptable figure.

On April 29 a small group attempted, in emulation of Castro's Moncada raid, to seize the Goicuria army fortress at Matanzas. The attempt was smashed.

Apparently Castro judged that such actions indicated a rise in revolutionary sentiment in Cuba. On November 15 he announced his intention to invade the island as the first step in leading a popular insurrection.

The story of his landing is now well known. On a small yacht, the "Granma," capable of holding a couple of dozen men. Castro set out from Mexico with a force of eighty-two and all the arms and ammunition that could be put on board. An uprising in Santiago was timed for November 30 to divert attention from the landing. The uprising went through on schedule and was put down. But due to bad deal with them. Having learned from the experience of the weather and engine trouble, the "Granma" was delayed Guatemalan revolution that failure to break up the old was published in the Congresable swampy spot where the arms could not easily be unloaded.

Batista learned of the landing the same day that it was made and by December 5 the small "invasion" force was surrounded. They suffered a heavy defeat, only twelve men managing to evade the attackers and eventually as-

Batista, like Chiang Kai-shek, sought to crush the tors. But the Japanese people guerrillas by an ambitious military drive. Like Chiang's are firmly opposed to the war troops, however, the ranks of Batista's army proved receptive to revolutionary appeals and began to join the rebels.

Finally, like the Chinese revolutionary leaders, the Cubans launched a counterattack that brought them to power.

On the political side, Castro sought from the beginning to speak for Cuba as a whole. His principal appeal was to Jabor and student movement end Batista's bloody, dictatorial rule and put a government by everyone who wants to fight responsible to the people in power. He received some sup-

port from individuals in bourgeois circles but it is worth observing that the class as a whole did not rally to his the country who have protested banner. The most powerful ones stuck with Batista. Batista's army and Batista's police.

Not even the middle class in the cities appears to have been enthusiastic over Castro's July 26 Movement. The upper petty-bourgeois layers that opposed Batista, including businessmen and manufacturers, tended to support the Autentico or Ortodoxo parties and a clandestine organization, the "Civil Resistance Movement," which included professors, teachers and white-collar workers in its ranks. This underground action group, centered principally in Havana, had three sections, propaganda, fund-raising and supplies. The sections were divided into cells of ten persons, each of whom sought to enlist another ten persons to form a new cell. By the beginning of 1958, as the July 26 Movement grew in weight, the Civic Resistance Movement began to note a sharp rise in financial contributions. In January these were \$7,000; in March \$20,000.

As for the working class, it was caught without an effective political leadership of its own. The trade unions for peace by bringing about a were dominated by venal officials holding their posts through Batista's favor. The Communist party was discredited because of its support to Batista in the past. Moreover it had no independent policy. Like the Communist party in the United States, its main concern was to advance York average \$91.50 a week, the Kremlin's foreign policy of maintaining the status quo. while male secretaries get Consequently the Cuban workers tended to favor the July 26 Movement and to support it actively insofar as they could without a dynamic leadership and fighting organizations of their own.

Monday, June 27, 1960

1. Social Earthquake in Japan

Western capitalist opinion is still reeling under the impact of the staggering blow that was struck at the cold war by the demonstrations and the general protest strike of Japanese workers and students which forced Eisenhower to cancel his trip to Tokyo and have all but toppled the Kishi regime.

The Times of London said it was "the biggest blow to an American President since the war." Il Messagero of Rome declared, "The State Department has allowed itself to be beaten by events and has had to withdraw before evidence of very grave errors of judgement."

The Los Angeles Times, in a front page editorial said: "The United States has suffered a humiliating defeat. It is more devastating than the loss of a fleet or the destruction of an army.'

Compared to the magnitude of the events, however, these cries of consternation sound almost smug. The truth is that the capitalist spokesmen don't fully know yet what hit them or how badly their system has been hurt.

The social earthquake that has been rocking Japan has already done much more than to inflict an unprecedented diplomatic defeat on Washington. Nothing less has occurred than a major shift in the relation of world forces in favor of socialist revolution and against capitalism and its drive to war.

This can already be said about the world'impact of the upheaval in Japan even if we are unable to judge from a dis-

tance how rapidly the movement there will develop its revolutionary implications. existence of countries with dif-

security" treaty was initiated by the students acting through their mass organiza- friendship among peoples and tions in the universities. An overwhelming talks between leaders of socialmajority of the students were drawn into ist and capitalist countries as the series of actions. As the struggle headed for a showdown over the issue of Eisenhower's visit, the organized working class increasingly participated in the demonstrations. This culminated in the general protest strike on June 22 involving five million workers.

In the nationwide protest walkout the unity of students and workers was most and deriding as "the height of strikingly evidenced. The activities of the naivety" the "illusions of certain students were fused with those of the Communists" that Eisenhower working class.

The general strike raised the movement to a new and incomparably higher level. This was a political strike in the fullest sense of the term since the demands | Lenin's book, "Left-Wing Comwere for the scrapping of the war treaty | munism: An Infantile Disorder,' with the U.S. government and the resignation of Prime Minister Kishi.

By means of the general strike, the Japanese working class kept the regime from realizing its main objectives: isolation of the students from the rest of the working people followed by bloody suppression of the students in the name of foiling a "Communist conspiracy."

Japanese workers' organizations have taken their proper place in the vanguard of the struggle against Kishi and the pact.

2. A New Breakthrough

The emergence of the Japanese working-class organizations in the forefront of the struggle for peace, the most fundamental political 'issue of our times, is an event of enormous significance for Japan, for Asia and for the entire world.

This is the first time since right after World War II, when the workers of Western Europe sought to take political power but were prevented from doing so by their reformist and Stalinist leaders, that the working class has taken the offensive in a highly industrialized country.

In Western Europe and Great Britain the successive betrayals of the labor bureaucracy sapped the vitality of the working class and gave capitalism, with the help of billions from Wall Street, a chance to rebuild its shattered political power and to regain its economic equilibrium for a time. Against this background, the coldwar boom in Western Europe was used by the capitalists to further demoralize and conservatize the workers' movement.

in West Germany in a steady build-up of capitalist reaction. The German workers' movement declined in militancy and morale to such an extent that the Social Democracy was able to scrap even the facade of a socialist platform at its last convention without a storm of opposition being aroused.

Above all the decline of the combativity of the working class was evidenced in the elevation to power of the most direct representative of French monopoly capitalism, Charles de Gaulle, backed by the cut-throat fascist gang in Algiers. De Gaulle triumphed without any significant struggle to stop him having been waged by the workers' organizations.

To all this, we must add the long quiescence of the American labor movement dominated by a capitalist-minded trade-union bureaucracy that fully supports the cold war.

What has held back imperialism from Chinese CP leaders who have launching a third world war has been the

Another round in the twoear-old debate between Moscow and Peking was disclosed in a June 12 article in Pravda labeling as "left sectarian" the position of "some persons" who 'mistakenly consider the course

drive with peace phrases. The Pravda article is ostensibly devoted to a discussion of published in 1920. Pravda pays ritual obeisance to Lenin, then goes on to do a typical Stalinist

hatchet job on the Chinese "sectarians." The opinions of these critics of the ruling group in the Soviet bureaucracy are misrepresented, lumped together with vastly different opinions and summarily denounced. Khrushchev and the Khrushchev-spon-Instead of allowing this to happen, the sored decisions of the twentieth

and twenty-first congresses of the Soviet Communist party are repeatedly quoted as the latest Leninist authority

(This, incidentally, lays to rest the widespread speculations in the capitalist press following the Summit collapse that an alliance of Chinese CP leaders and a "left" faction of "old-line Stalinists" in the Soviet Union had deprived Khrushchev of any real power and had taken over the reins in the Kremlin.) Pravda's representation of the

Chinese CP's position on foreign policy is false and dishonest in every way — and not only be cause it fails to mention the Chinese directly or to quote from any resolution, speech or article of theirs.

For example, Pravda says The desire to build socialism on the basis of imperialist handouts [intended as a reference to Yugoslavia] or attempts to skip entire historic stages [intended as

to power "peacefully," that is with the capitalist class relinquishing state power in recognition of the superior strength of a Khrushchev double-cross. They

It is understandable, therefore, that an informed observer like Richard Lowenthal should write in the New Republic May 30 that, "The Chinese documents, with their stress on 'uninterrupted revolution' and their primacy of in-

quo pact. But it is one thing for the the world." Chinese to allow this policy to be What Chinese Want imposed on the Communist

Republic of China. After the publication of the Pravda article, the capitalist press cited a speech by Liu Ningyi, a prominent Chinese trade

union leader, at the General Council meeting of the World Federation of Trade Unions June 7 and 8, as evidence that the Chinese CP was "retreating" and "partially accepting" Khru shchev's line. The error in this highly speculative construction is the mistaken notion that the Chinese have been opposed to negotiations with the West "on principle." Besides, it is clear. from the speech of Liu, which allegedly accepted Khrushchey' thesis that war was no longer in evitable under capitalism, that the Chinese are pushing the same policy as before the Summit collapse

Liu Ning-yi said: "We support the proposal of disarmament put towards a deal with Western im- | forward by the Soviet Union. (Hsinhua

Our emphasis.) This position is similar in principle to Khrushchey's declaration that lasting world peace can be attained through negotiations with imperialism and does not require world socialism for its ealization. All that Liu Shao-chi ndicates is that mass struggles need to be intensified so as to force Washington to include China in the "thaw." Indeed, his statement can be taken as a promise to paint up as a partisan of "peace" whatever American president grants China diplomatic recognition. American recognition will, of course, be a great boon to China

and to the struggle against the cold war. It should be fought for energetically by every socialist. But its achievement will no more validate the prospects of "peaceful coexistence" than did U.S. recognition of the Soviet Union or the Khrushchev-Eisenhower meeting at Camp David. In the meantime, the Chinese

are not at all confident that, in the diplomatic negotiations from which they have been rigorously excluded, the Kremlin will really fight for China's recognition.

(Continued from Page 1) really full discussion of the

issues and candidates, I would like permission . . . to speak at this conference, too. I believe the conference would benefit from hearing reasons why the American labor movement should form its own party."

Yesterday, Dobbs spoke at membership meetings of United Auto Workers Locals 227 (De Soto) and 157 (amalgamated). He explained the stake American workers have in working-class struggles abroad; the need to fight for a 30-hour week at 40 hours pay: last decade as they watched first progress to people as a whole

Khrushchev. The Chinese CP leaders also sive that the Kremlin is heading

Capitalism and the drive towards a third world war made important headway when the right-wing Labor leaders in England squandered the capital of the 1945 electoral victory. By their faltering policies, the Labor party leaders allowed the Tories to return to power and to hold it in three successive elections.

The cold-war bloc chalked up another big victory when Adenauer came to power

3. Stalinism Gets Bypassed

The Japanese working class, if it fulfills the great promise it has already shown. can provide the leadership for the socialist revolution throughout Asia. It will ally itself in the first place with the revolutionary drive of the People's Republic of China, thus bringing to China with its abundant human and natural resources the aid of the highly developed technology of Japan. This in turn will provide the Japanese workers and students with almost limitless opportunities to employ their skills. Japan will find its true role not as an imperialist oppressor, and not as a vassal of American big business, but as the dynamic center of the Asian socialist revolution.

These perspectives have been opened up as a result of the entrance of the broadest masses of Japanese workers and students onto the arena of anti-war struggle. The lies of the capitalist press which ignores the popular mass movement and replaces it with a handful of "Moscow agents" is refuted by an overwhelming body of evidence. The liars themselves often provide the facts that expose their fabrications.

The Los Angeles Times, for example, described the movement on June 17 as "a few hundred Communists directed by Moscow and Peiping." The same editorial, however, declares that "All control of the demonstrations had been seized by the rabid students of Zengakuren, an organization so hysterically radical that even Moscow and Peiping have in the past excluded it from their fold."

But if Zengakuren led the demonstrations — and it most certainly did — how could the demonstrations have been exe-

continuous round of revolutionary colonial the Yugoslav CP leaders, who as struggles - in the first place the victory | "neutralists" have been promotof the Chinese revolution.

Now the Japanese events have brought one of the main detachments of the world working class, which is concentrated not in the colonial but in the advanced industrial countries, back onto the political arena, where it is challenging the rule of Chinese, since in the language skyists would be an illusion. THE MILITANT

MONDAY, JUNE 27, 1960

could undoubtedly be effected if the directors were compelled to open their books to public inspection. Let the unions and other concerned organizations see exactly where the money is now going.

As it is now constituted, Blue Cross does not represent the interests of the majority of its subscribers. The unions are beginning to realize that this "public-service" organization is taking a huge and unnecessary slice of their welfare funds and they don't even have a voice in the matter.

Of the 28 members of the New York Blue Cross board, only four are from the labor movement. Last year the New York Post quoted a federal health expert as declaring that the board of directors "is loaded with hospital administrators and with Wall Street businessmen who may be hospital directors . . . the labor guys are there for the window dressing."

Fee-Collecting Agency

The unions should expose Blue Cross for what its directors have made of it - a profiteering big business outfit which acts as a fee-collecting agency for the hospitals and makes those fees even stiffer by adding on its own huge overhead.

Furthermore, it should be remembered that Blue Cross was created out of a fear, by medical organizations that if some public health measure wasn't taken, the people would force the government to step in.

Blue Cross has unwittingly done a good job in one-respect. It has thoroughly proven that a mercenary insurance outfit can't tend to the health needs of the American people. For that, socialized medicine is required.

Alabama Racists Fire Prominent Negro Educator

NUMBER 26

By Arthur Jordan

Alabama's racist governor John Patterson has forced the dismissal of Dr. Lawrence D. Reddick, history department chairman at all-Negro Alabama State College. The firing of Reddick, biographer of

Rev. Martin Luther King, was ment with trumped-up charges quickly protested by local and of "Communist influence." The State Board of Education

which says in large gold letters: "Private -Senators Only." Aren't there any plans for a Congressional Bath, so that Representatives, too, can clean up between sessions?

If you detect a sour note, if you think that I resent the easy life of these Senators because I am envious, you are absolutely right. That Health Suite would be pleasant for coffee breaks, which I spend in the Ladies' Room because efficiency experts are primarily interested in space for filing cabinets. Some offices may do better, but a factory worker rarely has 'a spot

to relax during his brief rest periods. In a pertinent article two years ago, "The Myth of the

Shdet Metal Worker Detroit

The idea is to get our unions, management, newspapers, political parties and churches, etc. to

ing, and it is also not visible anywhere in official records.

But it turns out that this pool was made possible by real frugality on the part of the Senators. They managed to save \$100,000 out of a \$250,000 appropriation to repair rusty plumbing in the office building. You may think \$250,000 is a rather large sum to fix rusty pipes, but it is certainly modest compared with the amount originally requested -\$7.5 million.

Only one thing seems inequitable about this pool. The door to the Health Suite has a sign sputum-and-oil-stained stairway of a toilet

Happy Worker," Harvey Swados wrote:

I am not opposed to swimming pools; on the contrary, I would like to see a pool in every plant and every office, so that workers could take a dip at lunchtime, or after a long, hot day. As for Senators, once they agree that we should spend our money for facilities of this type instead of wasting astronomical amounts on H-bombs and other military expenditures, I will gladly concede that they, too, should have a pool.

Notes in the News

SOLID, MAN! — At a public hearing in Los Angeles, June 17, the Democratic party platform committee heard Nageeb Halaby, a former cabinet officer under Roosevelt, Truman and Eisenhower. Halaby advised: "We've got to get over the notion that nuclear warfare is unthinkable. It's not only thinkable but in prospect. We've got to look it in the eye and be prepared to meet it militarily and economically." Said California's liberal Democratic Gov. Brown, chairman of the session, "I think you're on some very solid ground."

GETTING HARDER TO FIND A HANG-ING JURY - Deputy sheriffs in Greensburg, Pa., had to scour the streets for prospective jurors to complete a murder trial panel after 135 of those summoned for jury duty were excused. Most of the dismissed jurors were opposed to capital punishment. The trial opened just after the execution of Caryl Chessman.

ONE PROBLEM SOLVED — Before President Eisenhower's invitation to visit the Soviet Union was canceled the State Department had shipped a motor launch to Moscow for Eisenhower to present as a gift to Soviet Premier Khrushchev. The boat has been standing on the lawn of the U.S. Embassy in Moscow. Washington now announces the boat will be returned to the manufacturer, as "ethically the most correct thing to do."

PERPETUAL WIND TUNNEL - The American Broadcasting Company plans to install equipment at the major-party conventions to recharge prominent politicians who run out of wind. Assuming they can find one, they will seat him in an "ionized VIP room" equipped with ionized air, vibrators and a supply of oxygen. The ions in the air will be negatively charged to promote "a sense of exhilaration, a more positive attitude."

SWIFT DISCIPLINARY ACTION - New York Police Commissioner Kennedy dismissed Patrolman Michael O'Malley from the force June 16 for having engaged in an argument, while off duty, with a seventeen-year-old boy and shooting him. The incident took place Sept. 23, 1958 — twenty-two months ago.

IT'S ONLY TAX MONEY - After sinking \$18 million into Atlas-Vega, a space rocket, the National Aeronautics and Space Administration discovered that the Air Force was already working on a similar weapon. The contract was cancelled at an estimated loss to the taxpayers of \$16 million. The duplication didn't really matter, though, since the NASA neglected to line up launching facilities for the rocket. By the time such facilities became available, experts said, the rocket would have been obsolete anyway.

DEDUCTIBLE — A U.S. District Court has decided that a businessman can take his wife situation saying only that a dents; the continuing forward to a business convention and deduct her expenses from his income tax. Ruling in the case of an insurance company field representative tion the company attempt to in support of the anti-Jim Crow whose wife accompanied him to a company break the strike. convention, the court said her presence was important because it makes her "feel closer to the company, relieves her of any possible feeling of resentment toward the company for taking her husband away from her and the family, assures a higher tone of the meeting, and eliminates occasional misconduct problems that attend such meetings when they are stag

affairs.' BELIEVE IT OR NOT DEPARTMENT -With a straight face, Ned Cushing, chairman of responses at recently held streetthe Young Republicans, declared the following: "The American press is rigidly fair in its reporting of political news and if the newspapers have partisan opinions they appear only on the editorial page and are labelled as opinion."

S.O.S. — Each spring prisoners at Nebraska State Penitentiary lay out a huge flower bed in the shape of the letters "NSP." The eighteenfoot letters serve as a guide for airplanes. One convict was pulled off the job this spring when guards noticed he was forming the word city will be conducted until the "HELP."
