SWP Election News Campaigning Socialism

By Joseph Hansen

George Lavan, secretary of the Socialist Workers Presidential Campaign Committee, returned a few days ago from Utah where intensive efforts are being made to assure a place on the ballot for socialist candidates.

Supporters of the Dobbs-Weiss ticket were informed by officials at the capitol that they must comply with a section of the electoral law apparently never used before by any minority party. Among other things, this section requires (1) 500 signatures to a petition asking recognition of the party; (2) a nominating convention to be held on or before July 2; (3) a second petition to be signed by 500 people asking that the presidential candidates and presidential electors be listed on the ballot.

The Dobbs-Weiss supporters in Utah formed the Socialist Workers and Farmers party, circulated petitions, got well above the required number of signers, and gathered in con-vention July 1 in the Public

Utilities auditorium in Provo. E. A. Mitchell of Provo, dean of Utah socialists, was elected chairman and A. C. Gregersen of Fillmore, who also has a life-long record of socialist activity and writing, was elected secretary. Both are also serving as presidential electors.

Besides taking up all matters required to comply with the election law, the convention spent approximately half its time discussing the aims and perspectives of the socialist campaign this year.

Comrade Lavan reports that his visit in Utah was an educational and fruitful experience and that he met many new prospective socialists in the brief time he was there.

Montana supporters of the Dobbs-Weiss ticket held a nominating convention July 13 at the City Auditorium in Plentywood

The gathering was chaired by John Boulds, one of the state's leading socialists. Ray Miller of Poplar served as recording secretary. Delegations from Sheridan, McCone and Roosevelt counties attended.

The Plentywood Herald sent battalion of paratroopers into The Great Falls Tribune gave to detach the Congo's richest the convention good coverage. province, Katanga, from the

tion for action on civil rights.

Dixiecrats, Big City Bosses Win at Los Angeles Convention

By Farrell Dobbs Presidential Candidate of the Socialist Workers Party

By designating Lyndon Johnson as running mate in his first act after nomination, Senator Kennedy has tipped off the country on the kind of administration to expect if he is elected. Johnson was chosen with cold calculation as a pledge to the Southern wing of the party that the civil rights provisions in the platform which so disturbed them would be trimmed to their liking. The convention's almost unanimous acceptance of the ticket shows that the most unbending segregationists among the delegates were satisfied with this guarantee.

Kennedy's team-up with Johnson shocked and alarmed many liberal and labor leaders who had been busily sowing the illusion that the party would adopt a suitable platform and name candidates who could be relied upon to see it through.

"We have been double-crossed!" exclaimed Joseph Rauh, leader of the Americans for Democratic Action and seconder of Kennedy's nomination. They had looked to Kennedy, who didn't dare stand up against the witchhunting Senator McCarthy, to lead a fight to the finish against the defenders of Jim Crow in the Democratic party.

But the rich man's son from Massachusetts is not guided by any such principles or aims; he is eager to gain the presidency. He practiced the same slick manipulations that every capitalist politician uses in running for office. Having already taken the labor leaders and the liberals into tow, he set about to solidify his ties with the most reactionary and conservative forces in his own party leadership.

Johnson has loyally served the Southern Bourbons and oil and natural-gas millionaires in the House and Senate. Elevated to preside over the Senate, he can be an even better watchdog to insure that administration policies and The march proceeded from Congressional legislation is processed to their advantage.

The Kennedy-Johnson ticket shatters the pretensions of union leaders like Walter Reuther that it is "practical politics" to seek a realignment of forces in national politics where all conservative elements would be grouped around the Republicans while the liberal-labor contingents would be ranged under the banner of a reformed Democratic party. This required, first of all, eliminating the strangle-Negro students from local and hold of the Southern bloc upon the direction of party

viously demonstrated against dated machine in which the Southern wing through Johnson and Rayburn has again been given veto power over the legislative program and policies of the party. The Texas oil and cattle barons remain in the saddle. They were given the vice-presidency and power; labor and the Negro people were given phrases and promises.

Despite the liberal rhetoric of the platform, the Democratic party did not become transformed into a party of social progress at Los Angeles. What happened is quite different. The "new generation" of aspiring politicos under Kennedy has reconstituted, reunited and resurfaced the old Democratic organization so much in need of repair and rejuvenation. They resealed the alliance between the big The way the older leaders city bosses and the Southern conservatives upon which the from Rev. King to Roy Wilkins national Democratic machine has traditionally rested.

Numerous radicals have been awaiting the outcome of the Democratic convention before deciding how to vote in dential hopefuls were repre- 1960. They have hoped against experience that a new sented at the rally of 6,000 held leadership might arise there which would throw off its commitments to the cold war and the witch-hunt, break with the segregationists, and give up its subservience to the rich and the reactionary. These illusions can no longer be maintained.

The only effective way of registering protest against dience any of the specific what the Democrats did at Los Angeles — and against what the two capitalist parties have done in the past four years —is to support the campaign of the Socialist Workers party. (Editorials on the convention, see page 3.)

Of Other Revolutions

By Joseph Hansen

Eleventh in a series of articles.

In observance of France's national holiday commemorating the fall of the Bastille, July 14, 1789, Revolucion, the | tional relations which crisscross newspaper of Cuba's July 26 Movement, paid high tribute to the great social upheaval that sounded the death knell of European feudalism. A columnist, "El Jacobino," recalled the role of the Jacobins in leading the French Rev- the USSR. olution and praised the thorough way in which Desmoulins, Danton and "above all Robespierre, Saint-Just, Hebert and Marat" carried out the historic mission of their epoch.

El Jacobino describes the major stages of the revolution - the popular one in which the feudal rubbish was swept away; and then the stage of reaction:

"With the fall of Robespierre on the ninth of Thermidor (July 27, 1794), the glorious, Jacobin, popular stage of the great French Revolution closes. Power passed into the hands of the industrial and commercial bourgeoisie, who hastened to elevate to the level of eternal categories the new relations of economic production, forgetting that the feudal regime which had just been overthrown was also convinced of the eternalness of its supremacy and of its despotism over the people.

The Cuban Revolution, in El Jacobino's opinion, is not only analogous to the French Revolution; it is in its tradition:

"If the French Revolution did not resolve all the problems, other revolutions followed in the heritage, such as the victorious revolution of the Negro slaves of Haiti, the Revolution of 1848 in Europe, the Paris Commune. But it fell to the great revolutions of the twentieth century, those in which the proletariat, the peasants, and other national layers played a decisive role, to bring into the life of the peoples the revolutionary principles of the Jacobins of 1792. This is the case with the Cuban Revolution, brilliant inheritor of the first French movement of emancipation.'

El Jacobino follows this observation with some thought-provoking remarks on the contrast between the problems of 1789 and those which the Cuban Revolution faces today:

"The mission of the Cuban Revolution is more profound than that of Jacobinism at the end of the eighteenth century. The conditions in which it is developing, in an epoch of general crisis for Yankee imperialism, lessens the possibility of a ninth of Thermidor, the possibility of a victory of the counter-revolution. The Cuban Revolution goes beyond the simple formal equality of citizens before the law, since with the support of the great majority of the people, it is carrying out in depth political and social transformations which will give an intense impulse to new relations of production serving the interests of the nation as a whole. The Cuban Revolution takes on the political and moral characteristics which were the glory of the French Revolution during the Jacobin period: revolutionary audacity, unbreakable firmness in defense of principles, creative energy, incorruptibility, shining faith in the creative forces of the popular masses. The Jacobins of Cuba, the Robespierres, the Marats, the Babeufs of our epoch, sharing with the people strong national roots, face vigorously the emigres of the new Coblenzes [places where counterrevolutionaries mobilize abroad], the threats and aggressions of American imperialism."

Three Interrelated Problems

Three great, closely interrelated problems of the example. Cuban Revolution are indicated in El Jacobino's article: (1) How to defend democracy and extend it. (2) How to as other revolutions, were well aware from the very beavoid a "Thermidorian" overturn. (3) How to assure ginning that "Thermidorian" reaction threatened their the U.S. has cut from this year's to Cuba. definitive victory to a revolution in a country as small as revolution. The Great Heritage Khrushchev's Offer to Help Cuba

By William F. Warde

The exchange of warnings over Cuba between President Eisenhower and Premier Khrushchev raises issues of the utmost gravity for every American and every socialist. It is necessary to disentangle

two different sets of internain this complicated situation: one between Cuba and the United States; the other between the United States and

Who Is Right?

The first point to be determined is, who is right and who is wrong in the conflict between Washington and Havana? In our opinion, the Cuban people and their government are defending their national indeendence, their right to exist as a free people, the progressive

neasures, program and aims of their political and social revolution against the American imperialists. For sixty years the government, business and banking interests of the U.S. treated Cuba like a private preserve, keeping it illiterate, impoverished, undeveloped through

dictators like Batista. The Cubans have resolved to end all that. However, the Eisenhower administration, prodded by the oil and sugar barons who are unwilling to give up their profitable exploitation and domnation in Cuba, has declared economic war on the country, refusing to refine its oil and buy its sugar.

In this contest justice wholly on the side of Cuba, not the political executives of big business in Washington for whom the profits, markets and properties of the monopolies are far more important than observing the rights and sovreignty of a newly emancipated

Radical Parties The And the 1960 Election

people

This year there is imperative need for socialists to conduct a campaign for their own ideas and in their own name against the bipartisan policies of the political organizations of big business.

The last few months have been rough on the illusion that the Democratic and Republican parties can somehow be used as instruments of struggle for civil rights, for civil liberties, for the advancement of labor and against nuclear war.

Murry Weiss examines the positions of the Socialist Party-Social Democratic Federation and the Communist party to explain why they have abandoned independent political action and why they imitate the union officials who strive to keep labor shackled to the two-party runaround. He sets forth the significance of the Dobbs-Weiss ticket for the new generation of radical youth. Send 35 cents for a copy.

International Socialist Review **116 University Place** New York 3, N.Y.

Monday, July 25 & August 1, 1960

Republicans and Civil Rights

Many Negroes, disquieted and disgusted by Kennedy's embrace of the Southern old guard at Los Angeles and his vagueness on civil rights action, are turning their gaze toward the Republican convention in Chicago this week. Perhaps, they hope, the Republicans may do more for our people than the party of the Dixiecrats.

Prominent among these is Jackie Robinson. In the July 18 New York Post he expressed bitter disillusionment over the Kennedy-Johnson lineup. He condemned Kennedy for wiring Arkansas Governor Faubus to be his guest on the platform during his acceptance speech. "For sake of a 'winning team,' Kennedy is willing to embrace not only a Johnson but a Faubus as well," he remarked.

"Power, not principle, is his motivating drive, and obviously he doesn't care whose rights he must trample on in order to get it. If the politics of the moment call for a declaration in behalf of equal opportunity for all, Kennedy does it. And if at the very next moment the 'smart' thing to do is to reassure the white South that he doesn't really mean it, by teaming up with those who have openly indicated their intention of keeping the Negro 'in his place,' Kennedy doesn't hesitate one second. He ⁰does it.'

Even their own Negro supporters among the delegates showed they don't trust Kennedy and Johnson, declares Robinson, so "you can figure out for your-

self how difficult it will be to convince the rank and file that the Democratic ticket is out to protect their interests."

Robinson announced that he was meeting with other Negro leaders to consider what to do in the 1960 elections and stated that what the Republicans come up with in Chicago this week will greatly influence their decision.

For the past eight years that the Republicans have ruled in Washington they have shown as little concern for the civil rights struggles of the Southern Negroes as they have for the independence movements and rights of the colored peoples in the rest of the world. The administration has been all "deliberation" and no "speed" in implementing the Supreme Court ruling on school desegregation. No matter what Nixon says, they can't be depended upon to do much better in the next eight vears.

Instead of getting burned all over again by the Republicans or Democrats, Jackie Robinson and other spokesmen for the Negro people would do better to urge the union leaders to join them in preparations for a new independent party based on the unions and including the minorities and small farmers.

Meanwhile, in 1960, they and all opponents of Jim Crow can effectively cast a vote against Democratic double-dealing and Republican do-nothingism by supporting the Socialist Workers party ticket of Dobbs and Weiss.

'New Frontier' in Arms Spending

Senator Kennedy says that he foresees the possibility of a new recession soon. There are already four-and-a-half million jobless.

However, he is against cutting the average work-week on the ground that this would reduce productivity and slow down the annual rate of growth of the national economy.

How, then, does the Democratic candidate figure on dealing with the threat of another slump and more unemployment?

A few days before his nomination Kennedy proposed to hike military spending by as much as \$3 billion. He said the increase should be voted when Congress reconvenes next month. The administration contends that the \$40 billion appropriated to date for military purposes this year is enough.

The unemployed steel workers of Youngstown, Pittsburgh, Buffalo and Gary

will doubtless be glad to hear that the only way they can return to the mills is by making steel for tanks and war planes. parties have sent in massive re-Their families will likewise be reassured because the Democratic candidate aims to increase their "security" by providing deadlier missiles instead of building more schools and low-cost housing.

Much has been said about the bold new measures that the new generation coming to the fore in the capitalist parties can be expected to take. Yet, when it comes to the test, Kennedy has no better government to enforce a court plans for handling the problems of unemployment generated by the anarchy of private enterprise than the present Republican office-holders.

Indeed, he wants to waste more of the people's money on armaments for the cold to this crucial conflict. war — and tax us more heavily — than Eisenhower. This is the "New Frontier" he envisages.

THE MILITANT

Bomarc I M-99 A-missiles rolling off the assembly line at the Boeing Pilotless Aircraft Division Plant in Seattle. The Bomarc program cost over \$71/2 billion. It has been scored in Congress as a "billion dollar boondoggle" put over by high pressure salesmanship.

Senator Kennedy says that the U.S. should spend up to \$3 billion more on such instruments of destruction which are obsolete before manufacture. His deadly antidote for recession will please the merchants and manufacturers

people. The Socialist Workers Party program urges an immediate end to the insane preparations for nuclear suicide. It advocates transforming "the armaments budget into a peace budget for homes, schools, hospitals, medical research, nurseries, playgrounds, highways,

transportation and public parks." In that way our industrial plant can provide plenty of work by turning from war production toward an economy of abundance.

Grateful for Crumbs

The union leaders are reported to be highly pleased with both the Democratic platform and the party's presidential candidate. Said President Meany of the AFL-CIO: "This is a sound, liberal platformthe most progressive and most constructive in my memory."

The platform calls for "the repeal of the anti-labor excesses which have been written into our labor laws." Specifically, this includes an end to the state "right-towork" laws and a criticism of the way the Taft-Hartley Law has been administered and of certain clauses in the Kennedy-Landrum-Griffin Bill.

Meany's memory conveniently forgets that this 1960 platform represents a retreat from the Democratic platform of 1948 which demanded repeal of the Taft-Hartley Act. The labor leaders have not only dropped this demand but did not even urge the elimination of the latest addition to anti-labor legislation tied up with the name of the Democratic presidential nominee.

They likewise disregard the significance of the fact that thirteen of the states with "right-to-work" laws are Democrat-dominated and that both the Taft-Hartley and Kennedy-Landrum-Griffin laws were put over with the votes of Democratic congressmen.

Never have the heads of a movement representing such immense actual and potential power been satisfied with so little. Just before the convention Arthur Krock, the pundit of the New York Times, pointed out that "organized labor . . . is

That Liberal Platform

Both the Emergency Civil Liberties Committee and the American Civil Liberties Union called upon the Democratic Platform Committee in Los Angeles to include planks for the abolition of House Committee on Un-American Activities.

In addition, the ECLC urged the platform committee to adopt "a plank calling

rated as the third political force in the country."

Yet the leaders of this "third political force" behave like beggars, thankful for any handouts they get from the capitalist parties. Between national elections the Democratic party bosses neglect, ignore and abuse labor and its just demands in their anxiety to care for big business. The union leaders grumble and complain about this mistreatment and once in a while, as when Reuther declared the Democrats could not have him and Eastland too, they

On June 28, Hugo De Gregory was put behind bars for refusing to answer questions in New Hampshire's investigation of alleged "subversives." His imprisonment climaxes six years of persecution by New Hampshire's Attorney General Wyman who holds the position of one-man investigating committee. De-Gregory has been sentenced for an indeterminate period of at least one year.

De Gregory, a 46-year-old factory worker, was taken to Boscawen Jail where Dr. Willard Uphaus has been imprisoned since last December for invoking the First Amendment. The Attorney General has already stated that he hopes to start contempt proceedings against them all over again at the end of their terms.

Wyman has relentlessly hounded De Gregory. When the U.S. Supreme Court rulings in the Uphaus and De Gregory cases last year bolstered his inquisition, he crowed that "This decision [refusal of the high court to review De Gregory's case] breaks the back of the Fifth Amendment as far as we are concerned.'

Hampshire's contempt for In 1959, Wyman railroaded civil liberty that has put these a special immunity law men in jail. off new strikebreaking moves by United Aircraft Corporation at six of seven plants in Connecticut in the seventh week of their strike. The dispute at the company's North Haven plant of the Pratt-Whitney Division was settled last week, and members of UAW Local 1234 have returned to work.

Negotiations at two Sikorsky plants have been broken off by the company, pending a ruling of the National Labor Relations Board on a petition to decertify the UAW as bargaining agent. This is the latest company trick to hamstring the unions. In a mass meeting today, the strikers showed their confidence in the union by voting to demand that the NLRB call an immediate election.

ditional \$75 to make up the United Aircraft has also bedeficit. Boston, Denver, Degun hiring scabs and has antroit and Los Angeles follownounced that as new hire-ins ed suit to make the total fill vacancies, strikers will be \$286.50. Individual supportlaid off. ' ers made up the balance.

When laid off, a striker becomes eligible for unemployment compensation, but no striker can find out if he has been laid off without crossing the picket lines to inquire of company representatives in the plants. None of the strikers has been willing to do this.
