### Exile of Mackie Is Victory for **McCarthyism**

Nov. 18 — As relatives wept, Immigration Service officials in Portland, Ore., today put Wil- ing that the court "temporarily liam A. Mackie on an airliner bound for Finland.

Now 51, Mackie was born while his parents, both immigrants to this country, were on a trip back to Finland. Brought court abdicate all jurisdiction to the U.S. when he was eight since "the state has interposed months old, he has lived here its sovereign power" between ever since. He was deported the people of Louisiana and the under the McCarran Act under United States of America. accusation of having joined the Communist party during the had escaped at least physical 1930's, a charge that he denies. harm from the hate-choked

Among the many people at mobs, this year's Thanksgiving the airport to bid him farewell had more than a touch of irony and to protest the deportation for the parents. was Hamish Scott MacKay, 55, who is awaiting deportation to filling-station job. When he re-Canada on the same grounds fused to take his child out of and who also denies the charge the "white" school, he was told against him. Both actions were initiated in 1952.

The Supreme Court, which upheld the deportation orders "I wouldn't have a nigger worklast April, turned down a plea ing for me with a child in a to intervene last week. Senator white school. Would you?" Wayne Morse was slated to introduce a special bill in the next session of Congress to block the deportations which have been

widely protested. Mackie was told last night he would be deported today. He packed his clothes in a borrowed suitcase and turned the keys to his house and car over to a friend. He said he had \$85 in his pocket and had no idea what he would do

when he got to Finland. (Continued on Page 3)

### Seaman Fights Return to Spain

NEW YORK - When two sailors on the Soviet liner that brought Khrushchev here jumped ship, authorities welcomed them with open arms. But the same authorities are doing their best to return a young man to fascist Spain where he faces imprisonment and worse.

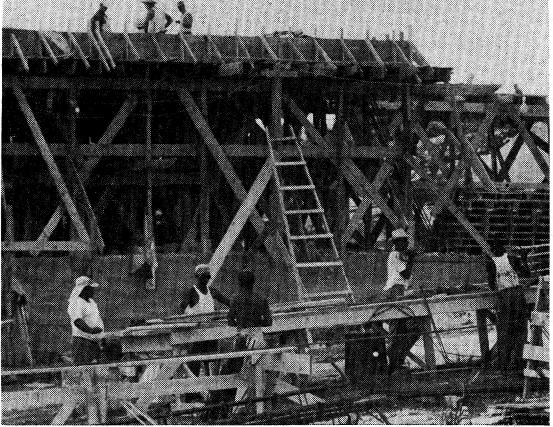

On Nov. 17, three U.S. Court of Appeals judges heard arguments on the case of Juan Perez Varela, 22, who jumped one of say 'little white girl,' she just dictator Franco's naval training said 'little girl.'" ships while in port here. He had spoken out against the fascist

tyranny several times. Perez was arrested July 8 without a warrant after two Immigration officials forced their way into his apartment and Minority Vote Count ransacked it without a search warrant. He was held for ten weeks without a hearing while difference in the popular vote ally higher. a federal judge considered and between Nixon and Kennedy, then rejected an application for state election boards have disa writ of habeas corpus.

### Launching Pad

One of the lies widely circulated by the "hate Cuba" propagandists is that launching pads are being built on the island for Soviet rocket missiles aimed at the United States. Here is a photograph of a typical construction job to be found almost anywhere in Cuba. These workers are building additional facilities at one of the former private beaches now converted into public property. Cubans regard this as part of the launching pad they are now constructing to launch their country into a better future.

### **Worthy Tells** Harlem Meet **About Cuba**

"If the white segregationists now rioting in Louisiana were to try the same thing in Cuba they would find themselves very quickly in the revolutionary jug or under observation in mental nospitals where they belong," declared William Worthy at a Harlem meeting Nov. 17 sponsored by the New York Chapter of the Fair Play for Cuba Committee.

Worthy, a correspondent for the Afro-American, who gained international attention when he defied the State Department ban on travel to China, recently returned from a 10-week stay in

He said that "overt racial discrimination has been eliminated in Cuba by the revolutionary government partly because they really enforce the antidiscrimination law and partly because of the economic and social reforms which have been carried out."

As an example he cited the fact that employes — including dishwashers and so on - of formerly exclusive country clubs are now automatically members of the clubs they work in. They and their families use all the facilities of the clubs. "This is the kind of thing the ewspapers here would have us pelieve the Cuban people are just yearning to be liberated from, preferably by the U.S.

Marines," he said. Worthy declared that "If Fidel Castro had betrayed his promises to the poor and humble of Cuba he would today be hailed here as a friend of the U.S. and as a 'moderate' and a 'prudent statesman.'"

### In Position to Know

"This powerful voice of the Protestant Church of Scotland was thus added to the anti-Polaris campaign of Scottish trade unionists, of the Scottish youth campaign, of the Glasgow Council for Nuclear Disarmament and of many other sections of Scottish opinion from Socialist unilateralists to intellectuals and natural scientists."

A New York Times correspondent added that while the nuclear submarine may be physically snug and secure at Holy Loch, "politically it could hardly be more exposed to distrust and opposition."

The people of Scotland have good reasons for their "distrust and opposition." Does all of humanity - including the American people - have any

# Autolite Electric New Group Wins Attention in UAW Finds New Way To Skin Union

The runaway shop — where a company moves operations from a unionized plant to an area of lower wages, usually in the antiunion atmosphere of the Dixiecrat-controlled South - is one of the out of their headquarters major problems facing the la-

bor movement today. The real solution is a serious organizing drive in the South, no matter how many Southern Democrats' toes have to be stepped on to do the job. But the top International leaders of the United Auto Workers Union recently developed a new "solu-

tion" to this problem. The Electric Autolite Company threatened to move some of its operations from its headquarters in Toledo, Ohio, to Alabama unless Toledo UAW Local 12 agreed to a proposal for revising work rules which affect wage rates.

"High UAW officials," reports the Nov. 12 Business Week magazine, "including Emil Mazev. secretary - treasurer and Richard Gosser, vice-president in Toledo, urged the local to consider the proposals."

Local 12 members have had experience with such proposals before. They also have a fighting tradition. They conducted the first successful major strike in the auto industry back in 1934, starting the wave of militancy among industrial workers which gave birth to the CIO. Here is what Local 12's delegate Nyers had to say at the 1957 UAW convention about similar proposals:

"We have people down there that we call slide-rule slickers that really did a job on the people down there. We have been taken by some of the people in the top offices of the International. We have taken a cut of as much as \$25 to \$35 a week we, the strongest unit at one time in the whole United States. We even had to bring the International in and go down to their level instead of them bringing themselves up to ours; we had to come down. We were the most top-rated paying outfit in the whole United States.

"I say this and I am sorry to say it, that at one time the pattern was set by the amount of money that we earned. We had what we called a Utopia at Autolite in Toledo, but not today. We have taken an awful kick in the face down there and I say I am sorry to state this, but there is no way around it. and I say the top — I reiterate. the top International officers give us very little help

So this time Local 12 ignored the urgings of the top International UAW officials and turned down the company plan. The company then approached a different UAW Local, 526 in Bay City, Michigan, where unemployment is severe, with a similar proposal. It offered to transfer the Toledo work to Bay City if its terms were accepted.

There is no report that the UAW tops stirred themselves

being over is that now union members may get a chance to discuss plant and union problems again.

There are plenty of them in the United Auto Workers. First of all, layoffs and short weeks, especially in the Chrysler plants.

Five thousand Chrysler workers were laid off at the start of October, before the 1961 models had even gone on sale. Since then most Chrysler plants have been on a four-day week most of the time.

As a Thanksgiving gift, another 1,900 were told they'd be laid off next week. That means almost 10% of Chrysler's prothrown out since the mode of up to 1,200 jobs in Toledo." off all of Thanksgiving week.

## **Dictator Ydigoras**

(Continued from Page 1) o the unrest in those two countries is revolutionary ideas. These cannot be stopped by a curtain of battleships:

Moreover, all of Latin Amerca is involved. Consequently, f ordering battleships to cruise along the three-mile limits of Vicaragua and Guatemala is an effective move, Eisenhower-if order the entire navy to start cruising along the three-mile imit all around the continent of South America; and, of course, along both coasts of Mexico.

But that's not the real logic of this brazen move. Suppose the Pentagon now says, "In view of the criticisms of our stupidity, we have ordered the fleet to cruise only around Cuba - not to stop ideas from getting out, but to stop all goods, including military supplies, from getting in."

Does that sound too fantastic? Too diabolical? Here is how ends his Nov. 20 column: "But | "preventive arrest." he presence of United States naval forces in the Caribbean columnist William V. know: "How much longer will etc." it last and how deep will it go?" The Obvious Demand

UAW contracts with the Big Three expire in less than a year. A special UAW convention will be held in the spring to discuss contract demands. It will be atelected to last year's regular

The obvious No. 1 contract demand is the 30-hour week at 40 and Meany in uncritical support hours' pay. The 1957 UAW convention voted unanimously to make the shorter week the first demand in the 1958 contract nepopular demand in the UAW

But not in Solidarity House. Walter Reuther got it sidetracked in 1958 in favor of his empty 'profitsharing'' scheme.

All the signs so far point to his trying to do the same thing next spring. It will take a real fight to win the shorter week, and "labor statesman" Reuther just isn't thinking in terms of mobilizing the union for a fight.

It's too early to tell how the delegates will vote at the convention next spring. But it's safe o say that they won't be able to beat down the Reuther machine on the shorter week issue unless there is a mighty uproar and powerful pressure from the members and locals. And unless the delegates who favor 30-for-40 ORGANIZE themselves, instead of acting individually and without coordination.

Reuther was able to get the shorter week junked at the 1958 convention because there was only one organized force there - his own.

He may not find it so easy in

Because now there is an opposition group in the UAW, the first in several years. It is the National Committee for Democratic Action in UAW, and it is sure of some support at the con-

Initial Activity

The NCFDA began to organ-. ize about a year ago, and to function publicly last February. ships, tries to organize affiliated promises the Dixiecrat editorial reactionary coalition that has committees in the various UAW locals, and has set up some regional bodies.

but its leaders say the response has been encouraging. Its main strength appears to be in Michigan, but it has affiliates functioning in other states and Can-

Along with recruiting members its chief function has been the circulation of literature publicizing the program of action it proposes for the UAW. By Labor Day it had mimeographed, printed and distributed

over 300,000 pieces of literature. On the economic side, the central feature of its program is the demand for 30-for-40.

In addition, it has been hammering away all year at the need for the UAW to reopen the contracts now to deal with speedup, layoff, overtime, decentralization and automation problems.

Want Democracy On the organizational side,

Specifically, it advocates hav-

membership for top international officers and regional directors, instead of their election by convention delegates.

This would make UAW elections more like those of the United Steelworkers, where it has been possible for critics of the leadership to run for office and rally a fairly big opposition

In the UAW such a change would probably mean an end to the days when Walter Reuther could run for president unopposed.

It would make it easier for an antiadministration vote to be recorded, and for rank-and-file dissatisfaction to be expressed —which would be a step in the right direction.

The NCFDA also favors changing the constitution to hold membership referendums on such issues as dues increases. On the political side, the NCFDA's first leaflet advocated "political and legislative action

cratic party or a break with that

Work- eral FEPC, repeal of the antiers aren't asking, "When will a labor laws, tax cuts for work- old ones recession begin?" They want to ers, peace with disarmament, given up.

The labor movement would never be able to support a Kennedy or a Nixon if it adopted this NCFDA criterion for evaluating candidates.

Its political policy is therefore a relatively independent tended by the same delegates one for a union group, and con- vocate of 30-for-40, for which siderably better than the one the Reutherites even redbaited taken by so-called "radicals" who went along with Reuther of the Kennedy-Johnson ticket.

Time will tell if the NCFDA will develop a prolabor-party policy — time and the membergotiations. It is still the most ship it attracts. For although the group seems somewhat topneavy and rigid in some of its through inexperience), it also live arrangement with Reuther allow discussion of its policies.

No "Big Names"

The NCFDA's main drawing card is its program, not "big names." Previous UAW caucuses were led from the start by nationally known figures. An example in the early 1950's was the Committee for a Democratic UAW-CIO, whose most prominent spokesman was Carl Stel-I self from the NCFDA, Stellato

Unlike most UAW caucuses, the NCFDA's organizers are people who have held secondary union posts, usually at the local level, or rank-and-filers.

This probably has made it harder to get the NCFDA going. ther leadership was whooping it But there are also advantages up for Kennedy and Johnson, in organizing a group that does the NCFDA distributed leaflets not get weighed down from the Stellato's attitude to the

NCFDA is revealing. It's also leaders are needed in the labor movement because most of the old ones have softened up and

Stellato's Stand

From 1950 on, the hopes of many UAW militants were centered on Stellato as a progressive alternative to Reuther.

In those years Stellato was known widely as the chief adhim. He also kept talking about a labor party as an "eventual" aim after most union leaders stopped talking about it alto-

But Stellato didn't have what it takes to organize a national progressive opposition. Fastening his eyes on a Democratic seat in Congress, he became organizational concepts (perhaps eager to reach a live-and-letseems to be democratic and to Such an arrangement has been in effect informally for the last two or three years.

When the NCFDA got organized last winter, Stellato went out of his way to explain at great length why he didn't want to have anything to do with it. (Ford Facts, March 5).

## THE TRUTH **ABOUT CUBA**

By Joseph Hansen

"The Cuban revolution is an event of major significance in North as well as South America . . . The rise in fear among the reactionary property-holding classes is registered in the preoccupation of the capitalist press and the State Department over the 'menace' that has appeared on the tiny island in the Caribbean. In contrast, the rise in hope among the workers and peasants throughout Latin America is visible in constant tradeunion resolutions and popular demonstrations in support of Cuba." Joseph Hansen, editor of the Militant, tells the story of that revolution in this informative new pamphlet previously serialized in the Militant. 25 cents per copy.

### **Does China Exist?**

Signed articles by contributors do not necessarily represent the Militant's policies. These are expressed in editorials.

Of the many delusions governing American foreign policy today, one of the most insane is that 650,000,000 people can be ruled out of existence by refusing to recognize their government. Ten years after the Chinese Revolution, the State Department still refuses to deal with onefourth of humanity because they toppled a hated dictatorship.

Great Britain saw no gain in such selfdeception and recognized the People's Republic of China at the time. But the State Department is still clinging to butcher Chiang Kai-shek and his mad rantings about invading the mainland.

In the United Nations, the American policy of barring the People's Republic of China from membership has become so unpopular that the State Department finds it increasingly difficult to whip up a

In the United States, too, the complete lack of sanity in refusing to admit reality is becoming more and more apparent even to some who go along with the hate-China propaganda in other respects.

Last week two prominent defenders of the capitalist system spoke against continuing the policy. On Nov. 13 Supreme Court Justice William O. Douglas called China "obstreperous, aggressive" and an

"outlaw" nation, but he demanded that the U.S. drop the policy of barring it from the UN.

Three days later the wealthy James P. Warburg declared, "The United Nations cannot enforce universal disarmament unless its authority extends over all the nations in the world. This means that the lists a number of right-wing is not an actual one. And it is a People's Republic of China must become a member. . . . My guess is that the United ganizations. ### Memo to Reuther from Ford

Walter Beuther's latest attempt to preach and practice the gospel of class peace and the compatibility of interests between capital and labor — that is, between exploiter and exploited — has been rudely rebuffed by the auto barons.

The president of the United Automobile Workers union, which faces major negotiations next year, called last month for a labor-management conference representing the entire auto industry. Reuther made his appeal after a speech by Pres. Eisenhower in Detroit Oct. 17. Reuther said he agreed with the following remark of Eisenhower.

"Labor and business leaders must sit down in a calm atmosphere and regularly discuss, far removed from the bargaining table, their philosophy, their needs and, above all, their common responsibility to this free nation."

When Eisenhower talks about the "common responsibility to this free nation" of labor and capital, it's not difficult to figure out what he means. He's talking about keeping production, especially production of armaments, going without stoppages or strikes by labor. That's a point of view Eisenhower holds in common with it's going to stay — see?

president-elect Kennedy and with the owners of industry in general and the automobile industry in particular.

But the auto moguls are having no part of Reuther's move to work out some cozy little deal whereby he can demonstrate his "statesmanship" to the auto workers by wangling one or two minor concessions for them without a struggle. Maybe Reuther doesn't believe America has real class divisions but the employers still do and they're the ones who run this society. Thus, the Ford Motor Company in rejecting Reuther's proposal said:

"We do not believe that a general objective of acting in concert with the U.A.W., or with our competitors and the U.A.W., as you propose, is either sound or consistent with the position and function that each of us has in the American scheme of things."

The "American scheme of things" that's capitalism, private ownership of the means of production and private profit. The "position and function that each of us has" — that's the workers who sell their labor power and the owners who buy it and profit from it. And that, says Ford and the other auto magnates, is the way

### The Dollar Crisis

The American people have been milked for more than a half a trillion dollars in 15 years to build up a world-wide military structure for war against "communism." Scores of billions of dollars have been poured into the "enemy" countries of 15 years ago — Germany, Japan and Italy to restore and build up their shattered capitalist economies and strengthen them as military allies against the new "enemy," the noncapitalist countries and the colonial world in revolt. But now, we have suddenly found ourselves confronted with an even newer, more insidious, invisible yet all-pervasive, "enemy" — the drain abroad of American gold reserves. And the chief source of the drainage is the very countries our billions have restored and are maintaining in relative affluence.

So great has been the outflow of American dollars abroad — in government loans, military spending, private capital investments, withdrawals of foreign savings from American banks, tourist outlays — that the so-called "balance of payments" deficit has resulted in a "gold rush" by foreign banks and speculators on the vaults at Fort Knox. Foreign interests now have claims on \$20 billion — more than this country's entire gold stock of \$18.2 billion on Nov. 9. If only \$10 billion should be claimed, it will cut the government's gold supply to less than the \$11.6 billion required by law as the minimum gold backing of the U.S. currency. In the third quarter of this year alone, the gold outflow had risen \$637 million. Since the end of 1957, the gold loss has totaled more than \$4.5

Truly, American capitalism has nurtured a serpent in its bosom. The government is suddenly forced to wage a "war of gold" with its own allies. A New York Times editorial of Nov. 17, fittingly titled "The Battle of the Dollar," reveals that Eisenhower has called a meeting of the National Security Council — the top warplanning agency — "to discuss the defense of the dollar as a key factor in our own economic defense and that of the free world." Eisenhower has also issued orders to drastically reduce U.S. military spend-

ing abroad and to bring home the families had to content itself with pubof half the American military personnel overseas. He has instructed all U.S. agencies abroad, including the military, to "Buy American." He has sent top administration officials, including Secretary of the Treasury Robert B. Anderson, to Germany to insist that the Bonn government assume a share of the military costs and the program of foreign aid. Other missions will undoubtedly follow to England, Japan and ist throughout the country and other beneficiaries of U.S. largesse over the past decade and a half. And if present measures don't suffice to restore the balance of payments and keep the gold supply to understand what makes them memory. He has forgotten what in Fort Knox intact, still other steps are being suggested, such as limiting tourist travel abroad by Americans, restricting U.S. tourist spending and reducing the gold backing of the dollar.

Suddenly, the American colossus that bestrides the world appears no mightier than its own "mighty dollar." Its currency foundation is sagging badly. The capitalist system is confronted with a "fiscal crisis," as the Wall Street Journal calls it. This organ of finance capital, in its Nov. 18 editorial on Eisenhower's order to curb U.S. spending abroad, observes bitterly:

"For what it says - painfully, reluctantly, and shamefully - is that a generation's reckless fiscal policies have at last presented their harsh bill. The United States is now reduced to the little stratagems of an improvident householder trying to stave off the bill collector. The him back. He later died of American dollar, once our pride and our strength, must now be propped up, even at the cost of begging from the very na-

tions we made rich." Well, we didn't make any nations rich; but our money did, for a time, save some ally Oct. 25: "It's long past time capitalist bankrupts and keep them in for Congress to change the laws power. But by so doing, American capital- that lead to such blind, senseism absorbed new world-wide problems less refutation of the basic and contradictions that are only now beginning to manifest themselves. The "dollar crisis" is indeed a "turning point," as cratic stupidity abroad." the Wall Street Journal has said. But it is As Mackie boarded the plane, not one simply of "fiscal policy." It is one he said: "This is going to be an after an on-the-spot study. more symptom of a fatal malignancy of American people will bring me the Fair Play for Cuba Com- flared into the open before the the profit system.

# Politics of "Goldwater Students"

By Myra Tanner Weiss

A survey of right-wing stu-conservative elite. dent movements was presented the Arizona Republican Senator Barry Goldwater.

Chamberlain bases his "mushcooming" thesis on the report that Goldwater's book, "Conscience of a Conservative," rapidly sold 500,000 copies, mostly to students.

look which describes the faculty tics.

According to Chamberlain, Harvard's Student Council president is a crusading conservathe University of Pennsylvania's tion, the Intercollegiate Society branch in Indianapolis, is trying to stimulate and coordinate ter called the Individualist with a circulation of 12,000, edited by David Franke of Del Mar College in Corpus Christi, Texas.

Chamberlain's survey of student political activities of course makes no mention of the growth of socialist movements on the campus. This would spoil his thesis that the new "radicalism" among the students is conservatism.

Nor does he mention the first big student movement of action since the 1930's - the sit-ins in the South and the supporting picket lines in the rest of the country. This kind of radicalism also has nothing to do with conservatism.

Instead of proving his thesis it would only prove the need for the Wall Street Journal to give the right-wing youth a boost with a tortuously constructed theory

#### **Election Experience**

In the spring and fall of this year, as a candidate in the election campaign, this writer visted students on 23 campuses throughout the country. A number of times I encountered Goldwater supporters and other gestures toward peace. He apright-wingers, especially at Brown University.

However, even on this campus, where right-wing hostility was strongest, the disruption of the socialist meeting was vigorously protested.

Following the noisy meeting, the Brown Daily Herald report ed it had received an "unusual ly large number" of letters and lishing only excerpts of some These ran nine to one, in addition to the paper's editorial stand, in defense of the civil liberties of the socialists.

Nevertheless, Chamberlain's story isn't entirely puffed out of his pipe. There is a growth of right-wing groups, to some to the period before the thirties extent looking to the leadership when unions were still small of Senator Goldwater. They ex- and weak, before social securcould play an increasingly dan- ated income tax.. gerous role. It is therefore nec essary to evaluate correctly

#### Opposite Directions

Both right and left developments among American students basically stem from different class reactions to the burden of the war economy. Opposition is inevitable to a government policy which has obviously failed to come up with solution to the international crisis. But that opposition comes from two directions.

The socialists, the conscious expression of working-class interests, would stop the arms race and solve the consequent economic crisis by eliminating capitalism and instituting planned economy.

Goldwater, representative of nonopoly capitalism, would stop the arms race by winning

As he put it, "A tolerable eace . . . must follow victory ver Communism.'

Even more bluntly, he said, "If possible, overt hostilities should always be avoided; especially is this so when a shooting war may cause the death of many millions of people, including our own. But we cannot, for that reason, make the avoidance of a shooting war our chief objective." In actuality this view is con-

ained in official U.S. policy. The State Department has proved ready many times to risk war, but it is somewhat restrained because it has not yet broken through the technologic al balance of terror. It vacillate wildly between trying to appear to desire peace - as before the downing of the U-2 plane - and waving nuclear, chemical and bacteriological weapons in threat of war.

Goldwater differs with th State Department by opposing peals to isolationists with his criticism of U.S. alliances abroad. He would reduce the costs of the war program by ending all economic aid abroad.

But Goldwater's primary bid to popular support is made in relation to domestic policy. He appeals to the middle class in his opposition to "big" government. He is an advocate of State's Rights, decentralization, individual freedom against top-heavy government bureaucracy. He's against "big" unionism as well as "big" government. He favors State "Right to Work" laws.

Goldwater's program is read ity, and even before the gradu-

the National Review's circle of through fascism, the complete ator Goldwater, at this stage of terested in politics out of alarm its development, is reactionary, over the Korean War. Similar procapitalist, prowar. That is emotions are evident among dangerous enough. But it is not Goldwater supporters. A patient fascist. It attracts some fascist attitude is necessary to educate elements among students. It may these youth. It will not be easy because their prejudice against and ignorance of Marxism is boundless. Public debate should e sought. Their pseudo-intelectual stance offers a good opening for attempts to clarify undamental social problems.

In many cases this will mean fight to defend the freedom of lebate. But in this fight we may be confident that we shall have the support of the overwhelming majority of the American

### Still Waiting for Verdict

A delegation from Tuskegee, Ala., is shown here as it testified before a Senate committee July 30, 1957, on how Negroes were deprived of the right to vote in their city. This Nov. 14, the Supreme Court ordered a new trial in the suit of Tuskegee Negroes to end the gerrymandering that put all but four or five of the college town's 500 Negro voters outside city limits. A few days later Justice Department agents visited the registration office in Tuskegee to see for themselves if there really was discrimination against Negroes. Election officials posted a sign in front: "No registration today! This office invaded by agents of the 'Injustice'

### Police Open Fire, Kill 3, Wound 36

SANTIAGO, Chile, Nov. 12 -A sharp intensification of the city authorities and go right ceived considerable publicity for class struggle occurred here during the past week with political ramifications affecting particu- Blest. larly the Communist party, the Socialist party and the Revolutionary Workers party (Trotsky-

Nov. 3 organized by various unions, including the powerful Central Unica de Trabajadores, to demand a wage adjustment.

Clotario Blest, president of the CUT ended his speech with the following words: "We have been cowards. But from now on we will organize the Sierra Maestra of

our country. . . . Let's cross the bridges of the Mapocho [a river running through the city] and go to the Alameda, whatever the cost." The workers set out, crossing Las Floristas bridge, and went

up the 21 of May street toward the Alameda. They carried placards and banners and kept chanting, "Revolucion . . . Revolucion . . . Revolucion.'

At the corner of Rosas dozen police sought to stop the thousands of workers. The dozen were dispersed with fists manded by the Communist and blows from the sticks used to carry the placards. Some of them were knocked to ground and trampled on.

The police pulled out their .38 caliber pistols and began shooting. However, those in the rear, unable to see what was going on, pushed the front ranks forward, and the crowd rolled on finally reaching the Alameda.

Fire hoses and police trucks were brought out and more shots fired.

When casualties were counted up, three workers had been killed and 36 wounded. Nine police were wounded. Clotario Blest was among

those wounded but he was able to speak at a meeting of CUT tense civil strife. A victory of leaders. A general nationwide strike was proposed to protest he police brutality. Meanwhile Santiago students,

who were also involved in the demonstration and who were roughly handled by the police, took action. The leaders of the Federation of Night School Stuhistory at Michigan University, dents decided on a national will discuss "American Relations school strike and then got together with the leaders of the Student Federation of Chile to close down every school in the country.

As part of the protest action, the workers decided to march gees from tyranny and bureau- author of the recent New Re- behind the bodies of those who had been killed. # How Much Should They Be Killed?

-Editor.]

By Roy Gale

A debate is raging in the Pentagon. The Nov. 18 Wall Street Journal presents the issue this way: "How much of Red Russia and Red China must the U.S. be able to demolish in order to keep the Communists from touching off war, large or small, anywhere on the globe?"

It boils down to a difference of opinion on the best way to make "good" people out of the present citizens of the Soviet-bloc countries. It is similar to the sentiment of the old frontiersmen that "the only good Indian is a dead one."

The Air Force contends that the best way to make "good" citizens behind the "iron curtain" is to have enough missiles and bombs to blast every military installation in these countries. In military jargon, this is "counterforce."

The Navy and most of the top Army brass take a different approach. They call it the "unacceptable damage" "finite deterrent" theory.

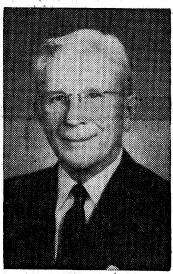

Just blast and destroy all centers of government, industry and population and there won't be anyone left to shoot back at you.

The Wall Street Journal reretorting: "If you kill a nation, it's dead. There's no reason to continue pumping bullets in-

So, if you read an account in your local paper on the urgent need for "counterforce," you'll know that some Air Force press agent probably has the editor's ear at the moment.

On the other hand, if it's "unacceptable damage" or "finite deterrent," you can assume it's the Navy speaking. In any event, it all boils down to "making good Reds out of bad ones.'

#### Stands Firm

Dr. Willard Uphaus celebrated his seventieth birthday Nov. 27 in New Hampshire's Merimack county jail. After refusing to turn over the guest list of the World Fellowship Center to State Attorney General Wyman, he was sentenced to be held in prison until he purged himself of "contempt" by yielding the names. Dr. Uphaus made clear he would never do so even if it meant spending the rest of his life in jail.

As a concession to public protest, his sentence was reduced to a maximum of one year and he is slated to be released Dec. 13, 48 hours be-

of the apartments are operated as furnished rooming houses, with three or more families per apartment. Throughout the city there are about 180,000 families, primarily Negro and Puerto Rican, who live in overcrowded or otherwise sub-standard dwelling units. And every year more thousands come to New York from the South or Pureto ports a Navy spokesman as Rico to swell the bulging ghettoes.

#### Ever Tighter

Racial discrimination restricts these families to overcrowded neighborhoods, and the steadily diminishing supply of lowrent housing forces more people into ever tighter quarters. The problem is compounded by the fact that some well-meaning people correctly ascribe social problems to the existence of overcrowded slums, and then proceed to further reduce the low-income housing supply by levelling slum buildings and replacing them with high-rent apartments or low-rent housing projects with accommodations for half the number of families that formerly lived on the site. The end result, in many cases, is not slum clearance but minority clearance.

The increasing popularity of this approach to the problems of slum living signals a greater construction of ghetto portions. Racial discrimination in em-

ing factor to the appalling income and employment statistics having no race prejudice. I have church has been the prime culin the Negro community.

parts of the country and abroad. The normal daily ration given to these children is black coffee and hominy grits. One child has already died.

Puerto-Rican migration to New York has provided a lucrative new source of exploitation for landlords who pack the newcomers into slum apartments like these at exorbitant rents while city officials look the other way. Discrimination in housing forces the Puerto Ricans into segregated areas where they are at the mercy of the rent gougers.

sistance from those who have pression that I favor the promotion of illegitimacy. I do sug-A year ago, North Carolina gest that the starving of babies sterilize unwed mothers who are ancient rites that more

partment's housing division has Louisiana apparently had no little choice in the matter. The other low income families must As a result, thousands of chil- accept whatever is left.

This has come to mean furnished rooms without private toilets, cellar apartments, or simply doubling or tripling up with other families. The answer does not lie in

providing the Department of Welfare with funds to make similar payments for standard apartments, for in a diminishing market this can only set off competitive bidding with the landlord as the primary beneficiary. The answer here, as I indicated previously, is to increase the low-rent housing supply.

Another protection against excessive rental costs would be to strengthen rent control and extend it to the many rooming houses now operating under the guise of "hotels." Maximum rents for rooming houses should also be re-examined. In conclusion, I would like

to urge the members of this committee to focus their attention on the basic causes and efforts of our social welfare problems. I hope these hearings will be

meaningful. And let me close with this simple question Will the 1961 legislature enact laws to eliminate the inequities that contribute to our enormous social welfare problem?
