POWERS MOVE TO BRINK OF WAR

Painters Oust C.P. Machine

Progressives Hit Weinstock Gang in Vital Spot by Trouncing Stalinist Candidate— **Elect Stevens Secretary-Treasurer**

Culminating a two years' organized struggle waged by progressives in their union, New York painters last Saturday dealt the Stalinist machine in control of District Council 9 a decisive blow by electing L. J. Stevens as Secretary-Treasurer over the candidate supported by Louis Weinstock.

Stevens received 3,101 votes against 2,822 votes cast for M. Gainer, his Stalinist-backed opponent. Not even the attempt of one of their former stooges, one D. Pasini, to split the opposition vote by running on a third ticket, could save the wrecking crew's control. The third candidate only polled

514 votes. The progressives also took four out of the nine business agents' posts. Whether all of the five business agents elected on the ATTACK ON C.P.'s so-called "rank and file ticket" will remain with them OTTO POPOVICH

Victory Foreseen

The election of Stevens was foreshadowed by the victory of the progressives in the primar ies, when they carried six out of the ten locals and when Stevens for the second time defeated Chief Commissar Weinstock for the nomination in his own local, No. 848, thus eliminating him from the race. The City Council from Queens progressive victory is all the more impressive when it is recalled that only last year, the Jamaica Unemployed and Pro-Stalinist machine seemed to be ject Workers Union, at the June

Public Mass Meeting Will Open Convention Session with Party Leaders as Reporters— Lenthy Agenda Covers All Fields of Work

Darkening war-clouds in Europe and the Far East which threaten to plunge the world into a catastrophe far more horrible than the plague of 1914-1918, give special symptomatic significance to the Anti-War Convention of the Socialist Workers Party which opens in New York City, Friday eve-

rning, June 30, 1939, at the Irving Plaza Hall, 15th Street and Irving Place.

Delegates from all parts of the country are arriving in the city, representing branches of the Party from coast to coast, prepared to deliberate on the problems presented by the convention agenda in the Gulf Seamen Hit at light of the past period of activity in a variety of class Curran Bureaucracy struggles.

First Session Public

The first session of the national convention will be open to the public, taking place as NEW YORK-In the past a mass meeting of welcome to few days the National Mari- the delegates. The keynote speech of the convention, setout into ugly flaming sores toward complete disintegration ting forth the Socialist Workers Party position on the war danelations of official rottenness ger, will be delivered by the reporter of the party Political Committee, Max Shachtman, at the Friday evening mass meeting in Irving Plaza.

Under the chairmanship of James P. Cannon, national secetary of the party, the meeting will feature a number of nationally prominent militants actively engaged in the movement of the trade unions and the unemployed. Vincent R. Dunne, popular leader of the many teamsters' battles in Minneapolis. George Clarke unanimous action of the entire | fresh from the auto workers' front in Detroit, Glen Trimble, Reuben Plaskett, Negro leader of Newark's unemployed who recently made a dramatic run as S.W.P. candidate in the local elections, and Nathan Gould, national secretary of the Young People's Socialist League (4th International), will be among the speakers that evening.

Lengthy Agenda

Saturday morning will open up the regular sessions of the convention, which has before it a lengthy agenda covering all phases of the party's work and its program of action for the coming period.

First on the order of the day will be a report and discussion of the political situation in the United States, to be followed by report on the preparation of the party for the struggle against war, both before and after it breaks out

Trade Union Work

Other points on the agenda include the trade union work, ing all prepared to disrupt and the work among the unempress-under which heading will be discussed plans for converting the Socialist Appeal into a three-times-a-week paperparty, to include a comprehen-Judge Rutherford brought direct action methods. Who Is Coughlin, What Is His Program, How Did He Rise?

INSTALLMENT VI

Who Is Behind Father Coughlin?

What Father Coughlin's secret files at the Shrine of the Little Plower would reveal as to his financial backers can only be imagined.

Hitler's movement, when it was in the same stage as Father Coughlin's, was secretly backed by powerful financial interests-the steel magnate Thyssen and other powerful German capitalists.

Occasionally Coughlin will mention certain capitalists favorably in his radio broadcasts—Henry Ford, Walter P. Chrysler, James Rand. Father Coughlin stayed at the San Simeon ranch of William Randolph Hearst while on a visit to California. Mr. G. A. Richards, president of WJR is a generous financial backer mentioned by Coughlin. He mentions too in one of his broadcasts (Father Charles E. Coughlin, an official biography, p. 107.) the visit of Harris and LeBlanc to his shrine for intimate conversations, Robert M. Harris of the New York Cotton Exchange—a southern bourbon well-known as a cotton and silver speculator, and George LeBlanc described by Coughlin as "perhaps the world's foremost gold trader" (an international

The forces in Coughlin's financial background are as sinister as the forces that directed the breaking of the Lit-

Coughlin's Program and the Fascist Program

Coughlin's program as it now stands bears a remarkable resemblance to the programs of fascism and Nazism when they were at a similar stage.

Coughlin appeals to the dissatisfied and restless unemployed workers and youth, and the farmers and small merchants who are facing bankruptcy.

Hitler directed his appeals to the same sections of the

Mussolini built his movement from similar ranks.

Coughlin, like his predecessors proposes a "just and living annual wage," "cost of production plus a fair profit to the farmer," etc. He attacks democratic capitalism just as Mussolini and Hitler did, and attacks it contemptuously.

He proposes "revolution" as they did, the use of force. He attacks the failure of the New Deal to solve unemployment. He attacks its war program.

Coughlin is attempting to divert these revolutionary layers of the oppressed masses, just as Mussolini and Hitler before him did, from striking at the very heart and core of out of the union funds paid in was forced to confess and rethe system that produces unemployment. He turns their by the sweat of the workers, pent his sins in a letter pubrage against the "international bankers," the "Jews," the "money system." He proposes economic reforms chiefly in the realms of banking and currency. In this way, like Mussolini and Hitler, he attempts to dissipate the revolutionary energy of the masses against bundles of painted straw.

To the capitalists he makes clear exactly where he stands by expressing his devotion to capitalism and the private ownership of property. For certain public necessities and natural resources he advocates nationalization; but he emphasizes that he doesn't want nationalization of industry.

Some of Hitler's most prominent demands make interesting reading beside Coughlin's. The Nazi platform for instance called for "abolition of the domination of interest," "the complete confiscation of all war profits," and "participation in the profits of large concerns."

These demands, of course, were NEVER carried out. "Practically all the sixteen principles of social justice are being put into practice in Italy and Germany." (Social Justice, February 13, 1939, p. 7:)

Let that statement of Coughlin's burn like fire on your

And we might remind the lieutenants of Father Coughlin, that the secondary leaders in Hitler's organization who insisted on carrying out the Nazi program were "purged" in a ghastly blood bath.

When fascism marches into power it smashes the trade unions, arrests the regularly-elected leaders and appoints fascist chiefs in their place who dictate the new rules and regulations. They confiscate the union treasury.

They confiscate the savings accounts and the insurance of the workers, if they have any.

They build barbed wire concentration camps and herd the unemployed inside at bayonet point. They spread the industrial spy system throughout every

city, town, and hamlet of the entire nation and intensify its grip a thousandfold. Libraries are burned. Schools are shut down. Hours

are lengthened. Wages are slashed. The speed-up is whipped up to new heights. Terror and torture are turned loose. The streets flow with blood. Strikes are punished with death. Racial minorities such as the Jews and the Negroes are nailed to the cross.

Fascism is hell for the workers and the unemployed. But it saves the profits of the small handful of capitalists who control the nation's wealth. And some obscure figure becomes the all-powerful dictator of the nation's fate.

To many good-hearted people it seems impossible that fascism could come to the United States. But it is impossible to wish away 17,000,000 unem-

It is impossible to wish away the dizzy downward See Miller, Labor Bookshop, plunge of the rate of capitalist profit since 1929.

And it is impossible to wish away the storm-troopers

In the World of Labor

Aftermath of Belgian Elections: An Attack against the Miners

Taking heart from the rightward trend in the recent elections, the Belgian bosses are launching a large-scale onslaught on the conditions obtained by the working class of that country during the great strikes of 1936. As a first step, the mine barons are proceeding against the coal diggers of the Borinage section, in an attempt to scale down present conditions in the new agreement.

The Borinage section is known as a hot-bed of militancy. As such it has been chosen purposely, to test the ground for the great struggle ahead. If they succeed here, the bosses calculate, half their battle is won.

When the new terms were offered the miners of the Levant and Produits du Flenu pits, they were rejected out of hand. The bosses replied by locking out the workers of these pits, some 5,000 miners. The reformist leaders of the miners' union have, up to the present, contented themselves with appeals for aid to King Leopold, calling on the workers to remain calm and accustom themselves to the unemployment relief to which they are entitled as a result of the lock-out. Since, as is self-evident, no family can very long subsist on the meagre dole, such a course cannot help leading to a break-down of the miners' resistance if persisted in.

Our comrades of the Revolutionary Socialist Party of Belgium, concentrating their forces in this region, are holding successful meetings in all the mining towns urging the workers of the Borinage to bring pressure for the calling of a general strike in support of the Levant and Flenu miners. The movement in this direction is growing. A twenty-four hour sympathy strike has already been proposed in several unions. The success of such action alone, our comrades argue can forestall the wholesale onslaught on Belgian labor being cooked up by the bosses.

Another Sample of French **Democracy** in the Colonies

Recently we reported in these columns the great election victory of the Popular Party of Algiers, the Algerian party which is closely allied with the French revolutionary socialists. Douar Mohamed, of that party was elected as a general councillor.

Now the Council of the Prefecture, the agency of the French colonial office, has seen fit to annul his election on the petition of his proimperialist opponent, Zerrouk. The latter was declared elected although he polled less than 3,000 votes out of a total of 15,000 cast. The grounds for the decision are so flimsy,

that French friends of the P.P.A. expect to carry the fight against it with considerable **Europe and**

A Voice in the Wilderness: Anti-War Speaker at Southport

Most of the speeches at the recent Southport conference of the British Labour Party were, of course, in favor of the "war against the aggressors" and in "defense of democracy," laying the ground for the acceptance of conscription. One of the most rabid war mongers sistent pressure of a starving was party leader Hugh Dalton. Apparently Dalton's spiel was too much for one old-time have their two million men militant who found his way to the conference ready for war and the Chamby chance. Here is how one of the British papers reported his reaction:

"Mr. J. Wood (Moseley), a self-styled old soldier who waved the Guards necktie to the del- threats across the air waves of

'My greatest enemy during the war was not the "Jerry" on the other side of No Man's Land, but my own Sergeant-Major. 'Let Sergeant-Major Dalton do his own dirty work when the war comes. I'm not go-

ing to do it-not Pygmalion likely!" The Labour Party's Daily Herald did not see fit to include this speech in its accounts fearful on all sides of the fightof the conference sessions.

Strike Waves Gaining

Momentum in India Comrade Stanley submits the following

Official strike statistics for 1938 just published by the Government of India indicate one they made awhile ago. the extent of the revival in the Indian revolutionary and nationalist movement.

Strikes in 1938 were the highest on record for the past 20 years. There were 399 of them ruthlessness. Only they rule the as compared with 379 for 1937. The number of world and they can move peoworking days on strike (not hours, as in Amerworking days on strike (not nours, as in American statistics — S.S.) was 9,000,000 and the workers were successful in 46% of the strikes workers were successful in 46% of the strikes.

Textile workers (the "untouchables" of In- condemn us to die-millions of dia) again proved themselves to be the van-guard of the Indian proletariat. They ac-gold intact in their banks and counted for 39% of the strikes, 70.8% of the workers involved and 71.1% of the working days spent on strike.

Two major working class activities are now under way in India. Both, in all likelihood, will lead to All-India general strikes involving the textile and railway workers. The former, concentrated in Bombay, Allahabad, Cawnpur, Ahmedabad, etc., are already preparing a general strike to combat a proposed 12% wage cut. The railway workers, solidly organized in the All-India Railwaymens' Federation, have presented demands with a 3-month ultimatum, half of which has already passed.

Join the Socialist Workers Party

On the Line . . . with Bill Morgan

Once upon a time, a long time ago, there was a young fellow on his way to visit his uncle who lived across the plains and over the mountains. This young fellow walked and walked until he came to a railroad station at the foot of the mountains and there he saw a great long train which was about to leave for the town where his uncle lived.

At once he decided to walk no more. He ticket agent and purchased a ticket and then he went out on the platform and waited for the train to get started. He waited and he waited but still the train did not move. He walked up and down and smoked several cigars until he became so impatient that he could not wait any longer. Then he walked up to the front of the train and began to cuss at the engineer.

"What the hell is the matter with this train? Why don't you get under way? How can you expect people to ride on your damn railroad if you stall around like this? What the hell is wrong with you? What are you waiting for?" 'Waiting for?'' asked the engineer, "Why

we were waiting for you to get on board the

No Time to Be Active

It is an old story and you have heard it before. But it always reminds me of the impatient people who cannot find time to become active in the revolutionary movement and who are always so very critical of the party unless the party happens to be engaged in a campaign which these people happen to think is a good idea at the time.

They are always trying to find some reason for not actually engaging in the necessary work of the party and at the same time they cannot understand—at least they claim they cannot understand—why the party doesn't do this and doesn't do that, etc., etc.

When pressed they swear great oaths of loyalty to the working class and to the revolutionary movement. But as to doing anything-well, you see they cannot agree with this phase of the work or they cannot understand just what is holding back the outbreak of social upheaval.

They are ready and willing, you understand, but until the party comes around to their point of view on this question or that there can be no cooperation. The working class and the party will just have to see things their way or it's no go. In the meantime, they go about their own little businesses and ease their little minds with small nothings.

Revolutionary? Indeed! They are to the left of the party, you understand. Some of them have even left the movement on the grounds that the movement was too far to the right on this question or that. Are they left indeed. . . . In fact they are so far to the left that they cannot find a place in the revolutionary party and have not the patience to wait until the party and the working class can catch up with them.

Of course, if after considerable time—say three or four months-they suddenly blossom out in support of the war or in agreement with some bureaucrat in the trade unions, well, after all, you can't say they didn't warn the workers to hurry up and catch up with their ideas and theories when the catching up was

I the working class and the party did not take their advice when the offered it, well.

how can they be blamed for trying to make a living and at the same time justifying their retreat from the field of action?

And, if, in the meantime, they hang around the fringes of the movement trying to pick up strongholds by the young upa disciple or two discourage one or two ism, well, you understand that they must have and Russia are engaged in a Queens opened an attack on youngsters with their line of ultra-ultra lefta following or a couple of disciples. After all, it is easier to impress a new comer or a voungster than it is to committee the first than it youngster than it is to convince the membership—especially where there are people who fight back and refuse to be taken in by some fly-by-night brain trust with an ego as big

Fear Judgment of Members

It is one thing to take some inexperienced young student or worker aside and whisper all sorts of fantastic stories and spin strange tales about the movement and it is something else to come out in the open and present their side the party. Answers which sometimes sound good over a cup of coffee but which could not hold water before the membership.

Inside the party, where every comrade has country's war machine and laughter from the well-paid and struggle against anarchist adventurism. the right and the duty to present his ideas watching to see how things go well-fed Councilmen assembled and to have his opinions considered by the in Europe. If war comes, his in City Hall. ognize fakery and personal ambition.

The party makes mistakes, it sometimes hesitates and it sometimes jumps ahead of the general development. That is only to be expected. The party is made up of human beings and is bound to make errors but the point to be remembered is that the party can succeed only by trying and by making every possible effect to achieve its aim. If the party made no mistakes it would make no gains. Only by constant activity and consistent effort will it succeed in showing the workers the way to victory.

In the party, taking their places side by side with the honest and serious revolutionists, belong those who would make good the final victory of socialism over capitalism. Outside the party they can only criticize and find little faults which in the long run mean nothing. The snipers and egotistic generals without armies and the super wise guys will one day have to answer to the workers for mously endorsed recommendatheir failure to lend a hand when a hand was

needed. If all those who are waiting for the train would only realize that the train may be waiting for them perhaps we would be on our way-but you may rest assured that when the train is ready to start it is not going to wait around for the Johnny-come-latelys or the birds who stood around refusing to embark unless they were given personal priv-

Toward the Party Convention

On the Relation Between Mass Agitation and Trade Union Work

By JAMES P. CANNON Practically all the serious articles contributed to the party pre-convention discussion by individual comrades, groups or party committees emphasize the same point: Mass work.

Different proposals are made. There are different evaluations of the past activity of the party. Some comrades offer more ambitious plans, and some betray more impatience than others. But all apparently pursue the same aim, the decisive turn of the party to mass work and the more efficient organization of this work. From this we can see that the party is united at least to this extent: It knows what it wants. So far, so good.

But that does not solve the whole problem. It only poses the problem. The aspiration to direct all attention to the broad masses and to gain a wider influence over them is not new or original with us. There is nothing in this aspiration, of itself, to distinguish us from other parties. Leaving aside the sects and mutual admiration societies, which habituate themselves to isolation as something normal and also desirable, all parties, whether bourgeois or proletarian, strive to win mass support and work out for themselves various techniques of mass appeal.

There Is No Short Cut

An agreement in general on the necessity of a more decisive turn to mass work, such as we appear to have, signifies only that we consider ourselves ready to enter into active and direct competition with all political tendencies for the support of the working masses. Our success in this competition in our time will be determined by how much we understand our own problem and apply that understanding in practice. Here, as our party discussion has disclosed, we run into difficulties and differences of opinion.

Some of these differences are simply matters of emphasis. Others represent conflicting conceptions, and that is far more serious. With others, impatience to reach the agreedupon objective is giving rise to ideas which are false in conception and which, if adopted by the party, would have fatal consequences. One of these false ideas born of impatience is the idea that we can find a short cut to a mass movement over the head of the trade unions. I mention this first because it is the most fundamental and the most dangerous. There are numerous other misconceptions, all related however. A considerable section of our movement, in its impatience to get to the masses, is experimenting with ultra-radical

surest means of assuring a permanent isolaion from the masses. These sentiments are most conspicuous among the youth whose leaders, apparently, consider it fashionable to play a little bit with adventurism and leftist phrasemongering. If one put his mind to it he couldn't think out a better way of wasting the energy and courage of our young militants and of guaranteeing the eventual reaction of disillusionment and

nostrums which, ironically enough, are the

discouragement. Mass work has many forms. It is necessary to combine them in such a way that each separate division serves the others. The modern proletariat is accustomed to act through its organizations. Most basic and fundamental of these are the trade unions. A party which aims arm's length, awaiting the ar- relief, money to pay the rent to lead the working class must acquire a strong base of support and a leading influence man ambassador, von Schulen- cents for ice. These men don't in the unions. That is what the founding convention of the party a year and a half ago had in mind when it issued the sweeping slogan,

ed to the trade unions.' Was this slogan incorrect? Or, has something happened in the past eighteen months to ler is massing millions and in these "viches" didn't go back change the nature of workers' organizations ideas and charges where answers are ready the Limes line, facing France, where they came from. Even the Ohio-Michigan District Committee of the party.

The Only Course

whose jurisdiction covers precisely the heart of the field of the great new unions of workers in the mass production industries, take a rather cross-eyed view of this question. They permit themselves to advocate a program of action which, they say, "can be conducted independently of the limitations and uncertainties of the trade union movement." (Socialist Appeal, June 27).

No doubt, the members of the Ohio-Michigan District Committee, who have seen and taken part in workers' demonstrations of power through their unions, knew better. Perhaps they just took a Sunday off for a manifesto spree. Or, possibly, they sought by this highsounding formula, and the ambiguous verbiage which follows it, to make a "concession" to still more radical comrades who are "tired of waiting for the trade unions." But this sortof concessions and compromises will not do. The party convention must determine the correct approach to mass work and firmly reject the false. Otherwise we will have a smash-up.

Deeper into the Unions!

We cannot yield anything from the "90 trade union" formula of our founding convention, not even one per cent. Mass agitation in general must be conceived, organized and developed, not as a substitute for the systematic penetration of the trade unions but as a supplement to it. Woe to the party that despairs of the trade unions and turns away from them! The harder such a party works and the more hysterically it shouts the sooner it will

wear itself out. Trade union work is not easy. Moreover it is restricted in scope, not complete of itselfherein the syndicalists commit one of their greatest errors—and must be supplemented all the time by the general political and agitational work of the party. But even this general work of the party, unrestricted in its scope by any trade union rules or customs, is directed primarily to the workers organized into unions. They alone are capable of sustained action, precisely because they alone are

True enough, we appeal to all workers. In some cases we appeal most directly and immediately to the unorganized who are the most exploited and deprived. But what is the first suggestion we offer to such workers, if they respond to our appeal? We advise them to join a trade union, or if unemployed, a union of the unemployed. We cannot go around the unions, and we have no desire to. Our slogan is, "Deeper into the Unions!" Every campaign of general mass agitation must aim to deepen and strengthen our influence in the

No Room for Two Opinions

Trade union work requires patience, endurance and skill. In very few unions, at present, is it possible to unfold the whole program of the Fourth International. In many unions, dominated by red-baiting bureaucrats, it is necessary for revolutionary militants to refrain from exposing themselves to expulsion by advertising their political affiliations. Revolutionary trade union work, as a rule, in America, is quiet, mole-like, unspectacular. To carry on such work unfalteringly: to work in the unions in piece-meal fashion for parts of the program while holding fast to the party, which in its general agitation expounds and defends the program as a whole; to be attentive to the smallest union issues of the day without succumbing to opportunism; to entrench one's self and be in a position to influence the whole union when the time for action comes—these are amog the sternest and most important revolutionary tests today.

Such tasks require courage, persistence and prudence. It is easy to shirk them, or to fail miserably in their performance. We know such cases, and the super-radicalism of the delinquents is poor consolation to the party which needs influence and support in the unions more than it needs anything else. It is easy to fight one's way out of a union by illconsidered tactics, and still easier to talk one's way out. But what the party needs is militants who know how to dig deep into the unions and stay there, gather a circle of sympathizers and supporters about them, and transmute their personal influence into party support in the trade union movement.

The party convention should emphasize this necessity once again. There is no room for two opinions on this question.

ers are guilty as hell on all N. Y. PAINTERS counts of conspiring with the union constitution and financial mismanagement. This guilt is sufficient to read both gangs out of the labor movement for all time. However it is equally significant that both gangs carefully avoid the worst crimes of both. FIGHT WITH THE SOCIALIST **WORKERS PARTY FOR:**

- 1. A job and a decent living for every worker.
- 2. Open the idle factories—operate them under workers' control.
- 3. A Twenty-Billion dellar Federal public works and housing program.
- 4. Thirty-thirty! \$30-weekly minimum wage-30-hour weekly maximum for all workers on
- 5. Thirty dollar weekly old-age and disability
- 6. Expropriate the Sixty Families.
- 7. All war funds to the unemployed.
- 8. A people's referendum on any and all wars.
- 9. No secret diplomacy.
- 10. An independent Labor Party.
- 11. Workers' Defense Guards against vigilante and Fascist attacks.

Painters' Victory

The victory of the progressives in District Council 9 of the Painters Union in New York City has more than local importance.

The District Council, one of the most important sections of the powerful building trades unions in the city, has been under the control of the Stalinists for several years. They came into office with a clear majority of the membership supporting them, hoping that they would establish a democratic regime in the union and really do something substantial to improve the conditions of the workers. They leave office, routed by just as clear a majority of the membership. And they more than earned their dismissal by the wreck they have almost made out of what should be a tower of strength in the building trades.

The Stalinists may capture a union here and there-playing demagogically on the progressive aspirations of the workers. They cannot keep control of it except by the most arrogant and bureaucratic measures. In District Council 9, not even these measures helped the Weinstock C.P. machine. It has been smashed, as it will be everywhere else in the country.

Now it is up to the aroused and vigilant membership to see to it that the union is converted into what it should be: a militant, progressive, democratic institution, which every worker will rightly feel is his.

This means: a thoroughgoing house-cleaning of all bureaucrats and reactionaries.

This means: reestablishing democracy, freedom of speech and freedom of criticism in the

This means: a carefully planned and executed program of action, backed up by organized union strength, to restore the living and working standards so badly shattered during the Weinstock administration.

The painters who just completed their elections did not merely vote to change one group of officials for another. They voted for a clean, democratic, progressive, militant union-not a docile tool of bureaucrats and the 13th Street fakers.

The new administration has a huge job cut out for it. It has a clear mandate from the membership. Let it take the right road at the right speed and it will find solid support for its ac-

Against Boss War!

A punch-drunk world waits for the Sarajevo of 1939. It was exactly 25 years ago that Princip's bullet found its mark in the Archduke Ferdinand of Austria. Five weeks later the great opposing camps of imperialist powers were at war. Five weeks from now they may well be at war again. Sarajevo was just a spark for the tinder. This time there have been Sarajevos at almost every turn of the seasons during the last

Striking as are the similarities between the crisis now and the crisis of a quarter-century ago, the differences are far more profound. The gangsters, who took the lives of innocent millions in the last war were filled with confidence. The capitalist racket was paying dividends. It was simply a question of enlarging the sphere of operations. Today their racket is rotted through and through. It isn't working any more. The gangsters sit on the fised dynamite of starving

millions. If the war of 1914-1918 opened up. the prospect of world revolution that found flaming realization in the Russian revolution, only to be crushed again by a recovering reaction bolstered by the labor fakers and social democratic liars of all countries, the coming war finds the world much closer to the explosion that will wipe the disease of capitalism off the face of the tortured earth.

This is what the boss politicians know in every country. This is what has made the crisis so much more extended, so much more agonizing for in England, France, Germany, Italy, Japan, and in the United States, the rulers all understand that the war may well be the end of all of

And it will be! The Russian revolution of 1917 was aborted when capitalism managed to survive in the rest of the world. But capitalism will not survive the crises to come! Misled, battered, betrayed, drugged, beaten into temporary submission, hurled out to die, the workers of the world will soon come to their feet, turn on their masters and put an end to senseless slaughter of their brothers. This is the specter that haunts the war makers! This is the firm hope and determination of revolutionists all over the world who will join with the Fourth International in fighting the war-makers and war-mongers, rejecting the traitorous leaders who would send the masses to death in the name of the bosses' super-profits!

It is to the organization of this struggle—to the conversion of this firm hope into hard reality-that the anti-war convention of the Socialist Workers Party dedicates itself. We stand against the war of the bosses! We call upon the workers of this country and of all countries to resist such a war and to turn it into a war for the liberation of all the oppressed of all peoples, of all races.

This is our banner and we write on it no "ifs" and "buts". Twenty-five years ago a tiny band—far smaller than we are today—held aloft this banner in the midst of the lies and frauds of the preachers and so-called socialists who supported the war. That banner led to the revolution in Russia. We hold it aloft today and under it we shall march to the victory of the workers' revolution here and throughout the world!

On Provoking Riots

Fascism aims to smash the entire labor movement-all of its sections, beginning with the most militant and ending with the most con-

Only the blind can fail to see that the fascists are already beginning their work in this coun-

The cowardly attack in-the-dark-of-night upon the Thomasite Debs School has already been brought to our readers' attention.

The American Labor Party has not been immune, as witness the Coughlinite attack on the A.L.P. meeting in the South Bronx at which

Councilman Quill spoke several days ago. Now the Daily Worker reports (June 17) that last week the Coughlinites in the First A.D., Bronx, organized a march to break into the local headquarters of the Communist Party after attempting to disrupt a C.P. open air meeting on

These are exactly the same methods employed by the Blackshirts in Italy and later by the Nazis

What conclusions does the Daily Worker draw? The most polite ones imaginable. "The Communists carefully avoided being provoked into a riot and rather left it to police to preserve

Now we too, like any sensible person, are against allowing ourselves to be "provoked into a riot." But that is not at all involved in the above cases. What is involved are the simple alternatives: Shall the workers organize to defend themselves, by their own strength and militancy, against fascism-or shall they leave their defense to the "order-preserving" police?

The Stalinist leaders who, in spite of everything, are on the murder-list of the fascists in

Leave it to the police. The police will preserve order. The police will defend labor's rights. The police will stop the fascists. Workers, "don't be

In the first place, at least half the cops of New York (if not more) are already in the Coughlinite camp, to one extent or another. Watch them on the streets when they get a chance to show where their sympathies lie, and you will see. In the second place, to tell the workers to let someone else do the work of defending them, is to tell them a lie that must have disastrous consequences. It's like telling unionists to rely on the police to protect their rights against scabs and thugs in a strike.

How many more headquarters have to be broken into, how many more meetings have to be broken up, how many more workers have to be beaten to a pulp by the fascists—before the workers (members of the Communist party included) learn the simple lesson:

To defend itself and its movement from the claws of fascism, labor must rely on itself, must

To organize itself means: Build the Workers Defense Guards!

When a social or political regime comes into an irreconcilable conflict with the needs of a country's development, repressions can unquestionably prolong its existence for a certain period, but in the end the very apparatus of repression will begin to crack, will become dulled and crumble. The police apparatus of Stalin has entered precisely this stage. The fate of Yagoda and Yezhov presages the future fate not only of Berya, but of the common master of all three.

Their

By James Burnham

Government

Perhaps the best comment on the Administration's new "lending program" was provided by the stock market. There the passions which seek release in Chamber of Commerce speeches and N.A.M. publicity releases are sobered by the immediately controlling aim of making money. On the day the program was announced and on the two following days, the stock market did-nothing. The average stock prices changed scarcely at all, and trading was at an old dray horse's

This may seem odd, for the "enemies" and 'friends' of the program will have a lot to say about it in the weeks to come. To the latter it will publicly prove that Rooseveltism is still on the march into the land of honey and almonds; the former will find one more convincing piece of evidence that Roosevelt is running business into the ground. Beneath both varieties of ballyhoo, the stock market tells the truth: that the program doesn't amount to much of a damn, one way or the other.

Little Drops of Water

According to the headlines, the new scheme calls for a sum of \$3,860,000,000. However, this amount is only to be "authorized." The proposal is to spend at most \$870,000,000 during the next fiscal year. The anticipated national income for the current year is around \$68,000,000,000. The total of the Roosevelt plan, therefore, would amount to 1 1/3% of the national income. Salvation can hardly be bought at so cheap a price.

As a matter of fact, examination shows that, in spite of the headlines, there is really nothing "new" in the program. It amounts to little more than a bookkeeping change from the practises of the past six years. For example, P.W.A. has been lending and spending billions of dollars on many kinds of construction projects. Roosevelt's budget provided nothing for P.W.A. in the next fiscal year; Congress has, so far, ear-marked \$125,000,-000 of W.P.A. funds for P.W.A., but even that may not stand. Much of what is included in the "new" program is simply a modest substitute for P.W.A., to be handled under the recently created Federal Works Agency.

Other sections of the program will merely continue the already functioning activities handled under Rural Resettlement, Rural Electrification, and Home Owners Loan Corporation. The last section will make \$500,000,000 available for loans to foreign nations, chiefly, no doubt, in furtherance of the administration's aggressive Pan-American policy.

Far from being a bold step in advance, the pregram does no more than carry on old devices which have already shown their hopelessness in the past; and in most cases it does so not on a greater but on a much lesser scale than during several previous years of Roosevelt's regime.

The most advertised change is also nothing new The administration is under pressure to reduce the rate of increase of the national debt. The new appropriations will not be handled directly by the Treasury, but by special agencies created by Congress which will do their own financing; their obligations, however, to be guaranteed by the Treasury. Thus these obligations will not have to appear on the books of the Treasury as additions to the national debt. However, this has been done frequently in the past; and even now there are more than \$7,000,000,000 of such obligations out-

The Meaning of the New Program

The new program shows once more the beginning and end of New Deal wisdom. It flows from the theory that was once called "pump priming" and is now known as "compensatory spending." According to this theory, when private enterprise has a "temporary" slump, the government steps in with heavy spending to get business out of the hole; then private enterprise catches up, and a new wave of prosperity follows.

In line with this theory the government has, since 1933, undertaken compensatory spending which can be roughly measured by the increase in the national debt-\$23,500,000,000-plus the seven or more billions in obligations of the special agencies: a total of more than thirty billion dol-

One thing was correct about this theory: without this compensatory spending, U. S. capitalist economy would have folded up. But a much more important side of the theory was wholly wrong: in spite of all these thirty billions of pump priming and compensatory spending, private enterprise has not "caught on"; on the contrary, private enterprise continues in disastrous shape, in fundamentals getting steadily sicker year by year. With all the patches, they just can't seem to get Humpty Dumpty together again.

The latest spending program is a confession of failure. The talk of the money being loaned exclusively for "self-liquidating" projects is a farce: if they were genuinely self-liquidating (i.e., profitmaking), there is plenty of idle capital which would finance them through private channels. The Rooseveltians are hoping that they can whip up a brief flurry of fictitious prosperity which would get them through election year. But even for such a purpose, the new program is so small and timid that its effect will be hardly noticeable.

But from the program the War Deal will get one important weapon, and it may be that this was the reason for all the rest: half a billion more dollars for the State Department to use in lining up additional Latin American dictators for the war. The Johnson Act, which was once supposed to protect the United States from those financial entanglements which played such a role in swinging the country into the last war, is being suavely and effectively superseded by the maneuvers of the Roosevelt war machine.

In Trenton a public school teacher in the first grade is exonerated of the charge of having taught her pupils "horror" tales, which concerned fighting between Japan and China, automobile accidents, etc. It's dangerous business to tell children the facts of life, even the mildest kind.

"Czechs feel a greater kinship with the United States than with any other democracy," says Dr. Joseph L. Hromadka of the University of Prague, 'because Czecho-Slovakia has been without an aristocracy since the 17th century." Quit quibbling Doctor. The nastiest, foulest, meanest, crassest kind of aristocracy is that of money, and both the United States and your country know this mind 100 w.ell
