A RECENT CABLE FROM MOSCOW TO  
THE FRIENDS COMMITTEE, SAYS IN PART:

38,000 babies in Moscow need milk daily. Present supplies can only feed 7,000. 550,000 gross tins of condensed milk urgently needed for feeding Moscow infants during March, April, and May [1921].

We urgently require milk, cod liver oil, and soap for 6,000 children between 3 and 8 years old. 21,000 children need soap and fat.

Infant mortality is 40%.

Just think of it! Of every 100 babies born, 40 must starve and die! You can save them.

Remember these figures are for Moscow alone. What must be the total number of children starving and dying in that far away land? You can help them if you will!

Can you enjoy your hearty meals?

Can you sleep in peace at night?

Can you endure these conditions so long as it is in your power to help them?

America's warehouses are full to bursting with good things. Let us send them to Russian babies!

In the name of Humanity, ACT NOW!
