California Gains Socialist Status

With 40,000 Votes

SAN FRANCISCO-Election returns assure us of enough votes to hold our place on the official ballot. It also indicates an increase over the state election of four years ago. San Francisco gave Upton Sinclair 4588 votes and Lena Morrow Lewis, 9153 and Julius Levitt 8448. The top vote in the state will run somewhere about 40,000 to 45,000 votes, possibly 50,000. Considering the few workers and the stress the republicans made on being the sponsors of progressiveism in this state, California socialists feel more than pleased with

the results of the election. The Water and Power Act failed again by a vote of only about two to one as against the vote of three to one two years ago. The Socialist party was a very active agency in educating the people to vote for this

Chemical Interests Back Legion in Campaign to Use Poison Gas in War

WASHINGTON-Gen. Amos Fries, head and high propagandist of the chemical warfare service in the Army, has run afoul of Secretary of State Kellogg on the issue of American ratification of the Geneva protocol binding the various nations against using poison chemicals or bacteria in warfare. Fries has been carrying on a campaign against the abolition of gas warfaresniping at it across teacups, at banquet tables, in conferences and newspaper columns, and more recently in the meetings of the American Legion, the Veterans of Foreign Wars, the Assn. of Military Surgeons, and other bodies that might bring pressure to bear upon Congress.

Gen. Fries is held by Kellogg to be responsible for the present attempt to undermine the work of the American government in this field. Secretary of War Davis is quoted as being hostile to Fries' activities and it is hinted that Davis will repeat his warning of some months ago to the chemical sealot-that he must keep still or quit. The protocol does not furbid any nation's preparing for chemical warfare, nor does it forbid its use when an enemy has broken the pact. But the chemical interests see in the treaty an influence for cutting the appropriation for their specialty. Lower appropriations mean fewer promotions in salary for the generals and fewer

contracts for supplies of chemicals in time of peace. Oen. Fries appears to have one friend-a powerful one-in the War Department. It is Assistant Secretary MacNider, former national commander of the Legion and proud of his treat-em-rough record. When the press questioned MacNider as to where the War Department would stand as between the administration's policy and Fries and his legion backers, MacNider sidesterped. His manner indicated that he was far from ready to bow to the White House when the Legion had gone on record for

gentleness in warfare as represented by chemicals. Kelloge will make a fight before the Senate foreign relations committee for ratification of the treaty. MacNider and the Legion will use their fascist tactics on the appropriation committees of the House and Senate to increase the funds for Fries' division.

Beginning on Monday, November 8. Debs photo prize offer went into effect. All orders reaching the Appeal

office on that date and after of \$5 or more for subscriptions, subscription cards or bundles of the American Appeal will automatically make the sender a winner of the photo. The winners of the Debs' photograph will be announced next week and every week thereafter as long as this prize is oftered. We want to see every Socialist and friend of Debs in the country get one of the splen-

did photos. The print of the photo in last week's Appeal was not nearly so good as the photograph because the cut was too fine for the quality of paper used. The photograph itself, which you will get, is flawless. It brings out the entire figure of Debs. clothes and all, in beautiful detail.

The big fortunes of the day are composed of wind and water. There is little that is real in them. A change in view, the failure of a few banks, and they will will melt into nothing.
