Force Washington To Listen To Meyer London's Plea For Peace

By J. L. ENGDAHL.

HIS IS the week that the Socialist movement makes its power felt at Washington, D. C. Thursday, Feb. 24, is the

The American Socialist went to press this week three days earlier than usual in order to carry a final appeal to its readers for action in support of our congressman, Meyer London, in Washington.

From reports that I have already received from Washington, the comrades everywhere are rallying nobly, writing letters, circulating petitions and telegraphing to the Foreign Affairs Committee, House of Representatives, Washington, D. C., demanding that the committee report favorably the London resolution calling for a conference of neutral nations which shall offer mediation to the nations at war.

THIS ISSUE of The American Socialist should reach you now rolling down upon the nation's capital city. If you have already written your letter to Washington, or circulated your petition, a copy of which appeared in The American Socialist last week, then get some one else to write, or petition or wire to Washington.

It was shown last week that the Holland Socialists had cabled their support to Comrade London. Socialists of other nations are expected to join their voice with that of our Dutch comrades. This is the hour when world-Socialism strikes hard for an end of the war in Europe, the prelude to the end of all wars.

Washington must be made to see that the workers of the napresentative London, now before your committee.

I have just received a letter from a Montana comrade who is pounding at U. S. Senator Thomas J. Walsh from his state. This comrade from his state. In conclusion, however, the senator admits being swept into the maelstrom when he says he is now "inclined to listen to the admonitions of the men at the head of our army and navy, who insist that we must do more than we have done heretofore". thus openly allying himself with the militarists in congress.

Washington.-When house foreign affairs committee convenes Thursday morning for hearing on Rep. London's resolution, it will be met by delegations of the Socialist Party, labor organizations, peace and antimilitarist societies and spokesmen of the oppressed nationalities of Europe.

Many organizations, unable to send spokesmen, will be represented by letters and telegrams. The Women's Peace Party and the Society of Friends have both promised to send speakers and numerous members. The Central Federated Union, New York City, is sending its secretary. Morris Hillquit and James H. Maurer will represent the Socialist Party. Rep. London has been urged to invite all the returned members of the Ford Peace Expedition, who will testify to the interest with which neutral countries are watching the United States, hoping it will take the lead in mediation.

Lars P. Nelson, Denver, Colo., journalist, one of the members of the Ford Peace Party, now returning to Stockholm as correspondent of Swedish papers published in America, told Rep. London that if congress fails to adopt resolution he will organize agitation and popular demonstrations thruout Sweden to get that country to call conference on the lines laid down in Rep. London's

Henry D. Flood, Chairman, Foreign Affairs Committee. House of Representatives, Washington, D. C.

On behalf of its fifty thousand subscribers and quarter of a million readers, The American Socialist, the national Socialist weekly, urges that your committee report favorably the London peace resolution. The subscribers and readers of The American Socialist are unanimous in this demand. They stand as one opposed to so-called preparedness, militarism and war. They know that an early ending of the war in Europe, which the London measure seeks to bring about, will put the most effective damper on the war hysteria in this country. The best interests of the masses of the American people demand a favorable report on the proposal made by Representative London, now before your committee.

Replies To Mr. Shaw.

EDITOR'S NOTE,—Intense interest has been aroused by the debate on Socialism between Leslie M. Shaw, former secretary of the United States, and A. M. Simons, that appeared in a recent issue of The American Socialist. Many Socialists have sent in their own replies to Shaw. It is impossible to publish all of these. One of these replies by H. B. McBurney is published this week. Mr. Shaw has just sent in a second statement, replying to Simons. Simons is preparing a second reply, and we are hoping to be able to publish both of these statements in the near future.

Has Faced Since Civil War

UST WHY is big business behind the preparedness campaign?
Why have leaders of the steel group and the Standard Oil group gone out of their way to present armored motor cars to the New York militia and to throw all their influence back of the demand for a huge army and navy and an aggressive foreign policy?

The answer is easy.

If big business had had its way during the past three years, American armies would now be on Mexican soil, and thousands of American boys would have given their lives to protect the Mexican investments of Standard

Oil, William Randolph Hearst, the Guggenheims, Phelps, Dodge & Co., Harrison Gray Otis, and others of their kind.

MEXICO ONLY BEGINNING. MEXICO is only the beginning. Big business wants a huge army Big business wants a huge army and navy because big business, having reached the end of the cheap labor supply in this country, having capitalized this country's natural resources for about all they will stand, and having exploited the people of this country to the point where further putting on of the screws will be difficult or dangerous, is now planning a campaign of world conquest.

Attention already has been called to the plans of the National City Bank and its President, F. A. Vanderlip, for a great foreign trade corporation to finance raids on the natural resources of foreign lands. Vanderlip's \$50,000,000 American In-

governments.
On January 25, the new Corporation issued a statement in the name of President Charles A. Stone which shows even more clearly its imperial istic purposes, Stone said:

"Dr. Richard P. Strong, the well-He stated that his party agrees that the resolution to the President was when the Commodore died, and will serve all efforts in this direction."

In addition to this indorsement London received from Copenhagen a cablegram announcing that the Social Proposed in the serve is succeeded in completely preventing the spread of typhus in Serbia, has not been a money-maker in the family since his time.

The one question Mr. Shaw did not experience in dealing with various and early and early are resolved. cablegram announcing that the Social Democracy of Denmark is working toward peace thru the International Socialist Bureau, of which Camille Huysmans is secretary.

They are socialist opinion in the neurons of Socialist topinion is collected they will present it to the Danish Governments, and Parliament.

The one question Mr. Shaw did not foreign governments, and has established such friendly relations with the people with whom he has worked that his name has become famous. His services in organizing the oil business, why in the world should we continue paying interest on that sum to John D., Jr., for no service whatever?

MR. SHAW believes that dividends and to follow up the men of the organization who are at work in form investments are legitimate religing countries; and also to take up

the election as vice president of Philip Henry, a well-known engineer, "who has given much of his time to the investigation and construction of railroad and other enterprises in South America," and "who knows the engineering possibilities and diffi-culties of that country perhaps as well as any one in this country."

It leaves a big question for you to decide:
Is big business to stand on its own

feet and take its chances in these new foreign enterprises?, or, Is the commercial and industrial imperialism of Morgan, Rockefeller, Vanderlip and Gary to be backed by a governmental and military imperialism? Are we to give them battleships and big armies to collect debts and to protect Wall Street dol-lars already bloody with exploitation

at home, from the wrath of the exploited peoples of foreign lands?

It's about the biggest question of policy this country has had do deter mine since the Civil War.

WARREN FIGHTS MILITARISM. (Special to American Socialist)

Pittsburgh, Kansas.—Fred D. Warren, the Fighting Editor, addressed the greatest audience ever assembled here to listen to the message of Socialism. In his eloquent manner he drove home truth upon truth about the real purposes of the preparedness campaign. He convinced his audience that the only enemy the people of America need pre-pare against is Wall street and its plutocratic inhabitants.

Evidence of Socialist strength in Crawford county, Kans., is presented in the fact that republican and democrat politicians have forgotten all party lines and have united by forming "The Anti-Socialist League of Craw-ford County", for the express purpose of putting the Socialists out of business and incidentally capturing the county offices for the fusion politicians. This is the greatest possible compliment to the Socialists of this county.

Association of Manufacturers has appeared in opposition to the proposed bill. It was the contention of the representative of the National Association of Manufacturers that such legislation was unconstitutional and was within the exclusive province of the States. In State legislatures employers argue that unless the legislation

is to be uniform throughout the country industry will be destroyed.

The child bears the brunt of the contest. The child's life is being crushed, while the merry argument goes on. What shall it be, the State or the Nation, that is to save the young from Nation, that is to save the young from perdition? The answer of the commercial soul is—neither.

In sweatshop and in tenement, in quarry and mine, in factory and mill, North, South, West and East—everywhere—the child's back is bent as

where—the child's back is bent as the slave's back was bent in the good old days of chattel slavery.

There is more than one way of utilizing the power now existing in Congress for the benefit of the child. The taxing power of Congress was invoked on behalf of the worker when Congress passed the Esch phosphorous-match law. This law was aimed and did strike at an industry which was responsible for the horrible disease known as "phossy jaw."

The courts have sustained a law

The courts have sustained a law prohibiting the use of the mails for the purpose of sending lottery tickets:
the courts have sustained a law prohibiting the transportation of the purpose of sending lottery tickets: hibiting the transportation of women for immoral purposes from State to State; the courts have sustained the pure food and drugs act, which deals pure food and drugs act, which deals with an ordinary proposition of commercial honesty; dating back to the days when the Prophets called the wrath of Jehovah upon the users of false weights and false measures, every State has been dealing with this problem. Nevertheless the Federal Legislature found it pressure to eral Legislature found it necessary to use the power given to it under the interstate-commerce clause of the Constitution to prohibit the use of the instrumentalities of commerce to fraudulently branded articles.

Rev. Lambrecht of the Congrega-tional Church is this fearless man, the man who loves justice, and says, that Socialism is the ethics of Christs gosepl. He pointed to the fact that poverty existed in every portion of the land, and called attention to con-ditions, and provided in the conditions in our larger cities, as well as astounded many of his hearers telling them that actual poverty existed in their home town—"where old gray haired men stooped with age
were daily seen searching the garbage
retainers of the business districts for
morsels of food"—this the socialists morsels of 100d"—this the socialists cry out against and declare the economic system unjust that makes this condition possible" said Rev. Lambrecht and right they should. He also stated that he was a believer in the law of evolution and that Socialism was Christianity applied.

RULES FOR THIS DEPARTMENT. The National Committee of the Socialist Party in providing for an Open Forum in The American Socialist ruled that: "Recommendation No. 6.—An open ferum to contain communications from party members or organizations on disputed points of party policy, views and tactics. No personal attacks or abuse or intemperate language shall be allowed. No communication in the Open Forum shall exceed 500 words." Contributors to this department will fa-cilitate matters considerably by carefully observing this rule.

sometime in the past and now recovered from the intoxication—but an active preacher, makes him unfit for the office."

Now what do you think of that?
Comrade Thompson's preachership dates back to a period of fifteen years ago, since which time he has not been a preacher at all, but an active socialist propagandist, a member of the Wisconsin legislature, city clerk of Milwaukee, and head of the information bureau at the National Office.

George R. Lunn, the Socialist Mayor of Schenectady, N. Y., is threatened with imprisonment for violating an injunction. The case has been in court since the close of his previous term about two years ago. A sewer was ordered built on a city street and in order to carry out the city ordinance it was necessary to cut down a large tree in front of the residence of a prominent citizen, who obtained an injunction to prevent the felling of the tree. Mayor Lunn gave orders to remove the obstruction and swung an ax himself. He was arrested charged with contempt of court, pronounced guilty, appealed to the Appeals. In Nebraska we hold Thompson in the highest esteem for his conduct during those trying times. Knowledge of his action then and since is frankly the source of my "inspired stereotyped" letter and possibly it has something to do with others. I, too, was in that fight. Last fall I allowed my name to be voted on for State Secretary. Not a local or member at large even nominated another for the WORKS WITHIN ITSELF. — The work of the Socialist party in the past three or four years has been mostly within itself. No gains have been made except that of thrashing out very important principles and tactics. The present presidential campaign offers us an opportunity to reap the advantages of our many years of effort to adopt tactics suitable to existing conditions. Will we take advantage of this great opportunity?

Thousands of dollars will be spent in this campaign. We can not hope in this campaign. We can not hope of Milford: "I do not know of a more to elect our candidate, and the capable man in the whole party. I

ROLL OF HONOR

Let us start off this week with the list of 21 sent in by Comrade C. E. Ruthenberg. Cleveland's local secretary. That's going some. Comrade Adolph Widoms of New York comes next with a list of 20 from the capital city of Capitalism.

Comrades J. L. Jackson of Winfield, Kans., and H. J. Hilliard, of Sound View, Conn., with a host of other comrades, come in with lists of 10 for 10 weeks, in response to sur special "Anti-Wilson-Preparedness" offer.

Comrade D. M. Angus, of Prosser, Wash, sends in \$5 to pay for a bunch of sub cards. He says, "Our local is gaining members every month and I propose to keep cards on hand so as to boost The American Socialist."

Due Stamp Dater.

EVERY Local Secretary should have a Due Stamp Canceller. We furnish dater with the necessary rubber dates for 60 cents.

If you want a check on dues payments, the only method is by datments, the carly method is by dating the stamp when it is pasted on the card. The dater just fits the stamp.—Socialist Party, 803 W. Madison St., Chicago.

Capital City of Capitalism Is

EW YORK is again strike ridden. The great, blase, contended metropolis of America, and capital city of capitalism, is again finding out that there is a class struggle. By the time this letter reaches its readers, it is possible that over one hundred and fifty thousand workers—men, women and children,—will be out.

that includes all these unions. And

at the same time, the manufacturers have been drawing ever closer.

There was a "protocol". That provided for arbitration between the workers and the bosses. But only members of the bosses Association were in that agreement. But those

who were are growing, until one of the greatest of the garment men does

a business of \$20,000,000 a year—quite a growth from the time of the sweat shop insects. The business is carried on in immense shops, with wast numbers of workers. It is

vast numbers of workers. It is naturally easier for the workers to

treat with bosses when they are organized than when they are not organized. One boss, who happens to be a bit of a Socialist, said to an investigator, "Why shouldn't I pay good wages? With all my expenses, it

cost me 31.90 for a dozen waists, and I sell them at \$2 each".

That is why the growth of the large scale business is a portent of good to the workers.

One of the results of the strike of three years ago was the creation of a Board of Sanitary Control, headed

by Dr. George M. Price, a noted sanitary expert. This board investi-gated the shops, found out that most

of them are fire traps; found that they are postholes and breeders of

disease; and this report, paid for by the Union and the Association, was

received, and neatly filed for future reference by the bosses.

Living Cost Goes Up.

The cost of living has gone up. The workers have a fifty hour week. There is the usual demand for better

conditions. And that is where the Board of Arbitration came in. The

Chairman of that Board was Louis
D. Brandeis, Now, Judge Julian M.
Mack of Chicago is the chairman.
The Union has as its representative

Morris Hillquit, and the bosses have Julius Henry Cohen. The Union put the Department of Labor Research of the Rand School to work, and under the direction of Comrade Juliet

Stuart Poyntz and Alexander L. Trachtenberg, a body of young men

and women worked up a state-ment of the actual working condi-

tions of the workers, gleaned from

Cal. In canvassing for subs he fails to find the much boasted of capitalist "wave of prosperity".

Comrade F. W. Crawford, of Kane. Pa., hustles in with a list of 16 and gets one of our souvenir knives.

There are minor, interesting strikes. There is a tie up of the jewelry trade. Two thousand jewelry workers are on strike, demanding certain union conditions. But that feature of the story need detain us but a few moments, as the men who are fighting for an eight hour day get wages as high as \$100 a week. and the ordinary worker! \$100 a week, and the ordinary worker will hardly consider himself class conscious with the diamond setter.

Indeed, the jewelers do not consider themselves in the same class with ordinary workers, as they do not be-long to the American Federation of

Many girls were sent to Blackwell's island for picketing, to return consumptive, or victims of white slavers. It was not a pink tea—it was a fight to a finish. And the girls won.

The main result of that great fight was to inspire confidence in the girls, they who had not felt it worth while to put up a fight in a job that they fel was merely a stop-gap before marriage. The result was a great strengthening of the union. Another result was of possibly as great a significance to the workers as the and from actual investigation.

Ablaze With Labor's Revolt

By WILLIAM MORRIS FEIGENBAUM.

W YORK is again strike ridden. The great, blase, contended metrolis of America, and capital city of capitalism, is again finding out

and from actual investigation. This information was turned over to Hill quit; he made the demands of the union. Cohen opposed him. Mack. Bruere, and Hamilton Holt were the Board. They sat up to 3 A. M. Monday, February 7th. Then they granted every demand of the Union. This was also a support of the Union. This was a support of the Union. This was a support of the Union. The support of the Union of the Union. This was a support of the Union of the Union. This was a support of the Union of the Unio only to Association shops, affecting 20,000 women and girls. Now to apply the same victory to the "Independent shops", as those are called whose bosses are not members of the

Association.
THAT is the meaning of the present mass strike. Forty to fifty thousand workers demand the conditions that "Cockroaches" Combine.

The success of the strike threw many of the "cockroaches" out of business. Many of the survivors saw the writing on the wall—they combined. Out of the fights of the workers, the inexorable development of Capitalism came. The units grew larger; organized workers confronted organized capitalists. The lines were drawn more tightly.

workers demand the conditions that the twenty thousand in the Association shops have won. They want the reduction of one hour in the working week. They want to be able to treat with a great organization as the workers in Association shops are able to do:

Fred Warren Writes:

HAVE just finished reading Phifer's "Coming Kingdom." This book was printed five years ago by my associate, and I feel like offering him an apology for not having read it before. In the light of what is now happening throut the world, ithis book is little short of a prophecy-be ferecast of what has happened from the time it was planted to the present, in the light was planted to the present, in the forecast for the future. But the record is clear up to this time, and if he could, five years ago, as and if he could, five years ago, reaccurately predict the course of political and industrial events, I guess he is entitled to a pretty careful reading by the Socialists now. Any way, take my word for it, you will not regret the investment in the book, and its careful reading may give you a new viewpoint and bring hope and cheer to your heart. At best the outlook is gloony—but here is a book that points out the good that is to come from the present chaos. You may not agree with Phifer, just as I did not agree with him five years ago, but the logic of events is forcing many of us to change our views as to how the next great change will be made.—FRED D. WARREN, Girard, Kans.

The successes and failures are mirrored here and the chances are that you will find some of your own here set forth. Each installment is practically complete in itself, but it is advisable to follow the story regularly. STATE SECRETARIES PROBLEMS

B. Educational Methods.

"Education first", this had always been Jim's personal motto, and it is but natural that he should have applied it also to the league work. Yet to talk about education was one thing, but to bring it about was quite another. He finally developed two different but co-ordinate methods. The first was a library. With the

aid of the locals most leagues soon

made a start. Then he recommended that each league run a "Book Social" an interesting program was arrange in his office and it was suggested thru the medium of a State Commit-tee meeting, to the use of all the leagues. Briefly, the plan was this: instead of charging cash admission, the price was set at one book. That meant over a hundred volumes in most cases, many more in others Then, autographed copies of Socialis classics were autioned off, and this money used for further extension of the Library. After the books were procured, he made strenuous efforts to have each league put in a modern system of library account keeping, and the members took great interest in the matter. Instructions were given in research work, and prizes were awarded for the reading and under standing of certain standard works

THE SECOND system was the study class. Here the methods varied according to local conditions, but they came, in the main, under three divisions: lecture class, text-book Very often two or all of these were combined. Under the first, some good local

Socialist or a number of such work ers undertook to give weekly lectures to the Yipsel student groups. This supplemented by "Hat talks", debates symposiums, etc., was often quite satisfactory. But every league did not have the advantage of such ser-

The second meant taking of some standard socialist book, such as the "Elements of Socialism", "Struggle for Existence", etc., and to work thru it, either with or without the aid of an instructor. This, too, brought out some good results, the difficulty being in the inadaptability of some books,

the inefficiency of the teachers, or

the lack of interest in long continued effort on the part of the students. The third method, thru correspondence course leaflets, studied from week to week, was, when under the guidance of a competent class-leader, almost uniformly successful. Under directions from the school, a system of reviews, essay contests, public speaking with the lessons as texts,

and many other variations helped

By Ryan Walker along matters wonderfully. The was besides, the great advantage (being under the directorship of con petent educators. Jim found this 1 be about the best method where th students really meant business, a where suitable class leaders could b

While wait ing in vain for a come-back they me and defeated the supposedly crac high-school team on a subject of vite interest, and soon afterward carrie off a silver cup in a public tourns

This method of stimulating friendl rivalry was highly conducive to progress and there never was a tim when there was not some sort of es say contest, athletic meet, baseba or bowling tournament in progress of or bowling tournament in progress of hanging fire. It kept everybody interested in the league and it worke wonderfully well. As boosters of edu cation and comradeship, those two cardinal tenets of the Y.P.S.L nothing better could be devised.
