Armed with Supreme court decisions of recent date which purport to sustain their argument, attorneys for the Illinois Southern line appeared before Judge B. R. Burroug'ss of the Circuit court and presented figures to support their assertions that the law was confiscatory in effect.

# 'DRYS' WIN IN MICHIGAN POLL

Detroit, Mich., April 7.—Nine counties were added to the local option list in Michigan as the result of yesterday's election. Van Buren county already was dry. Five of the fourteen counties voting te ned down the antisaloon proposition.

The connties voting "dry" were: Barry, Clinton, Grattat, Missaukee, Midland, Occana, St. Joseph, Osceola, and Wexford Cass, Gladwin, Grang Traverse, Kalamazoo, and Oakland retain their saloons.

The hardest fight was in Kalamazoo, where the women and children were prominent in the efforts to secure anti-liquor votes. A unique situation has been created at Midland by the result of the election. The saloon-keepers say they will stand by 'their threat to leave the county and start'a new town somewhere nearby.

(Special to the Daily Socialist.)

New York, April 7.—When a blind class struggle begins between what he is pleased to call "the rich with monarchial tendencies and the very poor with anarchistic tendencies," the negro troops, officered by intelligent negroes, will save the nation, according to C. W. Anderson, a federal efficieholder who spoke here for the benefit of Wilberforce University for negroes near Xenia. Ohio.

Anderson is an internal revenue collector and was called on to speak at the bonefit given in Bethel African Methodist church of New York. In reviewing the position of the negro he said:

"When the American people shall be caught between the upper millstone of the very poor, who save monarchial tendencies, and the nether millstone of the very poor, who are anarchists in their helief, and revolution shall come, the nation will call upon the negro soldier led by the educated negro officer to relieve it, and if they do not do so the nation will be crushed."

Hillquit quoted the penal code to show that the police authorities had violated the law they prated of upholding. The police had distarted a peace ful assemblage. ### This Clock shows the total increase in circulation since November 1, 1907.

Doggone it, Hustlers, we missed it! BUT THE MARK IS STILL THERE and we're still in the ring and that bell CAN'T be still if we work this week. We were all busy with election last week, and that accounts for an increase of 240 instead of the required 628. Now, then, let's make up for it with interest this week. We have 388 yet to go. Since we started the ran for 10 000 increase there have been many weeks in which we've done far better than 388.

BIGHT NOW, more than at any other time, EVERY NEW SUB. COUNTS!
You CAN get some new ones this week. Dig into them, Hustlers, and see how far PAST the 10,000 mark we can run one week from today.

A prospective tenant, looking through a Chicago flat last Sunday, inquired as to why the family was moving. He was told they were going into a cheaper place. "And we may break up housekeeping altogether," added the woman, showing him through. "My husband works for the Chicago Daily Socialist, and he may be out of a position by the end of the week."

"Do you mean to say that the Daily is really in danger?" asked the man.

"Do you mean to say that the Daily is really in danger?" asked the man.
"I'm a Socialist and a reader of the paper, but I had no idea that it was in real
danger. I thought that call for funds was for some special purpose. Why," he
continued, "I've a hundred friends, subscribers to the paper, and we all thought
there were several wealthy men ready to carry the Daily in event of actual danger." He forgot all about the dat, about moving day and everything else but
the crisis of the paper. He left, promising to put in the remainder of the day
informing Socialist friends that there was real danger at 180 Washington street.
Hustlers, THERE ARE NO WELCHTY MEN BACK OF THE DAILY. It

Hustlers, THERE ARE NO WEALTHY MEN BACK OF THE DAILY. It has no financial backing other than the nickels and dimes of the working class. DON'T BE DECEIVED! The battle is squarely up to YOU as a worker. The Daily has told you the truth all along. When it said that unless YOU came to its support it was doomed to defeat, THAT WAS THE EXACT TRUTH.

Don't let misguided Socialist friends tell you that one or a dozen men stand ready to support the Daily in the eleventh hour. THAT IS UNTRUE, however honestly the opinion may be held by your informant.

Neither has the present danger been overestimated or elaborated upon through the columns of the paper. The danger is pressing. The receipts for subcards, stock, etc., vesterday, were from the same comparative few who have thrown themselves into every breach. If the paper is to continue beyond the next stockholders' meeting, the last of this week, there must be an IMMEDIATE response from YOU.

### What Devil's Work Is Afoot

The talk of armed force to suppress "internal foes," the desperate attempts being made to enlarge the army, the general reacdionary attitude of whole sections of the raling class, the open brutality and illegal actions of the police-all these things considered as a whole raise the question as to what sort of bloody work is being

The widespread hullabaloo about anarchy can be largely accounted for by the magnificent imbecility of the average capitalist editor on all things concerning which knowledge would unfit him for service to the ruling class. This explanation, however, does not account for the tactics of the police and other officers of the law. These are showing almost human intelligence, and more than fiendish ingenuity in devising weys to "start something." Note, for example, the actions of the police in Chicago, New York and Paterson in connection with this supposed anarchist scare. \*

In all cases no arrests are made, no attempt of any kind to really stop anarchist activity. ALL EFFORT IS DIRECTED TOWARD PROVOKING THOSE ATTACKED INTO SOME SORT OF VIOLENT ACTION.

The editor of "La Question Sociale" writes an idiotic editorial breathing violence almost to the same extent as the "Goldfield Gossip." Its editor could easily have been imprisoned for inciting to murder. He certainly should have been punished to the very limit, if for no other reason than for treason to the working class in giving vent to sentiments so much desired by the enemies of Labor.

NO ATTEMPT HAS SO FAR BEEN MADE TO PROCEED AGAINST HIM LEGALLY. On the contrary, he has been attacked in truly anarchistic style. His paper was suppressed without the slightest sign of legal sanction, and a precedent thus set for future use against any publication unsatisfactory to the powers that be. Then he was permitted to organize a meeting. But the meeting, although strictly within the law, was broken up. This again way not done under cover of even the form of legality, and no effort was made to arrest the responsible party. On the contrary, he, with his followers, were driven out of the hall by a crowd of police bullies, who were seeking in every way to incite to violence. Unfortunately for the police scheme, there was "nothing doing."

The editor then went to his own office and tried to hold another meeting. Still no arrests. Still no effort made to suppress anarchy. On the contrary, there was some more lynch law. The police, AFTER ORGANIZING A SQUAD ARMED WITH AUTO-MATIC. SAWED-OFF SHOTGUNS, one of the most devilish weapons ever devised, proceeded to send another squad to the private off of the paper and to club these supposed dangerous individuals great principle. And the patriot of toaround some more. STILL THERE WAS NO VIOLENCE.

Taken in connection with similar actions in Chicago, where anarchists were played up as dangerous characters in all the newspapers, with the suggestive power that such publication has, while the police clubbed and sought in every way to make them perform in accordance with the newspaper suggestion, and remembering the same sort of work in Union Square, New York, where, after three hours of police brutality, a deluded fool (or police spy) did at last blow himself up-and the conclusion becomes almost inevitable that the capitalist class of the United States are seeking to use the anarchist movement, as the rulers of other countries have so often used it, as a sort of general unpaid agent provocateur for the working class.

If during the coming presidential campaign some half-crazed fool can be provoked into some sort of viol-nce that would excuse a massacre of Labor, then the political uprising of the working class would receive a severe setback and capitalism would gain another lease of life.

In carrying out such a scheme as this the anarchists are of the greatest possible value to the ruling class. Hence the newspaper notoriety that is now being heaped upon them. Hence the exaggeration of their numbers, their ferocity and activity.

The stage is being set for MURDER, and the plans are being framed up for a get-a-way.

With the public mind terrorized, the anarchists flattered and aggravated by the combination of notoriety and illegal violence, and the constant suggestion of some sort of outrage in the capitalist press, there are all the elements of a MURDEROUS CONSPIRACY.

When this whole inflammable mess is thrown into the midst of a society where millions of men are suffering the tortures of the damned because of an unjust social system, of whose workings they are generally ignorant, it will require the greatest caution to prevent

the carrying out of the conspiracy.

The only force that can make it impossible is the SOCIALIST PARTY. This organization, by pointing out the possibility of in-telligent, peaceful action and the hopelessness of individual violence, by exposing the criminal conspiratory character of the capitalist plot. watchful care over all meetings of the suffering masses of Labor. hy a continuous, tireless campaign of education may yet foil the plot.

### Correcting a Misunderstanding

In some way the idea has been spread broadcast, and is frequently repeated in letters to this paper, that he Daily Socialist is supported by a group of "Millionaire Socialists." No reference to anything so ridiculous would be made here were it not that the perstence of the error threatens to interfere with the support of the

In the first place, it is doubtful if there is such a thing as a "Millionaire Socialist" in the United States. The term has been applied to a group who have much more money than the average wageearner, but most of whom are far from millionaires. These men and women have all contributed at various times to the Daily Socialist just as all other Socialists have done, and their contributions have been credited as have those of others.

It cannot be said too strongly, however, that THE DAILY SO-CIALIST IS NOT MAINTAINED BY ANY SMALL BODY OF WEALTHY MEN

It is supported by the thousands of workingmen and women scattered throughout the entire country, who have given and are now giving from their scanty resources to maintain a paper that shaudefend their cause.

During this week these thousands are going to inquire of themselves and determine whether they can maintain the battle for the short time longer that means complete victory.

While each one will be doing what he can, he will be watching with intense eagerness to see what the thousands of other friends of the paper are doing. The Daily Socialist is born of the workers, maintained by the workers and knows no cause save that of the workers. Its life is their life. It is for them to say what it will do.

### Thou Shalt Not Bear False Witness

Someone ought to send a copy of the Ten Commandments to "The New World," a Roman Catholic organ of Chicago. Its office copy seems to be lost, if we are to judge by the reckless way in which it has been handling the truth in recent issues.

In referring to the Union Park meeting in New York "The New World," says: "The pious Socialisms undertook to hold a great meet."

The pious Socialists undertook to hold a great meeting of protest and never considered it necessary to obtain a permit."

The fact is that the Socialists applied for a permit, were prom-

ised it, and the promise was then broken when it was almost impossible to call off the meeting, and they were taking legal proceedings to force a permit at the time the meeting was being held. All this s done, al hough there is no law whatever requiring them to apply

for a permit.

On another page of the same issue a correspondent declares that the Socialist papers of Chicago published nothing with reference to the graft in the water department. Our readers know how truthful this is the same and the same issue a correspondent declares that the Socialist papers of Chicago published nothing with reference to the graft in the water department. Our readers know how truthful this is the same issue a correspondent declares that the Socialist papers of Chicago published nothing with reference to the graft in the water department.

Will "The New Wo. 1d" be Christian enough to admit these two lies and apologize for the injustice done by them?

### AMERICA'S MONEY KINGS

The oft repeated Socialist argument that today a small number of individual capitalists are the actual rulers of this

beef in America; Tem Dolan, capitalist and president of the United Gas Improvement company of Philadelphia, who is virtual owner of Philadelphia is city council; John R. Converse, president of the Baldwin Locomotive works, in Philadelphia, and W. K. Vanderbilt, whose family owns the New York Central and other railroads. The names of Paul Morton, formerly a member of Roosevett's cabinet, and P. A. B. Wideler, the leading spirit of the Philadelphia Raspid (?) Transit company, also appear on the list. There are others, but these will give an idea of the interests which own the government at the present time.

After speaking of the panic last fall,

·

that today a small number of individual capitalists are the actual raises of the country was strikingly cornorated on March 17 by Senator La Foliette of the Madow I Locomotive works, it was a country was strikingly cornorated on Wisconsia. Race feeling among the workers is being fanned into a flame, and policemen

re ordered to be on hand to club the workers on any pretext. It is a bitter fact that confronts us-a fact that menaces the peace and
