The bestowal of these decorations, in conjunction with a speech at India House, in the heart of the New York financial district, constituted the farewall to the money lords of this country by Count Alexander Skrzyn-ski, the Polish minister of foreign affairs.

In his farewell speech the Polish minister made no men-tion of American labor. He knows it is hostile to him and to the bloody reign of terror for which he speaks. Skrzynski had only words for the money kings, at whose feet he and his government grovels in the hope of raising new loans out of the wealth in the hands of the American capitalists, stolen from American labor.

The decorations went to Clarence Dillon and Robert O. Hayward, heads of the banking firm of Dillon, Read & Co. that recently reaped a great harvest of millions by securing innacial control of the bodge Motor Co. In Detroit, while the automobile workers.
