There was a time when Shaw was not such a great favorite with them, tho even today the government saphead who manages the British broadcasting service-a government monopoly-refused to allow George to take the air because the canny comedian would not tell him beforehand what he would say. This is one of Shaw's old publicity stunts, and it worked again.

IT is said that Shaw is the richest literary man in the world. The public wants to hear what he has to say and the publishers must pay thru the nose. He charges as high as \$250 for a few columns of nonsense about Ireland, and \$2,500 for his views on America. There is more sense and philosophy in a short story by Ring Gardner, the American humorist, than there is in anything Shaw has written for several years. Shaw married a wealthy woman and he has been chasing wealth ever since. While the British workers were on strike against their masters, and the poisoned pens of everp capitalist hack in Britain were scribbing against them Shaw had not a word to say in their behalf, but he villified them just as soon as the to a still greater deviation from Leninstrike was over.

MOSCOW COMMUNISTS UNANIMOUSLY APPROVE RESOLUTIONS ADOPTED BY PLENUM OF THE ALL-UNION PARTY

EDITORIAL NOTE: -- Several capitalist papers have in the past two days carried news articles concerning the decisions of the plenum of the Central Committee of the All-Union Communist Party which has just ended in Moscow. It was stated that as a result of actions of the new opposition in the party, the Central Committee in its plenary session had decided to remove Comrade Gregory Zinoviev from the Political Bureau of the All-Union Communist Party. The DAILY WORKER publishes below a special cablegram from the director of the agitprop department of the Communist International concerning the response of the Moscow membership of the party to the decisions of the plenum of the Central Committee, but no reference is made to any action of the plenum in regard to Comrade Zinoviev. Authentic news completely covering the decisions of the extremely important plenary session of the leading committee of the Communist Party of the Soviet Union is expected to be received by The DAILY WORKER within the next day or two.

Brennan and Crowe Had Secret Agreement

By T. J. O'FLAHERTY.

Roy O. West, secretary of the national rupiblican committee, testified before the senate investigating committee yesterday that the Crowe-Barrett-Brundage republican organization of Cook County and George E. Brennan, democratic organization had an agreement to divide the spoils of office in the county between them.

Senator Reed, chairman of the committee drew from the not unwilling witness the information that the Brennan-Crowe partners put up rivatickets with the understanding that some of them were to be defeated by mutual agreement and some elected.

Reed Appeared Shocked.

Reed feigned moral indignation when he heard this and the audience tittered knowingly. West admitted it was terrible and that his faction of the G. O. P. looked askance at such procedure.

"We are in favor of letting the democrats rule themselves and we to do the same" testified West. "Then the voters could decide."

This was so much in harmony with Reed's conception of correct procedure that he just contracted his eyebrows and took another bite out of

Wall St. And Rome Are Against Mexico

By MANUEL GOMEZ, Secretary All-America Anti-Imperialist League.

ATHOLICS thruout the United States are being asked to pray for Mexico. It is obvious, however, that these prayers are not directed to any supernatural being. They are political prayers. Everyone of them is part of an ingenious religio-political dumb show, designed to mobilize all possible forces behind an attack upon the Mexican government.

The church in Mexico represents black reaction. Its interests are identical with the great landowning aristocracy, in support of which it has consistently opposed every move of the poor peasants to secure land and every move of the workers to free themselves from the domination of the ruling classes. The church supported the counter-revolutionary coup d'etat of Victoriano Huerta in 1912. It supported the revolt of Adolfo de la Huerta in 1924. It is trying to organize a counter-revolution against President Calles now.

Because of the reactionary role of the catholic hierarchy in Mexico, the Mexican constitution of 1917 prohibited the church from owning property, prohibited foreign-born priests from officiating in Mexico (twothirds of all priests were foreigners), limited the total number of priests, excluded priests from participation in politics and secularized education. Calles has done no more than put these provisions into effect.

THE church has responded by organizing the "League for Religious Defense," Archbishop Mora y del Rio declaring explicitly that its object is "to create a grave situation and to paralyze the social and economic life of the country." The first step in this program has already been taken. An interdict has been laid upon Mexico. All public religious services have been discontinued; priests have been ordered to refrain from celebrating mass.

It is a reactionary political general strike of the clergy.

But despite its considerable strength in certain sections, the power

Prelates Summoned for Pastoral Letter

(Special to The Daily Worker)

MEXICO CITY, July 27 .-- Following up its quick answer to the threat of economic boycott made by various catholic societies the Mexican government has issued summonses for Archbishop Moray del Rio, seven other archbishops and 30 bishops who signed a pastoral letter read in all churches on Sunday in which the constitution of 1917, under the authority of which the government is acting, was denounced.

The summons does not mean the immediate arrest of the prelates but calls them to answer before the judiciary for their severe criticisms of the government. On top of this the government officially published new regulations under the constitution prohibting religious teaching in the schools.

Rome Inspired Suspension. The pastoral letter of the archbishops announced that the inspiration for the closing of the churches after July 31st sprung from the Vatican.

Directions have been issued by the clergy for committees of laymen to keep open the churches for worship while members of the heirarchy are

Calles' Statement. The official acts of the government

against the conspiracy of the church were supplemented by a statement by President Calles in which he warned the catholic church that they may go too far and denounced the recent activities of the church as a political movement under a religious mantle. Labor Against Church.

The Mexican Federation of Labor (C. R. O. M.) in a long session tolay unconditionally backed the stand of the government against the church and decided to carry on a struggle against the catholics who are supported by the rich landed and foreign mperialist interests.

Cailes Lashes Clergy.

President Calles, in his statement, characterized the catholic church leaders and clergy as elements who were attempting to lead an open rebellion against the government of Mexico. He particularly castigated the clergy for the printing, three consecutive times in the newspaper El Universal, a pastoral letter of the Archbishop of Mexico City in which the constitution was held up to scorn.

New Measures.

Calles' answer to the activities of he catholics he sums up: "Each new manifestation of opposition placed before our administration's tasks will meet with new repressive measures."

Johnson Attacks Europe.

WASHINGTON, July 27. - Hiram Johnson, senator from California, has Issued a statement saying that French and British "show poor taste" by criticizing the United States as a Shylock. In part he says:

"The greatest of the English newspapers are denouncing us without stint. The French press is ablaze in its bitterness against us. The Italian papers emulate those of other countries in applying epithets to us. One of them shrieks at us: 'But there is one thing to be remembered outside of Europe; in the world there is Asia, and in Asia is Japan.'

SCORE POLICE FOR ASSAULT ON STRIKERS

Police and Company Officials Dodge

NEW YORK CITY, July 27 .- Police Commissioner McLaughlin is silent on the accusation of Samuel Untermyer, who took up the case for the I. R. T. strikers, of the unprovoked and brutal attack on the strikers by twenty-five city detectives last Friday.

Untermyer addressed a letter, yet unanswered, to McLaughlin, asking for an inquiry with the right of crossexamination. He told how the meeting of the strikers had closed at about 11 o'clock, most men going home, a few remaining with the officers of the union closing up the hall. When they came out, the detectives set upon them with blackjacks and beat a number of men whose names are

Deliberate Attack.

"I am assured," says Untermyer, 'that there is evidence that these men from headquarters went there for the purpose of making such an assault. Two women who were upon the scene testify that they heard one of the plain clothes men say to the others, 'Don't wait, give it to them as soon as they come out.' And that appears to have been the program that was adopted."

Three reporters from capitalist newspapers are named as witnesses, as are seven uniformed policemen whose numbers are given, who would testify that the attack was unprovoked and brutal, as well as the strikers who were attacked. Untermyer takes a fling at the capitalist press by say-

When they were coining money the men did not participate in their prosperity, but when men are asked to submit to being underpaid. Apparently it is one of those rules that works only one very."

Police Fairy Tales. The police commissioner, strangely, says he "has received no complaint." So he officially refuses to talk. Unofficially, he says that the strikers "were fighting among themselves and the detectives sought to break up the melee, whereupon the strikers turned on the detectivs, who had to resort

to their clubs to protect themselves." James L. Quackenbush, counsel for the company, tells a different fairy story. He says the strikers took the detectives for "secret service men of the company, who were organized by a man named Beakey a few years ago. The police acted properly, said Quackenbush, who seemed highly to approve of the beating of strikers, though he dodged the question as to whether he had asked the detectives to do it.

Pickets Pull Out 63. "The strike committee resents and denies the statement that the strikers were in a fight," says the strike committee, which adds that their pickets have pulled out 63 more men since the renewal of the strike. "The strike committee points out the obvious fact that the I. R. T. officials are behind the unprovoked attack upon the strikers. According to the public admission of Archbishop Mora y del Rio, it was the pope of Rome who advised the interdict upon the country. In the United States there has been an undoubted rapprochment between the pope and the dominant capitalistic interests, as was evidenced at the recent eucharistic congress, in the glorification of which protestants and Jews participated-so ostentatiously in fact that there could be no doubt that the congress was not Roman catholic, in the religious sense, but

of the church among the masses of Mexico has been broken. It is the

international phase of the conflict that makes it so serious.

IT is no accident that the eucharistic congress occupied itself so extensively with assaults upon Mexico. It is no accident either that the Interdict from Rome follows closely after.

The eucharistic congress came at a time when American imperialism was carrying on its ruthless offensive against Mexico's land and oil laws. Wall Street and Washington, no less than the catholic church, is interested in fomenting counter-revolution in Mexico. Imperialism and reaction are inseparable bedfellows. It is now plain that the rapprochment of American capitalists with the catholic church was largely for the purpose of utilizing the church as a political instrument for the sujugation of Latin-American countries.

That is why the present church conflict in Mexico receives such prominence in the United States. That is why public "praying" is conducted here.

The whole move bears the unmistakable earmarks of having been initiated in the United States, to provide an entering wedge for American interests eager to weaken the Calles regime.

N the present situation, Calles must rely more than ever upon the Mexican masses. They are sure allies against imperialism and counterrevolution. It is, therefore, unfortunate from all points of view that he should at this very moment be engaged in a maneuver to break up the organization of the Mexican railroad workers. These dubious maneuvers must stop if Calles is to have the solid support which he unquestionably should have in his struggle against reaction. The Mexican government is making a sincere fight against imperialism. It must at the same time demonstrate its confidence in the masses of its own people.

Never was the Mexican government in greater need of support. The imperialist and reactionary elements are united on an international scale. The Mexican clergy would never dare to go as far as they have gone if they were not stimulated from outside.

The Mexican archbishop now threatens to excommunicate President Calles and all his subordinates. And this-no more than the carefully organized public prayers—is intended to influence a non-earthly god.

England to Grant Loan Pending U. S. Credit

PARIS, July 27 .- By appealing to 'clear-sighted patriotism" to shorten he discussion on the question of adjourning all interellations until the financial bill was discussed and passed, the new Poincare cabinet got a vote of confidence today from the chamber of deputies of 358 to 131 votes.

This first vote of confidence was expected, but whether Poincare can put across his financial bill is another thing.
It is his plan to load the burden of taxation upon the workers by an increased indirect taxation upon necessities. The workers already pay more than their share of taxation by this method, and the

against capital. As a compromise, Poincare's declaration to the chamber said that indirect taxation would be increased. but that some direct taxes would be imposed upon "acquired wealth" to form a repayment fund for the national defense bonds.

Pay by "Capacity." As to the foreign debts, the Poincare declaration was somewhat enignatical. He said:

"As well as ourselves, our creditor nations, whom we have a firm desire to pay in so far as our capacity will permit, have an interest before all in our putting an end to this monetary

There is considerable optimism in the tone of the premier, but few facts to back it up. It is known that ratification of the British-French agreement will be easy compared to that of the Mellon-Berenger agreement. The majority of the chamber is against ratifying the latter. Even some of Poincare's cabinet are opposed to it. Hopes to Cut Terms.

It is believed that Poincare intends to get the chamber to adjourn for vacations, and before it meets again obtain such formal modification as possible in an effort to get it ratified at a later date.

The declaration of Jacques Duboin, member of the national "experts' commission, published Sunday, gives an idea of what France expects to help her thru until the Mellon-Berenger pact is ratified and loans can be obtained from America. He says:

England Gives Loan. "It is true, so far as America is concerned, that no direct credit will be granted us before ratification of the Wasihngton agreement. But it the Washington agreement. But it land and Holland specifically, a formal promise of immediate and amply sufficient aid to assure complete functioning of the experts' plan."

ROBERT TODD LINCOLN, the only son of the civil war president, is dead and with him ends the

Abraham Lincoln, the father, died a martyr to the cause of emancipation; the son ended his days in the lap of luxury and ease.

Lincoln, the father, helped strike the chains of chattel slavery from the limbs of millions of black men. Lincoln, the son, helped fasten the chains of wage slavery on the limbs of labor, of all colors.

Both the father and son were lawyers. Both entered the politics of their day. Both were human symbols of the deep-going struggles of their times.

Abraham Lincoln typified the energetic, industrial north struggling against the landed, slave-holding aristocratic south Lincoln became the political head, in Washington, of youthful American capitalism in its great crisis. He was its war president. The success of "The North" unleashed the forces of capitalism over the whole nation, not only for "The North" but also for "The South." In fact, the capitalist development of "The South" dates practically from the ending of the civil

Robert Todd Lincoln, the son, just coming to manhood in the heat of the civil war, became the embodiment of the social forces let loose by that war.

He was a captain under General Grant and saw the fall of Petersburg and the surrender of General Lee at Appomattox. He saw an old social institution die. Then he became secretary of war in President Garfield's cabinet in 1881. Later he went as American ambassador to London, returning in the panic year of 1893.

Lincoln, the son, immediately took up the practice of law in Chicago. becoming special counsel for the Pullman company, just organized in 1867. Evidently Lincoln, the son, did well as a corporation lawver, for he rose rapidly in the favor of the parasite stockholders.

It was in 1893 that the Pullman company reduced wages one-fourth altho the cost of everything in its model town, of rent, water, gas and other fundamental necessities remain the same.

Gustavus Myers, in his "History of Great American Fortunes," tells of the conditions at Pullman, that Lincoln, the son, as lawyer was called on to defend, in these words:

"As the average yearly pay of at least 4,497 of the company's wage workers was little more than \$600, or to be exact, \$613.86-this reduction of (one fourth), in a large number, of cases, was equivalent to their labor for substantially nothing. Numerous witnesses testified before the special commission appointed later by President Cleveland, that at times their bi-weekly checks ran variously from four cents to one dollar. The company could not produce evidence to disprove this. These sums represented the company's indebtedness to them for their labor, after the company had deducted rent and other charges. Such manifold robberies aroused the bitterest resentment among the company's employes, since especially it was a matter of authentic knowledge, disclosed by the company's own reports, that the Pullman factories were making enormous profits. At this time, the Pullman workers were \$70,000 in arrears to the company for rent alone."

These were the conditions that led up to the historic Pullman strike that was inaugurated May 11, 1894. Carroll D. Wright, for a time United States commissioner of labor. said of this struggle, and the greater strike following, that it was "probably the most expensive and farreaching labor controversy which

Democrats to Use the Tariff as Issue for Fall Election Drive

WASHINGTON, July 27 .- (FP)-Tariff is the issue in this year's elections, says the democratic national committee in an exultant statement, based on the failure of the republican administration to relieve the distress of the farmers.

It argues that the farm relief debate disclosed the injustice of the Fordney-McCumber high tariff law in a way that will seriously embarrass the administration in the November election. Moreover, the uncovering of bribery and corruption and wholesale use of money in Pennsylvania, the citadel of high tariff protection, is looked upon by the democratic managers as especially helpful to themselves.

They suggest that the republicans vere setting or to buy control of the next senate in order to continue the private benefits of high tariff rates to manufacturers. Vare of Pennsylvania is cited, with his \$800,000 bid for a seat. The democrats propose that all senatorial nominees be pledged as to how they will vote on the seating of

QUESTION: What is the chief purpose of the party and of every

party member? ANSWER: To popularize the party among the working masses, to make the workers acquainted with the party and what

It stands for, to show why every worker should join the

QUESTION: What is one of the ways in which every party member

can participate in this great task? ANSWER: By distributing far and wide the new pamphlet by Comrade Ruthenberg, "THE WORKERS (COMMUNIST) PARTY, WHAT IT STANDS FOR, WHY EVERY WORK-

ER SHOULD JOIN." QUESTION: What does this pamphlet do?

ANSWER: This little pamphlet-it sells at five cents, to party units at 21/2 cents—tells in simple language that every worker can understand what our party is, what is stands for, and why the workers should join it. It is a very attractive little pamphlet, clearly and simply written, and beautifully illustrated. Every worker will read it if only you get it into his hands.

QUESTION: How can every party member participate in this great task of telling the workers what our party stands for? ANSWER: Every party unit should send in an order for a batch of pamphlets, making TWENTY PER MEMBER OF THE UNIT. The pamphlets, should be distributed:

> 1-By shop nuclei in their shops. A PAMPHLET FOR EVERY WORKER IN YOUR SHOP. 2-By street nuclei (international branches) in their

ELECTRICIANS' IN ASSOCIATION TO GET INTO UNION

Ask Union to End Bad Closed Book Policy

NEW YORK, July 27.- (FP) "From now on I'm going to devote my life to the labor movement!" declared one of the Interborough subway strikers to the Electrical Workers Association. He spoke with sincerity that admitted no doubt. He thanked the organization for the support it had given to the subway strikers. The association had been trying to organize power house workers and when the strike came, called upon all such workers to join the fight with the Consolidated Railroad Work-

Organize to Get Into Union. The Electrical Workers Association is an organization of electricians working for contractors, public utilities, or elsewhere, who cannot get into Local 3, Brotherhood of Electrical Workers, which has closed its books. The men have been organizing since April and have succeeded in winning nearly 2,000 workers in that time.

Their officers state that there are about 12,000 electrical workers who should be eligible to Local 3 in greater New York who are not members because the union's policy bars them. Local 3 has a membership of 4,500, practically all in the building trades.

Does Not Sign Agreements. The difference in wages is one of the big incentives of the nonunion men to seek admittance to Local 3. The union scale is \$12, \$8 for helpers, and from \$2.40 up for apprentices. Non-union workers get about half this pay on building jobs, finishing work repair jobs, etc., and about \$6 to \$7.50 for the few top men in the public utilities-light and power houses, telephone company, etc.

The Electrical Workers Association takes in all bona fide electricians and its aim is to get them into Local 3 if possible. The association does not serve as a union by refraining from handled by a union.

May Unite With Brotherhood. The association's Bulletin for July 24 contains a copy of a letter sent to the executive committee by H. H. Broach, international vice-president of the Brotherhood of Electrical Workers, who promises to confer with the men soon. A union of All Electrical

But They Did Get It. "The Interborough can't get the injunction," Susan Brandeis, daughter of Supreme Court Justice Brandeis, encouraged the women. She explained that the Danbury hatters' case, which the Interborough thinks is a precedent, rests on the theory that the workers voluntarily made the agreement and then broke it. She declared that Interborough workers did not willingly enter the company union agreement and hence cannot be responsible for breaking it.

Women from Other Industries. The Chicago Joint Board of the In ernational Ladies' Garment Workers Union donated \$1,000 to Local 45, Chiago Fur Workers' Union, so that the fur workers could better carry on their strike.

The United Hebrew Trades at their last meeting decided to appeal to the 22 unions affiliated to it that they help the fur workers' strike morally and financially.

The letter sent by the bosses threat ening the workers that have gone on strike with the loss of their jobs and declaring that they would no longer leal with the union has only strength ened the determination of the strikers to win their battle with the Chicago Fur Manufacturers' Association. The union members have turned the let ters over to the union.

Youth Finds Greeley's "Go West" the Bunk

By M. PERLIN

Jack is a young boy 16 years old His mother is a widow with three other children besides him. On account of this he was forced to go to work as soon as he graduated from public school.

He got himself a job at the Alexander Woolen Company, 305 West Adams St., where he received \$13 a week of which he gave \$8 a week to his mother. With what was left he bought his clothing, shoes and as much as he could, he saved.

Saves \$10.

After working 5 months he saved \$10. When summer came and all his friends, that were still going to school had gone on a vacation Jack became lonely and his day's work seemed very long for him. He was afraid to tell his mother that the work was too hard for him. He made up his mind to go west.

One warm morning, when he was supposed to go to work, he took with him a shirt, a pair of hiking pants and a few other things including his \$10 and started for the west.

After riding in autos, stealing rides on trains and walking a good distance he arrived in Denver, Col. It took him seven days to get there. While going there he slept in wheat fields, haystacks and prairies. He arrived in Denver penniless, hungry, tired, and with blisters on his feet.

Unable to Find Job. He started to look for a job-but with no results. He wrote a letter to his pal in Chicago. In it he told him that West was beautiful-but not for a poor worker.

He then started for home. When he reached Farburg, Neb., he went to the city half. With tears in his eyes he told the sheriff what had happened to him. He begged the sheriff to have pity on him and put him in jail for a few days so he could rest his tired body.

The sheriff looked at him with a cold stare and in a gruff voice he told him to go back where he came from. "But sheriff," pleaded Jack, "I'm tired and broke. What shall I do?" "Who wants to know your hard

luck stories," said the sheriff. "Get. out of here and be quick too." Jack left crying bitterly.

Goes Hungry.

He sometimes got a meal in a restaurant in return for washing a pile of dirty dishes. There were many days that he went without a meal. One day he went onto a train. The conductor found that he had no ticket and threw him off the moving train. Jack was badly bruised.

At last after much suffering he arrived in Chicago. He was an awful sight to look at. In one month's time

Now he has his old job back again.

SPEEDING UP OF LABOR BASIC REASON FOR LAST YEAR'S BIG PROFITS, SAYS THE GOVERNMENT

WASHINGTON, D. C., July 27 .- So far as the capitalists and their ability to take profits out of the workers are concerned, the year of 1925 was a banner year for American industry, according to the department of commerce's year book just issued. The department is particularly elated that the bosses have forced more efficiency out of the workers. This speeding up of labor is claimed as an important achieve-+

ment. The following summary is given out:

"Considered as an entirety the industry and commerce of the United States during 1925 reached the highest levels ever attained in our history, not even excepting the years of abnormal war activity," says the book in summarizing conditions in general.

Workers (Communist) Party

Back to the Party

By C. E. RUTHENBERG General Secretary, Workers (Communist) Party.

CINCE last October, the Workers (Communist) Party has been reorganized. In place of the territorial and foreign language branches which existed previously, there have been created as the basic units of the party, the shop and street nuclei,

This reorganization of the party was essential in order that the party establish contact with the workers in the factories who must be won for the Communist movement. The results of the reorganization have already shown themselves in greater activity of the party in relation to the workers' struggles in many sections of the country. The party is actually in contact with the workers in the factories and is able to give leadership and support to their everyday fight while at the same time carrying on its campaigns to win the workers for the political struggle against the capitalist government.

The street nuclei which have replaced the territorial and language branches are also more effective organizations for the mobilization of the party work. The organization of the foreign language speaking comrades into language fractions, which function in the fraternal and other organizations of their language group, has intensified the work in the organization.

The party is making its strength more effective thru the reorganization.

In the process of reorganization, however, quite a number of members of the party lost contact with the party. They have not affiliated with the shop and street nuclei.

These former members of the party joined the party because they supported Communist principles, the desire to participate in the organized struggle of the Communist Party in this country.

All the reasons which impelled them to become members of the party exist today. If they were Communists, and the fact that they joined the party showed that they desired to be Communists and work for the Communist movement, their place is within the ranks of the organized Communist movement, the Workers (Communist) Party.

These former members are urged to take immediate steps to again take their places in the reorganized party. Many of them have temporarily lost contact with the party because of conditions arising in the process of reorganization.

These former members are urged to immediately take steps to again take their places in the party.

In order to enable them to establish contact with the party, the following list of the districts' addresses is published:

Those former members who desire to again take their places in the organized movement, who are now out of contact with the party, should call at or communicate with the district office and secure assignment to one of the shop or street nuclei of the party.

The party is going forward in its work with new vim and vigor. The workers thruout the country are showing signs of engaging in renewed struggle against the capitalist exploiters and the capitalist system. This makes it necessary for a stronger Communist Party to support and help guide the struggle. Every Communist is needed in the organization of

HARVESTER CO. HEAD RESENTS CRITICISM IN FARM PAPER; TO HEAR MUCH MORE NEXT ISSUE

BISMARCK, N. D., July 27.—The United Farmer, a progressive farm monthly published in this city by the United Farmers' Educational League has received a letter from the vice-president and treasurer of the International Harvester Company, George V. Ranney, complaining about an article in the May number of the

paper entitled, "Harvester Trust Exploits Both Farmers, Workers." The article was written by Thurber Lewis of the staff of The DAILY WORKER and the next issue of the United Farmer will

publish Mr. Ranney's letter and reply by Lewis. The Harvester company official resented what he termed were some Erickson, who was a party to the per- plant 'are among the most highly ex- mills and coal mines who gets 40 three months nearly 50,000 factory ploited city workers'." In answer to this, Lewis goes into Cleveland Fire Dept. some detail in recounting the history of the trust from its inception under the aegis of the J. P. The building has proceeded down by a U.S. District Judge dividing the firm had no effect whatever upon the monopolistic control of the

"Vertical" Trust.

Lewis briefly outlines the resources of the trust, revealing it to be a powerful concern of the "vertical" kind: "It owns four iron ore mines, 6,140 acres of coal land in Kentucky, 79,000 acres of timberland with two sawmills to go along, a sisal plantation in work themselves. This offer was Cuba, a steel mill and coke by-products plant in South Chicago, Ill. in addition to switching lines of its own. The Harvester Company owns 19 works in this country, 3 in Canada and 6 in other countries abroad." Lest he be misunderstood. Lewis

takes occasion to deny that his article was in the nature of any kind of "trust busting." "As for the so-called 'independents,' they too are supporting 'coupon clippers' and exploiting both workers and farmers alike."

Huge Earnings. To Ranney's denial of fabulous earnings. Lewis points out that the company paid out in cash to stockholders who, the released men said, worked \$23,633,236 in 1924 and adds, "This three hours to open the safe.

WHAT HAS GONE BEFORE.

J. Arnold Ross, oil operator, formerly Jim Ross, teamster, is unsuccessful in signing a lease with property holders at Beach City, Cal., because of intrigues of other operators and quarrels among the holders. While he is at Beach City, Bunny, his thirteen-year-old son, meets Paul Watkins, slightly older. Paul has run away from home. His father is a poor rancher in the San Elido Valley who is a "Holy Roller." Paul goes away to make his living on the road and Bunny goes about learning the oil business from his Dad who is bringing in a well at Prospect Hill. Dad was working hard and Bunny suggests a quail hunting trip to the San Elido Valley. Dad agrees and shortly they arrive at the Watkins ranch and pitch their camp. In hunting for quail they find oil oozing out of the ground and Dad wheedles the sale of the ranch out of old Watkins

"What was the book?" he asked, and she told him it was called "The Age of Reason"; it was an old-time book, and maybe Bunny had heard of it. Bunny never had; but naturally he resolved to find a copy, and read it, and tell Ruth all that was in it.

He went back to his father, and poured out his indignation; but Dad took much the same view of the matter as Ruth. Of course it was a shame for a child to be whipped for trying to get knowledge, but old Abel Watkins was the boss in his own family, and had the right to discipline his children. Dad said he had heard of the book; it was by a famous "infidel" named Revolution. Dad had never read the book, but it was easy to understand how Mr. Watkins had been outraged by it; if Paul was reading such things, he had surely traveled far.

Bunny couldn't rest there; it was too horrible that Ruth should be beaten because she tried to use her mind. Bunny kept talking about it all afternoon, there ought to be a law to prevent such a thing. Dad said the law would only interfere in case the father had used unusual and cruel punishment. Bunny insisted that Dad ought to do something, and Dad laughed, and asked if Bunny wanted him to adopt Ruth. Bunny didn't want that, but he thought Dad should use his influence with the old man. To this Dad answered, it would be foolish to try to reason with a crank like that, the more you argued the more set he would become; what influence Dad possessed, he had got by pretending to agree with the old man's delusions.

But Bunny wouldn't drop the subject-Dad could do something if he would, and he absolutely must. And so Dad thought for a bit, and then he said: "I'll tell you, son; what you and me have got to go is to get a new religion." Bunny knew this tone -his father was "kidding" him, and so he waited patiently. Yes, Dad said, they would have to elaborate the True Word; they must make it one of the cardinal points in this Word that girls, were never to be beaten by men. There would have to be a special revelation, jist on that point, said Dad; and so Bunny, began to take an interest. Dad asked him questions about Paul, what Paul believed, and what Paul had said about Ruth, and what Ruth had told him about herself. Bunny realized that Dad was going to try something, and he waited.

They shot some more quail, and came back and built a big camp-fire, and had a jolly supper, and then Dad said. "Now let's go start that there religion." So they strolled down to the cabin, Dad in deep thought, and Bunny on tiptoe with curiosity—for you never could tell what Dad would do when he was in a mood of mischief. Well, old Mr. Watkins invited them cordially to come in; and Sadie and Meelie gave up their chairs and sat on a box or somemeans loss of jobs to over 100,000 thing in a corner of the room. It was the first time that Bunny Massachusetts workers in the three. had been inside the Watkins' home, and it gave him a shuddering sense of poverty. It was bare boards inside, the same as out; there was a big, unpainted table, and six unpainted chairs, a few shelves with crockery, a few pans hanging on the wall, and a was general and not confined to any stove that rested on a stone where one leg was broken. That was everything, literally everything—save for a feeble kerosene lamp, which enabled you to see the rest. There were two other rooms to the cabin, one for the husband and wife, and the other for the three girls, who slept in one bed. Attached to the back of the house was a shed with two bunks against the wall, the top one occupied by Eli, and the other vacant, a reminder of the sheep that had strayed.

Eli was in the room, having come back from his expedition. Eli was now eighteen, and had attained the full stature of a man: also his voice was that of a man, except that now and then it cracked and went up in a way that would have been comical, if anybody that listened to Eli ever had a sense of fun. Just now 41.7 per cent of the workers were on he was telling his parents and wondering sisters how the Holv Spirit had blessed him again, the shivers had seized him, and old Mrs. Puffer had been instantly relieved of her pains. Mr. Watkins said "Amen!" three or four times, very loud, and then he turned to Dad, remarking, "The Lord blesses us in our children." Dad said yes, that was true, possibly more true than they knew; he asked, had Mr. Watkins ever thought of the possibility that chinery and woolen goods industries. the Lord might send a new revelation into the world? A Priestly Strike

When over three million of British workers downed tools in aid of the miners, Cardinal Bourne, agent of the vatican in England, denounced their action as immoral and called on them in the name of his god and under threat of eternal damnation to return to work. They were in rebellion against their king, he said.

The worst that can happen to them now is to incur the wrath of the Wall Street bankers, run into a counter-revolution fomented by the pope or to see the republic invaded by the American imperialists, with the blessing of the catholic hierarchy in America and the vatican.

And this is the punishment the catholic church has in mind for the government of the Mexican republic. The pope has never of our party, makes always its job to relinquished the idea of regaining the temporal power lost to the explain to the workers the need of vatican when Luther nailed up his famous theses on the door of a class solidarity. But it would rather have the task of being spiritual stevedore for Wall Street than be tolerated by the radical petty bourgeois Mexicans who control the government of that country.

Is the Press Subsidized?

The Chicago Tribune of July 23, asks this question and our every worker ought to do. However, reply is a loud "yes."

The Trib, needless to say, did not have The DAILY WORKER party that think that riding on the in mind, but we could not live without a subsidy any more than could the Trib.

We are subsidized by the dimes and nickels of the workingclass. Sometimes they only give us pennies.

The Tribune is subsidized by the millions of dollars spent yearly manufacturing, commercial and transportation interests. The of New York in general to abstain

same is true of all other capitalist papers. Whenever those interests have a struggle with their employes, the sheets that live on revenue from their advertisements naturally take their side against the workers. When an accident occurs in the hood," which is fighting the strikers. large Chicago department stores, the dailies hardly ever mention it

in their columns. It might hurt business. The Tribune suggests that the senate committee investigating primary campaign expenditures in Illinois, should probe into charges that newspapers are subsidized by one or the other side of the prohibition issue. Some evil spirits circulated the rumor that the aims at organizing all the I. R. T. Trib was taking money from the wine growers of France in return for singing the praises of light wine and beer. The Trib thinks it is only fair to the press that those charges should be included helped within the scope of the slush quiz. It is willing to submit to the senate committee's dissecting knife in the interests of political

hygiene. All of which is the bunk.

What the Tribune wants is publicity and increased circulation. It does not have to accept bribes from the drys and the bootleggers on one side or from the wets on the other. It gets its subsidy from its advertisers. The advertisers pay rates in proportion to the circulation of the advertising medium. Therefore a paper, that lives on such revenue will use any means to jack up its circulation. The Tribune flays prohibition because it caters to a territory that is greetings, more wet than dry; it used columns of space telling about the Eucharistic congress because the catholic church is a powerful political organization and also well represented in business life. This Textile Workers to policy brings both circulation and advertising revenue.

One subsidy is as good as another. Money is money.

With the bankers, business is pleasure. Commuting between the United States and Europe on palatial liners is not exactly disagree able work.

The surprising thing is that the capitalists do not become demoralized thru luxurious living, the the workers are constantly told that it is better for them to live frugally, and guard against enervating poison of idleness.

Nevertheless, capital will still endeavour to make fresh attacks on the working cass, for it feels insecure and it cannot fail to feel the need of steadying itself The task of the working class and of the Communist Parties consists in preparing their forces for warding off
