223.25 Contributions Dec. 20..... TOTAL \$26,065.50 Mrs.Kahn of California

By C. E. RUTHENBERG, General Secretary, Workers (Communist) Party.

THE contributions for the Keep The DAILY WORKER certificates dur-ing the week ending December 18 amounted to \$1,354.08. The week of December 11 showed contributions of only \$803.30, so that for the last week there was an increase of over \$500 in the amount of the weekly

WE MUST CONTINUE AND INCREASE THE AMOUNT OF WORK DONE IN SUPPORT OF THE KEEP THE DAILY WORKER CAMPAIGN IN EVEN A GREATER RATIO THAN SHOWN BY THESE FIGURES.

The end of the month of December is approaching and The DAILY WORKER has again faced accumulated and heavy obligations. It will require \$3,000 of contributions to the Keep The DAILY WORKER fund in addition to the regular income of The DAILY WORKER to meet these

Altho we have been carrying on the campaign for the \$50,000 fund to Keep The DAILY WORKER for three months, we have only railied half the strength of the party to the support of the campaign. That is shown in the fact that on the average only one out of every two party members have raised the \$5.00 quota of the Keep The DAILY WORKER Fund which they were asked to raise.

CAN WE DEPEND UPON THE OTHER HALF OF OUR PARTY MEMBERS-THOSE WHO HAVE AS YET DONE LITTLE OR NOTH-ING TO KEEP THE DAILY WORKER-TO NOW TAKE UP THE JOB OF CARRYING FORWARD THE KEEP THE DAILY WORKER CAM-PAIGN TO A SUCCESSFUL CONCLUSION?

To raise \$3,000 during the balance of the month means that sixty comrades must raise or contribute their \$5.00 daily.

On December 10 we published a statement showing that 4,800 members had contributed on the average \$5.00 each and that 5,200 were still to be heard from. Today the figures are reversed, 5,200 have contributed on the average \$5.00 each and 4,800 are still to be heard from.

WE ASK 600 OF THESE 4,800 TO CONTRIBUTE OR RAISE \$5.00 FOR THE KEEP THE DAILY WORKER FUND BY THE END OF THE MONTH OF DECEMBER.

WE MUST RAISE THE \$3,000 WHICH WILL BE CONTRIBUTED BY THESE 600 MEMBERS TO KEEP THE DAILY WORKER! START THE BALL A ROLLING.

CUT-JINGO WAR Total Contributions to Dec. 18....\$25,842.25 AND NAVY FIENDS Wants More Guns

(Special to The Daily Worker)

WASHINGTON, Dec. 21 .- The three congresswomen, Reps. Kahn (R) of California; Norton (D) of New Jersey and Rogers (R) of Massachusetts, have joined forces with the "big navy" jingo group in the fight over naval appropriations. Each expressed the usual hope that there "will be no more war" while at the same time they expressed sentiments sure to be highly applauded by the aged butchers in the war college.

Charge Coolidge Is Betrayer.

WASHINGTON, Dec. 20.—Charges that President Coolidge "betrayed" the house naval affairs committee in his "bargain" with Chairman Butler on the construction of warships produced a sharp concussion in congress. Coolidge talked Butler into virtually endorsing his stand against construction of more ships at present by promising to consent to "authorize" the construction of ten 10,000-ton cruisers,—provided that the present congress refrain from appropriating any money for the building of the three cruisers

NEGRO CONGRESS HERE **MAKES STRONG PROTEST** AGAINST POLICE RAIDS

Strong protest against the indiscriminate arrests of Negroes and wholesale raids on homes and places of business in Negro districts by Chicago police was registered by the Chicago branch of the American Negro Congress at its meeting Sunday. The police raid staged last Wednesday on the south side in which some 500 were arrested as "suspects" in the slaying of a policeman, and in which homes were broken into and other outrages committed, prompted the action of the congress.

A resolution was drawn condemning the action of the police department in this raid and similar ones and demanding that such conduct cease. Copies of the resolution, together with a strong letter from the organization, are to be sent to the mayor, police chief and councilmen.

Wednesday's raid on the south side was one of the most vicious committed by the police here and city-wide protest has been made against such taction

It was more as a matter of form than an election. At the nomination session of the executive board, held last Tuesday, Dec. 14, M. Berson, Helen Kaplan, I. Violate Constitution.

The constitutional requirement for any member to run for office is that they be in the organization for one year in good standing. This they possessed. The board could not reject them on constitutional grounds, so they went into questioning them repaternal. Also as to their knowledge of the joint board rules governing the issuing and distribution of literature. This failed to bring out sufficient cause to prove that they should not be on the ballot. Finally they demanded that they sign a statement that virtually calls for a blanket endorsement of the present administration, its policies and tactics, and calls for a repudiation of the progressive group and its program. This they refused to do. First, because on constitutional grounds. The constitution does not provide for a member who is a candidate for any office to sign statments; secondly because these members are opposed to present administration and its policies. Particularly did they refuse to en dorse the administration's conduct of the last few days-in breaking up meetings that were called to discuss amalgamation and the assistance of the New York striking cloakmakers.

The executive board, disregarding the constitutional provision, refused to place these members on the ballot on the excuse that they refused to sign these statements. The removal of these candidates assured the administration a 100 per cent victory in this election.

Sixty-two workers stamped their feet and swung their arms on the bleak wharf in the North River district yesterday waiting to be transported across the bay to the oil refinery at Edgewater. The Linseed King hove up to the wharf and the PR men jumped aboard, filling the small single entranced cabin to capacity while others were forced to crowd the limited deck-space. As the launch pulled away from the wharf, three or four men made leaps that barely brot them over the low gunwhale to swell the over-crowded deck.

(Special to The Daily Worker)

NEW YORK, Dec. 21.-Working hand in hand with the Sigman right wing in the cloakmakers' union, the arbitration board of the governor's commission, to which the international officialdom referred the question of the New York garment strike over the heads of the strike leaders, has settled every disputed point favorably to

Rebukes Lefts.

The arbitration board itself revealed its hand when it took the liberty of rebuking the left wing strike leadership and referring to the "long and costly strike." With Sigman, the arbitration board entirely ignores the fact that only because of the hard-fought strike are the employers now making the concessions that the New York cloakmakers walked out to enforce.

Sigman, thru the capitalist press, is naking much of the award and referring to it as a signal achievement for the cloakmakers' international and "victory for sane unionism." A meeting of the Sigman supporters ratified the award on Monday night.

There are 432 members of the union now in the employ of the city, and they filed with the commissioner a new wage agreement, calling for an average increase of \$14 per man. The city has refused to sign the agreement. Now comes the threat to negotiate with a private company to take over the work of maintenance. The supply of electrical current is not involved, as that is already supplied by the sanitary district.

"It is at the bottom a scheme to eliminate a large number of old employees, under the civil service, who are getting toward an age when they would be retired under a pension," said I. Knott, organizer for Local No 9. "A good many of the younger men in the union would undoubtedly be retained by any concern that took over the work for the city, but it means 'pay day' for a lot of the old man. Job Fight Breaking Up Wreck of Nonpartisan League in North Dakota

By J. LOUIS ENGDAHL.

DISINTEGRATION is rapidly developing in the Frazier-Nye-Sorlie wing of the republican party in North Dakota, just as it is destroying what is left of the LaFollette movement in Wisconsin.

The biggest shattering factor is the struggle for jobs, with every loyalty to principle thrown completely overboard.

In Wisconsin the LaFollette movement, under the "Bob" LaFollette-Blaine leadership, commonly dubbed "the Madison gang," has scuttled the middle class LaFollette program, with which it attracted worker and farmer elements, and has put place-seeking first upon the order of

The same is true in North Dakota that gave Gerald P. Nye to the United States senate as a non-partisan league senator. Nye has not startled the nation with any fight for the workers and farmers. He revealed his real political character. however, when he descended on Coolidge in the White House and demanded he be allowed to appoint the United States marshal for North Dakota as part of his political machine.

After the death of the elder La-Follette, the LaFollette family made its alliance with Governor John Blaine. It was a compact based on the distribution of jobs. "Bob" La-Follette, Jr., was to be allowed to fill out the unexpired term of his father. Blaine was to be promoted to the senatorship, thru the defeat of Lenroot this year. The program thus far was carried out to the letter. The break came over the governorship. Fred Zimmerman, secretary of state, originally a LaFollette follower, broke with "the Madison gang," came out as candidate for governor and defeated the La-Follette-Blaine candidate, Attorney General Ekern. The result will be that the foe of "the Madison gang," Zimmerman, will occupy the governor's chair in Madison next month while LaFollette and Blaine are marooned down in Washington, far from their home political fences. It is not difficult to foresee the disaster that will overtake those fences.

The divisions within the Frazier-Nye-Sorlie section of the republican party in North Dakota, that styles itself the nonpartisan league, are also based on the senatorship fight, forcing civil war between the Frazier and Sorlie factions. The senatorship is a much more desired plum than the governorship.

Both Frazier and Nye have always considered themselves republicans, but they spread their nonpartisan league sails to catch the discontent of the farmers with the republican rule of the bankers, landlords and grain gamblers. If the protest had been strong enough and crystallized itself ultimately in a farmer-labor party, they would doubtless have gone along, only to betray the movement at the most propitious mowas as expected.

capitalist system.

The Minnesota farmer-labor party has had its many experiences with similar elements. It will be compelled to do battle against these disruptionists and betrayers in the future, many times.

An encouraging note for independent political action is sounded, however, in Minnesota, in the call for the farmer-labor conference to be held at St. Paul, Jan. 17-18. It is declared:

It is significant that the name of the farmer-labor senator from Minnesota, Hendrik Shipsted, who is charged with succumbing to the wiles of the Coolidge administration, does not appear upon the list of those signing the conference call. The statement that the Minnesota

freed of "political traders and selfseekers" is somewhat overstated. Such elements flock about every movement of protest like flies around a sugar barrel. Rather should the city and land workers in Minnesota pride themselves on the fact that they have been fairly successful in combatting such elements in the past and resolve to do even better in the future. The Minnesota experience should help teach the workers and farmers in Wisconsin, North Dakota and other states, where splendid opportunities await the struggle for the independent political action of labor.

Another heinous crime has been added to the list committed by scions of wealthy Chicago families by Harold J. Croarkin, who has confessed to killing 6-year-old Walter Schmith in a riding stable here at 2100 Devon avenue. Croarkin is the son of a wealthy loop flour broker.

A striking similarity between the murder of the boy by Croarkin and the murder of Bobby Franke by two other sons of rich Chicagoans, Leopold and Loeb, is seen.

Croarkin has confessed to enticing little Walter into the stable barn and forcing him to submit to indecent attentions. He said he struck the boy with a hammer and killed him to prevent him from telling of what hap-

ment. Four years ago, in Washington, at the first conference of the people's legislative league, organized by the late Senator LaFollette, I asked Senator Frazier what he thought of the prospects of the farmer-labor mevement in North Dakota. "Let us wait and see," was his answer. The late LaFollette, himself, took practically the same position, yet it was he who issued the statement in June, 1924, bitterly attacking the national farmer-labor movement. The period of waiting had come to an end and the action taken In North Dakota, as in Wisconsin, the LaFollettes and Blaines, the Fra-

IS GARIBALDI A BRITISH SPY?-IS LONDON QUERY

The Sunday Worker Unravels Secret Skein

LONDON, Dec. 5.—(By Mail.)— In the current issue the Sunday Worker, left-wing labor weekly, asks the question, "Was Garibaldi a British Spy?" in connection with a story from its Paris correspondent who has been closely following the examination of the grandson of the Italian liberator, Ricciotti Garibaldi on trial in the French capital for complicity in fascist plotting against France.

The correspondent writes:

Hidden Things. Among the many hidden things

the French paper "Humanite," to which I am able to add some details, the reason why the case has been so much hushed up of late, after filling columns of all the papers every day, has as much to do with the interests of Great Britain as it has with those of Italy or France.

The first indication of this was given in a letter published by the president of the Italian League for the Rights of Man, which bluntly asserted that, in addition to taking money from the Italian revolutionaries for fighting Mussolini, and from the Italian police to betray the Italian revolutionaries, Riccioti Garibaidi was in the pay of another power.

At first this was taken to mean France. But, altho Garibaldi is said to have had half a million francs from the French war office under the Herriot ministry, it is generally admitted that this money was in settlement of a claim for repayment of expenses allexed to have been incurred in founding the Garibaldi legion which fought for France during the war. Madame Della Ross.

Then a series of facts came to light. It was discovered that, thru his mistress, Madame Della Rosa, Garibaldi had been in touch with Procope and Latapie, two Frenchmen lying in jail on a charge of having double-crossed the French intelligence service and worked for a foreign power. It was further recalled that Madame Della Rosa has for the past ten years been under observation by the French counterespionage department as a British secret agent.

The head of the French counter-espionage service, Colonel Laine, with one of his principal assistants, the one specially affected to watching the doings of the British secret service in Southern France, M. Louis Duoloux, journeyed to Nice to investigate the

The result of their inquiries, and of additional searches made at the villa cans of their property rights under where Garibaldi and Madame Della Rosa lived together, was conclusive enough to prove, I am told, that Garibaldi had been employed by the British secret service.

No Charge Lodged. It might have been that the grave charge of espionage for Britain would have given a serious turn to Mexico for an extension of time in the whole affair; that Madame Della Rosa would have been immediately arrested, that a formal charge of espionage would have been lodged against her and Ricciotti Garibaldi. and that both his brothers would have been subjected to close investigation,

Seek New Conference London Disinterested

(Special to The Daily Worker) NEW YORK, Dec. 21.-Voicing a plea that existing settlements on the payment of war debts to the U. S. e adjusted and that a new international conference be called to consider the entire problem, the political science department of Columbia University has issued a "manifesto" at tacking the government's foreign debt policy. It was signed by 42 mem bers of the department.

Settlement Unsound. "The war debts settlements are un sound in principle and have created grievance against us," say the pro-

essors in their statement. The United States had its own reasons for entering the war, they said, and much of the money loaned to foreign governments was used to help America for relief supplies after the win the "United States' war."

Complete cancellation of the debts s not urged, the professors said, but they feel there should be complete reconsideration in the light of present knowledge.

Britain Not Interested.

TT may never have occurred to our - readers that cannibals did not eat human flesh because they were possessed of the devil, but simply because they must have meat, and this was about the most accessible source of supply. Having developed a taste for his delicacy, the cannibals became addicted to the habit, just as some people cannot break away from the rather unseemly habit of smoking tobacco, yea, even chewing the weed. The powers of resistance of the cannibals were progressively weakened by the appearance of missionaries, on whom the cannibals looked as "their meat." So they continued to eat missionaries until they all died of alcoholism. That solved the problem.

THE missionaries, naive things, thought they could divert the heathens from their evil ways by pumping christ into their hearts. Before the message had time to sink into the heathen the heathen's teeth isually sank into the anatomy of the missionary. Thus they got religion in chunks. This situation confronted the missionaries with a serious problem. which they solved by first giving the neathen a hot meal, a drink out of a bottle and then a sermon. It worked like magic. Those reflections were provoked by a story that appeared in the papers of two christians who went on a fishing trip, only to be blown out to sea by a storm. American Capitalist In Philippines Gets New Anti-Freedom Idea

NEW YORK, Dec. 21 .- A new line of attack is being made against granting independence to the Philippine Islands. George H. Fairchild, owner of large sugar producing plantations in the islands, leading member of the anti-independence chamber of commerce of Manila, has come out with the theory that congress has not the power to grant independence.

Fairchild quotes some ancient rec ords of debates which he says took place at the constitutional convention of Virginia in 1788 to ratify the constitution, tending to show, he claims, that our "fathers" refused to delegate the power of alienating a territory to congress. Fairchild says that because of this congress has no power to alienate the Philippines. He maintains that the states alone have

FACTIONAL STRIFE IN HUNGARIAN FRACTION IS DONE AWAY WITH AND ORGANIZATION HARMONY IS GAINED

NEW YORK, Dec. 21.—The convention of the Hungarian fraction, held here, was an important step towards the unification of our party. Altho the struggle within the Hungarian fraction was on different issues than the one formerly within the party, nevertheless it was connected with the process of Bolshevization we are undergoing now. The minority, consisting mostly of comrades with social-democratic tendencies and tradi- the unorganized steel, textile, rubber, tions, presented besides a wrong attitude on political questions a certain resistance to centralized leadership, to the absolute party control in outside organizations. This was especially dangerous in the fraternal organization of 5,000 members, where the minority wanted to use its control of the executive board as a club against the party leadership. The personal abuses, the reckless factionalism, which almost threatened with a split, made the situation intolerable.

153 Miners Injured Within Twenty Days

By a MINERICH.

ZEIGLER, Ill.-There were 153 miners injured in the Zeigler mine of the Belle and Zoller Coal Co., in the first 20 days of August, 1926, according to the coal company reports. Two of these injuries proved fatal.

This report that 153 were injured means that one out of every 15 miners got hurt in 20 days.

Now what is the cause of all this? It is a question that the Zeigler miners can answer. The Zeigler local was one of the most progressive in Illinois a few years ago. Under the leadership of Henry Corbishley the miners had built up a good local and had won fairly good conditions in the mines.

But the coal companies, together with the Ku Klux Klan and the reactionary leadership of the subdistrict, in the persons of Lon Fox, D. B. Cobb, and Loden, decided to get rid of the militant leaders. So there came the now famous Zeigler frame-up case, and the combination scored against Henry Corbishley and the other progressives. Every miner knows the

The Zeigler miners, too, know the result. Conditions are very bad. They are so bad as to mean the injuring of 153 men in 20 days.

Firestone Workers Must Organize, Too

AKRON, Ohio-The following leter has been sent to the Rubber Worker, labor paper in this city, by worker in the Firestone plant:

Rubber Workers Must Organize. I am interested in the organization of the rubber workers. I read your paper, the Rubber Worker, and think t just fine, for it upholds the very thing that I am interested in. I am a steadfast union man, having belonged to the United Mine Workers. But I want to say that I never worked in an industry that needed a union as badly as the rubber industry.

I have worked in the rubber shops of Akron for nearly 2 years, and I can truthfully say that I've never worked any harder than I have here for such wages. All you hear is "speed and more speed." This has become so familiar that if one talks union to the men they say, "Aw, that's not fast enough for me." This they say more by mere force of habit.

I am willing to do a good day's work, but I want a fair wage, but it seems that you can't get the wage in an unorganized shop. Gives Him Flowers.

Upon the opening day of the supefor court session, at which Thayer presided, this legal body presented a basket of flowers to him which elicited from Judge Thayer, a speech of thanks couched in fine phrases, which, stripped of all euphony, amounted to pledge to the open shoppers of Massachusetts that he will keep the faith and push Sacco and Vanzetti on to the lectric chair.

The gathering of the Worcester county, Bar Association was scheduled to be a demonstration counter to hose in behalf of the victims of the open shoppers' wrath. The sponsors of this affair admitted that this gathering was held in order to counteract the recent mass-demonstration on behalf of Sacco and Vanzetti in Madison Square Garden, New York, under the auspices of the Sacco-Vanzetti emergency conference.

Democracy in "Dixieland"

4,300,000 Negroes are disfranchised in southern states.

This fact is now in the records of the United States senate and it is no longer possible to gloss over this shameful suppression of the racial unit which does the hardest, dirtiest and most necessary work in "Dixieland."

The details are at hand. They have been exposed as a result of one of the internal struggles of American capitalism and Negro organizations, aided by the labor movement, should make known to all the world the denial by force to the supposedly free members of the Negro race of the elementary right to take part in local, state and national elections—a right that is possessed and exercised by the millions of mentally unfit white persons over 21 years of age.

According to statements made in the senate on Monday, and to which no denial was made, Alabama has disfranchised 400,000 Negroes; Arkansas, 300,000; Florida, 200,000; Georgia, 600,000; Louisiana, 300,000; Mississippi, 300,000: North Carolina, 200,000; South Carolina, 350,000; Tennessee, 400,000; Texas, 800.000, and Virginia, 450,000.

It is 61 years since the Civil War ended, yet Negroes in the southern states are not citizens. They are ruled by a hostile race and class against whose cruelties they have not even the right of protest by ballot. They are robbed, tortured and murdered with still less pretense of legality than prevailed in the days of feudalism.

The magnificent periods of the capitalist and official labor spokesmen, the sonorous tributes to American democracy, the flagwaving and patrioteering, are meaningless enough to the white working class of this country, but they are pure truths to them compared to the total lack of their practical application to the life of the southern Negro masses.

The American labor movement cannot hold up its head as long as this condition prevails. Still more to its shame is the fact that it still supports the candidates of the democrat and republican parties who—except when the rivalry for one reason or another is more H than usually intense—have a "gentleman's agreement" to say noth-er-employer-union-management co-op- workers' demands have been ing whatever about the submerged 4,300,000.

The New Drive on Militant Trade Unionism

ARTICLE VI. By WILLIAM F. DUNNE.

THE dangerous doctrine which right wing leadership and capitalist spokesmen join in preaching is our old enemy, "identity of interest of labor and capital," now put forward as worker-employer co-operation," or in a still fairer guise as "union-manage

ment co-operation.' In the December issue of the Amercan Federationist, an editorial by President William Green entitled. Company Unions" (in which the head of the trade union movement puts forward reasons why capitalists should deal with the trade unions rather than form company unions) makes the following statements:

Introduction.

THE purpose of these articles is to show by documentary evidence, whose authenticity no one can impugn, that the campaign against all progressive tendencies in the labor movement which was launched at the A. F. of L. convention in 1923 has entered a new phase in which there is a more open combination than ever before of the trade union officialdom, the capitalist press, the employers and the government.

It will also be shown that the main motives which prompt the intensified attack, centering first on the Communists and second on the left wing, are (1) the desire of the capitalists to suppress all struggles which interfere with the development of American imperialist prosperity and either destroy the trade unions or force them to a general dead level of docility, (2) the desire of the trade union officialdom to force on the unions a policy which will make of them the docile or ganizations which the capitalists will accept, (3) the desire of both the capitalists and their labor agents to drive the Communists out of the unions and destroy their influence in the labor movement because they are the most conscious and best organized exponents of fighting unionism who are trying to rally all workers for struggle on a program of immediate and necessary demands.

Finally, these articles will show that the policy of the trade union officialdom, of which the latest attack on the left wing is a logical result, is based on one phase, and one phase alone, of American capitalist development, i. e. its present temporary upward swing, and that because of this neglect of other fundamental factors, can bring nothing but disaster to the labor movement.

The more "successful" this policy is, i. e. the more endorsement it receives from the masses now, the more disastrous will be the ultimate result. The Communists and the organized left wing therefore are fighting the battle of the whole working class when they resist to the utmost the new offensive of the combined forces of American capitalism which, in the period of imperialism, include with some minor exceptions the whole bloc of trade union officialdom.

had demanded an increase of 20 per cent especially when we take into consideration the fact that rallway profits for this year are estimated in round figures at \$1,380,000,000.

THE garment workers secured an increase of \$3 per week and in addition a reduction of hours from 44 to 42 for the first half of the life of the agreement and a 40-hour week for the last half. Neither are the garment workers bound to any arbitration scheme—the union has retained its freedom of action.

For a trade union this is funda

We see that The Times' estimate of the two events is sadly lacking in veracity. The garment workers, even tho led by the left wing to "an admittedly disastrous defeat," did considerably better than the trainmen and conducors in spite of the privileges granted these key workers by an anxious imperialist system.

BUT The Times is, like the official trade union leadership, concerned with "peace in industry" and "partnership in industry." Cassius-like, it pretends friendship only to stab. As we have seen, The Times professes to be worried greatly by the dissension in the union, but its greatest grief is reserved for the passing of the submission of the New York Joint Board to the governor's commission. It says:

The principle of arbitration, and beyond that, of CO-OPERATION FOR THE PROMOTION OF PEACE AND THE WELFARE OF THE IN-DUSTRY, SEEMED TO BE WELL ESTABLISHED. . . . A noteworthy advance had been made TOWARD THAT PARTNERSHIP IN INDUS-TRY WHICH UNDERLIES THE SANEST THOUGHT among both employers and workers.

WE can be certain that The Times will agree that the "sanest thought" in this direction among employers is voiced equally well by President Green.

The Times is for "partnership in in dustry.'

So is the American Federationist. Both publications, one typically capitalist, the other typical of the official trade union press, denounce the Communists and the left wing because with the attempt of The Times, in they warn the workers of the danger which it is not alone by any means, of the policy expressed in this phrase and organize them for a policy of

Bunny also was loaded up with answers to all possible exam questions, and ready to get back and unload them on his professors. Dad had run down to Toronto, and signed the last of the papers for his Canadian corporations; he had telegrams from Verne almost every day-the strikers, having held out for nearly four months, had learned their lesson, and the Federal Oil Board had written them a letter, advising them to go back to work as individuals, and promising there would be no discrimination against union men-

Then one day the steamer brought a telegram signed Annabelle, addressed to Bunny, and reading, "Spring lamb for dinner, come on home." He explained what that meant, the strike was over; and so the occupants of the camp packed up, and Mr. Appleton Laurence went back to his fair Harvard, with woe in his heart and a packet of immortal sonnets in his suitcase, while Vee and Dad and Bunny and the secretary made themselves luxurious in compartments on a Canadian-Pacific train bound west.

Bunny passed his examinations, and was duly established as a "grave old senior" in Southern Pacific University. And then he hunted up his friends-and such a load of troubles as fell onto his shoulders! Literally everybody had troubles! Rachel and Jacob Manzies had come back from their summer's fruit picking, to find their two younger brothers, the "left wingers," in the county jail. The police had raided a Communist meeting and arrested all the speakers, and the organizers, and the literature sellers, and all who had red badges in their buttonholes. They had raided the Communist headquarters -determined, so the newspapers announced, to root every Moscow agent out of the city. They had sorted the prisoners, and fined a few, and were holding the rest, including the Menzies boys, under that convenient universal charge, "suspicion of crim-

These foolish boys had made their own trouble, said Rachel; but still it was an outrage to arrest people for their beliefs; and it was tormenting to think of your own flesh and blood shut up in those horrible Bunny asked the bail-i was two thousand dollars pe brother. He began explaining his troubles with his father, and his own impotence: and Rachel said of course, she understood, they couldn't expect him to bail out the whole radical movement. And yet that did not entirely restore his peace of mind.

Then Harry Seager, whose business college was on the rocks. The boycott had wrecked it, and Harry was trying to sell the debris. He was going to buy him a walnut ranch; it would be harder to boycott walnuts, you couldn't tell the "red" ones from the "white"!

And then Dan Irving, whose fabor college was in almost as bad a way The orgy of arrests had frightened the old line labor leaders completely off. The college was still going, but it was in debt, and the head of it hadn't had any salary for several months. Bunny wrote a check for two hundred dollars, and went away debating the question that never would be settled-to what extent had he a right to plunder his father for the benefit of his father's ene mies?

From Irving he learned that Paul had got out of jail, and was in Angel City, together with Ruth. It was a dirty deal the oil workers had got said Don; the operators had made one last use of the oil board, to trick the men into a complete surrender. They had promised the oil board there would be no discrimination against union men, but they had never had the least intention of keeping this promise. They had kept all the strikebreakers at work, and taken back just enough of the strikers to make up their needs. All the active union fellows were begging jobs, and the oil industry was a slave-yard of the "open shop."

By EDITH RUDQUIST.

Among the several proposed anti-alien laws the most drastic and farreaching is undoubtedly the Aswell bill. It is an attempt of the American Such deception is possible only if farmers and workers still employing class to catalogue and classify into particular categories the millions of foreign-born workers now in America and to militarize them, or, as it is mildly stated in the bill, registered aliens are "to report at such times and such places" when "in the judgment of the president, the interests of the national defense so require."

But it is not generally known that the bill is also an attempt to prevent immigration into America of persons undesirable to the American employers; that it would necessitate the establishment of a system of checking up

itical and union activities before a visa is issued; that it would provide a method of importing foreign labor to the resources of his state and the opower wages, to break strikes or for ity where America has a consulate; of the industrial interests. Break Down Safeguards.
