WORKERS
OF THE WORLD,
UNITE!

Demand Release of Nessin, Leales and Stone

CHIEF Tammany Magistrate Corrigan, acting as the tool of the New York bosses, is trying to put over a "clever" railroad job in the case of Sam Nessin, Robert Leales and Milton Stone.

When the cases of jobless delegation, which included also J. Louis Engdahl, Anna Pogribsky and Freda Jackson, came up in his court, he divided the defendants into two categories. The first group—Engdahl, Pogribsky and Jackson—charged with disorderly conduct, he dismissed.

But this was only to create an illusion of "fairness," so that the sentences planned for Nessin, Leales and Stone would appear to be unprejudiced and justified by the fake evidence brought forward by the Tammany thugs, Mayor Walker and other members of the Board of Estimate, where the jobless delegates had presented the demands of the 800,000 unemployed workers.

These men are now charged with "unlawful assemblage" for attending a "public hearing" called by Mayor Walker. This might appear to be funny! But, because they went before the Board of Estimate and demanded that the budget provide funds from which immediate relief could be paid to the jobless, and because they showed up the grafting practices of Walker and the Board members, they were first murderously beaten, and now charged with having come to the "public hearing" for the purpose of starting "trouble."

It is plainly an effort to cover up the vicious attacks of the police, to smother the demands of the unemployed and to railroad Nessin, Leales and Stone to prison as they did Foster, Amter, Miner and Raymond Workers! Stop this move against the jobless delegation! Rally at Judge Corrigan's court this morning! Demand that Nessin, Leales and Stone be freed!

Fight the Vagrancy Laws!

TWENTY-THREE jobless men were yesterday sentenced in New York City to thirty days in the workhouse. Their "crime" was that they were jobless, penniless, hungry and cold. They were charged with having "no means of supporting themselves" and with "loitering" in a ferry terminal building, where they had gone to sleep after finding the city parks too cold.

These men had no previous police record. It is admitted that they "had been driven into the terminal because of the chill in the air, after unsuccessfully having sought employment during the day." Yet Magistrate Murphy, who was recently appointed by Mayor Walker (probably for a consideration), ordered that these men be fingerprinted and committed to the Tombs for thirty days.

This action in New York City is typical of what may be expected in all cities. It is an effort to terrorize the jobless, to destroy their fighting spirit. The bosses expect that after thirty days in their vile prisons, these workers will come out prepared to peacefully starve or freeze in the streets.

But they are mistaken! Such criminal acts as this will only arouse the fighting spirit of the workers. The workers of New York will rally at Union Square before Tammany Hall on November 3rd to fight against these vagrancy laws and for immediate unemployment insurance! Under the leadership of the Communist Party the masses will fight to the last ditch!

Hokum! But No Jobs!

MUCH hokum is being peddled these days about "unemployment relief." At daily press conferences, Hoover's "hunger commissioner," Woods, is dishing out "statements," "promises," "pledges," "prospects"—all hooey—by the bale. Able assistance is given by hundreds of local underdogs who spring up like mushrooms. Administration "critics"—democratic, "socialist" and farmer-labor—have added their bit. The result?—tons of newspaper consumed on what will be done—but, so far, not one tangible act to relieve the suffering of the unemployed now!

Thousands of workers, of course, have been fooled by this unprincipled propaganda. Many believe that behind this continuous talk there are real jobs which will soon be handed out. This will cause many of these workers to again be fooled into supporting capitalist politicians—their class enemies—on November 4th. But these lying promises made now to the starving jobless workers will prove to be a boomerang before spring. Hoover's "hunger commission" has no jobs! It is only playing politics with the misery and suffering of the workers. This is what today's press reports state:

"Colonel Woods, in his daily conference with newspaper men, asked them to spread the news that HIS COMMISSION IS NOT ORGANIZED TO PROVIDE INDIVIDUALS WITH EMPLOYMENT." This request was based upon the receipt of thousands of letters asking for jobs."

Colonel Woods is correct. His commission "is not organized to provide individuals with jobs." It is organized to fool the workers, to prevent them from fighting for immediate unemployment insurance.

But these illusions, as Woods and the higher-ups will learn, are only temporary. Already on November 4th there will be a big increase in the Communist vote, and from November 4th on, as the workers see through Hoover's fakery, great numbers of workers will rally around the Communist Party to carry forward the fight for the Unemployment Insurance Bill, against wage cuts, and against lynchings and police terror.

The Policeman's Billy

COLONEL ARTHUR WOODS will fool the workers as long as he can. He knows, however, that "promises" will not feed the hungry and starving. He knows that sooner or later he must either supply food, clothing and shelter, or be prepared to quell the mass demonstrations of the workers for bread.

He has no intentions of supplying bread, because to do so would necessitate cutting into the bosses' profits and wealth. His experiences as New York's police commissioner has taught him, therefore, that he must prepare for war against the workers.

Instructions to this effect have already been passed down. Hoover sent instructions to all Governors to prepare the National Guard to quell the bread "riots" of the unemployed. Similar instructions have been sent to the police departments. In New York City the Board of Estimate has just provided for the addition of 600 men to the police force. From Chicago comes the following Associated Press dispatch:

"Acting Police Commissioner Alcock proposed the policeman's billy today as the most suitable weapon to swat Chicago's two major problems—crime and unemployment."

He asked for 5,000 additional cops.

These are the real "relief" plans, the real purpose for the creation of Hoover's "hunger commission!"

The workers, though, will not be terrorized. They will not starve! They will not accept the "policeman's billy" as a substitute for food. They will fight!—and under the leadership of the Communist Party!

TO CELEBRATE 13TH ANNIVERSARY OF USSR

NEW YORK.—The sharpening attack on the Soviet Union will be answered by the workers of New York with a huge celebration of the 13th anniversary of the October Revolution at the Coliseum, November 7.

A huge mass pageant, "Turn the Guns," under the auspices of the W. I. R. laboratory theatre will be the feature of the celebration. The Freiheit Singing Society is preparing a special program of revolutionary songs.

Hoover 'Hunger Crew' Not Organized to Give Work to Jobless, Admits Woods

Green Says 20,000,000 Face "Acute Need;" Covers Facts

Unemployed workers who expect jobs or any kind of relief from the "hunger committee" organized by Hoover and led by the expert clubber and ex-police chief, Col. Woods, have Woods' own word for it that the Emergency Unemployment Committee "is not organized to provide individuals with employment." This is a statement issued by Woods to capitalist newspaper men in answer to the request of thousands of workers who appealed to Woods for jobs.

The job of the Woods' "hunger committee" is to organize the boss resistance against the demands of the unemployed for jobless insurance. Hoover's big talk about the tremendous plans which were to be carried out to "relieve unemployment" have faded into thin air. The only result so far is that the "stagger system," with its smashing wage cuts is being applied in the Youngstown steel industries, according to Fred C. Croton, the Ohio representative on the "hunger committee."

While Mellon was bolstering up the Hoover tissue of lies about "the return of prosperity," Wm. Green, fascist leader of the American Federation of Labor was forced to admit that unemployment is becoming tremendous. This lying faker who

fought so vigorously against unemployment insurance at the last A. F. of L. convention, uniting with Hoover in the boss wage-cutting campaign, now comes out with the statement that unemployment this winter will advance from 3,500,000 to 5,000,000, an increase of 1,500,000. Green went on to say that 20,000,000 workers and their families were "threatened with acute need," another nice way of saying hunger, starvation and death by freezing. Green's solution was more support to the Woods committee that "is not organized to provide individuals with employment," or for that matter, with relief.

Green's 5,000,000 figure, of course, is in line with his usual lying estimates. There are at least 9,000,000

Tammany Grafters Use Blacklists to Put Jobless in Jail

workers out of work in the United States today, and with their families total well over 40,000,000 people who face not only "acute need" but starvation, disease and death because of the economic crisis of this rotten capitalist system.

Woods' policy of blackjacks and breadlines for the unemployed is being carried out to the letter in New York City. The police department after making up a blacklist of unemployed to give them "relief," went into action today by arresting 23 unemployed for the sole crime of being without jobs. All of these men have been to the city employment bureau virtually begging for jobs. They were fired because capitalism could not supply them with work. They are on the verge of starvation. They are willing to work, walking the streets daily looking for work. For this crime they were arrested and sentenced to 30 days in jail on the charge of "vagrancy." This is Hoover and Woods handiwork, which gets the cooperation of every local boss grafting politician from Murphy to Walker. In New York, the police announce thousands will be jailed for the crime of being without work because the bosses cannot provide them with jobs. (Continued on Page 3)

Call on Unemployed to be in Court Today When Trial Resumes; to Meet at 300 Mulberry Street, at 11 a. m.

NEW YORK.—Following the tactics used to railroad the March 6th delegation to jail, the Tammany court, under the guidance of Chief Magistrate Joseph E. Corrigan, went into action yesterday to hide the vicious slugging meted out to Sam Nessin, Robert Leales, and Milton Stone of the Unemployed Council delegation which appeared at the Board of Estimates meeting on Oct. 16 to demand that the millions being handed out to parasite bondholders and put into the pockets of the Tammany grafting politicians go to the 800,000 unemployed workers.

PLAN BIGGEST RED ELECTION RALLY FOR MON., NOV. 3

To Plan Bigger Fight for Jobless Insurance

NEW YORK.—The biggest red demonstration of the present election campaign, Monday, November 3, 5 p. m. will be the signal for a new powerful drive for immediate unemployed relief, now!

Twenty-even workers were sentenced to 30 each for "sleeping" at the Pennsylvania depot. Suicides of jobless every day. Hoover is up to his old tricks of fooling the workers.

The night-club Tammany mayor donates some change for "ice-cream." No relief is coming.

Winter is approaching. The situation will get still worse. The unemployed must be taken care of. No charity, no crumbs, but real relief, \$25 a week for every unemployed, the money to come from the military assignments, from the fat purses of the parasite class who is now getting bigger dividends than ever.

Demonstrate Monday! For a big red vote which will make the bosses think and loosen up their purses! For a new drive for immediate relief! Demonstrate before the polls open! Monday, 5 p. m., right after work, on Union Square.

Jimmie Walker and others will be present—in effigy.

TWO BIG FOSTER RALLIES TONIGHT

Bronx and Brooklyn Mass Meetings

NEW YORK.—Two big rallies with Wm. Z. Foster, Communist candidate for governor of New York state as the main speaker, will take place tonight in two large halls, one in Brooklyn and another in the Bronx.

The Bronx meeting will be at Ambassador Hall, Washington Ave. and Claremont Parkway. Sam Nessin, Communist Party candidate for senator in the 22nd district, and Louis Hyman, president of the Needle Trades Workers' Industrial Union, will speak together with Foster.

The Brooklyn rally will take place at Grand Manor Hall, 318 Grand St. (near Havemeyer) Williamsburg, with M. O. ...unist candidate in the 10th Congressional district, and C. Hathaway, candidate in the 7th Congressional District as speakers, besides Foster.

Workers of Brooklyn will march from their shops and the Workers Centers to the Grand Manor Hall (formerly Grand Miller Assembly) to hear the Communist candidates. Bleyer Paper Box workers will march from the shop to Section 6 headquarters, 68 Whipple St., and from there will march to the hall. The Communist program of jobless relief and insurance will be explained.

GUIDO SERIO MASS PROTEST SUNDAY

To Fight Deportation of Militants

NEW YORK.—Answering the call issued yesterday by the International Labor Defense for a mass protest to save the life of Guido Serio, the Council for Protection of Foreign Born is turning its Sunday afternoon meeting at the Grand Central Opera House into a rally against the deportation of this militant worker.

The Council is organizing the foreign born workers on a national scale for militant action against the boss class who in the present crisis are deporting foreign born at the first sign of discontent. The cases of Serio, Vikukel and other militant workers who are being deported, many of them to fascist countries, are awakening the foreign born to the danger confronting them.

The meeting will be addressed by J. Louis Engdahl, candidate for lieutenant governor on the Communist ticket; M. J. Ogin, editor of the Freiheit; Sam Nessin, Samuel L. Darcy, Ass. Sec. of the I. L. D., who will discuss the Serio and Vikukel deportation; A. Markoff, representative from the Anti-Fascist League; and S. Howatt, secretary of the Council, who will preside.

Unions, fraternal organizations and all sympathetic groups are requested to bring resolutions protesting persecutions and deportations of the foreign born.

Demonstrate at Borough Hall, B'klyn, Sat. for Jobless Relief

To Demand Immediate Establishment of Fund for Emergency Unemployment Relief; Expose Grafting Politicians

NEW YORK.—The Communist and Trade Union Unity League are calling the workers of Brooklyn to demonstrate at Borough Hall tomorrow, Saturday, at 1 p. m.

While the Tammany grafters McCooey, Connelly and others are stealing tens of millions of dollars in sewer pipe graft, and increases in their robber salaries, the unemployed workers of Brooklyn, hundreds of thousands of them, are starving. The Tammany graft administration of New York has been forced through the fight conducted by the Communist Party, to make believe that it is doing something for the unemployed. But the Communist Party will not let up, and will continue the fight until real unemployed relief is secured.

Brooklyn workers will demonstrate tomorrow noon at Borough Hall in support of the demands presented in their name by the Unemployed Delegation at the session of the Board of Estimate, October 16th. They will demonstrate for the immediate establishment of a city emergency unemployment fund to provide the sum of \$25 for every unemployed. They will demand that all payments on the redemption and interest of the city bonds be stopped and that money, as well as the money obtained from the cut of all salaries above \$5,000 and

Socialists - Republicans Unite Against Workers to Elect Injunction Judge

All Boss Parties in United Front to Fight Workers

NEW YORK.—Not only does Heywood Brown and the Rev. Norman Thomas support the policy of black-jacking and slugging the unemployed by the grafting Tammany politicians, but the Socialist Party has now gone to the extent of making a united front with the Republican party against the workers.

In this issue of the Daily Worker we print the proof of this fact of support to the Hoover "hunger crew" outfit of the leading exploiters in the United States.

The photostatic copy of the ballots of the Socialist party and its brother boss outfit, the Republican party, shows a candidate by the name of Alfred E. Herz, of 307 E. 79th St., New York, who is running for Justice of the Municipal Court in the 6th District, Manhattan, on both tickets! In short, both these capitalist par-

ties have agreed to support the same man. This is done for a purpose. The Republican and Socialist parties have combined to elect the candidate of the manufacturers, an injunction judge to break strikes and throw workers into jail.

In many other districts in New York the Socialist party gives active support to the Republican candidate, Democratic Rabbi Supports Brown, Vladesck.

There are some districts where the "socialists" have deals with Tam-

NEGRO MASSES RALLY SUNDAY

Red Candidates Lead Fight on Lynching

NEW YORK.—A big Red Rally will take place Sunday, Nov. 2, 3 p. m., at Renaissance Casino, 150 E. 138th St., under the auspices of the Harlem Election Campaign Committee of the Communist Party. Engdahl, Newton, Nessin and Paterson will be the speakers.

The message of the Communist Party, for a fight against lynching and Negro oppression, for a fight for full equality of the Negro workers, and for Unemployment Insurance and immediate unemployment relief, will be brought to the Negro masses of Harlem.

The Communist Party is 5th on the ballot in New York State. Enlist as a Red Watcher at the polls. Call Algonquin 5707.

10,000 MARCH IN SACRAMENTO DEMONSTRATION

Jobless Mass on City Hall; Demand Relief

SACRAMENTO, Cal., Oct. 30.—Ten thousand workers and jobless marched from meetings at K and Second Street and from the Plaza to an unemployment demonstration tonight before city hall. The demands for immediate relief from the city treasury, were adopted by cheering thousands when they were read from the steps of the city hall.

A committee of 25 was elected, with Mike Daniels, Communist Party organizer, as spokesman.

The mayor was forced by mass pressure to grant Daniels the floor, and he presented the demands.

From the demonstration, a thousand marched to the Workers' Center where 150 joined the Unemployed Councils.

EAGLE WORKERS ARE DESPERATE

Fight Wage Cut; Must Avoid Wrong Tactics

NEW YORK.—The Eagle Pencil factory on East 14th St. seethes with discontent. During the last couple of months, 600 have been laid off. Speed-up is terrible, and wages are miserably low. In addition, the bosses have issued a statement that they intend to cut wages still lower. The rumor is that the cut will start Nov. 1.

The Communist Party is holding almost daily noon day meetings in front of the factory gate, urging the workers to unite, form shop committees, and under the banner of the Trade Union Unity Council, prepare for struggle.

In this situation some one, perhaps a group of desperate workers, but possibly a stool pigeon, has begun to distribute mimeographed written leaflets urging the tool makers, machinists, and set-up men to sabotage the machines if demands are rejected. The leaflets plainly state that the group back of them is not a Communist body.

Don't Split Forces!

The form of militant labor action which gets best results is mass organization, strike and mass picketing, as advocated by the T.U.U.L. and Communist Party. Formation of a group separate from the mass unions of the T.U.U.L., devoted primarily to sabotage is not going to win anything, and splits the workers' forces, besides turning their energies into less useful channels than organization and mass action. It opens the way for stool pigeon work, and the stool pigeon is always eager to split the workers' forces.

Eagle workers should form shop committees, under direction of the Trade Union Unity Council, and prepare for open struggle. They cannot rely for victory on machine destruction.

FOSTER, BEDACHT IN N. J. RALLIES

Four Big Communists Election Meetings

NEWARK, Oct. 30.—Wall Street's direct representative in the New Jersey election campaign, Dwight Morrow, will get the riddling of his life and so will Simpson of the Hague machine when the four big wind-up rallies in the present campaign are conducted by the Party of the working class on Sunday, November 2, in Newark, Passaic, Paterson and Trenton. Of course, we do not need to say that the third party of capitalism, the socialist party, will also get a deserved paddling.

Foster will do the job, and able assistance will be rendered, in Newark, Passaic and Paterson. And in the extra meeting at Passaic which was organized as an additional answer to the bosses, he will put over the good measure treatment. Bedacht will take care of the Trenton meeting where the stench of the Bergen County sewer scandal has been getting an airing for pre-election purposes.

The Newark meeting starts at 1 p. m. at Laurel Gardens Arena, 457 Springfield Avenue. The Passaic meeting at Kanter's Auditorium, 261 Monroe Street, starts at 6:30 p. m. and the third meeting for Foster in Paterson starts at 8:30 p. m. in the Union Hall at 205 Paterson St.

The meeting in Trenton at which Bedacht will speak will be at Arcade Hall, 15 East St., at 2 p. m. Also at the Trenton meeting Dozier W. Graham will speak. Graham is the Negro unemployed worker who is candidate on the Communist ticket for U. S. Senator. At one of Foster's meetings, Ryan Walker, the cartoonist, and Edith Siegel, the Red Dance, will appear.

20 BODIES BACK ANTI-LYNCH MEET

201 Delegates Pledge Aid to ANLC

Two hundred one delegates from over 20 organizations last night pledged the support of their organizations to the fight against lynching at the New York Anti-Lynching Conference, held at St. Luke's Hall, 125 West 130th St., at the call of the American Negro Labor Congress.

A large crowd of workers also turned out to show their interest in the conference and pledge their solidarity with the Negro workers in the struggle against lynching and social oppression. Great enthusiasm was manifested as the speakers outlined the plans of the A.N.L.C. for a militant, uncompromising struggle to the bosses lynching terror. The meeting was addressed by B. D. Amis, Peter Chaunt and by Herbert Newton, national organizer of the A.N.L.C. and one of the six Atlanta defendants facing electrocution in the boss courts for organizing Negro and white workers together in the south. There was also a very interesting discussion from the floor which, because of the lateness of the hour, was somewhat curtailed.

An Executive Committee of the Conference was elected, consisting of 25 members. Four delegates to the national convention of the A.N.L.C. in St. Louis, Mo., Nov. 15 and 16 were also elected. Many organizations pledged financial support to the convention and to the A.N.L.C. fight on lynching which will be further intensified by the convention. Thirty workers joined the A.N.L.C.

Among the organizations represented were: International Workers Order, Needle Trades Industrial Union, Carpenters Local No. 2090 of the A. F. of L., Show Workers Union, Japanese Workers Club, Spanish Workers Club, Food Workers Union, Marine Workers and the Anti Fascist Alliance.

Red Street Rallies in Harlem Tonight

The Communist Party will hold several street election campaign meetings in Harlem tonight and tomorrow (Saturday) to mobilize the working-class for support of the Communist election program for real unemployment relief, against lynching, imperialism war.

Tonight's meetings will be held at the following corners: 125th St. and 5th Ave., and 138th St. and Lenox Ave. Tomorrow night's meeting will be at 125th St. and 5th Ave.; 137th St. and 7th Ave.; 134th and 7th Aves. 135th and Lenox; 138th and Lenox; 142nd and 7th; 126th and Lenox; 115th and Lenox. The meetings will also be used to mobilize the workers for Sunday's big red rally at the Renaissance Casino.

Communist Campaign Auto Parade Saturday

NEW YORK.—Saturday evening at 7, there will be a truck and automobile parade in the territory of Section Two of the Communist Party, to display its election slogans.

All comrades and sympathizers having trucks and automobiles are requested to come Saturday evening, 6:30, to 1179 Broadway from where the parade will start.

Continue Mass Violation of Injunction! Come Out Friday!

Scene in front of Zeigreen Cafeteria, the place directly below the Greek sign, on Monday, the first day of mass violation of injunctions against picketing, opening the great struggle now going on for the right to strike in New York. At the extreme left is the police emergency wagon, loaded with tear gas and machine guns. The police have charged with clubs and swept the pickets back from in front of the cafeteria, but they are massing back of the wagon ready to swarm in front again. Notice arrested worker being thrown into the wagon, and group of arrested pickets jammed into doorway at right.

NEW YORK.—Absolutely determined to win the right to strike and picket and smash the injunctions by which the bosses and A. F. of L. hope to strangle picketing, an overwhelming crowd of jobless and workers came out yesterday noon in mass violation of the Zeigreen injunction.

Fifteen were arrested, but the police were noticeable less brutal due to the size of the crowd. More militancy by the pickets would have made it harder for the cops to pine up arrests.

Demonstrations Monday and Tuesday had been attacked with all forms of police brutality, by foot and mounted cops and the emergency wagon crew. This terror and the many arrests those two days did not frighten the workers, as the demonstration yesterday proves.

The Trade Union Unity Council takes the lead in the campaign to smash the injunction system. A series of meetings and conferences has outlined the program of mass violation.

The struggle is just beginning, and all workers are called to participate. The demonstrations will continue until the right to strike and picket is won. All workers and unemployed come out in mass violation of the injunction at Zeigreen's, noon, today!

The workers arrested yesterday were held on two separate charges: "disorderly conduct," and on Paragraph 600, "violation of an injunction." They are in jail waiting hearing today, with bail set at \$600 each.

Those arrested are: Esther Silvers, George Anderson, Mary Weathering, George Rousoff, Morris Demore, Jacob Margolis, M. O. Gully, Sarah Goldberg, Edith Botinsky, Ray Levinthal, Bertha Ginsberg, R. Newman, J. Dearwin, I. Rosenblum, and G. Royal.

The injunction was obtained by the A.F.L. for the boss at Zeigreen's. The inducement to the boss was that the union conditions previously obtained by the Food Workers Industrial Union would be ended and a contract made with the A.F.L. which would permit working all but a few for 12 hours a day, with other rotten conditions.

Irving Epstein, business agent of the A.F.L. Local 302, provides thugs, points out the pickets to be slugged by the cops, and pushes the case against those arrested.

"Escape" First Galsworthy Play to Reach Talking Screen

An interesting screen treat of the season is scheduled for local moviegoers when "Escape," talking picture version of John Galsworthy's drama, opens its engagement at the Cameo Theatre today. The play, when first produced in London and New York, was lauded as one of the engrossing contributions to the stage. Presenting a theme of wide appeal, "Escape" is unusually well adapted for screen treatment.

Basil Dean, noted stage and screen director, produced and directed the picture. He assembled a cast of competent players, many of whom have been seen in previous Galsworthy plays. Gerald du Maurier, in the leading role as Matt Denant, played the part in the original London stage version. He is recognized as a capable actor on the English stage today. Other roles are played by Mabel Poulton, Edna Best, Ian Hunter, Austin Trevor and Madeleine Carroll.

"EAST IS WEST" AT THE GLOBE THEATRE.

Universal's all-talking screen version of the stage play, "East Is West" will be ushered in at the Globe Theatre today. Originally produced in New York with Fay Bainter in the leading role, "East Is West" proved very popular, enjoying a three years' run on Broadway.

Lupe Velez, whose screen career began with her portrayal of the mountain girl in Douglas Fairbank's "The Gaucho," is cast in the role of Ming Toy. Lewis Ayres, who leaped to fame overnight as Paul Baumer in "All Quiet on the Western Front," plays Billy Benson; and Edward G. Robinson, noted stage star, has the part of Charlie Yung, ruler of San Francisco's Chinatown. Others in the cast are Henry Kolker, Mary Forbes and Edgar Norton.

Following the inaugural presentation of Amos 'n' Andy in "Check and Double Check" before an invited audience at 8:30 this evening when the new Mayfair Theatre will be opened and dedicated, the second premiere performance will be given, starting at 11 p. m. This has been found necessary in order to accommodate the present demand from those who have manifested a desire to see the first showing on Broadway of Amos 'n' Andy's first picture in RKO's new playhouse. Amos 'n' Andy will be present in person at both these first showings.

COMMUNISTS 5th ON N. Y. BALLOT

Workers! Disregard All Others!

Remember that and tell it to your shop mates: the Communist Party is FIFTH on the ballot, FIFTH row.

Disregard all other parties. Disregard all mistakes that might have occurred when you registered. Vote for every candidate having a Hammer and Sickle against his name. Vote for Foster, and all candidates of the Communist Party.

Obermeier, Weisman at Bakery Meet Today

NEW YORK.—All bakery workers, members of the Food Workers' Industrial Union and others, are invited to the meeting today at 2 p. m. at union headquarters, 16 West 21st St.

Obermeier will report on the new plan for organization work, and Weisman, just back from the Fifth World Congress of the Red International of Labor Unions and the world congress of food workers will report on those.

A most important item of business will be the discussion of the mass violation of the injunctions, particularly against food strikers.

Perth Amboy Workers Plan to Hear Foster

PERTH AMBOY, Oct. 30.—Workers of Perth Amboy and vicinity wishing to attend the meeting in the Laurel Garden Arena, Newark, N. J., on Sunday, Nov. 2, at 1 p. m. to greet Foster, unemployed delegation leader, now released from prison, should immediately register at the Workers' Home, 308 Elm St., where reservations can be made for transportation on trucks

201 Delegates Pledge Aid to ANLC

Two hundred one delegates from over 20 organizations last night pledged the support of their organizations to the fight against lynching at the New York Anti-Lynching Conference, held at St. Luke's Hall, 125 West 130th St., at the call of the American Negro Labor Congress.

A large crowd of workers also turned out to show their interest in the conference and pledge their solidarity with the Negro workers in the struggle against lynching and social oppression. Great enthusiasm was manifested as the speakers outlined the plans of the A.N.L.C. for a militant, uncompromising struggle to the bosses lynching terror. The meeting was addressed by B. D. Amis, Peter Chaunt and by Herbert Newton, national organizer of the A.N.L.C. and one of the six Atlanta defendants facing electrocution in the boss courts for organizing Negro and white workers together in the south. There was also a very interesting discussion from the floor which, because of the lateness of the hour, was somewhat curtailed.

OPPOSITION TO METAL SELL-OUT GROWS RAPIDLY

To Form Revolutionary Metal Union

(Cable by Imprecorr)

BERLIN.—Without awaiting the result of today's ballot the reformists are ordering the metal strikers back to work at the Siemens, A-E-G, and Osram plants. Many officials informed the workers that the ballot vote was abandoned thus causing great confusion. Victimization has begun in many factories.

Despite reformist treachery however, the overwhelming majority of strikers are still out.

The revolutionary strike committee met in the afternoon, and issued an appeal to continue the strike, against reformist treachery, and for the maintenance of mass picketing, etc.

A mass meeting was held at which it was decided to lay the basis for a Revolutionary Metal Workers Union. The conference is still in session.

A mass meeting at the Borsig Works voted overwhelmingly for confidence in the revolutionary opposition and non-confidence in the reformists. Four hundred Borsig workers joined the opposition.

The ranks of the revolutionary opposition is rapidly swelling. At the Stahlwerk Henningsdorf 927 strikers are for the opposition with 98 against; Bergmann Rosenthal, 1047 and 943; Lowe, 584 to 119; Flohr, 400 to 40, Osram department 390 to 12, Frister 743 to 98, Lorenz 425 to 63, the figures indicating respectively the strikers for and against the continuation of the strike.

Red Hot News from Red Front in Drive for 60,000 Readers for the "Daily"

Well, well, the program of the Daily Worker to build 60,000 mass circulation is getting some results. Take Chicago. The day after the program arrived in that city the police head announced plans to put on 5,000 brand new cops and 840 additional firemen.

Now here's something readable. It sounds like literature:
SEATTLE WASH DAILY WORKER PLEASE INCREASE DAILY BUNDLE ORDER FROM 250 TO 350 L SCOTT.

Red workers, comrades. We want a six page paper and we want it by December.

Paid subs will pay the bill. Every Party member, every red worker, put the proposition to the worker at the next bench. Swamp the business office. 50 cents a month brings the Daily.

Action in Detroit! This city filled the circulation department with great expectations, by ordering 100,000 special election campaign editions. Since then they have had time for a week's work. Today the order is cut to 30,000.

KEEP OUT FACTS OF NESSIN BEATING

Walker Admits 'Ice Cream' Taunt

(Continued from Page 1) while the Tammany district attorneys were busy preparing "charges" that would keep out the truth of the vicious beatings.

The first case to be called was that of J. Louis Endahl, Communist Candidate for Lieutenant Governor; Freda Jackson, and Anna Pozrbeke, who were arrested after Endahl had been ordered ejected from the Board of Estimates meeting. To make a show of "fairness" Justice Corrigan dismissed the charge of disorderly conduct against these workers.

Two defectives, who took part in the slugging of Nessin, Stone and Leases, were the first witness in the next case of "unlawful assembly." They manufactured an entirely new version of the whole proceedings and both of them had memorized a phrase which they claim Nessin said right after he called Walker a representative of the Tammany grafting politicians. "Come on let's throw these Tammany grafters out," is what these two dicks said Nessin declared before he was "arrested."

One of them, Detective Ruditsky, admitted he socked Nessin twice, but not in Walker's presence. All the detectives were careful to do their socking out of Walker's presence, for the purpose of the court record; and of course, Judge Corrigan "wasn't interested" in how badly the representatives of the unemployed were beaten up after Walker ordered them out.

Sam Nessin, his eyes still battered and blood-shot from the beating he got, went on the stand. He told about going to the Board of Estimates meeting with the other members of the Unemployed Council delegation and demanding the \$7,000,000 to be handed out to the police go to the unemployed; he told about the brutality of the police and the clubbing and jailing following the March 6th demonstration.

District Attorney Boten didn't want these facts to come out. He finally got Nessin to tell about the scene just before the slugging.

Nessin told of branding Walker a grafting Tammany politician who represented the judges who bought their jobs and were now evicting workers.

"Walker said then," Nessin testified: "I would like to go down there and smash you in the face. Then a bunch of cops rushed on me, slugged me right there, knocked me down—here the judge interrupted, but Nessin did not stop until he told of how he was beaten, kicked and ended up in the Bellevue Hospital with a fractured jaw.

Walker looked nervous when he got on the stand. He didn't want to testify at all, but read the "prepared" minutes of the Board of Estimates

Prima donna news men of the prostitute press are supposed to spend their lives wondering the relative importance of news. They leave out all mention of 8,000,000 starving workers but publish columns of flattery on a flower, just located, a bit larger than necessary, in the lower Mississippi delta. 60,000 Daily Worker circulation will lay the foundation for the time we'll be running on N. Preacher Carter Real Slave Driver On Cruise of "Booker T. Washington"

Held By Crew to Be Even Worse Than Marcus Garvey

Like the brutal white exploiters of Negro and white labor, the Garvey leaders have fattened on the misery of the Negro workers, utilizing their natural protest against oppression and persecution for the most selfish self-aggrandisement.

And, like the rest of the treacherous Negro petty bourgeoisie (rent-gouging landlords, parasitic preachers, etc.), they have basely betrayed the struggles of the Negro masses against imperialist oppression of the Negro masses in the colonies and in the United States. They have sought to cover up their betrayal with struggle-phrases, but behind these struggle-phrases is the usual fear of the petty bourgeoisie (of all races, of all countries), the usual trickery of that batch of belly-crawling traitors.

Negro workers! The rent-gouging landlords and preachers (most of them landlords, as well) will not lead you in militant struggle against the capitalist system under which Negro and white workers, as well, are savagely oppressed. They themselves have a stake in the system of your oppression. Reject the misleaders! Support working-class leadership! Vote Nov. 4 for the party of the working class! Vote Communist!—Ed.

(By a Seaman on the Cruise of the "Booker T. Washington")

With the boat leaving for Havana, Cuba, Mr. C. E. Carter, secretary-general of the Universal Negro Improvement Association, was put in charge by Mr. Garvey, although he could not exercise his authority on the high seas.

Mr. Carter, who was a former preacher, was even worse than Mr. Garvey in his chase of the shekels and in his attitude towards workers on the ship. In addition to abusing the crew and starving them, he squandered tremendous amounts of money contributed by workers in the ports at which we stopped. In this he had the full cooperation of Lady Davis.

The Meanness of Rev. Carter. Arriving in Havana, we found the colored people wild over the boat. In no time at all we were surrounded by a small craft of all canoes and floating workers who were so anxious to see the boat that they could not wait until it got alongside to inspect it. It was while at this port that we learned that

Resplendent parades and struggle-phrases were Garvey's substitute for militant struggle against the imperialist oppressors of the Negro masses, and helped to cover up his betrayals of those masses. The above photograph shows Garvey in one of his gorgeous shows. Garvey is second from the left, standing.

Garvey had been sent to jail on the charge of using the mails to defraud. Things had enough on board the ship before this, now got worse.

The meanness of the Reverend Mr. Carter was sharply brought out in this port. It is the Cuban custom to fumigate all vessels going alongside the pier, and when it was decided to take the "Booker T. Washington" alongside, the Cubans sent a crew aboard to fumigate the vessel.

Rev. Carter stood on the deck casting a speculative eye on the thousands of people lining the pier and beaches in such a way that it took little imagination to know he was counting the dollars he would collect when the boat docked up. When, however, he learned that he would have to let go a few of these dollars to furnish the crew with some money to eat ashore during the six or eight hours of the fumigation process, the foolish preacher stamped his foot in a rage and de-

clared that rather than give the men a few dollars he would not go through with the fumigation. As, without fumigating the vessel, it could not go alongside the pier, the preacher was spitting his own foolish self because by not going alongside he lost a lot of money he would otherwise have taken into his greedy claws.

Carter Collects Huge Sums. However, he was to get another opportunity to make a haul. While in Havana, the boat was labelled for debts incurred by the Black Star Line in that port. As the Black Star Line had been buried by Mr. Garvey and the Black Cross Navigation Co. organized in its stead for just such purposes as evading debts, the libeller burned his finger badly. Rev. Carter collected big damages for the libel at so many hundred dollars for each day the boat was held up. On the strength of this, the crew tried to collect a little on their wages but

was given another lecture on Garveyism instead, while both the pursuer and the preacher lied that they had no money, and that we ought to be ashamed for asking for a few dollars. But we noticed that the potentates aboard and the officers were spending freely ashore.

Had we been aboard any other vessel we would have raised hell, but our sympathy was with the organization and the thousands of people who had put up their last dollar to buy the vessel.

Garvey Officer Works With Gloves On.

The crew not only had to put up with the abuse of Carter and other U. N. I. A. officials, but were eventually made the goat for everything that went wrong with the vessel. In this way the officials, the real criminals, evaded their responsibility to the thousands of hard-working toilers who had invested their last penny in the boat. How the chiefs and chieftains of the U.N.I.A. wrecked the vessel and its chances has yet to be told. Take for example Ford, the third assistant engineer, who was caught by the chief engineer feeling the bearings of the engines with gloves on his dainty hands, and told that he was menacing the vessel because he could tell with gloves on his hands whether the bearings were hot. Ford refused to dirty his hands, and the chief engineer demanded he leave the engine room as he was a dangerous person to be down there. After that, Ford did nothing but stroll up and down the promenade deck all dolled up and ogling the women while he smoked expensive cigars. Campbell, the refrigerating engineer, had to take his place. This man was a good worker from start to finish, but the Garvey officials gave him the dirty end at the last.

Men Refused Advances on Wages.

Finally we reached Kingston, Jamaica, B. W. I. Here again we received a great welcome. Thousands upon thousands of colored people lined the pier to greet us. This was the home port of most of us of the crew, and we went to preacher Carter to beg a few dollars out of our wages so we could go ashore with money in our pockets. The preacher greeted us gruffly, and learning our mission slammed the door in our face. The men then became unruly, for we were not accustomed to being treated like this, not even by white officers on boats of the big companies.

How we suffered in Jamaica, how workers there had to feed us, how Mr. Carter abused us as "the scum of the earth" will be told in my next article.

LETTERS FROM THE SHOPS

JOBLESS WORKERS' WIFE, WITH CHILD, IS EVICTED INTO STREET; THE CHILD DIES IN A HOSPITAL

Vote Against This System That Would Murder Workingclass Mothers and Children, Vote for the Communist Party, Nov. 4

(By a Worker Correspondent) NEW YORK.—I am an unemployed waiter and haven't had any work for several months. It has been a hopeless quest for me to try and find work as there are so many unemployed workers in the food industry today. If I had only myself to support it wouldn't be so hard but I have a wife and family which requires attention.

Last week on Thursday the 16th while I was at the City Hall demonstration for unemployed relief, my wife was evicted from the furnished room that we had. My wife was pregnant at the time and in spite of the fact that she was in this condition and penniless she was thrown out onto the street. She walked the streets till midnight until some woman took her into her house and gave her shelter for the night. The next day her condition was such that she had to be removed to the Fordham Hospital where she gave birth to a premature child. Because of her condition and the exposure to the cold with lack of food she nearly died.

A Murderous Landlady. This "Shark Landlady" Yetta Friedman of 3077 Hull Ave. is no different than all the other landlords that are evicting unemployed workers from their homes today. We cannot expect any mercy from such money grabbing types of people unless we force them to acknowledge our demands.

I am a member of the Unemployed Council of the Food Workers' Union and realize that it is only through the organization of all unemployed workers that we can expect to get any relief from the misery and suffering which we have today. When we are organized strong enough we went home and find our families on the street possibly in the same condition my wife was in.

I hope that you will print this letter so that some other unemployed workers will be able to realize how necessary it is to organize to fight against this system of persecution for the unemployed.

Hunger Wages. Cloth mills in the same city are running at such a reduced output of production that weavers generally making \$40 per week find their weekly pay envelope now \$13. This condition prevails in even the larger plants such as H. Crowther's.

Silk mills in the same city of "brotherly love" but no unemployment insurance are almost at a standstill.

—J. M. V.

F.S. My wife was removed from the Fordham Hospital right after childbirth and sent to the Municipal Lodging House. She needed careful attention and they ship her to a place where there is no attention.

Into the shops with the Daily! Sell at factory gates! Give the workers an eyeful of the boss system (undressed!)

"We in no way are connected with the Chicago Chamber of Commerce." From all appearances and actions of the city attorney and the judge it was plain that the workers were sentenced even before they were tried. The case was appealed.

Organize Unemployed Councils and fight, should be the answer of the unemployed workers to this vicious attack by the capitalist bosses.

Prof. Harper Speaks Sunday in Chicago on the Soviet Union

CHICAGO, Oct. 29.—Professor Samuel Harper of the Russian Department of the University of Chicago and recently returned from a visit in the Soviet Union, will lecture this Sunday, Nov. 2, 3 p. m., at People's Auditorium, 2457 W. Chicago Ave. He speaks under the auspices of the Friends of the Soviet Union and the I.O.R. and his subject will be: "My Second Trip to the Soviet Union." On the program will also appear Miss Rena Rubin, soprano, who will sing a group of songs.

The F. S. U., anticipating a capacity crowd at the hall, urges every worker, especially those who have bought tickets in advance, to be there punctually at 3, since the lecture will begin without delay and the doors will be closed as soon as all seats have been occupied.

FORMOSA TRIBES IN INSURRECTION

Life and Death Fight Against Imperialism

NEW YORK.—Capitalist press dispatches from Tokio under headings "Formosa Savages Revolt; Kill 28 Japanese," etc., admit a spread in the area of anti-imperialist struggles going on now, and tell, between the lines, another story of rebellion of native peoples against imperialist slave drivers.

Formosa was conquered from China by Japan in the latter part of last century. The natives settled along the seashore were quickly subdued, many were driven into the interior, and all who remained were submitted to forced labor and gradually choked out by Japanese immigration. The tribesmen in the interior have fought for over 30 years against subjugation and slavery, and in spite of tremendous military operations by the Japanese imperialist government have never been entirely conquered.

Plan To Flood. A kind of truce for the last several years was broken a short time ago by active construction work by the Japanese government to build dams that would flood out the cultivated valleys of the tribesmen. The dams will pump up water to feed turbines of the Taiwan Electric Company, which is be-

"NO WORK FOR JOBLESS"—WOODS 20,000,000 Are Starving Green Admits

(Continued from Page 1) The Evening Graphic headline states: "Jobless here sent to jail." Not only are they being sent to jail, but they are being finer-printed, beaten, slugged for demanding relief.

No worker should stand for this. The bosses who since the crisis have increased their profits knowing that 40,000,000 starving workers and their families will not stand by, are preparing the most vicious attack against the working class ever attempted in any country. The unemployed leaders are jailed and beaten. Hoover instructs all the militia and local police to be ready for a bloody attack. The grafting politicians who pay out in New York \$196,000,000 to the parasites in interest on bonds, and ho brag about their \$1,000,000 "relief" program show by deeds what the workers can expect—jail, black-jacks and maybe breadlines.

The Communist Party, militantly leading the fight for real relief, and against the terrorism on the unemployed, calls on all workers to answer this damnable policy by a more determined fight for the Unemployment Insurance Bill, and against capitalism. A vote for the Communist Party is a blow against this terror system against workers who demand work or bread.

ing financed to the extent of \$22,000,000 by J. P. Morgan of Wall Street. The revolt is a battle for life by the native tribes, and in their first attack they seem to have captured the village of Muslia, and its police station. A number of other police stations in the vicinity are reported captured, and 100 rifles seized by the natives, who have been armed only with swords and old fashioned muskets.

The natives are now advancing toward the towns of Kenkel and Horu. The Japanese imperialists are rushing troops and aeroplanes.

(Continued from Page 1) known all along. Now Rabbi Wise, Democratic party stump speaker, comes out with an endorsement of the socialist Heywood Brown, who is running for candidate in the 17th Congressional District. In that district the Republican Mrs. Pratt is running for re-election. The purpose of Rabbi Wise's endorsement of Heywood Brown is to draw away a sufficient number of Park Avenue and petty-bourgeois votes from Mrs. Pratt so that the Tammany candidate, Louis B. Brodsky, is elected to Congress.

Not only is the Socialist party a capitalist party, but it makes all sorts of alliances with the two other grafting boss parties to fight against the workers and to assure the election of reactionary judges who will evict workers, as did Judge Panken, socialist, when he was on the bench.

Workers, smash the capitalist alliance of the Democrat, Socialist and Republican party directed against the workers. Vote for the only working class party which leads the struggle against capitalism, for unemployment relief—Vote Communist!

Bosses Sentence 3 for Protesting Eviction of Negro Worker

(By a Worker Correspondent) ST. LOUIS, Mo., Oct. 29.—Three unemployed workers—B. Stevens, Owen Lutz and H. Schwartz, were sentenced today to pay \$550 and costs each for protesting against the eviction of Scott Whitley, an unemployed Negro worker. This is the case in which Nels Kjar, National Chairman of the Unemployed Council, was involved and whom the immigration authorities are trying to deport.

The judge, Hyman Stein, in giving the sentence, \$550 fine or over six months in the workhouse, made a vicious attack on the unemployed workers, calling them racketeers and bums. When one of the defendants was asked if the Unemployed Council is connected with the Chicago racketeers he aptly answered that

LOOKING OVER DETROIT

By HARRISON GEORGE

READING what is called "The Letter Box" in the Detroit News, gives one an idea of the compelling central question in Detroit as in other cities—the question of unemployment. True the idea gotten from the News is warped, as it by no means expresses the opinion of vast masses of workers who remain inarticulate—but whose suffering have forced Mayor Murphy and associated demagogues to make pretensions of "solving" the question.

In spite of the united front, running from Hoover's praise to endorsement by the fake "socialist" party, the News "Letter Box" reveals no enthusiasm, no popular "gratitude" for the blustering faked Murphy who has set out to slay the dragon of hunger. Let us survey what some of these scattered opinions:

One worker of no little writing ability, sarcastically rips into the "News" itself for an editorial called "How Hard are these Times?" The capitalist editor of the "News" like all of his kind, has never learned to regard workers as people. "People" are those who play golf, have vacations in mid-summer, get all excited over yacht races, whose greatest "troubles" are how to select the best cars and train housemaids.

Always Blind

The stark misery and endless worries of the vast majority of workers does not interest the editor of the Detroit News. And in resentment at the masses having pressed their demands for bread into the foreground of attention, the "News" editor tried to be scornful and intimate that times were "not so hard", because, said he, a half million people had attended baseball games in the East and Middle West one recent Saturday.

Quite correctly the worker reminded him that such a fact is "not an indication of the times"; that the man "who is chief sufferer in times like the present never has and never will be seen in any great number at these inter-collegiate games. The men who work at ordinary labor cannot afford it."

Also, he adds, if the editor has doubts about how hard times are, "I suggest that he don habitments of the average worker and begin his quest for a job."

"This Country"—The Bosses

An ex-soldier, sore at the difficulties of paying for a home, paying taxes, paying doctor bills for a sick wife, when—"all I make here is from 50 cents to \$2 a day", wants to know why the capitalist government even holds back bonus payment. He adds:

"If the U.S. can manage to loan Germany millions of dollars, it could put the same in circulation amongst its own, who gave the best they had in them fighting for this country instead of against it.

The man forgets, of course, that the soldiers were fighting, not for "this country", but for the capitalists of this country. The "country" had neither any interest nor any voice in the World War. And after the war, the capitalists of "this country" figured on making profits not only from the workers of "this country", but also from the workers of Germany—and therefore the millions of dollars loans to Germany while ex-soldiers of "this country" can starve and die in the street for all the capitalists of "this country" care.

Another worker, influenced by capitalist propaganda, thinks that what ought to be done is to run all the foreigners out of jobs and give them to Americans. The obvious impossibility of starving all the millions of foreign-born workers to death never seems to occur to him, nor the fact that it wouldn't help the ones who are so clever that they picked out America to be born in.

If the bosses can keep workers quarrelling with one another over who shall have the jobs, the workers will not unite to take away all industry

from all bosses and run it for the benefit of all workers.

The Issue—Class Against Class

This worker's idea is just as sensible as to say that workers with blue eyes should be compelled to starve to death. It is a reactionary idea that defeats the struggles of the working class against the boss class whose profits would not suffer the least reduction by throwing "foreign" workers on the street and hiring "American" workers—perhaps at less pay.

This idea of a "foreigner" being the enemy is one of Mayor Murphy's pet ideas, only you don't have to be born in Europe or China to be a "foreigner" to Murphy. You are a "foreigner" in Detroit if you were so foolish as to be born in Nashville or Omaha.

A couple of landlords write that they are going broke because workers don't pay rent. One of them tries the old gag that "the small landlord is the tenant's best friend"—O, yes, so long as the tenant pays his rent. Rent that is twice as high as it ought to be, rent that takes up from 30 to 50 percent of a workers' wage, while in the Soviet Union it takes not over 10 percent while he is working, and where the unemployed do not have to pay rent.

"Widows and Orphans"—Gag

Behind some of these landlord complaints, such as one who claims to be a "childless, elderly widow who invested her small capital" in flats and now can't collect rents from starving workers, we suspect the fine hand of the big realty corporations.

Most of the landlord interests are centered in the big investment banks and trust companies, and the old gag of "widows and orphans" is usual to such scoundrels who demand their pound of flesh in rent, which is robbery to begin with, or they will throw workers into the street.

Only in one missive sent to the News "Letter Box" is the wonderful "plan" of Mayor Murphy for the unemployed given any attention. He goes straight to the point:

"I have not had a day's work in months and my wife will be confined in December. My children need clothes. I don't want charity. I want work. I wrote to Mayor Murphy and told him my story. A few weeks later I received a reply and he told me to register if I had not already done so and said he was sorry. But being sorry, or a letter, doesn't fill an empty bread box. I suppose if I have to wait my turn for work I'll die of old age."

A "Staggering" Problem

Still another worker apparently not aware that Hoover had sponsored the bright idea of "staggering" jobs, protests the proposal made by Del Smith and some other public officials, to cut the D. S. R. platform men's hours to 6 or 7. "That sounds very lovely," he says, but goes on to ask how in hell he is going to live on the reduced salary which he takes for granted will go along with the reduced hours.

This, workers, is the problem. And it is to be settled, not by trying to outlaw "foreigners", or by workers of any kind, men or women, married or single, white or black, quarrelling with each other while the dividends of the capitalists go on as before. The unemployed must help the employed to fight back any wage cuts, to demand the same pay for part time as for the full time, while the employed must help the fight for real, adequate immediate relief and for unemployment insurance. And both employed and jobless should support the Communist Party—Vote Communist and fight with the Communists after the election.

The rich, whose dividends for the first nine months of this year have been 50 percent more than during the same time last year, must be forced to pay genuine and sufficient relief and insurance for the unemployed. And only the fight of the workers will make them pay.

TWO HEARTS THAT BEAT AS ONE

—BY BURCK

Red Sparks

"Nice, Pretty Crocodile!"
"I must repeat what I have said frequently during the recent period, that the Daily Worker shows continual substantial improvement."

Such is the deserved appreciation which we get from the D. O. at Cleveland, and which moves our compassion for him, despite the fact that we knew it anyhow and that he was not the first to discover our excellence.

Also, there may be the possibility, remote perhaps, but still a possibility, that the artful cuss was trying plaudishment when protest failed to check the Soviet dumping of crocodiles on the American market.

At least, with the appearance of the second article on the ways of D. O.s with the Daily Worker, an apprehensive missive from Cleveland begged us that, if we simply must criticize, to write it in Imprecoc language (so that nobody would understand) and on a high level of seriousness in dignified editorials and so on.

The trouble is that we have done just such things before, and nobody seemed to notice it. So kind words butter no parsnips and the dignified editorial passeth over the head on the wings of abstractions. We gotta be cold-blooded or we can't make it.

What we would like to know, without casting any aspersions on domesticated D. O.s and well-behaved Daily Worker agents, is the reason why, since January 4th this year to Oct. 1, the Daily Worker account of Cleveland has grown from \$182.88 to \$437.85?

Also, and more to the point, what is being done to pay off this accumulation? Are the comrades hopeful of a moratorium on internal debts? Or that the \$437.83 will be "funded" over a period of 63 years and bonds issued through the Bank of International Settlements?

Alas, neither of such hopes can be realized, nor will it help the Daily Worker to get back to six pages, a desirable which—aside from bigger and better hot dogs for the staff, is our immediate goal.

Just because the Cleveland D. O. has curly hair and a persuasive way with him is no reason why we should fall for his charms. Our bookkeeper has curly hair, too, but it is turning grey over deficits.

You just can't mesmerize a crocodile!

Upon hearing that a whole trunkful of "red documents" were taken from the vest pocket of somebody in Mexico, the Poor Fish wired, cabled and sent a special delivery letter to Ortiz Rubio, offering to go to Mexico, Patagonia or anywhere else to "examine the evidence." Alas, it turns out that this trunkful of "red plots" existed only in the imagination of the capitalist newspapers. Fish ought to know better than to believe what he reads in the boss press.

A Bulwark of Civilization

The evolution of a Tammany police commissioner ought to interest those who get clubbed. Consider, now, the case of James P. Sinnott, Fifth Deputy Police Commissioner.

The gent was formerly a political writer for a certain "morning newspaper," the N. Y. Times modestly states in an obscure place on page 15 of its issue of Oct. 21. But like the busy little worm, he blossomed forth in 1926 on the police force and, we understand, was one of the hot publicity agents of Glorious Grover Whelan.

Anyhow, he was put on the Tammany payroll at \$7,500 a year as "secretary" in the police department in 1926 by Mayor Walker. Then he was made Fifth Deputy in 1928, and though we are not informed of how much more he gets on that job, undoubtedly he gets a lot more.

But the "duties" of a Fifth Deputy, not being overwhelming, allowed him to dip into other things. Sinnott is also president of the Newark International League Baseball Club.

But part of Sinnott's "duties" is to see that naughty chorus girls put on a fig leaf, or at least that the show they're playing in gets properly advertised by arresting the actresses as "immoral." Sinnott therefore was guarding what's left of Manhattan morality by raiding Earl Carroll's leg show last July and "Frankie and Johnnie" a month ago.

But unfortunately, the Fifth Deputy Police Commissioner of New York City has a supposedly private life. It seems that back in his days as press prostitute, he accumulated a sweetie, a graduate nurse, and—needing a nurse in those times, promised to take her unto him and so on, as soon as he would be grafting as much as \$5,000 a year.

That goal, however, was past long ago. He had evolved into a Fifth Deputy and become a personage. So much of a personage that he despised those base degrees by which he did ascend and would have naught to do with the nurse, graduate or no graduate. He told her last April in fact that he was married to somebody else.

But this wasn't so, reports go, and thus it happens that the Fifth Deputy Police Commissioner, defender of Manhattan morals and all that, is being sued for breach of promise for a cool 100,000 smackers.

Though it probably has nothing to do with the stock exchange campaign against "bear raids," we notice that there's even an over-production of bears reported from Yellowstone Park. The management says that the Park cannot supply natural food for more than 150 grizzly bears and 450 black bears, and that the bear families, knowing nothing of birth control, are increasing at too great a rate.

duction spent 5 years in developing this branch of production—Red Putilov obtained results in the first year.

The workers proposals for economy in production for ten months of this year secured a saving of 5 million roubles.

The average wages of the workers are 122 roubles per month for a 7 hour day, which they have been working since last November. The skilled workers earn 200 roubles per month. The Red Putilov workers have a militant and revolutionary tradition before the revolution, during the civil war days etc. This is being well maintained in the Socialist Construction in the Union of Socialist Soviet Republics. —C. SMYTH.

Our Election Campaign and November 7

By BETTY GANNETT.

THE aggressive role played by the United States in the preparations for an attack against the Soviet Union must be concretely counteracted by our activities during the Election Campaign, culminating in mass demonstrations on November 7th for the Defense of the Soviet Union.

The United States was the aggressor in all the attacks against the Soviet Union during the past year. Beginning with the Stimson note at the time of the Russo-Chinese conflict, to the propaganda against "religious persecutions" in the Soviet Union, to the forged documents of "Butcher" Whalen, the Fish Investigation Committee and the present "wheat dumping" slanders, the capitalist class of the United States was consciously organizing its campaign of red baiting with the view of mobilizing and moulding sentiment in the United States against the achievements of the proletarian fatherland.

Contrary to the past propaganda carried on against the Soviet Union during the first period of stabilization, that socialist economy cannot withstand the competition of the powerful capitalist countries and therefore must perish—the campaign conducted today pictures the Soviet Union as the "red menace" undermining capitalist prosperity by underselling capitalist produced products.

"Moral Justification for War."

This is clearly exemplified in a series of editorials, cartoons, articles in the Philadelphia "Public Ledger" which has for weeks and months carried on a vicious campaign against the Soviet Union. The aim in these editorials as in others printed in the capitalist newspapers, is to place the blame for the present economic crisis in the United States on the Soviet Union, create hostility in the ranks of the American workers against the Soviet Union; increase war preparations and to intensify the war fever.

The "Public Ledger" uses no pacifist phrases. It uses no smoke screens or fine words to cover up the aims of the American capitalist class. Direct mobilization of all capitalist countries for a war against the Soviet Union is the all-embodying slogan of these editorials. A recent editorial begins "Russia as the barrier to peace," and therefore:

"The Soviet is slowly but surely reestablishing throughout Western Europe the awful factor which the old diplomacy called the moral justification of war."

Capitalists Adopt a Change in Tactics.

The rapid revolutionary advance of the Russian proletariat in the industrialization and collectivization program, taking place side by side with the deepening of the economic crisis in the United States and throughout the world, smashes the capitalist, right wing and social democratic accusations of the failure of Com-

Party has, however, not slowed down for a moment. The workers readily grasped the significance of the politicians' maneuver. Thousands of stickers have been distributed to the workers who will vote Communist by placing the sticker on the ballot. The workers of Providence have also the opportunity to participate in the mayoralty elections by voting for the Communist candidate—R. Armstrong.

Workers of Rhode Island! Answer the maneuver of the politicians to bar the Communist Party. Vote against starvation which is facing the workers. Vote against the millionaire bosses, Gerry, Metcalf, etc. Vote for unemployment insurance! Vote Communist. Send Reid to the Senate. Workers of Providence, vote for Armstrong for mayor! Vote for your party—the Communist Party!

munist. This is recognized by the capitalist powers. A change in tactics to conform with this situation had to be adopted. Therefore, the cause for the chronic unemployment, for the increased speed-up, lay-offs, wage cuts, starvation and death of American workers is placed not on the capitalist class in the United States but on the advance of the Soviet Union.

"Every wage earner in countries outside of the Soviet Union as well as every owner of property has reason to view the newest program of the Soviet government as one devised to subject him to poverty, humiliation and the economic martyrdom decreed by Lenin as a preliminary to general political chaos."

To remove unemployment and reestablish "prosperity" necessitates war on the Soviet Union—is the call of the Public Ledger. The Communist Party in Pennsylvania must specifically use this propaganda and expose the baseness of these arguments—the evils of capitalism—the cause for unemployment by connecting it up with the daily occurrences in the factories of our district. This must become a vital part of our election campaign to rally the workers not only for a struggle for unemployment insurance, against wage cuts, lay-offs, speed-up but also to make the slogan of Defend the Soviet Union one the workers can fully understand.

Conditions in Pennsylvania.

The workers of Pennsylvania are becoming more dissatisfied — discontented with conditions than ever before. Daily the capitalist newspapers list cases of suicide of desperate workers! Riots and clubbings of Philadelphia workers looking for work in front of the Victor Radio Plant. Evictions increasing! The conditions in the factories sharpen the struggles of the workers and expose the fake "prosperity" slogans of the bosses and the real causes for these conditions.

The Budds automobile plant in Philadelphia is practically closed down with only half the workers employed after a "forced vacation." The Ford plant in Chester working at 30 to 40 per cent capacity transferred a number of workers to the Philadelphia plant. But here too the workers are being laid off and the factory faces a shutdown. In the Victor Radio, the night shift employing nearly 10,000 workers, laid off the workers—and then began to rehire the same workers and others at 15 cents cut in the hourly rate. In the textile plants of Kensington, the 22 per cent wage cut put over by the Full Fashioned Hosiery Worker bureaucrats in unity with the bosses is creating great discontent and exposing the social fascist leadership of the union. The sell-out agreement of the I. L. A. on the Philadelphia waterfront under which the longshoremen work at starvation wages two and three days a week—will mean a still further worsening of these conditions.

How to Link Them Up.

Can these conditions of the workers in Pennsylvania be exposed in the light of the conditions of the workers in the Soviet Union and thus make the workers recognize that the enemy is not the Soviet Union but the American capitalist class? Can we on the basis of these concrete examples, in the factories counteract the campaign against the Soviet Union and win the American workers for the defense of the Soviet Union?

Concreteness is necessary in this work. We have been satisfied in the past in speaking of the achievements of the Soviet Union by making general statements—but failing in each factory where work is being conducted to tie it up with the conditions of the workers in the specific factory. In the present election campaign we must begin this work.

The activity in the election campaign on this issue carried on in this manner will serve as a means of mobilizing hundreds of thousands of workers in the United States for the November 7th anniversary meetings—which must this year attract not only the workers who for years have been coming to these demonstrations—but must win new sections of the working class—who will come knowing that capitalism cannot solve its crisis and the misery of the working class. Thus laying the basis for winning the workers for the Defend the Soviet Union slogan not abstractly but on the specific rotten, intolerable conditions of the American workers and strengthening organizationally the Party.

The Red Putilov in Leningrad

To visit the Red Putilov Works is an experience of a lifetime. Here one sees not only a contrast between the old and new methods of production, but the amazing rapidity of Socialist Construction, with the mass enthusiasm and initiative of the workers expressed in Socialist Competition.

As a group of English workers visiting the Soviet Union, including skilled metal workers, who were given the opportunity of inspecting the famous Red Putilov we herewith give our impressions.

The contrast in productive methods is vividly seen in two departments, the foundry and the tractor production and assembly department.

In the old foundry one sees the old craft methods of production, with the "Sandvats" as moulders are familiarly known, hopping about preparing the moulds, filling the casting boxes with sand, with backs bent double, putting the finishing touches to the open mould on the floor etc.

In the new foundry, the most up-to-date machine equipped plant. A new high, airy well lit and ventilated building. Here everything is well and orderly arranged according to the various processes—human energy and time is reduced to the minimum. Overhead is the sand conveyor with mechanically operated chutes arranged in convenient rotation to the casting box conveyor immediately beneath. Upon releasing the sand-chute, the sand drops in the required quantity into the casting box, where it is "rammed" tight by electrically operated machine, the top half of the box removed, the pattern inserted and removed, the mould thus complete passes along the conveyor.

All this in the course of a few minutes, the casting boxes pass along, to be filled with molten metal from the ladle, held by an overhead crane, which requires to be tilted by the operator. The conveyor carries the boxes around, when cooled, to be further mechanically cleaned of sand surplus metal in the sand blasts etc.

A similar contrast is more vividly seen between the old and the new Tractor departments. In the new building, again high, airy well lit and ventilated, the machines are arranged according to the sequence of operations—the various parts produced, then pass to the assembly Department, where again the sequence of operations with the aid of the Conveyor, rapidly assembles the complete tractor.

In every department the discipline and enthusiasm of the workers was amazing. To the enemies of the Soviet Union, who deny success of the Five Year Plan, who prophesy the collapse of Socialist Construction, the following figures give the lie:

Year	No. of Workers Employed	Value of Production Programme
1924	8,000	10,000,000 roubles
1928	12,000	32,000,000 roubles
1929-1930	24,000	83,000,000 roubles

The figures for the production of tractors are equally amazing.

Year	Tractors Produced
1926	28 Tractors Produced
1928	1,200 Tractors Produced
1929	3,050 Tractors Produced
1930	10,000 Tractors Produced
1931	31,000 To Be Produced

Scorn Barring of Communists from Rhode Island Ballot

By ALLAN ROSS.

THE tense condition of the workers affected by the economic crisis has alarmed the two old parties of capital before the November elections. While the workers were worried about their immediate economic needs, the democratic and republican parties were trying to "catch fish in muddy waters" by blaming the crisis one upon the other. They could not escape the unemployment issue raised by the Communist Party and supported by the masses of workers and, as a safety move, they maneuvered through the A. F. L. leadership to get "labor support" and to bar the Communist Party from the state ballot.

A. F. L. Leaders Support Enemies of Labor.

On October 9, the state branch of the A. F. L. Building Department called a mass meeting with the sole purpose of endorsing the nominees of big business. Peter G. Gerry, the democratic nominee for senate, was the main speaker. This big textile exploiter and millionaire received the endorsement of the A. F. L. leadership. The Communists who came to the meeting with the unemployment bill and a special leaflet calling the workers to support the Communist Party were promptly arrested on the complaint of the head of the Plasterers' Union. But this maneuver was not successful. The workers were eager to get the leaflets of the Communist Party, and Peter G. Gerry did not receive the greetings from the workers which he expected. Many booed him. The A. F. L. leadership, however, stood solidly for this millionaire candidate.

SLP Favored by Bosses.

The two and a half members of the socialist labor party, carrying on their campaign only at election time, have received the favor of the authorities. Loyal to their tradition of "educating the workers," only on election day (but not participating in any of the struggles of the workers), they proved themselves entirely harmless and the capitalist politicians thought it advisable to use this clique of "tired radicals" against the Communist Party. No arrests were made of S. L. P. speakers and they safely got on the ballot. This clear line of favoritism has convinced many workers of the stand of the S. L. P. This is evident on Saturday evenings at the political rallies at City Hall (the only rally held by the S.L.P.) when the Communist

Party has an average attendance of several hundred and the S.L.P. has an attendance of a half a dozen "old timers."

C. P. Organizes Workers During Election Drive.

While the capitalist politicians and S. L. P. were busy with camouflaging issues, betraying the workers, the C. P. cooperating with the T. U. U. L. carried on a consistent organizational campaign in the textile and metal industries. The American Silk workers have rallied to strike against a 10 per cent wage cut which was forced upon them. The Brown and Sharpe metal workers have answered the call to organize. Exposing the actions of the A. F. L. leadership and the stand of the republican, democratic and socialist labor parties, the Communist Party mobilized the unemployed workers for a fight for Unemployment Insurance. This activity of the Communist Party threatened the influence of the parties of capital and they decided to counteract this activity and its growing mass support.

C. P. Barred From State Ballot.

The old election laws existing in R. I. offered a good opportunity to the authorities to bar the Communist Party from getting on the state ballot. According to these laws all workers must be registered before June 30 in order to be entitled to vote on November 4. All citizen-workers who fail to register before that time are disfranchised. Naturally, many workers failed to register. They know, too well, the "game of the old parties." It was during the latter months that the workers learned of the platform of the Communist Party, and endorsed the Communist Nomination papers. The involved caucus laws which apply to every locality in the state of R. I. have caused many workers' signatures (who endorsed the nomination papers of the C. P.) to be thrown out, as disqualified, because the caucuses had them registered as being present. As a result of these laws and general discrimination against the workers' signatures who signed the Communist nomination papers, the authorities succeeded in throwing out five-eighths of the signatures, thus preventing the Party from filing the required number of endorsements. It is clear to all class-conscious workers that this was a deliberate maneuver to bar the Communist Party from getting on the ballot.
