SPOLANSKY AND HIS OLD PAL, 'BILL' BURNS, KING OF DICKS, CASTING THEIR LOTS TOGETHER

By MANUEL GOMEZ.

Spolansky and his old pal, William J. Burns, king of the dick-fink underworld, are together again. Information has reached the DAILY WORKER thru the Labor Defense Council that about a week ago, Jake was offered and accepted the remunerative job of manager of the "radical department" of the Burns detective

This is the final and sufficient commentary on the positive, out-and-out rottenness of the whole parasitic detective business. Burns, who has seen every one of Spolansky's "anti-red" stories in the Chicago Daily News, must appreciate now at least that he does not know anything about the revolutionary working class movement—because Burns himself was on the inside of most of the conspiracies that Jake "exposes" as "red" plots.

Jake is not being hired on account of his knowledge, which is nil. He is being hired because of his unscrupulousness, because of his extraordinary eagerness to prostitute himself,

COURT MAY TAKE ACTION IN TROUBLES OF THE I.W. W. TODAY

When the hearing on the injunction asked by the Rowan-Bowerman-Griffith faction of the industrial Workers of the World is resumed before Master in Chancery Fred Bernstein this afternoon, the delegates to the 16th general convention, meeting in Emmet Memorial Hall, may find themselves thrown out of control of the entire machinery, property and funds of the

Should Bernstein grant the injunction which the Rowan-Bowerman group has asked, the temporary officers who have been installed by the convention would be forced to turn over use of the I. W. That the Rowan faction will refuse to recognize the general convention, or that they will consent to recognize it only if it surrenders under the most humiliating conditions, is more than probable.

In that case, the formal hearing on the controversy, which the convention has planned to begin this morning, and which all of the parties to the controversy have been ordered to attend, will be cut short by the decision of the capitalist courts.

UP! UP! AND STILL UP! GOES THE PRICE OF THE FOOD WE EAT

Prices are again on the upgrade, slowly eating into the purchasing power of wages. According to the monthly price index numbers of the U. S. department of labor there was an increase of 2 per cent in retail food costs between August and September bringing the total increase since April to 4 per cent. The cost of food absorbs more than one-third of a workers' wages. The cost of a worker's food budget is today 47 per cent above the average cost of the same budget in 1913, but it is still 2 per cent below the level of September a year ago.

Wholesale prices have also been rising steadily. The increase of more than 1 per cent during September, as reported by Dun's Review, brings the total increase since June 1 to approximately 4 per cent. Wholesale prices of foodstuffs show the biggest gains. Within a year wholesale prices of breadstuffs increased more than 19 per cent, while the average price of meats rose approximately 9 per cent.

MERELY CASE OF Labor Can Recognize Its GARY'S SCHOOLS KETTLE CALLING Class Enemies in Those MERELY ADJUNCT THE POT BLACK Who Villify "The Reds" TO STEEL MILLS

By J. LOUIS ENGDAHL.

TODAY, the "hell hounds of capitalism," as "Mother" Mary Jones, veteran fighter for labor liked to call them, bay louder than ever at America's Communist forces. The Denver Post, most powerful of subsidized dailies in the Rocky Mountain states, has joined the Chicago Daily News, the Washington Star, and other kept publications in the circulating of the fanciful tales of Jacob Spolansky about "The Reds." The pack grows. The howling increases in volume.

But the workers know the Chicago Daily News, the Washington Star and the Denver Post, will not be troubled in the least by the noise. In fact they will take much delight in it. It will be sufficient indication to them that the growing power of revolutionary labor is frightening the capitalist enemy of the whole working class.

Take the Denver Post for instance.

Frederick G. Bonfils is the owner of The Post. Bonfils has been connected, in some way or another,

with every crooked deal that has been put over in Colorado in generations.

He entered corruption on a national scale in the Teapot Dome affair. It was shown in the Washington disclosures that he put about \$1,000,000 in his own pocket as the result of his connection with this scandal.

But it is the part his paper has played in the long and bloody war on the workers of Colorado, from the Cripple Creek strike to the Ludlow massacre, that has made Bonfils notorious.

Bonfils and his sheet approved of the lawless kidnaping and deportation a score of years ago, of Moyer, Pettibone and Haywood, to Idaho, where they were placed on trial for murder and declared innocent.

It gloried in the more recent kidnaping and deportation of William Z. Foster, when he arrived in Denver to address local labor.

Colorado is a satrapy of the House of Rockefeller, biggest stockholder in the Colorado Fuel and Iron company, of which Bonfils' Post is the local mouthpiece.

When Colorado's coal miners or steel workers go out on strike, or protest in some other way against Rockefeller rule, they are immediately attacked as "Red Heads." Mine guard rule in Colorado gave to the nation the employers' slogan, "To Hell with the Constitution."

This is the dollar dictatorship bulwarked by Bonfils in his Denver Post as 100 per cent American. It is the antilabor reign of the biggest exploiters that Bonfils and his

bought sheet seeks to protect against "The Red Menace."
It was the Bonfils' sheet that led the pack of "Brass Checkers" in the attack on the traction workers in Denver's street car strike of 1920. No struggle between the owners and the workers is too large or too small for Bonfils. He responds to every beck and call of his masters.

It is well that the workers of the nation should know that such are the sheets of the employers now attacking

America's Communists in the most recent "Red Scare." The Chicago Daily News, the Washington Star and the Denver Post, among the others, express the thoughts of the class enemies of the workers. Only the DAILY WORKER

carries on the fight against them. Some of the militants of yesterday give up the fight. Conspicuous among these is "Mother" Jones, central figure of many a labor struggle, who now urges labor to support the strikebreaker, Coolidge. Today she is the ally of the Daily News, the Star and the Post. She stands side by side with John L. Lewis, president of the United Mine Workers

alliance with the worst enemies of the organization he heads. This is the Lewis who supported his publicity agent, Ellis Searles, in conducting a "Red Raid," thru the columns of the United Mine Workers' Journal, that had the endorsement of the whole capitalist press.

of America, in his betrayal of the mine workers, in his open

The broad front of the Anti-Communist attack extends from Rockefeller, the billionaire, to Lewis, his "labor lieutenant"; from Bonfils to Searles. It is an anti-labor front against which thinking workers must organize for the battles to protect their own class interests. Labor may easily recognize its enemies thru those supporting the attacks on "The Reds." It is a sign by which labor can develop its solidarity and march forward to its own class victory.

Children Are Forced to Hear Anti-Red Talks

Editor's Note.—The following article by Jacob Rusack, DAILY WORKER agent in Gary, was received the same day Rusack was arrested by the tools of the United States Steel corporation for selling the paper to the steel workers. Elbert H. Gary and his friends, Calvin Coolidge and J. P. Morgan. know that if the workers learn the truth they will rebel and organize to better their conditions. Consequently, Rusack has earned the bitter enmity of the steel trust for his exposure of non-union conditions inside the steel mills.

By JACOB RUSAK.

(Special to the Daily Worker) GARY, Ind., Oct. 26.-The public schools of Gary, from kindergarten to the last year of highschool, are run in the interests of the United States Steel corporation, and prepare the children to become more highly exploited after they graduate and enter the steel mills.

All grades are forced to take one hour of auditorium every

Speaks From Experience.

This means that one hour each day all the school children sit and listen to members of the chamber of commerce denounce the "reds" and talk 100 per cent Americanism. I know-I have been thru the public school system here myself.

Most of the lectures given to the Gary children contain praise of the steel corporation. On graduation week the principal of each school invites a member of the chamber of commerce or an official of the steel trust to lecture. The theme generally is about how much Judge Gary is doing for the workers who slave in his

health-wrecking mills. Before they graduate from grammer school the children's minds are poisoned with the bunk that every boy has a chance to become an official of the United States Steel corporation and president of the United States. Then they are forced after graduation to go out and do their bit to produce surplus profits for Judge Gary and his steel magnates. Not until they work several years in the most dangerous industry there is for the meager wage of 44 cents an hour, do they realize they have been handed a pack of lies in the "success talk" fed them at school.

Gary Visits Schools. In May, 1922, for the first time

since the Gary steel mills were built, Elbert Gara visited the Gary schools to see that the steel mill slaves were fed propaganda that would make them more valuable slaves to him.

The children were forced to line up out on the school grounds and made to swear their loyalty to the speed-up king who is now electioneering for the strikebreaker Coolidge. They were compelled to sing patriotic songs and a special song was written for the occasion by a Gary hireling. The chorus went:

"Hello Gary, you're a friend of mine. With your hands in your pocket and your little chain and locket. Hello Gary, you're a friend of mine. What's the matter with Gary, he's all right."

Mills Tell Another Story. Gary smiled and winked, and seemed pleased. Not long after he fired several thousand fathers, of these children when times were slack, and took the homes from those who could not keep up, the exhorbitant payments on the Gary houses.

The children are fed hot air about equal opportunity, but when they get into the mills, they find themselves in the toils of a vicious feudalist slavery. They find their jobs, wages, hours and homes controlled by Elbert Gary, and they find he's not such a good friend after all when it comes to making profits in his steel mills.

FARRINGTON ON LEWIS AND HIS **'TAKING' FAMILY**

Declares Crookedness Runs in the Breed

(Article Thirteen) By T. J. O'FLAHERTY.

Of the many acts of treachery listed in the debit side of Frank Farrington's record, none is more damaging in the eyes of the miners of Illinois than this shameful desertion of Alexander Howat, who was putting up a splendid battle against the autocracy of the coal operators' man in the presidency of the United Mine Workers of America and is still waging the struggle. HE DAILY WORKER is the official organ of our party. It is the only Communist daily in the English language. It is true that our members did not realize vet the importance of a mighty English daily. Before the DAILY WORKER had

been published our members were eagerly waiting the first issue, because they were not satisfied at all seeing the Federations with daily organs and the Party with a weekly paper, The Worker,

STAY AWAY

By ABRAM JAKIRA

OOKING over the October issue of "The Painter and Decorator," the offi - cial organ of the Brotherhood of Painters, Decorators and Paperhangers of America, my attention was attracted by several timely notices bearing the same headline "STAY AWAY." Here are a few of them: "Stay Away from Niagara Falls," as work is very slack there and no hope for improved conditions in the near future. "Stay Away from Cleveland, Chicago and Tampa, Fla., is prominently displayed in a box on another page. "Stay away from Kelso and Longview, Wash.," owing to difficulties being encountered there. "Stay Away from Los Angeles," for work has fallen off fully 50 per cent in the past six months, with no indications of its becoming normal for

Thus appeals to "Stay Away" come from trade unions from practically all parts of the country-from Florida to Washington and California. According to these appeals the worker of the unemployment stricken towns has one of the two ways to choose. He can either hire a Zeppelin and take a trip to Mars to try his luck there or he must remain quarantined in his home town and starve until his employers will again find it profitable for them to give him a job, until the "conditions will again become normal." But there is another way of solving the unemployment problem, the way States, just as they prefer that times should be hard, lution for the problems of the work- proposed by the Workers Party: Abolish capitalism which causes unemployment by creating a Workers' and Farmers' Government and meanwhile make the bosses and their government pay the unemployed.

Any worker can readily see that there is no need for him to take a flying trip to Mars, neither is there any need for him to "Stay Away" or starve. The employers who make enormous profits out of the sweat of the workers in "normal" times and who alone have the right to hire and fire must be made to pay the unemployed to whom they cannot give work. It is the duty and within the power of the government to tax the industries for the purpose of maintaining the unemployed and thus keep them away from

Organized labor has the power to make the bosses and their governinated by the bourgeois psychology ment pay the unemploy d. What is needed is the will to do it.

WORKER is not only the organ of the American comrades, but the organ of our Party. Therefore our members must become subscribers not only themselves, but they must secure subs from their shop-mates and friends. We are all in a position to build up our mighty organ, if we realize the services it offers to the awakening of the class-consciousness of the workers of Amer-

The capitalists having colossal daily organs at their disposition, poison the minds of our fellow workers, and lead them against their own interests. They keep them ignorant, because then, the workers serve their interests because they thus perpetuate the sys-

tem of exploitation. When The DAILY WORKER increase its circulation-when we, the class conscious workers will devote our time and energy for it. then the number of the militants in the trade unions, will also be doubled, and then the workers will get rid of the reactionary (cadership of Gompers and Con teno sell the organized workers of this country to the capitalist parties and the capiitalist government, who use the workers as war material for their imperialistic plans.

Forward comrades, Let us increase the circulation of our daily. Long live our Workers (Communist) Party and its official organ, The DATLY WORKER.
