BIG PARADE AND MASS MEETING IN SPOKANE — WORKERS PROTEST AGAINST KIDNAPING OF Mc-NAMARA AND PASS RESO-LUTIONS IN FAVOR OF A GENERAL STRIKE.

A large parade headed with a brass band. comprising the different craft unions of Spokane as well as the I. W. W., took place or the evening of June 22nd, followed by speech making. Resolutions followed the making and were carried with enthusiam that shows that the Spokane workers are beginning to see the necessity of united action if the schemes and plans of a murderous detective agency who are the tools of the organized masters, are to be thwarted.

Banners hearing such mottos as "Kidnapers are undesirable citizens," "Workers of the world unite, you have nothing to lose but your chains and a world to gain," "An injury to one is an injury to all," etc., were numerous and scattered through the big parade

Fellow Worker Rodgers of one of the crafts acted as chairman and A. W. Swenson of the typographical union and the editor of the "Industrial Worker," did the work of trying to show the workers the necessity of unity all along the line. The meeting was marked by the very best of harmony and the points made in favor of the ONE BIG UNION and direct action on the job as our weapon, was accepted by the great audience with cheer after cheer as approval.

May that we have more parades and more protest meetings if such harmony of opinion can be had as marked the meeting of Thurs-A RED.

LOOK FOR WORK AND NOT PAY-THE SUCKER CAN ALWAYS HAVE WORK WHEN OTHERS ARE STARVING.

The following "bune" appears at the head of the "want column" of the St. Louis Times:" A man becomes of value to a business the minute he begins looking for work instead of looking for pay.

And, in the usual case, when one becomes of value to a business, he is more certain of his salary than the owner is of an annual surplus.

The man who is cheerfully and consistently seeking the burden of additional work is second only in importance to the man who is looking for a higher and more important kind of work, and fitting his mind or hand for it. In good times he will receive better pay than the rest. In hard times, when the whirring of ma-chinery is stopped and panic stalks abroad, he is certain of employment when other men are idle. He is the king of laborers, and 10 to 1 he is a student of his business as well, because mental ambition and physical energy are close

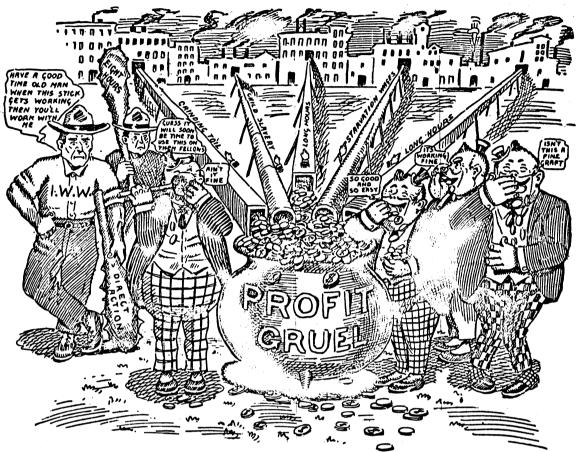

Labor conquers all things because it makes man of service to his fellows and binds him to their purses and their souls as mortar binds brick and stone. It lifts him to a place of power, for men, like bees and laboring ants, have no use for the useless, and no man can long retain the esteem and regard of his fellows who does not render to mankind some helpful service of brain or brawn.

Hard work is a certificate entitling the noble man of commerce to a list of friends, and in the society of the decent no man is despised whose hands wear the callous of the plow of whose shoulders are rounded with the stoop

All opportunities are open to the seeker after burdens, and no place of reward has a closed

MODERN CIVILIZATION?

The sentence of death that has been passed on Mrs. Neapolitian in Sault Ste. Marie, Canada, to be enacted one month after the birth of her baby, shows up like a black cloud and makes all civilized people hate the cursed system under which we live. To take the life of a mother one month after her baby is born. Holly horrors! What are we coming to? It matters not what crime she committed. There is no crime she could have committed that is one half as degrading, one-half as black as the cold blooded crime, a premeditated crime, that has been hatched in the brain of a pack of curs that claim they believe in LAW AND ORDER. To take any man's life is wrong, whether it be taken legally or illegally and the LEGAL crime is always ten thousand times lower than the error that has been made in the heat of passion, or the one that has been made with the idea that revenge is sweet. In the case of Mrs. Neapolitian, she killed her brutal husband because he insisted and repeatedly threatened to kill her if she did not sell her virtue to satisfy the human beasts that run at large, so that he might have an easier time and suffer less from the present economic system. The mother then and the mother soon to be, rebelled against the suggestions and threats of her brutal husband and in fear of her life and to protect her honor and virtue, she killed him when he was asleep. If ever there was justification for taking the life of a beast, this mother had it. The Canadian government that would strangle this honorable woman to death and leave the motherless children, is a million times lower than the husband that would become the pimp for his wife and mother of his children. The "Worker" joins with every other civilized person in America in protesting against such barbarism and at the same time our only regrets are, that we are not Industrially organized strong enough to tie up every industry until the blood thirsty monsters in Canada would be FORCED to release this brave and true mother.

DESPOTISM.

Many clerks in the postal department of the United States that suits the boss. are being discharged without cause being shown, but as the clerks who have been discharged have been agitating for better conditions in the service, it is not hard to understand the 'dause'' of the several discharges. The people are supposed to be the boss of the postal clerks, but supposition and facts are different things. Hitchcock will see that the slaves do not rebel. May they all rebel.

TOO BAD.

A Spokane ex-policeman by name of Kalien has been sentenced to three years in the federal prison, for dealing in the white slave traffic. Many Spokane "bulls" have had to go the same route in the last year or two for the same offence. This business of selling white slaves is almost as great a crime as speaking on the streets in Spokane and the punishment is almost as severe. Those desiring free speech gets murdered and white slave traffickers get three years in the pen. Some difference.

THE CORONATION.

The job of placing a chunk of gold studded with precious jewels on the pate of a parasite is finished. Millions upon millions of dollars have been spent in making this grand display of riches before the world. Detectives have been hired from all over the world in order that these precious parasites might be protected from the wrath of some "fanatic." The slave that will cheer or make any demonstration of approval when this display of ill-gotten gain is being made, is about as ignorant as the American scissorbill that cannot earn enough to pay his grocery bill, but can find money for fire-crackers and bombs to celebrate his FREEDOM with on the Fourth of July. The only difference between an American and an English king is that one tries to put his spoils on his head and the other fellow puts it in his poeket. Its all the same thing to the wage worker. The fact that we allow either kind of these parasites to live off us is prime facie evidence of our ignorance. More education please.

TAME AT LAST.

A leading merchant in Aberdeen, Wash., in order to get the opinion of all the merchants and others of the town of Aberdeen, has cleaned out his show windows for the purpose of giving the east window for all those opinions in favor of an eighthour work day and the west window to display all "opinions" opposing the shorter work day. This business man evidently sees the "hand writing on the wall" and is going to make the best of the eight-hour day for women, by boosting it along and thus putting himself in the favor of the workers. No doubt the general agitation for the eight-hour day by the use of the stickers and otherwise, will have a soothing effect on a great many business men. Keep up the agitation.

THE EIGHT-HOUR DAY.

The recently passed "EIGHT HOUR LAW FOR WOM-EN" is being violated right and left in the City of Spokane and elsewhere. Those women will have eight hours that happen to be working for a boss that favors the measure, but in any case where the LAW does not suit the particular whims of the task-master, there is no doubt but what the LAW will be violated by getting around it in some manner. A united and educated working class will write its own law in the union hall and will enforce it on the job. On with the education and the ONE BIG UNION.

CATCHING\SUCKERS.

What better outing or recreation can a young man have who is working in a store or mill than this trip on the Sound of federations of dockers and seamen. To orin July when everything is furnished and he is to secure not ganize immediately the propaganda in all less than \$1.50 per day pay.

This is the "stuff" that is being peddled in the newspapers on Grays Harbor for the purpose of trying to establish the of Dockers and Scamen with a bureau, and militia in the several towns in that district. Nothing is told to submit this proposal to the approval of the the workers about being FORCED to shoot down some worker federal sections. that is on strike or that the militia is a capitalists' concern for the use of the boss, to his interest and no one else. The I. W. W. should take pains to show up this insidious scheme of the master class of getting men to join an institution of murder with such bait as "a trip on the Sound in July" when every thing is furnished and he is to secure no less than a \$1.50 a at Padua. Over 200 delegates assisted. From day." There is a reason for all this philanthropy on the part the opening it was known that there would of the boss. Its not hard to understand. What about those be a struggle between the reformists on the anti-military stickers? anti-military stickers?

THE PROFIT SYSTEM.

KANSAS CITY, June 2.—A temporary restraining order seeking to oust the Kansas City Fruit and Produce exchange and to dissolve it as an alleged food trust may be requested of Judge A. F. Evans, special commissioner taking testimony at a hearing here, announced Henry Jost, assistant prosecuting attorney, today,

The declaration came as the result of the testimony of S. J. Hurst, a member of the exchange, after he had admitted on the stand that eggs are stored to keep up prices Merchants were not in business for their health, he said.

"If the merchants did not store the eggs, the prices would be very low while the big early spring and summer supply was coming to the market," Hurst further explained.

"How about the consumer who has to pay the bills?". "We are not in business for our health," Mr. Hurst said. WE TRY TO SELL OUR PRODUCTS FOR JUST AS MUCH congress 116,000 voted in favor of the official AS WE CAN GET FOR THEM."

How about you. Mr. Workingman? Do you wish to organ ize to sell your commodity (labor) for just as much as you can or do you care to be as well organized as a lot of rotten eggs anyway? Everything is organized from eggs to steel. Yes everything but your labor. Labor is the one thing unorganized in the world today and the boss will take particular pains to see that you are not organized. If the boss had the selling of you instead of the buying, he would soon have you organized. The boss can see the necessity of organizing everything that he has to sell because HE IS NOT IN BUSINESS FOR HIS HEALTH. A fool slave don't believe in organization and

BIBLE NOT SCIENTIFIC.

Dr. Freeman, president of the Morningside college in Misouri, has resigned. Now that the president has freed himself from the rules and regulations of this theological institution, he says: "I can now tell the truth." This means another spike in the coffin of superstition.

REFORMERS.

The state executive board of the Socialist party of California refuses to allow Debs, Haywood of William Thurston Brown to speak under the auspices of the "PARTY" in any part of the state. Guess the geke that said "all revolutionary political parties which has to rely on votes, must turn into um canation!! lem Isn't it the truth!

ETERNAL VIGILANCE.

"Eternal Vigilance is the price of Liberty." That is as true today as it was 100 years ago. Let us stop every wheel on the day that McNamara is tried in Los Angeles. Let us FORCE the master class to return this man to his home in Indiana and make them take the route as laid down by their own LAWS. It is not McNamara that is on trial, but LABOR, and it is up to every worker in the country to see that these bloodthirsty hounds that have robbed the peon of Mexico of their homes and land, will not rob us of the right to organize. Keep up the agitation and STRIKE and STRIKE again for liberty.

As soon as the working people regard Industrial Union methods with the same respect as the capitalists do, the battle will be as well as over.-Ravenworth.

Don't fight for your boss, let him do his own fighting. You cannot die for your country and enjoy it too. Let scabs go scabbing, and stool-pigeons go back-biting. Your life, though valued by the boss, is dearer more to you -Ravenworth.

Livio Ciardi of the ing the present officials of the Confederation not to have shown enough solidarity in recen events as the railway men's agitation, the Herrer and Durand cases, the Czar's visit to the King of Italy, etc. A number of speakers followed, some for, some against the attitude of the committee. After that the revolutionaries scored a good success on the question of altering the statutes of the Confederation. The committee wished to submit its proposals at once to the vote, in the well founded hope to obtain a majority. After some less friendly observations from both sides the revolutionaries obtained that the question was referred to a mixed commission which reported later to the congress. But the congress having heard this report, decided to postpone any alterations in the statutes. But after waiting ten hours for his 9c and then being told by the proprietor to "tell your troubles to the policeman," who would collect his wages for him (perhaps) came to the I. W. Of course we told him that we kept no such junk in stock, as we had found out a no such junk in stock, as we had bound out a long time ago that sympathy was a poor article of diet for any workingman to subsist on. We therefore explained "direct action" to him and also the possibilities and benefits that

could be derived therefrom. So a bunch went into the restaurant and ate up the amount due cook in wages and walked out without paying the cashier. It was then suggested by our kind friends that we beat a hasty but masterly retreat as the proprietor had gone to the police station. Of course the slugging committee of the capitalist class showed up in due time and we were persuaded to go back in the restaurant and explain. After we explained, we werd then taken to the police station and questioned as to our financial standing, etc. We had as much money as the average freeborn workman has (which runs from 0000.\$ on up). We were then cautioned not to speak on the street that night, so we took cognizance of the "caution" by holding a big meeting and having the pleasure to address seven detec-Towards the end of the meeting the chief of the Minneapolis toughs drove up in a buggy and listened very attentively until our speaker got tired of explaining the aims and objects of the I. MEXICAN REVOLUTION CONFERENCE MEETS

STEPS TAKEN TO PROTEST AGAINST OUTRAGEOUS ARREST OF MAGON.

The New York-Mexican Revolution Conference held its fourth meeting at the Ferrer Center Thursday night. Telegrams from Los Angeles were read, reporting the arrest of Ricardo Flores Magon and other members of the organizing junta of the Mexican Liberal party, also about the destruction of the printing plant of the official organ, Regeneracion.

Steps were taken to protest against this repetition of the outrage of several years ago, at which time the American people success fully protested against the arrest of these same men, finally obtaining their release. It is imperative that extradition of the prisoners be prevented, especially in view of the report that the Mexidan government has offered a reward of \$50,000 for Magon.

Final arrangements were made for the Coop Union mass meeting on June 26, and in addition to those already announced, the following will speak: Timothy Walsh, S. Boris, Dr. M. Girsdansky, August Lott, and Simon O. Pollock. The Cooper Union meeting will be followed up by open air meetings throughout the city, starting the following Saturday with one at Union Square, for which a committee was appointed to secure a permit.

announced that Cultura Proletaria, the local Spanish radical weekly, would take up and carry forward the work of Regeneracion, and any contributions to the Mexican Revolution Defense Fund will be acknowledged through its columns. A page for English readers is contemplated.

The next meeting of the conference will take place June 22 at the Ferrer Center, 6 St. Marks All radical and progressive organiza tions are urged to co-operate, sand delegates. and donate to the defense fund.

TEACH MONKEYS TO PICK COTTON.

SAVANNAH, JUNE 20.-An attempt is to be made in Fulton county by French cotton experts to teach monkeys to pick cotton. If the experiment succeeds a colony of monkeys imported and put to work.

The idea was suggested by the antics of a pet chimpanzee carried by a farmer boy into the fields. The little animal, after frisking around for a time and watching the negroes at work, began of its own accord to pick the cotton with almost incredible rapidity.

Animal trainers find it very easy to teach monkeys to perform any manual trick or labor. By utilizing monkey labor the cost of cottor harvesting would be infinitely less than with human labor.-Ez.

INDUSTRY DEADLIER THAN WAR.

"Individualists?" To dare stand alone." That

More destructive of life than war is indus try. In all civilized countries great masses of people are crowded into slums and labor ghettos, where disease festers, vice corrodes and famine is chronic, and where they die more swiftly and in greater numbers than do the soldiers in our modern wars. The very infant mortality of a slum parish in the East End of London is three times that of a middle class parish in the West End.
In the United States in the last fourteen

years a total of coal miners, greater than our entire standing army, has been killed and injured. The United States bureau of labor states that during the year 1908 there were between 30,000 and 35,000 deaths of workers by accidents, while 200,000 more were injured. In fact, the safest place for a workman is in the army. And even if that army is at the front, fighting in Cuba or South Africa, the soldier in the ranks has a better chance for life than the workingman at home.

ANSWERS BISCAY'S CRITICISM.

J. S. Biscay, Fin. Sec. and Organizer,

L. U. No. 322 I. W. W. Vancouver, B. C., June 13, 1911.

Fellow Worker:—Your letter of the 8th inst. to hand, contents of the same carefully noted. The enclosed letter of criticism of Haywood's "General Strike" read,
You state that the whole lot of pamphlets

was by order of the local destroyed and you underscore it, doing the same to the word burned as if it were a commendable act for body of wage workers who belong to the W. to pride themselves that they burned a book that contains sentiments contrary to their notions or ideals. I should think that it was unnecessary for the books to be sent to B. C. for that fate to happen to them, we could have saved the time and expense and taken them down the next corner from here and have them burned by the institution that, fearing the fools would be contaminated by the reading of books its leaders assumed to be harmful, placed them on the "index expur gatorius" and the authors in orgastulas,

As for your criticism of the pamphlet and its contents as well as for our conduct in publishing the same, will say in reply:

That the contents of the same are the opinions of Fellow Worker Haywood on an important subject, I would consider it the height of folly to say the least to follow your suggestion to doctor it up, not only upon the basis of common decency and respect to a fellow worker's ideas but also because we would have no right to do so since we would then be putting words into Haywood's mouth that he would be justified to disclaim.

As to your criticism of the speech upon the theory that the same is "political dope and contradictory" and that you "saw that the pamphlet would do harm instead of good" say that you have a right to your opinions. but so have others and to do as you have, burn the books, is the height of fanaticism an act that to my mind will do its share of harm and produce its effect.

You ask, "Are we going to let any man tell the I. W. W. what it stands for, even though it be untrue?" That is just what I would like to know from you fellow workers.

Certainly, you will not argue that the posi

tion enunciated by your letter to me and that of the circular you enclose, which is a copy of the same matter published in the "Industrial Worker" of recent date, nor does the I. W. W. stand upon the position you announce in your telegram to the "Worker" of the same issue wherein you hint at the "fallacy of poli-tics" is the official national position of the Industrial Workers of the World. You know full well and all of the members of the local union should know the position of the I. W W. on that point. May I refer you and them to the resolution adopted by the 1908 convention and subsequently adopted by the general membership of the organization, saying in part: "Resolved, That to the end of promoting industrial unity and of securing necessary discipline within the organization, the I. W. W. refuses all alliances, direct or indirect, with existing political parties or anti-political sects, reproach made by the remark of yours in the letter to me "some one local did not use com-mon horse-sense" and your expression of the "hope that the eastern locals will repair the harm done as much as possible," I would say that the speech in question is not merely published with the approval of the shoe workers organization, but same was gotten out at the suggestion of the most active members of the New York unions. There is no reproach due either to the shoe workers nor to any of the eastern locals for if I judge them right they are not finding any fault with the contents of the book and what is more they are and have been in accord only with the I. W. political position as enunciated in the official decisions of the Convention and the referendum vote of the membership.

To my mind I believe that the time for academic discussion as to the relative merits and demerits of politics and anti-politics had come to an end, its time is up, we must turn

SOME GOOD WORK.

Omaha, Neb., June 19, 1911. Fellow Worker: We made our General Strike organization permanent yesterday by adopting constitution and by-laws.

As the tendency is to organize in all the industrial centers, will give a synopsis of our plan and hope to hear from others, for by the interchange of ideas means greater progress.

Our organization is called the Tri-City General Strike League (comprising Omaha, South Omaha and Council Bluffs, Ia. Its object is to educate the workers to the power of industrial organization and the general strike for the liberation of the McNamaras, Buccafori, Cochrane, the cigarmakers of Tampa, Florida, and all others who are or may here-after be railroaded to jail for the cause of labor.

We have gotten out a dodger (find one enclosed) which we are distributing throughout this territory. We call for volunteers and take a ward at a time and cover it completely, which will take about two weeks. By that time we will have another dodger out and repeat the operation until the workers talk nothing but industrial organization and general strike.

We have no initiation fees or dues. All our funds are raised by voluntary contributions. Have a committee to visit all the different and disclaims responsibility for any individual opinion or act which may be at variance with the purposes herein expressed." The past few weeks have found a gradual falling off in the receipts and we take this opportunity to urge every worker to rally to the support of the "Worker." The fact that the receipts are dropping off should be all that is necessary to say to any member of

Education is everything. Nothing can be accomplished without it. To get the educa-tion into the workers, it is necessary to get them to think and reason. Nothing will be more effective in this line than a sub to the "Worker." We hope you will see the necessity of this work.

All organizers and speakers for the I. W. W, are requested to mention the "Industrial Worker" immediately after making their speeches and call attention to the 25c and cards. Locals might do good work by arming their speakers with a few cards before sending them out.

Plans are under way to put speakers out in the interest of the "Industrial Worker." In the meantime help to keep the ship sailing by shooting in a few subscriptions.

The United States Steel Trust.

The United States steel trust is an industrial organization of capital that owns and controls the iron and steel business absolutely. Fully 60 per cent of the total output of steel in this country comes through the hoppers of ore ply the great lakes and trains of cars traverse the vast railroad system which unite the meriads of mills under its domination.

Before the house committee of inquiry Robett E. Hall ex-president of the Pittsburg Stock Exchange, stated "that the steel corporation throttles competition through its banking connections; that it earns exorbitantly on the heavy tonnage through collusion of the controlled railroads with other railroads; that the corporation keeps tab on the independents through a system, later using banking and freight restrictions as cudgels, if necessary." He further stater that the trust "is engaging in the purchase of 17,000 acres of Pittsburg and Connellsville coal lands, now owned by the Pittsburg Coal and Coke company, with a view of shipping coal to Gary, Ind." It is well The United States Steel Trust Is Bigger Than
