Private Property in Its Relation to Socialism.

The Wire-Nail Trust Reduces Wages Sheboygan Comrades Gain a Strong Point.

"O spirit, burning for the right, Thy symbol is this torch I light, That wastes itself until its ray-Goes out, and then is thrown away."

"I would be happy could men's eyes Behold the vision of the wise; But far more happy, could I heal The wound that in their hearts I feel."

The new wire-nall trust has notified s 800 employes at Anderson, Ind., that their wages will be reduced, some as much as 33 per cent. The least reduc-tion is 9 per cent. These reduc-tions are to be made in all of the fourteen plants controlled by the trust, and will affect about 10,000 men. The trust mills will also be run on a strictly nonunion basis.

This degradation of the workers is a strictly logical result of these capitalist combinations, and it will proceed in spite of all the protests which trades unlons, as at present organized, direct against it. It is only by organizing under the banner of Socialism and taking possession of the industries now controlled by trusts, that the workers will be able to protect themselves from slavery, and secure the results of their labor. The sooner they manity at large. learn this the better will it be f r hu-

The corporation method of tagging and numbering the serfs of modern industry is looked upon with favor by the authorities at Washington, and will be employed by the government for the purpose of identifying such of i's soldiers as may be shot down in battle. At the time of the civil war corporate methods had not reached the perfection they have attained of late years, and our soldiers were not tagged. As a result we had many unidentified dead, and thousands of those who lost the r lives in that conflict are buried in unmarked graves throughout the country: This will be rendered impossible in the future. Every patriot who engages in the war for Cuba libre will receive a tag; bearing his number and indicating the company and regiment to which he belongs, and when he is fatally pierced by a Spanish bullet or hacked by a machete, it will only be necessary to refer to his tag to make identification absolutely certain. It will undoubtedly be a source of exgratification to the soldiers to that they are not doomed to sleep in unmarked graves, when they are shot down by the enemies of their country, and the fact furnishes an additional reason why the soldiers should whereate a government which looks with such keen solicitude after their welfare! N. B.—Officers will rec ive no tags. They will be left to take

A comrade in Salt Lake City, Utah asks for light on the question of pri-vate property, and wants to know how the matter will be treated under Socialism. There can be no definite statement as to what the status of property will be under Socialism, for the reason that the property idea is subject to the same evolutionary forces as affect all other forces of organic social life, and the forms in which the idea manifests itself change with each historic period, and correspond always with the prevaling economic environment. As to the future form of property, that will be decided by the future, not by the present.

But the conscious attitude of pre entday Socialism with regard to the pres-ent-day conception of property is another question. On that point the voice of Socialism is clear and distinct.
The material things which are c

prised under the term "property" at the present day may be roughly classified The great evil of the present system lies in the inequita 1: ion of the latter class of prop erty. It deprives the mass of the peo ple of their property rights in the due to social recognition of the right of private ownership of property of the former class, of private property in the nose of Socialism to abolish th's evil follows that Socialism must therefore deny the right of priproperty in the means of produ means of production-capital-is a ne cessity of Social'sm. This legically means a greater diffusion and more equitable distribution of property in the means of consumption-wealth the owning of the means of production munity, and the means of fairly enough its practical aim.

This, however, is a very general statement, and furnishes no clue to the necessary distinction between the two ses of property. What is means o circumstances, the e thing may be both means of uction and means of consumption to the same person. How is this dif-ficulty to be met? Will Socialism es-tablish arbitrary rules and put the determination of the question of classi-fication under the direction of public mocracy.

officials, thus establishing sumptuar interference with individual rights' Not at all. The question will be de-termined in a purely natural way. The collective ownership of capital means that wealth will be produced for use and not for profit. Rent, interest and profit, the three forms of tribute which private owners now collect from the people for the use of capital, will be abolished, and each person will share in the products of the collective indus-try in proportion to the value of the service which he or she may have contributed to the productive process. Af-ter this share has passed into the pos-session of the individual, the collectivity has no further concern with it. It may be used by the individual as the individual sees fit. The individual may put it to use as means of production without interference, but the individual will not do so for the simple reason that there will be no incentive for such action. The possibility of using wealth as private capital will be gone; that is to say, the fact that the community is operating the means of production at the greatest economy, and with the factors of rent, interest and profit eliminated, will render it impossible for any individual to make a profit out of production, and will thus destroy the motive to use privately owned wealth for that nurnose. This is all the com pulsion that will be needed, and all the means of classification of the two forms of property that will be neces gories as other forms of property-that which is used as means of production will be public property, that which is

left in the possession of individuals.

As a matter of fact, property unde Socialism will acquire a new status Deprived of its profit-bearing attri-butes it will cease to be property in the sense in which the term is used to-day, and will become merely pos session. Under Socialism we may come to realize the truth in Proudhon's for mula. "Possession is a right; property is against right." Property will tend more and more to lose the distinctive characteristics which cause it to be so greatly venerated to-day, and will gravitate surely toward the communal form. The generations to come will no doubt look back upon us with a sort of wonder and commisera-tion that we could have made such a fetich of property. But that is some-thing that will develop out of the changed economic conditions which Socialism will bring abouts Practical Socialism deals with practical questions and its conscious attitude toward the present concept of property is all that need be stated.

used as means of consumption will be

The Social Democrats of Dallas, Tex. entered the muncipal campaign in their city with a candidate for mayor. They adopted a platform containing the following demands:

. . .

far as possible, equal and exact justice to al.

2. That all public utilities, such as electric light plants, street railways, water works, gas, telephone lines, etc., he owned and operated by the people by the city, cost or operation to be the limit process. That no city work be done by contract, but directly by the city, the employes to have the privilege of selecting their foreman; no employe to be discharged for political or religious reasons.

4. That the eight-hour law in an public departments be confined. rtments be continued. That the rate of taxation be reduce

5. That the rate of taxation be reduced to the minimum.
1.8. That water meters be used by the city, thereby equalizing water rates.
7. That we demand of the next state legislature that our city charter be so amended as to grant to the citizens the right to elect all city officials.
8. Thay the right of franchise be granted to women in city elections, when a majority of the voters by their ballots so declare.
9. The adoption of the initiative and the referendum, the imperative mandate and proportional representation in city affairs.

There were five candidates for mayor and a total of 6,888 votes were polled The S. D. candidate, Comrade Thomas E. Losee, a workingman, received 235 votes, which is a remarkably good showing, and reflects great credit on the hustling qualities of our Dallas

The distribution of the loaves and fishes is already causing untold trouble to the winners in the Milwaukee municipal election. The Polish voters have nade a demand on the powers that be for proper recognition in the distribu tion of the patronage. The task of placating the heterogeneous elements that contributed to the Demo-Pop victory is proving to be a hard one, and good political judges are predicting that the alliance of the Democrats and Populists will be shattered within a week after the new administration get

One result of the election in Sheboy gan will be to give the Social Demo crats the balance of power in the cit. The council is composed of sixteen aldermen, slx of whom are democrats and seven republicans There are three Social Democrats in the council, two of whom. Comrade Mohr and Haack, were elected as such Comrade Ed. Phister of the sevently out for Social Democracy, and will work with Comrades Mohr and Haack in the council. This gives the Social Democrats a strong position in the council, and their influence will no

The workingmen of Anderson, Ind. have cut loose from the old politica parties, and have entered the politica fight in their city on a straight out So cialist platform. They will make the fight this spring as an independent or ganization, but later on they will be found doing valiant service for Social ism under the banner of the Social De

LONDON

Socialist and Trades Union News from England.

Sad Death of Eleanor Marx Aveling Conference of the I. I. P. Capitalist Combination.

April 3, 1898. Eleanor Marx Aveling committed sui-cide at 11 o'clock last Thursday morn-ing, and as the news travels round the world it will leave a deep mark of sorrow behind it. Hers was a type of militant Socialist woman that is rare, and her personal abilities were of so high an order that she leaves a chash that can be filled by no one else living The daughter of Karl Marx, and his right-hand assistant in the "Interna-tional," she had, since her father's death, given all her time and great talents to the worldwide working class movement. Whether it was to speak at a demonstration a hundred miles away, to talk to a handful of toilworn enthusiasts in a dreary back room in London, to write an article for a labor paper in any of the numerous lan guages she knew, to keep the accounts of a struggling little trades union or Socialist branch to translate compile lecture, write or organize, she was ever to the front. Now she is dead—and by her own hand! Many in America will per own hand: Many in America will remember her lecturing tour in 1886 in company with Liebknecht; and Dr. Aveling, and they will know her, as we do, as a brilliant and sympathetic ex-ponent of the cause of the workers and a stern and formidable opponent of the shams, the lies, the cowardices and the crimes of dominant plutocracy: Her earlier years in England were full of privations, and it was only recently when Frederick Engels left her a leg acy, that her livelihood was secured and freed from care. In her home at the "Den," Sydenham, she was engaged upon a new book, an address delivered by Karl Marx to the Council of the International Workingmen's Association on June 20, 1865, and right in the mid dle of her work, and in but her fortieth year, she has ended her life by swal-lowing prussic acid. In the grief at her tragic death all animosities will be forgotten, those animosities that the la-bor movement is unfortunately so prolific in producing, and international Socialism will be in mourning for a

The first regularly organized branch of the Workers' Union was opened last night at Edgeware Road, London. Another branch, largely composed of engineers and engineers' laborers, is forming in the East end, and will start with 250 members. Five more branches are in the egg in London alone, and all over the country pro tem secretaries are organizing under the Workers' Union banner. The essential for its success is, I should say, that the movement should partake of the nature of a crusade, and go with an enthusiasm and a rush. The apathy of the average mechanic, clerk or laborer is so dense that only a dramatic coup will clear it off and divert his thoughts from backing horses and studying futile polities to something nobler and more

. . . The day of combines is here, and fresh evidence pours in. The latest of which I have had authoritative information is a large paper-making com-bination which is to comprise many of the largest firms in the United Kingdom and to have a capital of about \$18,000,000. The revenues from "economy" are to be enormous. You know what that means --more machine made poverty, misery and degrada-

The I. L. P. is to hold its annual conference at Birmingham next week, and we are promised an interesting session. Nearly every branch has been discussing the question of uniting with the S D F to form one Socialist party and this subject is to be adjudicate upon by the delegates in conference assembled. A definite scheme for find ing the necessary funds for properly and effectively fighting the next general election will probably be broached the administrative and constitution; which somebody usually thinks important enough to worry over. Altogether a busy time is looked for. It will only last two

The stagnant permanent-officialdom of the Durham Miners' Association is having its collective mind troubled by the appearance of a new and progress ive party within the limits of the as sociation. The first factor wishes to free the association from the shackles of party polities which the old-line men have suffered to be fastened upon it and to press forward the legal eight-hour day, trade union federation, the minimum wage and other progres

Twelve platforms are to be stationed in Hyde Park for the Labor Day dem-onstration, one of which will be an international stand. A second will b can sing Socialist songs ere the strug gle for existence kills the melody of

The honor of a capitalist is a suspi inc. nonor of a capitains is a suspi-cious thing. The bridy of these gentry who run our docks, after the trium-phant labor struggle of 1889, promised to observe faithfully and honorably the condition of the Mansion House agree-

should be paid off with less than 48 cents for his part-day's work, and also that if overtime was worked it should be paid for at the rate of 16 cents per hour. Both of these promises, won in such a heroic struggle, are now being ignored by the employers, and great trouble is browing for some one.

Reports which reach me from various parts of the country show that the So cialist movement is waking up from its winter sluggishness. The elections for poor-law guardians is the chief channel of its industrious propaganda this week, and when they are over we may look forward to a network of Sunday lectures and demonstrations covering this country, which ought to be ours.

NOT OPPOSED TO SOCIALISM.

The Masses Are Only Opposed to What They Think Socialism Is. The masses are not opposed to So cialism. They are opposed to what those opposed to Socialism have told them that Socialism is. Of Socialism itself they know nothing, says the Appeal to Reason, and never will if those who profit by their ignorance can prevent it. It was Ruskin who said that it was harder to unlearn what we had learned wrongly than to learn the truth. In order to prejudice the working people against Socialism the rul ing classes denounce Socialists with the very crimes that its opponents are daily committing. Ninety-nine crimes out of each hundred are committed by Republicans and Democrats, but the principles of these parties (if they have any) are never denounced because of these actions of their members. But if one Socialist commits a violation of the law, or holds views antagonistic to the prevailing ideas, Socialism is held to mean that thing. Socialism does not mean a division of the prop-erty of the nation among the people. yet how many people really believe it does! It does not mean a bloody revo lution and a general turning of things upside down, yet how many people believe it does! It does not mean that the lazy will eat the bread of industry that genius and skill will go unre-warded, that intellect will be of no more account than the foolish, that food and clothing will be doled out to the people by public officers like ra-tions to soldiers, that all the people will dress alike and live in like houses yet how many people foolishly be-lieve these things that have been told them! It does not mean to destroy home life, abolish marriage and es-tablish "free love," yet how many op-pose it on the idea that it does all these things! You see the reasons that people oppose Socialism—and every one of them will bring up one or more of these things as objections—are not reasons at all, for none of these things are what Socialism demands. present system produces all these things, but Socialism would produce none of them. It would free the peo-ple physically and mentally. It would give every man and woman the opportunity of developing the best in them. It would enable each to live ele-gantly, dress elegantly, and enjoy life to his or her full capacity, on his or her own labor. It would allow each to be placed in possession, for use, of the means of making the most for themselves and society. It would make the interest of each mutual instead of antagonistic as at present, thus making all people brothers in interest. It would make it impossible for any one to profit by crime and cheating. It would offer no reward for cunning, deception or fraud. Having the posses sion of all the wealth each could use for a little labor, the good of the race instead of the getting of personal wealth would be the object of life. The whole human family would be engaged in trying to make each other happy in-stead of trying to skin each other. Wealth would cease to be worshiped because it would bring no honor nor exempt the holder from his share of the labor society requires to produce the needs of the people. The nobles actions of life are such as we honor in a Washington, a Lincoln, a Paine or a Patrick Henry, and not the feeling we have for the Astors. Vanderbilts Rockefellers and Morgans. Such honor will under Socialism be the greatest incentive for noble deeds. Our richest men would rather have the adoration nation pays to Washington than their wealth. Learn what Socialism is before you believe or condemi Get books on the subject and read

SOME FASHION NOTES.

It is still fashionable to strain you eyes looking for prosperity.

It is still stylish for capitalists and bums to live without working.

Low wages or no work at all is still

very fashionable amongst the poor.

It is quite fashionable to pay larger profits to small dealers than to big

It is not stylish for capitalists to have hard hands. Fleecing labor is not hard work manually. It is entirely out of fashion for work-

ing people to attend first-class theaters; they can't raise the price. The most fashionable kind of holi-ness, now-a-days, is the kind you see in the clothing of the working classes.

The fashion of farmers owning their farms is going out and the fashion of landlordism is coming. "Its Hinglish,

most fashionable kind of pocketooks for the wives of workingmen are those in which are kept the accounts of

the butcher and grocer.

As the system of fleecing labor develops, charity on the part of the fleecers gets more fashionable. It makes them feel that they are going to make another profit of a hundred-fold up above the sky.—Rochester Socialist.

ROSA PROLETAIRE

Continues Her Interesting Notes to Brother John.

American Insurgents and Reconcentrados A Warning to the Capitalist Politicians.

My dear Brother John:-Never mind. Whether there be war or no war, these "patriotic wageworkers" will soon be cured of their folly. Is it not ridiculous for our American wageworkers to how! for war?

Indeed it is, John It is, because we

American wage slaves have all the war we want. We have more war than we can stand. We have an eternal war against capitalism—a war that costs us our very lives; a war that swallows the lives of thousands of men, women and children. We have our American insurgentsthe organized toilers—struggling for their rights; we have five million re-

concentrados, five million unemployed wageworkers, who are starving on the highways and byways of the country or in the man, houses of our cities. or in the filthy alleys and tenement "Down with Spain!" I don't know, Brother John, what interest we poor wage slaves have to see Spain go down. I say: "Viva la Nacion Espanol!" but

down with the Spanish plutocracy! The feudal aristocracy, combined with a capitalistic plutocracy, and assisted by an ignorance-breeding church-ocracy, have ever oppressed the people of Spain and the Spanish colonies Don't blame the Spanish people for the brutalities and outrages committed in Cuba. Spain has her Mark Hannas, her Carnegies, her Pullmans, her Van derbilts. Spain has her Wendell Phil lipses, her Lovejoys, her Garrisons, her E. V. Debbses! Spain has her brave and heroic trade unionists; Spain has her noble Social Democrats, who sacrifice their lives for the cause of la-

bor and humanity. "Down with Spain!" Say, ye jingoes among the American wageworkers, do you really know what you are howling for? Don't you know that the plutocracy of Spain and the plutocracy of America do not care an iota for your interests? America has her homestead, her Cripple Creek, her Pullman, her Hazleton; Spain has her Barcelona, her Bilboa, her Montjuich, where discontented, suffering wageworkers were shot down by the mercenaries of plutocracy-murdered because they manded their inalienable rights as human beings.

In the name of the Social Democracy America I beg leave to address the following words to our brothers, the

wageworkers of Spain:
"Brothers and Fellow Wageworkers of Spain:-The Socialists all over the world are enemies of all bloody wars. The time has come when the masses of the people must raise their voice against the murderous work of the ruling classes. On the pretext of sav-ing the national honor of America and Spain the plutocrats of these two countries would not hesitate to sacrifice the lives of hundreds of thousands of wageworkers on the battlefield. The blood of our brothers would be new manure for the fields of capitalist speculation. We protest against war: we desire peace, labor and freedom. Let us break down the barriers of capitalism at home-and Cuba, Spain and America home—and Cuba, Spain and America
will be free. Workingmen of Cuba,
Spain and the United States, join
hands and unite under the glorious
hands and unite under the glorious
A Spain Democracy and International Peace. Proletarians of all untries, unite cialista Espanol! Viva el Proletariat Internacional!"

I sincerely hope that the national ouncil of our American Social Democ our comrades in Madrid, who will undoubtedly publish the same in their official organ, "El Socialista." Address Senor Pablo Iglesias, Redactor de "El Socialista," Madrid, Spain,

Now as to our movement at home must inform you, Brother John, tha we must start work right now to be ready for the great political battle that is to be fought between capitalism and Socialism in 1900. The time for action has come.

Our comrades in Milwaukee and She boygan have done well. Indeed, it is a splendid result—3,000 straight Socialist votes in Milwaukee! Two Social Democrats elected in Sheboygan! Our Social Democracy in Milwaukee polled 2,500 votes; the Socialist Labor party had 500 votes. And this result was reached in spite of the fact that the old capitalist parties were campaign-ing with their municipal ownership

A comrade has just sent me a Wes ern capitalist paper that contains the following warning to the capitalist pol-

Iticians:

The vote polled by the Social Democracy in the Milwaukee municipal campaign may turn out to be the "little cloud like a man's hand" that will loom up large in the political future of this country. This is the first vote of the new Socialist party started by Mr. Debs on the wreck of the old Railway Trainmen's Union. The vote would probably have been much larger but for the fact that both the old parties took much of the wind out of the new party's sails by strongly advocating municipal ownership. Politicians and others will be interested to note that while the Social Democracy.

American end advocates breadth of vie being denounced as "unorthodox" by the leaders of the small, largely foreign-bo party which has for years been almost: a standstill, The Debs Social Democra-is organizing new branches every wee all the standstill of the standstill of the stands of the standstill of the standstill of the large numbers of Populists and others the dissatisfied element who would new have been allured by the straight "o thodox" Social Labor party.

As to the Socialist Labor party,

cannot help expressing deep regret about the dangerous tactics some of our comrades from that side are pursuing. Remember, I esteem and hono the members of the Socialist Labor party. I have been acquainted with many of the leading S. L. P. members. and I know them to be true, sincere and enthusiastic Socialists. However, some of these comrades have been misled to wrong tracks, and now they have faller into the habit of calling every man a fakir and a rascal who does not exact ly agree with the ruinous tactics of some of their leaders. Comrades of the S. L. P., be men! Act as Socialists Wild denunciations and misrepresenta tions of other comrades is no Socialist agitation. If Socialism means any-thing, it means truth. Now, let us be true to each other. Let us respect each other as men and as comrades. Is it not a shame to fill the columns of Socialist papers with vile and foul language? Never be afraid to tell the truth, but leave out all insinuations. Remember, the time will come when all the Socialists will unite into one organization, fight under the same banner, on the same battlefield. And when that time comes some of you may feel very much ashamed of some of your actions in the past, especially when by your own experience you have become convinced that this comrade, although a "Debsomaniac," is a true and honest comrade after all. Remember the words of Franklin: "Either we hang together or we shall hang separate-

Socialism is in the air. Our com-rades who attend the national con-vention of the Social Democracy of America must know the full responsibility of their mission. The June convention will decide the fate of our organization. Keep this well in your minds, comrades!

If the June convention in Chicago will act in accordance with the spirit of the time; if the convention will be intelligent enough to decipher the handwriting on the wall of American politics, all well and good. If not, our organization will have to make room for something better.

However, I have not the least doubt that our national convention will strike the chord whose ringing music will reach into the hearts' depths of the American people, of the American wageworkers. Above all, I must call attention to the fact that henceforth no true reform party can be a success that upholds the banner of fusion with capitalist parties. Social Democracy cannot fuse, except with Socialism and Socialist parties.

No fusion! No compromise! No "single plank" platform business! These mottoes, and nothing short of these mottoes, will lead Social Democ racy to victory and success.

The Social Democracy is the advance guard of the labor movement. In order to make Social Democracy a success we must ever be in close and intimate contact with the general labor and trades union movement. Our national convention must speak in clear voice to the labor organizations of the country, give them credit for the work they have done, show them what they must

In France, in Germany-everywhere Social Bemocracy is making a noble fight. Social Democracy will be heard from soon. Ours will be the future.

Brother John: -Our general execu tive officers in Chicago have appealed for funds for agitation purposes. Com-rades of America, do your duty. Don't hesitate one minute. Let every branch make a donation of \$20, \$10, \$5 or \$1. Let every comrade do his share. "am too poor," you say. It is not true You are not too poor. Look at Europe! See how the "paupers" of Germany, Spain, France, Austria, Italy, Belgium, etc., are collecting millions of dollars for Socialistic propaganda. Collect the dimes, nickels and cents from your friends. Go to work right now; inside of a week you ought to send the money to Chicago. Have you ever seen such effective Socialist agitation done as by Comrades Debs, Hogan, etc., in the past few months? This agitation costs money. It is for you to provide it. If the poor wage slaves of Germany can contribute manions of one campaign, why, you "free American sovereigns" should certainly be able to do the same. It is the duty of every branch of our Social Democracy to make an immediate donation; it is the duty of every comrade to give his \$10, \$5 or \$1 bill, or his quarter, dime, nickel or cent. I know you are able to do it. The question is: Will you do it? I hope you will, and become enthusiastic workers for the noblest cause the world has ever seen.

Hoping to see the Social Democracy prosper and grow under your tender care, I remain, your beloved sister, ROSA PROLETAIRE.

Place a Merrie England in the hands of your friend

CURRENT NOTES.

NO. 16.

Showing the Trend of Events Throughout the World.

A Recent Wonderful Invention That Will Displace Thousands of Workers.

A \$10,000,000 carpet manufacturing trust is one of the latest.

A milk trust has been organized at Scranton, Pa., and all the little dealers have been crowded out.

The Liberals and Socialists of Belgium have arrived at an understanding to make a fight for universal suffrage.

The flour mills of Seattle, Wash., are running night and day because of the great demand for breadstuffs from

China and Japan. A conservative estimate places the number of parliamentary seats that will be won by the Belgian Socialists in the general election in July at ten.

Nearly all the pig iron manufacturers and furnace men in the country are entering a pool for the purpose of raising the price of their products 50 cents

The Standard Oil Co. is investing capital in the brickmaking industries of the east, and a \$6,000,000 trust isbeing formed, with fourteen concerns on the inside.

A notable event in municipal engineering is the operation of an electric plant at Shoreditch, London, in which the steam is generated by the combustion of city refuse.

According to Boston papers men have now gone out of service as tele-phone operators in that city. Here is one occupation, at least, claimed ex-New Zealand Socialists are organiz-

ing. With half the population of the state of Kansas, New Zealand has just appropriated \$600,000 to provide homes and pleasures for her aged citizens.

Estimating the population of the United States at 75,000,000, there has been paid in interest on the public debt since 1865 about \$40 for every inhabitant of the nation. Still we owe.

Liebknecht, the senior German So-cialist leader, has served his four months imprisonment for lese majeste. He employed the time writing his me-moirs. A grand ovation was tendered him by the Berlin Socialists and work-

During the last four years of the Seddon ministry in New Zealand, 14,-000 tillers of the soil have been settled on the land. Premier Seddon says that industrial conciliation has been the means of saving over a million pounds sterling in New Zealand.

One of the most wonderful of recent inventions is a roller-bearing for car wheels which does away with the use of lubricants. There will be no more hot boxes. One wheel has had a test of 170,000 miles in the west without the application of a drop of oil. The new device will displace thousands of laborers in a short time.

The Amalgamated Society of Engineers, which has just gone through one of the bitterest industrial fights known to history in England, and have come out with their union still intact and the membership still increasing, are now voting to assess themselves 15 cents per member to help the strikers in the cotton mills of the New England states.

While the great, excitable American public is talking about war the cool and collected members of the American trusts are attending strictly to busi-

the formation of a new trust as fol

"Representatives of about fifty knitting mills met at the Gilsey House and entered into an agreement to form the knit goods manufacturers' association incorporation in New Jersey and be capitalized for \$30,000,000.

"All the mills which enter into the agreement will sell their plants and machinery to the association, and all buying of raw material and selling of It is expected that more than 100 mills will enter into the agreement within the next two weeks.

In a lecture at the London School of Economics, Miss Tomm said the Swiss Referendum was expensive. Where it was optional, professional politicians made a business of getting up the necessary petition, which had to be signed by 30,000 electors. The result of these agitations was that the people were prejudiced against laws before they prejudiced against laws before they came to vote on them. In the cantons, where the referendum was compuisory for all laws, there was no previous prejudice; but the people got weary of voting, and the percentage of voters had fallen as low as twenty per cent. In one canton, where it was necessary for half the electors to vote, twenty-six laws had to be dropped. In Zurich, where voting was compulsory, the number of blank tickets rose as high as twenty-three per cent, so that the laws were still made by a minority of the people.

X+++++++++++++++++ SOCIAL FORUM *************

WOMAN'S POLITICAL ENFRAN- | New Hampshire branches from who

"Straws show which way the wind blows," and the recent remarks of a clergyman show which way the conplutocratic thought of the day is tending.

The Rev. Arthur C. Dixon of Brook-lyn declared in a sermon on "Ameri-can Womanhood," "that woman are mentally, spiritually and physically in capable of properly interpreting the scriptures and that under their guid-ance man sinks incomprehensibly

This woman question is a deep one it lies at the foundation of the whole economic movement that is convuls ing civilization. The enslavement o woman was the beginning of indus trial servitude—her complete emancipation will be the end of slavery in al its forms

always have been. They are laws made in the interest of the few and at the expense of the many. Our re-ligious doctrines are interpreted by men, and we may be very sure that their interpretation fits in exactly with the political and industrial manage-ment of affairs. Our legislators, servants of Mammon, are engaged in the states hanlike task of riveting the fetters that competitive industrialism has made. Priests and Levites interpreting the gospel of Christ in the interests of plutocracy unite in crying. "Keep woman out of clerical and political affairs. She is a disturber of the peace. Keep her out."

Now this is the exact question that

I want to propound to the Social Democracy of America: Does it stand with priests and political rulers in their attempts to keep woman out of political affairs—does it stand for freedom for men and slavery for women-or does it stand for justice, pure and simple, without regard to sex or color? I ask this question because there are those in the ranks of the S. D. who and must be met and settled.

It has been noticed that our "declaration of principles" follows in the same old beaten track of ostracizing women that other political organiza-tions have pursued; that it is a man made declaration for men that tak no notice of the existence of women.

Now, I, for one, as a Social Demo crat, ask that when we organize for effective political work in June, we shall correct these deficiencies in our declaration of principles and demand in our platform the political enfrar

I ask this, not merely for woman but in the name and for the sake of the republic. No nation has risen, no nation can rise above the status of its womanhood. The very impulse that impels men to ignore and deny the just rights of woman renders them incapable of standing for a great moral movement. False in one direc tion, they will be false in others

ocial Democracy hopes to represent the highest thought of the age it must, at its first national conven-tion for political action, place foremost on its platform of principles a deman for the political enfranchisement of

By that sign it will conquer, for it will-draw to itself the freedom loving. energizing spirit of the age. But der elict of honor in this regard it will be one more political wreck on the

Hartford Conn J. W BROWN.

NEW ENGLAND ORGANIZATION

We need an organizer for New Eng Why should not the New Eng land states co-operate for the purpo the time? It can easily be accom plished, and without extra tax on the members, I believe.
At present each member pays into

the national treasury 15 cents per month. At the outset of a movement so large as ours this was necessary, but as the membership increases the dues per capita can be decreased. can count upon a reduction of at least 5 cents per month per member being made at the coming national conven-tion. Even were they reduced to 25 cents for three months, or \$1 per year for each member, I believe that with our present membership the work of the national executive board would not be crippled.

My suggestion, therefore, is that the 5 cents per capita per month thus remitted should be paid into the state treasury. Branch No. 8 has instructed its delegate to submit this proposition of a state committee, to respectfully request the branches in other New Eng land states to bring it before their re spective state unions, and ask their co-operation in this plan for securing

an organizer.

Massachusetts will have by the 1st of May certainly 600 members. Five cents per month from these will give \$360 per year. Connecticut has at least 200 and New Hampshire at least 100 members, making \$180, or \$540 from these three states. We could pay an organizer \$10 a week to begin with, which salary would be supplemented by sale of literature, etc. He could be sent into Maine and Vermont, and in a short time bring these states also

nto our federation. Let each of these three state unions elect a representative to a New Eng land organization committee. Per the three state secretaries could form such a committee. All the busines could be done by correspondence. Plans should be made for only six months. as the proportion paid by each state into the organization fund will be less-ened as new states join us. That is to say, three states will have to raise \$250 the first six months; but at the end of that time we hope to have at least five states to co-operate in raising the other \$250 for the next six

have heard of this plan favor it. The

I have heard also endorse it. Now, if Connecticut will join hands with us, we can work together for our mutual upbuilding and for that of the other New England states in which we have not yet obtained a footing, but which are, we know, fields white for the har-

unions could, if desired, be made conditional upon the reduction in the dues to the national treasury.

After the first six months there would be an accumulation in each state treasury for other necessary ex penses, such as convention expenses, campaign fund, etc. With every new branch formed and every new member admitted the income of the state treas ury will increase. I believe the in-crease will be enough to cover the organizer's traveling expenses and leave a surplus.

Comrades, this is work that needs doing, and we have just the man to do it. There isn't a better organizer in New England than Comrade Gordon. If there is, we should like to have a look at him. There are hundreds of towns and cities round here just waiting for an organizer, and Comrade Gordon is looking for a job in a shoe fac-tory. By a little rightly-directed energy, by forethought and co-operation we can utilize his ability for the building

up of our movement in New England.

Bring this matter up at your state comrades of Connecticut and cents a month per member into the state treasury from which there shall be paid into the N. E. organization fund \$250, and traveling expenses, the first six months; elect your members of the joint committee and work out the details of this outline of a plan ac-

cording to the needs of your own state Then, with New England co-opera and rouse and set them to thinking with Gordon to organize them and go around among us keeping us all in touch, and with a visit from Debs once in a while to inspire us to renewed efforts and weld our hearts together into one great heart, that beats only for the triumph of socialism, and that, too, in our own time, shall we not make our cor-ner of the field of labor sing with Social Democracy? Shall we not make Social Democracy an active, potent factor ual in New England before many years have passed over our heads?

MARGARET HAILE.

5 Glenwood st., Rexbury, Mass. P. S.—I invite correspondence my New England branches on point in this plan which is not clear.

SHAMELESS MENDACITY.

Editor Social Democrat: Comrade Carl Pankoff- seems surprised in his letter in the Social Democrat of the 14th that Comrade Debs has been libeled in the New York "People" in having been charged by that paper with riding on railroad passes

Let me give him a few more in stances selected from a score or more that I know to be falsehoods

In the N. Y. P. issue of March 27. Organizer T. A. Hickey, in a twocolumn communication full of abuse charges Debs with having seen Samue Ross, the strike leader, on his visit to New Bedford in February, and having been in conference with him, etc., etc. As the result of this alleged interview

Debs is denounced in vilest language The fact is, as I happen to that Debs did not see Ross at all, as Ross was in Washington at the time and the whole statement is pure fabrication from beginning to end.

In the issue of the same paper April 10 one M. Weber, claiming to have been an A. R. U. man, charges that until last June Debs was opposed to col-ored men being admitted to the A. R. U. This is notoriously false, as all who This is notoriously false, as all who know the record of Debs know that he has always been opposed to drawing the color line, and the records of the A. R. U. will show that from the very ity to have colored men admitted on equal terms with others, but was voted down in convention by Southern dele

Next, the same paper denies in the issue of the 10th that Debs and Keliher were given a reception by the S. L. P. at their club room in Patterson Another deliberate falsehood, as I know, for I was there. Here are three false statements, and each of them car easily and overwhelmingly be proven

What must be thought of a paper that resorts to such baseness? And these are the tactics we are called upon

No self-respecting comrade, be he S L. P. or S. D., will approve of such disreputable methods.

This paper has destroyed its reputa-tion for veracity, and honest comrades will refuse to believe what it prints,

I am glad, Mr. Editor, you maintain a dignified policy and stick to the truth. It will win in the long run. Boston, Mass.

HE WANTS A RED CIRCLE.

Editor Social Democrat: I would suggest a plain red circle as a suitable emblem of the Social Democracy; it is simple and suggestive, both as to color and form.

olor and form.

If we succeed in establishing the Cooperative Commonwealth and thereby
solve the industrial problem, the liquor
problem will solve itself, but I would like to see equal suffrage incorporated as one of the principles of Social De-mocracy. C. G. CROFELT. Iris, Colo.

non of that time we hope to have at east five states to co-operate in raising the other \$259 for the next six nonths.

WAR A CHRISTIAN DUTY!

By James Russell Lowell.
Thresh away—you'll have to rattle
On them kettle-drums o' yourn;
Taint a knowin' kind o' cattle
That is ketched with moldy corn;
Put in stiff, you fifer feller,
Let folk see how spry you be;
Guess you'll toot till you are yeller
'Fore you git a hold o' me!

Ez fer war-I call it murder;
There you hev it plain and flat;
I don't want to go no furder
Than my testyment fer that;
God hez said so plump an fairly,
It's ez long as it is broad,
An' you've got to git up airly
Ef you want ter take in God.
Taint you'r eppyletts an' feathers
Make the thing a grain more right;
Taint a follerin' your bell-wethers
Will excuse ye in his sight;
Ef you take a sword an' dror it,
An' go stick a feller thru,
Guv'ment ain't to answer for it—
God'il send the bill to you.

Wut's the use o' meetin-goin' Every Sabbath, wet or dry, Ef it's right to go a-mowin' Feller-men like oats an' rye? I dunno but wut it's pooty Trainin' round in bobtail coats,

WHAT SOCIALISTS MIGHT THROUGH CO-OPERATION

The following article from the I. P. News of London, Eng., written by Mr. Geo. Hines of the Co-operative Wholesale society, is applicable to con ditions in America, and contains suggestions which American Socialist might profitably follow:

. It must have been a puzzle on the face of it, to many others besides my-self, why up to now there has been so little rapprocedement between Socialists and co-operators, seeing that the ideal of both must, of a certainty, be the same. The true co-operator looks forward to the most equitable distribution of wealth, and the highest degree of comfort and happiness for the con munity. This is the Socialist ideal also. With such a grand and noble principle as a basis of action, one may well wonder why the two bodies hold so much aloof from each other. The fact being that their ideal is the same should be sufficient inducement each to think the reasons out, as that of itself would be found to be a great help to a better understanding, and a clearing of the way towards common

action Co-operators began with voluntary action; it was the readlest way available at that period, and practically the only way under the then existing po-litical and social conditions. Their movement has grown up and met with considerable success on those lines. This accounts for much as regards th on those lines. average co-operator's views of the best methods of action. Unfortunately, as admitted by co-operators thems their commercial success has invited into their midst a section of dividend hunters merely. This, however, does not alter one lota their true aims, neither should it sensibly impede their progress, as the dividend hunter, being a fellow sufferer under existing conditions, is capable of being educated under such circumstances to a higher so cial ideal. What the average co-oper ator does not yet recognize is this that something more is needed than industrial or commercial methods. Some amongst them are beginning to see, and to deplore the fact, that apparently they cannot, and do not, to the helpless mass of humanity existing

in our slums and elsewhere. This slowly developing feeling is showing itself in the ready granting of the use of Co-operative Assembly halls in the various neighborhoods for the Socialist lectures, and herein lies an opportunity for the latter to do good work towards bringing about a better understanding, which will never be done by denouncing this, that, or the other thing that co-operators may or may not be doing. Co-operators having the same goal in view as our selves, and at the same time some little power in the industrial world, and also a considerable amount of organiz-ing ability, are, of all others in our working community, worth winning over to the Socialist's ideas of action. know of no better way of doing this than for every Socialist to become a co-operator. Permeate the whole co-operative body with the existing Socialist element, then bring to bear all the persuasive and educational forces of opinion that would lead to the broadening out of the efforts of co-operators and Socialists jointly for the realization of their mutual aims.

Co-operators are worth the winning. Moreover, they would welcome all the them; theirs is no monopoly, their ranks are always open. The poorest individual that can purchase a pound share is admitted as an equal share holder or member, and his vote counts for as much as that of the member

olding £200. Many Socialists have an objection to the principle of dividends, but I fail to see what there can be to object to in this system. The prices charged for the goods are a matter of little conse quence. If fair wages are paid, and the business worked without wasteful expenditure, the dividend is simply a fair and legitimate return to the pur-chaser of what he has paid for his goods over and above the cost of distribution. In working a business, som nargin of this kind must be allowed what the expense is expected to be, in order to meet contingencies. The principle is the same, whether the divi-dend be 3d. or 3s. in the pound. With co-operative unity and organization this dividend is secured—first, by econ-omy in distribution; and secondly, by obtaining what would be the profits of various middlemen. Every effort is made to buy direct from the producer, then the comparatively large purchases which are made, and for which ready money is paid, give considerable eco

money is paid, give considerable eco-nomical advantages.

In the devotion of these very divi-dends to I. L. P. purposes, lies a way, ready to hand, by which Socialists could realize ample funds for propa-gan/ist purposes now. Members are too few within a given radius to do this work by themselves economically, but connected with existing strong co-operative organizations they could get operative organizations they could get all the benefit of that strength. Let a dozen or a score or more earn-

est comrades in any neighborhood join a co-operative store in a body with a previously pledged resolution to devote an agreed portion of their dividends to Socialist work, and they will not only have the funds necessary for party purposes, but by the infusion of the conscious Socialist spirit into the democratic organization of co-operation, they will be the means of inducing that body to supplement its voluntary efforts by the potent weapon of politi

MUSINGS OF A MOSSBACK.

By Bige Eddy.

In a far off city, a long time ago, a little girl, the head of her Sunday school class, was barred from partici pation in the Easter exercises because she had not a white silk dress and black and white silk scarf.

Nothing of this kind could happen now, of course, because the followers of Christ have become so thoroughly innoculated with his teachings they hold, as he unquestionably did, that the rich and poor are equal in the sight of God.

How ignorant those foreign people in that ancient time must have been to have held the idea that our Savior said "suffer little children to come un -in white silk dresses and black

When great grief comes to a man he realizes the sympathy and kindness of his fellowmen. Then the mask they are forced to wear in the fierce competitive strife drops away, they stand revealed in the kindness exemplified in the life of the Prince of

It is as if the armistice were de clared; that they recognize a brother in one whom, under ordinary circumstances, existing conditions them to consider an unrelenting foe and not only brotherly sympathy but material aid is offered as freely to a comparative stranger as though connected by ties of blood;
While this is very gratifying, and

nelps to lighten the deepest sorrow one cannot but regret that a condition exists that forbids the exhibition this feeling only under the mos painful circumstances,

We need this spirit in joy as well as sorrow, but we stifle it because incompatible with our material vancement.

So long as we must compete with our fellow men for individual vancement, instead of competing the common welfare, that our interests may be advanced with the rest sympathy be at a discount in the everyday walks of life.

The loss of a brother, cut off in the prime of life by a painful accident has been the occasion of so much sympathy and kindness that it were appreciation.

No one who has not passed through a similar experience can realize tow much the kindness of mankind means at such a time.

How flippent, in the light of such experience, seem the arguments that "human nature" stands in the way of advancement of humanity!

In spite of a system which says that protherhood is weakness; in spite of a system where material success depends upon fratricidal strife; the spirit of brotherhood shines forth, and illum-ines with its brightest light the dark-

est spots. Let no one imagine that there is

Drafts upon humanity only go to protest because there is a suspicion as to the motive which inspired the demand.

Remove the possibility of this sus-picion and it will respond in every instance. History shows that the better in stincts of mankind have always been

As it always has been so it will

INCENTIVE.

While it is undoubtedly true that without incentive there can be no progress, says the Beacon, nothing could be more libelous than the charge that wealth and the desire to secure it is the only spur to human advancement. Sordid and vile as are the most

bloated of the bloated wealth getters even with them the mere accumulation of wealth is not the final end in view Wealth of itself does not satisfy. In almost every case its accumulation is but the means to an end. To stand out above the mediocre; to be recog nized as a separate individuality, dis tinct from the common herd, and wor-thy of higher consideration, is primar-ily the real incentive that actuates

It is natural for men to seek the ap proval and approbation of their kind. Under present economic conditions all doors are open to wealth. Only those who are successful in securing and pil ing up the miserable dross are consid-cred worthy of attention or respect. The successful man in life is he who has accumulated riches. The road to fame lies through gates of gold and all who wish to pass must pay a heavy

Manking to-day worships at the shrine of a false god. The real here it covers with thorns, while it show-ers fame and honors upon its miserable despoilers.

Under Socialism the accumulation of wealth would cease to be an incentive Men would not struggle and scramble aye, even lay down their lives in the greedy endeavor to pile up riches. Higher things would be demanded of them. Men would mount the ladder of fame because of valiant service per formed in the cause of humanity. The ossession of wealth would no longer e considered a badge of honor. Under Socialism men could win the approval of their kind only by the per formance of deeds worthy of the high

est and best. Socialism would hold forth far great er and purer incentives to urge men or in the path of progress, than the pres ent economic system possibly could. It would free the noble spirit of emula-tion and crown with laurels of glory the true man, the man most successful in the performance of noble deeds and worthy service.

WHAT SOCIALISM WILLEDO FOR

Under the present system the labor er's maxim is to render as little labor as possible for his wages, and he is en tirely supine in regard to his co-work ers' conduct. Neither does he care for the waste of tools, for a saving here does not add one cent to his weekly income. But under Socialism every la borer would be watchful that nonshirked his duty, for self-interest and justice would demand that each should render a just labor energy for his share of the product. We may be assured that the man who worked faithfully in for an equal share of the product. When the laborer shall receive the full product of his toil, and only that, it will be for the interest of all to be faithful, for that which they produce will be their share of the social product. Under Socialism, then, it would be for the interest of laborers to pr as much as possible, inasmuch as their enjoyment will depend on the social product. But to-day it is more to their interest to sterilize their productive power, for the less productive their labor, the more labor will be needed and the higher its price. In a and the higher its price. . . . In a study of co-operation and profit sharing, where industrial income depends upon the social product, we find that instead of impairing the motive to exertion, the exact opposite results. This of itself is sufficient to negative this objection.-Modern Socialism

PENSIONS UP TO DATE.

Interesting Statement of That Subject Made by Secretary Bliss.

In sending to congress a deficiency estimate of 8,090,892 for pensions for this year Secretary Bliss makes an interesting statement on the general subject of pensions up to date. Secretary Bliss says:

On the first of July, 1897, there was of army and navy pensions; \$4,000,000 of this amount was set apart for navy pensions, leaving \$136,000,000 for payment of army pensions. The total number of pensioners on the roll June 30, 1897, was 976,014, while on the 28th of February, 1898, there were 989,613 on the rolls, a net increase of 13,399. Between the latter dates there were disbursed for payment of army pensions \$95,370,872.46, leaving the sum of st0,629,127.54 for the payment of pen-highway.—Oskaloosa-Journal.

TO THE EXECUTIVE BOARD:

Branch of the Social Democracy to be instituted at

sions to the end of the fiscal year. The commissioner of pensions es imates that \$48,700,000 will be required for the payment of pensions during the re-maining four months of the fiscal year, more than \$8,000,000 in excess of the unexpended appropriation. The commissioner has recently ex-

pressed to me an opinion as to the future course of pension payments at variance with his views thereon as stated in the annual report, which was to the effect that after the close of the current year payments would rapidly decline. It is now his opinion that in original pensions and for increase of pensions there will be an increase the sum required for the payment of the army and navy pensions for somtime to come. In this connection the appended table showing the number of pensioners on the roll and the value of roll annually since 1887 is significant. From this it appears that the pension roll has substantially doubled since a quarter of a century after the close of the war. In 1890, twenty-five years after the war closed, the number of the close of the current fiscal year the number on the roll will approximate 96,000, an increase of nearly 90 per cent since 1890. In that time the value of the roll has increased from \$72,052,143.49 in 1890, to approximately \$132,000,000 in the present fiscal year.

The roll is now larger than at any former time, notwithstanding that thirty-three years have elapsed since the essation of ho tilities. It contained about 5,500 more pensioners in 1897 than it did in 1896 and approximately 20,000 more in 1898 than in 1897, and the value of the roll has also increased in the same period.

SECURE A SITUATION. Arthur Hamlin, a grandson of Han-

nibal Hamlin, vice president of the United States when Lincoln was president, was arrested in this city on Monday last and charged with vagrancy. Hunger drove him to desperation, so he went into a restaurant, and, after eating a hearty meal, left without paying. The proprietor of the place made the charge. The "culprit's" defense was hat he was without either money or friends, had not eaten for days, and ould not obtain employment, which he had earnestly sought for a long time Judge Conlan very properly dismissed him, but, probably ironically, commanded him to "secure a situation" Can the judge secure it for him? Hundreds come into our office every week looking for that very thing, and we can say-because we know-that even most highly educated and refined men are grateful if they can secure a 'place," even as "common laborer, which in most cases is impossible, for the "market" is glutted. When men have free access to the land, no willing hand will be idle, no honest man will be charged with crime.-San Francisco

THE CRY OF THE DREAMER.

I am tired of planning and toiling
In the crowded hive of men,
Heartweary of building and spoiling,
And spoiling and building again,
And I long for the dear old river
Where I dreamed my youth away
For a dreamer lives forever,
And a toiler dies in a day.

I am sick of the snowy seeming Of a life that is half a life; Of the faces lined with scheming In the throng that hurries by, From the sleepless thoughts' endeavor I would go where the children play; For a dreamer lives forever, And a thinker dies in a day.

I can feel no pride, but play,
For the burdens the rich endure;
There is nothing sweet in the city
But the patient lives of the poor,
Oh, the little hands too skillful,
And the child mind choked with we
The daughter's heart grown willful
And the father's heart that bleeds.

No, no; from the street's rude bustle, From trophies from mart and stage, I would fly to the wood's low rustle And the meadow's kindly page. Let us dream as of yore by the river, And be loved for the dream alway; For a dreamer lives forever, While a thinker dies in a day.

—John Boyle O'Reilly.

A few more labor saving machines and a little more mono natural opportunities, and men have lots of time to think. They will also have a good strong appetite to help them think.—Living Issues.

APPLICATION FOR CHARTER

FOR A LOCAL BRANCH OF THE

Social Democracy of America

NOTE.—Five or more persons may apply for a charler. The admission (so is 25 cents per member and the dues 15 cents per month, for which each member receives a copy of the official paper.

Cut out this Application, and after filling out, send to SYLVESTER KELIHER, SECRETARY SOCIAL DEMOCRACY, 504 TRUDE BUILDING, CHICAGO.

Dear Sirs-The undersigned respectfully petition for a Charter for a Local

Address Communications to Ella Reave Ware, 597 Decapar St. Brooklyn. ~~~~~ ONE LITTLE STAR

Children's Column

One little star in the starry night, One little beam in the noonday light. One little drop in the river's might— What can it be? Oh, what can it do?

One little flower in the flower-full spring, One little feather in one little wing, One little note, when the many birds sing,
All are so little, feeble and few!

Each little star has its special ray, Each little beam has its place in the day, Each little river drop, impulse and way, Feather and flower and songlet help too.

Each little child can some love-work find, Each little hand, and each little mind. All can be gentle and useful and kind, Though they are little, like me and like you. SUSAN COOLIDGE.

Dear Children: We have four such nice letters this week I'm going to have them all printed at once, even if they do crowd out a story. I know you will enjoy them. I wish some of you would write and tell me how you are getting along with those subscriptions for our paper. Wouldn't you like to see it in the homes of all your friends? I know the grown up Socialists must feel encouraged when they see how much in earnest the children are ELLA REEVE WARE

This morning these two letters came all the way from Boston:

"I am ten years old and I read the Children's column in 'The Social Democrat.' I would like to see a world where there's no poor and no rich. I think it would be better that every one shall have what he needs, than it would that one man should have too much and another shan't have any at all. The United States has enough to support the whole world and yet there're people starving. I would like who would like to join shall please write their names and addresses in The Social Democrat, Samuel

Isn't Samuel going to work in earnest for socialism? And the other Boston letter comes from the same family and is just as much in earnest.

"I am eight years old and read The Children's Column. Now, when I see little boys selling papers in the streets on a cold day, bare-footed. I think it is wrong. Why should the little boys not be in school? I do not know exactly what socialism is, but I read it i the Children's Column last week think if we had socialism the little boys would be in school, and no one would go bare-footed. Joseph Finkel." Joseph seems to understand socialism better than many grown-up folks, doesn't he?

One of our Chicago "Juniors" has written such a good story about the last part of Lincoln's life, I think you will all be glad to read it

"Dear Madam: My father belongs to the Social Democracy, Branch 22, Chicago. He often told me to write to you, so I thought I would today. I read your stories every week, and my brothers and sisters enjoy them too. I hope we shall have more than one soon, so that we can read more of your stories. I have read the story that Rebecca Sukenik wrote and enjoyed it very much. I thought I would try to write a sketch of Lincoln's life, because you said you would like some one to write another. Abraham Lincoln was born in Ken-

tucky, Feb. 12, 1809. He had to write letters for his father and neighbors. because they could not write. He hired out as a hand on a flat boat and made a trip to New Orleans. When he returned he took the family to Illinois. When they reached their destination he'split rails and built a home for them. twenty-five years of age he was sent to the legislature. In 1846 he was sent to congress and served one term as representative. In 1858 he was candidate for senator against Stephen A Douglas.

Everybody loved him, and he was often called "Honest Abe." His greatest work was the emancipation proclamation. At first he did not wish to free the slaves, but when he saw cause this question would bring great discussion after a while. He served one term as president and had just begun the second, when he was killed by J. W. Booth in Ford's theater, April,

1865. Respectfully yours, Minnie Reinhardt, 1226 N. Sawyer avenue, Chicago, Ill.

Now here's a letter all the way from Yale, Kansas, and it has interested me so much in the mining camps out there I want to ask Ella to write soon again and tell us more about the life there. Do children have to work in the mines and what kind of work must they do? Do they have good schools? We'd all like to hear more about Elia's home.

"Dear Mrs. Wares I read the little letters in the Social Democrat and they give me encouragement to try and write you a short letter from this part of the social vineyard. If the people of the east think there aren't any so cialists in Kansas they are badly left, especially among the miners. Papa is a red-hot socialist and he has done lots of good in the way of education, by scattering socialist books and papers I will ask the little children, 'Did you ever live in a mining camp?" If you did not I cope you may never do so, as did not I nope you may never do so, as it is not a desirable place to live—some-times there is an explosion and so many men are killed! Some day I hope to meet some of the children who are writing for this column in the col-ony and then I can tell them about the mines. We can hardly wait for the time to come to hear where the colony will be located. But we have the utmost confidence in the patriots of So-cial Democracy and we know our cause is in the hands of the true, the noble, and the brave. Enclosed find fifty cents, which give to the colonization fund. Yours fraternally, "Ella Renfro."

cettettette Paradise Found

RUDOLPH LEONHART, A. M.

Author of "The Wild Rose of the Beaver," "Tononqua," Through Blood and Ison." The Children of the Outlaw," "The Treasure of Montezuma," Dolores," "Either, Or," "Atonement," "Bridging the Cham," Etc.

Hugh nodded approvingly. Suddenly a thought seemed to strike him, and he asked, with considerable curiosity: "But what of our rival factories? Have they been abandoned? I see no trace

they have been pushed with considerable zeal, and are about complete. It looked at first as if it was the intention to erect them under our very noses; but that idea was aban-doned when the planners saw that they would be compelled to purchase all the building material from us. That wouldn't do, you see," with a mis-ckievous twinkle of the eye; "so they transferred the scene of action to transferred the scene of Homewood, thus securing the advan-

tages of railway facilities. rails arrive.

"Oertainly we shall. At first I was afraid that the conspirators would crip-ple and injure us, but of late I have discarded this fear as groundless. I not tell you that I place a great of faith in Santa Sara's judgment, and she writes that we needn't mind these tricksters at all. This is what she says in her last letter: 'You just go on, Cousin John'-you see, she sticks to my Bible name—as if these fellows didn't exist. I cannot explain just yet, but simply say that I have the bulge on them. By the bye, how do you like that for slang? These lines have set me completely at ease, for Santa ALWAYS means what she says, and if these chaps become saucy she WILL put her bulge on, don't you for Do you know what I did the other day just for a joke?"

"I do not; I ain't quite that far deloped as yet. I thought, in fact, that you Smiths NEVER joked."

The Tepses do, though, I see. Well, tell you. I heard that the managers of the rival factories couldn't get fuel cheap enough, so I made them an ofat a reasonable rate,'

Hugh burst into a hearty laughter Leaning back in his chair he aban-coned himself to the irresistible impulse of merriment, and it was fully a minute or two before he could collect himself sufficiently to reply: "That is generosity with a vengeance, and no mistake. Heaping flery coals upon their heads, eh? If you ain't careful it will surely singe their handsome curls. Well, they looked sheepish, didn't they, and respectfully declined

"Not they, my boy. You forget the boundless cheek growing luxuriantly in those quarters, Declined? Not On the contrary, they snatched eagerly at my offer, and here is the contract growing out of the proposal increasing our revenue fully \$500 a month, and more, if they consume or

Well, they say it is good policy to build golden bridges for a retreating foe; only THIS foe isn't retreating

"It soon will be, depend upon it. So you expect to increase the month migration to twenty thousand? 'We'll have to, unless we wish to

suffocate at Lakopolis."
"Well, it is all right; only I wish fall had come and we had carried the elec-

'We surely shall. I had a letter from Progress the other day, in which he predicts such an event as absolutely certain. There are fifty thousand voters in Arcadia now, and of them over one-half belong to the Liberal With the addition of the thousand votes cast by our men this fall, our majority is not merely as-sured, but will be overwhelming. Progress writes that the splendid conduct of our people has won the admiraod will of the entire state How are the different settlements flour-

all of them, and there is not one which main difficulty presenting itself is the want of rapid transit from one to the other, and this is a feature claiming our first and principal consideration when the new order of things has Leen inaugurated. Things have other-But I fear that the crisis is near at hand-the moment when capital and old-fogyism will combine to impede our progress. De you not think I am right?"

"It certainly looks that way. But when the new constitution has been formed and submitted to the people are you not afraid that the radical character will frighten many a timid

"It may, Paul. But, on the other hand, you must remember that by that time fully twenty thousand more com moners will have acquired citizenship in Arcadia, an addition calculated not merely to offset the timid and wavering, but greatly increase our major

Thus they discussed matters of in-

terest and the prospects in store Meanwhile, however, train after train pours its thousands into the state. It may look as if such an influx might create confusion and distress, but the reader must remember that the state contains a hundred counties, and that the immigrants were scattered over a vast area and amongst a very thin popu lation. Each country received only two hundred men, and granting that the families of the married Crusaders increased this contingent to fully four hundred, the increase was hardly no

On the other hand, the preparations of our friends had been both judicious and far-reaching. Additional lodgings

garments and the output of the tan

nery that of boots and shoes. place that mysterious hints had reached the managers of our establishments re garding the nature of the goods to be produced. The hints had read: "Man ufacture fabrics for ordinary use, aim ing at both durability and cheapness Make boots for the toilers and shoes for the workers, avoiding fancy and silliness of shape and fashion.

These hints had been followed, and

with excellent results; too, for before half the summer was over our friends learned that the rival establishments manufactured the very opposite, name ly, fancy goods of high price, which didn't at all come in competition with the goods of the Crusaders. When Paul pointed out this odd circumstance, he added in an undertone: "Do the finger of Santa in the pie? they must rise pretty early to get ahead

But back to the trains, rolling week after week. It was fortunate that the transfer of the pipes no longer en-gaged the teams, for they were kept on the go, now to carry the people and now the supplies needed for their maintenance.

True, there were a few railways in the state, but these did not traverse all the counties, and our friends soon discovered to their indignation that their goods were not handled with th other patrons.

At first they remonstrated and com plained, but to no avail, and when they discovered that these oversights were not accidental, but intentional they increased their activity to hasten the time when such discriminations would be impossible.

Month followed month, and when

winter again knocked at the gates of Arcadia fully thirty thousand common ers had been placed, ready to exercise their influence in the politics of the state.

in Arcadia a year had acquired the privilege of casting a vote, but they numbered ten thousand, as the reader knows, and when the second Tuesday of November dawned these ten thou to work the helm of the ship of state and give its course an entirely new di ing proceedings in a new chapter.

THE ELECTION.

When you wish to view a painting ou must stand back a little, and the bigger the picture the farther you should stand back. So with this election. It is about the biggest Vesperia ever experienced. When we say biggest, we do not refer to the numbe of voters, but to the importance of the would, therefore, have been more cor

rect than "biggest."

But to return to our opening remark We shall stand back fully a month and view the campaign in all its bear ings. · Somehow everybody seemed t be impressed by this truth; for never before was such deep feeling fested, so much money spent, so much eloquence let loose, so much lying done The best orators of Vesperia were imported, the biggest guns secured. Some of the most prominent nabobs of the East took up their abode in Gloria, the capital of the state.

Nor did they come with empty pockets, either, and a moderate estimate places the money spent for campaign purposes at half a million. Beer, wine and stronger liquor flowed in streams, and small as well as large purchases of votes were made. Intim idation was resorted to without scru ple, and no calumny was too low, r falsehood too hideous, to be hurled-at the Radical party. They were "Anar-chists," or, at best, "Socialists," which is nearly as bad, you know.

Yet the colonized anarchists had be haved so well during the year's residence in Arcadia that the people in voluntarily sighed for a little anarchy. The terrible imported So-cialists had proved such a jolly goodnatured set, and enjoyed so much una dulterated happiness and prosperity, that the foolish outsiders wished for more Socialism.

Amongst the eastern nabobs sojourn ing in Arcadia at this time were Crassus Ego and Caesar Croesus. The registered at the leading hotel of Glo ria and set to work to grease the political machinery with the much needed gold lubricator.

There can be no doubt that the resistance to the proposed innovation was totally sincere on the part of many, ignorance or prejudice blinding their eyes; but it is equally true that the resistance of these nabobs was based on sordid egotism and selfishness of

the purest kind. They were greatly surprised on registering in the ledger of the hotel to see the name of Aurelia Croesus preceding their own. They looked at each other in mute astonishment, and Cae

mean? Crassus shrugged his shoulders to in-dicate that he had no solution to of-Caesar, however, was not satisfied, and resolved to secure the desired information in an interview with his sister. So he sent his card to her andhad the pleasure-if such it really was of shaking hands with Aurelia in

the parlor. She was more than ordinarily pleasant, and expressed her gratification at meeting the pair.

sar?" she retorted with another ques-

"Well, WE have business in Arca dia; but you—"
"Have business as well. I came to collect the dividends of my investment, Caesar."

Her brother felt the irony, and retorted: "You might possibly have been successful if you hadn't insisted upon such foolish kinds of manufact-

Aurelia's eyes danced with mischief "What do you mean, brother? The goods I ordered couldn't be finer if you tried. We manufacture the most ele-gant shoes, the finest woolen fabrics."

"I know we do and there is where the blunder comes in. I want-you to countermand that order. I want "What!" the girl exclaimed, with

well-feigned surprise. "Countermand my order? Do you think I will man ufacture brogans for the clodhoppers or slippers for washerwomen? Not if I know myself, sir.'

Caesar stared at her in wonder over known sentiments. "If these are your real sentiments sister," he said, after a pause, "I wish you would sell me your shares, or—"

"Or?" she inquired.

"I will not sell," she replied, with more mischief in her eyes; "but I am willing to buy your shares at-a dis-

Seeing his increasing wonder, shresumed: "Ah, I am learning business, you see. You couldn't sell to-day ere than fifty cents on the dollar but I shall be merciful, brother, and if you gentlemen will allow me a dis

count of twenty-five per cent—"
"And you persist in manufacturing
these high-priced goods, sister?"

"That's what I do, Caesar."

"Then take my shares,"
"And mine," echoed Crassus, and fifteen minutes later Aurelia Croesus found herself sole owner of the rival mills of Arcadia, at the price of \$275,-000 in all. She had insisted upon this discount because she wished to teach brother a lesson and show hin that the throwing of the boomerang is a risky business. We shall see later what she does with the property. The second Tuesday of November

has set in. A bright sun shines upon the crowds gathering around the polls, and the last attempts at electioneering are being made. Here, however, the procedures are comparatively pure; for no gold can well be offered in broad daylight, and liquor on the premise is forbidden. Few or no changes of lot after ballot is deposited in the

senate and state senate are on the ticket, and it is this class of candidates which the public interest centers for it is well understood that if the Radicals secure a majority in both houses a bill for a radical reorganiza tion of Arcadia will be introduced dur ing the next session:

The sun rises to his meridian; slowl; the flery horses haul the wagon to the horizon, and at six the polls close.

Now begins the counting of the votes and the excitement of the masses grows. Almost every voter keeps a tally sheet, and when the work is ove have prevailed there, he shouts him self hoarse over the victory.

that of the state; so he hastens to th bulletin of the nearest leading periodical and waits impatiently for to after telegram, until the small hours make their appearance, and the fact that the Radicals have carried the state with an overwhelming majority can na longer be doubted.

Reader, let us greet the news with a "Hip, hip, hurrah!" ourselves, and then retire, for I can assure you that to-morrow will be a busy day for us and that we count upon your faithfu

EVERYTHING IN SHAPE.

We had anticipated this week to lay pefore our members the full details of our plans and purposes.

This, however, we cannot do. Affairs are in such shape that we could not give out matters this week without eopardizing the success of the whole

Everything is in good shape, and the prospects were never brighter. The whole question of preserving collective ownership with a just and equitable system of co-operative labor under sci-entific administration, while preserving democratic purposes and government, has been carefully studied and

Many legal points have arisen which have delayed matters, but which had o be met and have been met success

We desire above all things to place everything before our members so that ing on. This we will do just as soon as can be safely done.

Our members need not fret because the spring has come. When we get ready to move it will be seen that all these things have been provided for properly.

The secretary and treasurer will probably be out of town when this is published. The reason for their traveling will appear later.

We think our members will be pir fectly satisfied with the results The officers of the organization feel confident at the outlook of affairs and when we start our first pioneers as we shall soon, the reason for our confidence will be apparent.

Our comrades who are tired and sick of the competitive system will soon have an opportunity to devote their energies to building up the co-operative commonwealth. Until such tim as they are notified, as they will be as fast as needed; they would do wel to notice the second clause in the let-ter accepting their services. With confidence and hope in the future, we look forward to a speedy inauguration of our Commonwealth Colony building.

NO EFFERVESCENT ENTHUSIASM

Editor Social Democrat:-I am glad to see that we may soon expect ar authoritative and definite salement about the colonization scheme. must learn to cultivate patience (although it is a virtue that don't seem to grow much by practice) at this im-portant stage in our efforts at socia improvement. Some of us in the earlier stages of a movement of this enthusiasm for invincible courage and generous impulses for strong, soter commonsense. Such can only learn visdom by experience.

Among many things upon which we must agree to differ, the subject of re ligion, I think, seems paramount. It is lamentable to see men, actuated ap parently by the noblest motives in the reformation of social maladjustments, dumping unmitigated spleen upon the pretensions of Him spoken of in the pompous language of sacred lore as the of all nations," whilst the apoplectic defense must be couched in the prestige of Socialism must suffer by the association. Let us learn to acrid and minim personalities occupy in the great scheme of human eman cipation. Then we will be willing to admit the truth of our Savior's state ment, "He that would be great est among you, let him be your ser vant." Yours very truly,
PETER WOOD.

Philadelphia, Pa.

LET US REASON TOGETHER.

Editor Soc'al Democrat:-In answe your request that comrades give their opinions' regarding the hand in of liquor in the colony, I wish to express a few thoughts briefly. But first, let me thank Rosa Prole-

taire for her compliment on my letter in January 6 issue. I prize the small-est compliment from such a thinker more than I should Hanna's gold or

Free Silver Bryan's notoriety.

Now to the liquor question. I do not blame any person for being op-posed to the use of liquor who has been injured directly or indirectly by its use, or rather, by its abuse. Yet, if those persons will reason and exam that our whole system of government and education, which includes the church, and greed for gold is respons-ible for 99 per cent. of all the misch ef which is now charged to the whisky

the producers of the tippling shops and poisonous adulterations, and this rev-enue, etc., is the result of legislative nactment; hence man-made law is at the bottom of this, as well as 99 per cent, of all other human troubles. Abolish the laws that pertain to the manu-facture and sale of spirits, and four-fifths of the trouble with liquor is set-tied. Then anyone who chooses can of our friends had been both judicious and far-reaching. Additional lodgings had been erected during the winter.

Abundant supplies of every kind guarded against hunger, and before the end of spring the fabrics of the woolen mill had begun to assume the shape of spring the foreachen that brought you here, Cae-

the trouble lies in the power of woman to control. Let women and girls refuse to keep company, dance or s ng with any man known to imbibe too freely, or who carries a bottle.

My observation has been that when a family is brought up with free access to the decanter, they are almost invariably sober men and women, and where they are denied the right to touch and taste, the exact opposite is usually true. I do not say that man will always need liquor: but I do claim that until we have evolved out of the barbarous into a true civilization, it is as necessary to some of us as bread

Notwithstanding the fact that there are several million human beings in this country who do not have sufficent food each day, yet it is true that there are more deaths each year caused from over-eating than from over-drinking. So with the liquor as with other questions. Reformers wish to adjust to man's needs the law, or rather the absence of law, based on superstition and greed, which has made the traffic

and use of liquor obnoxious.

Then, in our colony and co-operative commonwealth, let us have liquor as free as potatoes, so far as our public munity rules of action are con-Let us make it as pure as milk, and as other products, let it be given to members at cost of produc

Then, instead of supporting saloons and temperance lodges, instead of wasting time and energy in waging a prohibition campaign, let our teach ers of the old and young be selected on account of their fitness to build character and their freedom from be liefs in unnatural laws that force and bind, and instead of teaching superstition and total depravity require of them to teach naturalism, truism, and

this not in dead languages.

Free humanity from unnatural law and governmental pirates, and one generation will usher in a civilization of William Lloyd Garison said, "No man shall rule over me with my consent; I will rule over no man." This one ex-pression is worth more to humanity, if fully indorsed, adopted and lived up to than all the preaching, praying and legislating ever uttered or enacted on the face of the earth. I am, yours for truth radical,

W. J. M'CONNELL. Dallas, Tex., March 2d, 1898.

ACT INTELLIGENTLY.

Editor Colonization Department:-I ee in one of our S. D. papers you ask for an opinion regarding the liquor uestion. For my part I do not care whether we will manufacture it or not. I very seldom drink it. To prohibi it means the making of a law, and wherever there are laws there are crimes. If you would ask me what suggestion I would offer to settle the liquor question, I would simply say, let us act like intelligent beings.

Here is a question I want to ask o I am a Knight of Pythias. If I in the next year I would drop that pro tection. All I want is a hint, Might this be asking too much. I am a pa tient man. Yours in S. D. of A.,

OTTO STEINHOFF. Columbus, O.

OPPOSED TO LIQUOR.

Editor Colonization Department:-If may be allowed to express my sentiments as regard the treatment of the liquor question in the new colony, let me say that as a Socialist, and one who believes in the uplifting of mankind from a social hell to an Eden of justice, I stand opposed to the intro-duction of liquors in any manner. shape or form in our future co-opera-

tive commonwealth.

The introduction of the liquor fiend in the midst of our new social order, under any guise whatever, would constitute, in my mind, the most fatal mis take that could be committed. Liquor and its devilish ally, the saloonkeeper must by all means be tabooed from cu Socialist community.

Fraternally yours LOUIS MATIGNON. Scranton, Kan.

WANTS THE EMBLEM ADOPTED.

Editor Colonization Department: In regard to the adoption of an .n pir ing as well as an intelligent and significant emblem for the S. D. A., would suggest that it is high time such an important detail for the great party of the near future were settled. It is a detail which deserves the attention of every member, because of the favorable entiment which an appropriate insignia will arouse, and on the other hand because an ill-chosen emblem may arouse undeserved hostility. For the foregoing reasons, and also the fact that the insignia should be worn by all delegates to our coming c nven tion, it would be well to give a t me limit, say up to May 14, for sugges and descriptions of emblems, at which time the most feasible and appropri-ate suggestion be published after a formal selection by a committee or the executive board. Then all such suggestions should be passed upon by the members at their branch meetings, and the emblem receiving the largest vote should be the one adopted. It will be impossible to find an emblem which will escape criticism, but the plurality vote will no doubt bring out the most suitable emblem.

I would suggest the picture of a r's ing sun, with the words, "Social Democracy" distinctly engraved thereon, and in full (not abbreviated to S. D. A.); the initials and a suggestive view or picture will not give to the outside world the knowledge we wish to convey with an emblem. The pic-ture of the rising sun with the name "Social Democracy" will, even by a child, be accepted as an indication of a thing to come, to be realized, aye, the coming and the realization, to be as inevitable as the coming of the non-

day sun. What is it that is to be realized, that is to come? The thing, the name of which is written in a semicircle across the sunburst; all this will present tiself to the mind of ever a simple child, and it is simplicity we want; it is simple intelligence we wish to convey in a simple form. We must not adopt an emblem regarding which a single question relating to its mean-

ing need be asked.

The emblem herein suggested has been indorsed repeatedly by our comrades in these columns, and has re-ceived but little adverse criticism; but I will feel surprised if someone does not soon object because of the com mercialism connected with a picture of the rising sun, through the unscrupu lousness of the maker of a certain stove polish. Such critics I would refer to Casson's poem, in which he expresses his gratitude to the Creator because he has hung the sun, the moon, the stars and planets so high that the com-bines and plutes cannot monopolize their heat and light, and dole it out to their fellows at so much per. It i just as impossible for the inspiration hope and splendor suggested by the rising sun to become besmirched be-cause it has been monopolized as the trademark of a dirty stove polish. Let us take action and promptly adopt an insignia which will become the hope and inspiration of the millions. L. E. HILDEBRAND.

Editor Colonization Dept.: The reasons why I am an S. D. First—I be lieve all men are born with equal right o old Mother Earth.

Second-Socialism offers the plan that will free the wage slave. Third—Because I do not believe in some having more than they can use and some starving for lack of necessi

Fourth-When I vote for a candidate want to have "a string tied to him." Fifth-Socialism encourages and enables a man to observe the Golder

Sixth-Socialism will not rob the worker. Seventh-Socialism will establish a

government, and not the rule of a gang of robbers. Briefly, I was born as a Socialist, and I do not intend to give up the birthright. Being one of the common

people I submit, as one of them, my views on "Liquor" in the colony. I am not in favor of the manufacturing or sale of intoxicating liquors in the colony, even for medicinal pur-poses. No drink, no drunkards-no drunkards, no human beasts. Good. sober and moral men is the class required to start and keep up the existence of a co-operative colony. While we write so much let us also do some thing substantially. Delay is perilo -let every one who can contribute to wards the support of the proposed Donations of money, colony. Donations of money, food wearing apparel, machinery, farm animals, farming implements, books-in short, anything and everything that C. J. S.

SOME SAMPLES OF SPELLING

A Jersey City druggist is making a collection of the queer orders he re-ceives from people who send children to the store for things they need. Here are a few samples of them:

"This child is my little mirl. I sent you five cents to buy two sitless pow ders for a groan up adult who is sike. Another reads: "Dear Dochter, ples gif barer five

sense worse of Auntie Toxyn for to gargle babi's throte and obleage." An anxious mother writes:
"You will please give the lettle boi

five cents worth of epicac for to throw up in a five months old babe. "N. B.—The babe has a sore stummick.

This one puzzled the druggist:
"I have a cute pane in my child's dia gram. Please give my son something to release it."

Another anxious mother wrote:
"My little babey has eat up its fath er's parish plasther. Send an antedote quick as possible by the enclosed little The writer of this one was evidently

in pain: "I haf a hot time in my insides and wich I wood like to be extinguished What is good for to extinguish it? The enclosed quarter is for the price of the

extinguisher. Hurry, pleas."-N.

Mother of Nine Children-Well Bridget, I am quite sure we shan't havto darn stockings in heaven after 16

'clock at night. Bridget-Shure, and that's thrue for you, ma'am; for all the pictures of an gels that iver I saw was barefuted.

It is about a certain family of dandelions which I told to Margery and my other children many years ago that I'll now tell to you, my little comrades, the Junior Social Democrats. Here it

The convention is almost upon us

Under Socialism we shall work for each other's benefit, not for the satis-

faction which comes from defeating and destroying each other. There will be no tramps and no pau-

pers when Social Democracy takes the helm of government, and no bond is-sues for the purpose of paving interest to plutocrats.

been issued during the past week, at the following points: Streator, Ill.; Somersworth, N. H.; Weiser, Idaho; Portland, Ore., and Rochester, N. Y.

favorably of Clemens' "Primer of Socialism." If you want to read it and two other splendid articles on Social-ism, send six cents for a copy of "Three

The organized Socialist movement throughout the world has steadily taught workingmen that they must help themselves, and that paiernal Socialism is simply a wolf masquerading

production and exchange; place them on the peace footing of co-operation, instead of on the war basis of compe-tition, and there will inevitably follow change in our whole social organiza-

This evening, Thursday, April 21, a public meeting will be held by Branch 5, Columbus, O., at Frech's hall. An elaborate and interesting program of evercises has been arranged, and 'a large attendance is expected. Every-

Comrade James L. Taylor, 96 Grange avenue, Toronto, Ont., is taking steps to organize a Branch of the Social Democracy in his city, and, with that end in view, he desires all readers of the Social Democrat in Toronto to com-municate with him at the above ad-

Contributions to the propaganda fund are beginning to come in. We have already received returns from two of our comrades and we expect the list man populations, in anticipation of the of our comrades and we expect the use to increase rapidly. This is a work fall's campaign. The success in Milwaukee has filled us with renewed deand we trust the comrades will take termination to make the most stubborn of great importance to our movement, and we trust the comrades will tak? it up with vigor and enthusiasm.

Tennessee Branch No. 1, located at Nashville, is carrying on a persistent and effective campaign of education in

would have no chance to vote for their principles, neglected to register, and so deprived themselves of the opportunity to vo.e. They are now well organized and will hereafter carry on an aggressive campaign, and will be found upholding the banner of Social

red letter day in the history of our "Forward" comrades of New York city. The date is the anniversary of "Forward," and it will be fittingly cele-brated. Two theaters, Windsor and Thalia, have been engaged, and highclass concerts will be given in each. Addresses will be delivered by Herbert N. Casson of Lynn, Mass., and James Carey of Haverhill. Mrs. A. Konikow of Boston is also expected to be pres-ent. Tickets will be sold at prices ranging from 15 to 50 cents, and every effort will be made to make the event one long to be remembered in the hisone long to be remembered in the history of "Forward."

Trades and Labor union of St. Louis, Mo.; on Sunday, the 10th inst., adopted a resolution condemning in no uncertain terms the verdict of the july in the Martin trial. The resolution was presented by Comrade G. A. Hoehn, of Missouri Branch No. 1, S. D. of A., and

Missouri Branch No. 1, S. D. of A., and reads as follows:

Whereas. Twenty-four poor striking miners were killed and if they men wounded miners were killed and if the miners were killed and if the men wounded with the strike and sequited by a jury composed of people under the influence of the capitalist corporations: therefore, be it.

Resolved, That we condemn the Hazleton murder and the Sheriff Martin murder trial as a disgrace and a shame upon our American institutions, and that the crimes committed under the prefext of aw and order in Fennsylvania are equally as believed the strike the str

NOTES FROM PITTSBURG.

feel the direct benefits of the visit of Comrades Debs and Keliher to this sec-tion, and although nearly a month has passed since we had the pleasure of listening to them, the increased inter-est in our meetings can be attributed in the main to the masterly manner in which Comrade Debs handled his sub-

We have opened permanent headquarters at 104-106 Grant street, room 6, in the Moorhead building, where we have a reading room which is open to the members every afternoon and evening. Quite a number of papers and periodicals are kept on hand, prominent among them being the Social Democrat and other aggressive journals.

A friend presented us with a book-case and the nucleus of a library has been contributed by a few of the comrades. Comrade Schick has volunteered to act as librarian and all contributions to the library will be thankfully received by him.

Comrade Thomas H Grundy, who acted as chairman of the Debs meeting in the old city hall, was read out of the local S. L. P. for such an unpardonable offense. At last week's meeting he was unanimously "adopted." as a member of Branch No. 7, and as an infant in the movement is making himtician merely for the sake of office, is

The Sunday afternoon meetings in

they are all pointing toward a better and nobler social system, and if the gleaners are only careful and painstaking the most of them can be gathered into the Social Democracy.

SECY NO. 7 OF PA.

MILWAUKEE NOTES

At the last meeting of the central committee of the Social Democracy of Milwaukee it was decided to keep Paul Grottkau in Wisconsin for organizing purposes. Ways and means will be devised to start him out at once through fight possible for the new movement and we expect to show results when the time of the congressional elections come round that will be inspiring and Mashville, is carrying on a persistent and effective campaign of education in its territory, and is accomplishing excellent results in the distribution of literature. Our Nashville comrades are doing excellent work among the trades unionists of their city, and their effo. Its are bearing fruit.

Branch 9 of Illinois held a very interesting meeting at Unihorn's hall, corner Sixty-third street and Center avenue, on the night of April 11th. Comrade Keither was the speaker of the evening, and he delivered a fine ab dress. Prof. H. Verbeck enlivened the proceedings, and added runch to the enjoyment of the occasion by rendering several fine plano solos. The most hat the splendid plano duet rendered by the two young sons of Comrade De call and and reaching the railroad station. creditable to this section of the coun-

Vries. It evoked great applause and was the source of much satisfaction to the audience. The meetings of Branch 9 are always interesting, enjoyable and instructive, and the comrades are entitled to much credit for the excellent manner in which they are conducted. The Socialists of Tacoma, Wash... Succeeded in breaking the bondage of party lines, and placed a ticket in the field for the municipal election, held on April 5. They polled 102 votes, and would have done much better had they entered the campaign earlier, as a great many Socialists, believing that they would have no chance to vote for man kindness and brotherhood. He has his audience at his will from the mo-ment he opens his mouth. With such a man at work organizing Wisconsin our comrades all over the country may rest assured that Wisconsin will do her duty this fall.

In my letter of last week I find that in my efforts to say a good deal briefly I tended to create a false impression regarding the local S. L. P. and the of ficial ballot in the election just over. I should have said that that party could have gotten a column of its own if it had had members enough. had a sufficient membership to hold a city convention with the required number in attendance and also to hold ward meetings or caucuses of the required size. I find also that in stating the size of the S. L. P. vote I gave them more than I should have done. While in the newspapers their vote appeared to be 486, an inspection of the tally sheet which I have just made in the city clerk's office shows their total vote to be but 423.

in the Milwaukee election has been very disquieting to the local populistic leaders, and they are busy devising means by which to head off the growth of the young giant that has dared to invade their fold. They are particular-ly angry because we sounded a word of warning to the toilers and tried to spoil their infamous game of delivering the workingmen over to the Democratic Capitalist party. They claim that our tactics lost us votes, but their own conduct shows that they know better. If our tactics had lost us votes they would be jubilant instead of furious. One of the local leaders tells me that it has been decided to arouse the populists of the country against our party, for the reason that the interests of the Social Democracy are against the interests of the populist party. In proof of this Robert Schilling's paper, The Advance, comes out this week with ffaming headlines over a full page article, written in such style that it is clearly intended for outside readers. The article is written to throw a question over Mr. Debs' motives and sounds the first note of a proposed war on our organization There is nothing in this to frighten anyone. I do not know how it is throughout the country, but here in Milwaukee the populist party consists mainly of leaders who maintain the party organization chiefly for purposes of barter for offices, a disgraceful scramble for spoils of the recent Democratic victory being even at this mo-ment in progress, the leaders of the emasculated party holding meetings almost nightly to decide on what office: they are to make united demand for. As opposed to these leaders the rank and file of the old populistic party have left the leaders and are with the So-cial Democracy, either openly or in a quiet way. Fusion for office was what disgusted them, for they began to see that their party would do nothing for the working class, and that it was, after all, but a duplicate of the old parties, so far as its aims, or lack of aims was concerned. The course of the So-cial Democracy under these circumstances is plain. Ignore the shallow leaders of the "busted" party, but lose no opportunity to show the members that their only hope for bettering the social and industrial conditions lies in self heard in a manner that would do credit to many of the most eloquent statesmen in the land.

an abomination and an imposition on the workers whose votes he seeks to secure. He is an enemy of labor, a more dangerous one than the capitalistic

the reading room are destined to be of great interest, judging from the last one, and the members need but little urging to attend.

The cry of the populist leaders that the Republicans helped defray the Soone, and the members need but fittle urging to attend.

The movement is not what may be called a popular one, but it is more than that, it is an instructive and interesting one. We look forward to the future with great hope, as the work of the past few months has been one of pleasure and encouragement, and it is probable that the dawn of universal probable that the dawn of universal co-operation is much nearer than any of us think. The wind is blowing just one who is watching them closely to one who is watching them closely the called as popular one, but it is more than abeen taken up by the S. L. P. This shows that our privation to the Milwaukee election has been taken up by the S. L. P. This shows that our privation to the Milwaukee election has been taken up by the S. L. P. This shows that our the Milwaukee common cause willing to make common cause willing to make common cause willing to street. Paterson.

No. 2 meets every Wednesday evening the privation that the Milwaukee election has been taken up by the S. L. P. This shows that our the Milwaukee election has been taken up by the S. L. P. This shows that our the Milwaukee election has been taken up by the S. L. P. This shows that our the Milwaukee election has been taken up by t candidate, because he did not belong to a union. So they voted for David Rose, a capitalistic fleecer. See the consistency? Robert Meister, who works at a machinist's lathe ten hours a day and lives in a flat in a laboringman's district, was not worthy of their votes; they had to cast them for David Rose, a professional lobbyist and fleecer, who never soils his hands with work, who lives by rent, interest and profit and who resides in a musision on profit and who resides in a musision or the contract of t work, who lives by rent, interest and profit, and who resides in a mansion on a swell thoroughfare, with a vestibule finished off in onyx! HEATH.

SOCIAL DEMOCRACY NOTES.

The difference between a gold bug

In free-silver countries times are as

hard as in gold-bug countries. People starving in a land of plenty! Is this the best you can do?

. . . What think you, my friend, of a sys-

is for the purpose of giving us some of the "dollars of our daddies" or bimet-allism about 1900.

Comrades, always attend your branch neetings; it gives encouragement to all. Always carry Socialist literature in your pocket. If ten comrades in any city or town would give one night a week to this cause, in distribution of literature, getting "subs." for Socialist papers, selling "Merrie England" or conducting a house to house canvass the Social Democracy would poll 1,

Samuel Johnson says: "Wage slaves beware of your friends; watch them be ever vigilant. Remember that you and you alone can successfully emancipate yourselves."

In 1890 there were 2,327,944 small farmers with an average farm of 49½ acres and an average net income of 32 CENTS PER DAY. These men are cialist party that fails to make propa ganda with them makes a mistake.

In 1890 there was \$706,000,000 invest ed in new machinery in this country Four hundred millions of this went di rectly to supersede or displace labor of all kinds at an average cost of 8 cents

MEETINGS OF LOCAL BRANCHES

No. 6, San Francisco, meets every Sunday at 2 p. m., at 399 Market street. The general public is invited to attend. No. 8. Bakersfield, meets the Tube full of the moon, at 2 p. m., in Mattson's Hall.

Hall., COLORADO.

No. 1, Denver, meets every Sunday at 1 p. m., at 1715 California st.
