ILD REVEALS POLICE MOB DROWNED CROPPER, KILLED GRAY

Ala. Hearing Postponed, Miners To Picket Some Released on Bail

DADEVILLE, Ala.—Faced by the determined resistance of the International Labor Defense and the League of Struggle for Negro Rights, and with lack of evidence by which they hoped to frame the 29 Camp Hill croppers in the Dadeville jail, the solicitors and police obtained a postponement of the hearing until the latter part of August.

A large number of telegrams and resolutions of protest from workers' organizations and meetings from all parts of the county against the landowners' terror against the Negro croppers have poured into the offices Gov. Miller and county officials When George W. Chamlee, attorney for the International Labor Defense appeared in Dadeville to defend the croppers against the frame-up, the county officials were on the defensive.

Officials on Defensive District Solicitor C. H. Vann and Judge Jercy Oliver, before whom the hearing is to take place, were forced to admit that a large number of the croppers in jail were "innocent" un-der the barrage of nation-wide protest directed against the terror and the frame-up. Judge Oliver even promised that he would release a large num ber of the men in jail on small bonds. It is evident that the landowners' deputies have not been able to work up evidence to support their frame-up charges of murderous assault and conspiracy to kill, and therefore ob-tained another month in which to try to work on this frame-up.

However, it was evident during the short hearing in Dadeville, that the large landowners' forces would do all they could to push the charges against the most militant of the croppers and try to railroad them to long prisch terms and in this way try to smasl the Croppers' Union and their fight for cash settlement at cotton picking.

During a demonstration of 2,000 white and negro workers in Buffalo, N. Y., Rev. Nash, local leader of the N.A.A.C.P. called on the police to break up the meeting. As a result of this open boss action, the police attacked the crowd, injuring six workers. The workers resisted the police attack and continued the meeting.

GETS JAILED AND FINED FOR **GETTING JOB**

By a Worker Correspondent Danville, Va.

I am one of the numerous unem ployed starving workers in this great city of Danville. I have tried every way possible to find something to do to help support my family.

When I succeeded in getting a few

hours of work a few weeks ago what do vou think happened? The highly "intelligent" inspector came around and issued a warrant against me for not having the "proper" license

the police judge said he didn't be-lieve I had violated any law but would fine me \$20.00 and cost just the same. The case was appealed but the higher court also convicted me for working and gave a verdict of \$10.00 and the cost.

So this is what we workers get. If we can't get work and are caught loafing we are arrested and charged vagrancy, and if we do get a few hours of work, we are picked up and charged with working without

This is some capitalistic system we have! Looks like it is time the workers must get together and put a stop to this foolishness of the boss class starving us workers. It is time we were doing to them like the Russian workers did to their loafers in 1917.

In the second place, if Gorman comes back here there are about 1,000 of us workers who will give him a warm reception. We have been reading in the papers what the workers in Pittsburgh district did to the Fagan scab bunch. Well, if I am not terribly mistaken we would do the same to to Gorman if he tries to come in here

We workers are now joining our own union, the National Textile Workers' Union. This union is conno boss sccabs leading it like they did just as well get out and stay out.

Coops For Homes In Greenville

Greenville, S. C. The houses that some of us colored workers have to live in in Greenville are worse than hen coops or pig pens. Some of the houses not only have no running water, but haven't even got a well, to get water from. Many of the roofs leak. Window panes are out, and door steps gone. And the roads that these houses are on you can hardly walk on, they are so bad. The city doesn't bother to fix our roads, or even deliver our mail. The mail boxes are all huddled together at one end of the colored neighborhood, and we often have a long walk to get it. The rents are much higher than houses the white workers have.

I live in a 4-room, house, and have to pay \$2.00 a week. The roof leaks so bad that when it rains we have to set tubs out in the rooms. There are no window panes or door steps. The well in the house was condemned and I have to rely on my neighbors' good nature to get water from their wells. We should get together and kick about these rotten conditions. We should refuse to pay such high rents for houses not fit to live in. By joining the Unemployed Council, sticking together, we can get better conditions. I see the Unemployed Council as a door leading out of this dark prison we are in. Let's join hands and get out of our slavery!

Glad to Hear Mother Of Scottsboro Boy

By a Worker Correspondent

Greenville, S. C. We were glad to have Mrs. Williams, the mother of Eugene Williams, one of the Scotsboro boys, in our city. It was sad to see the poor mother, struggling and trying so hard to save her son's life, and that of the other eight boys.

We who are mothers can sympathize with her. We do know the burden is so hard to look upon your innocent child, come to die.

Workers, don't give up. I feel if we put this program over, we can shoulder the world. Let us speed up and continue the fight.

Workers, don't turn back. We have traveled too far to stop and turn around. I have looked beyond the mountains of struggle, through time, and have seen the light of a new day.

Worker in Soviet Union Tells of Scottsboro Protest There

When he hished the workers asked question which showed that the white all the different races live in unity ruling class of the South was using and as equals. It's up to us to desuch a fake and foolish charge as cide—either to keep on slaving for "rape" in order to electrocute 9 innocent young Negroes. However, they understood that this is an attempt on the part of the master class to terrorize the Negro masses into remaining slaves and stop them from uniting with the white workers in order to fight for better living conditions.

Tells of Old Russia

One of the questions was whether the white workers and poor white farmers believed these lies. They farmers believed these lies. They were told that the Southern boss class is very clever in spreading their lies about the white race being better than the black race in order to keep them divided and thus rob and exploit them both. The press, the schools the church and the government insti-tutions are all in the hands of the bossmen and all are used against the white and black toilers. However, the Negro masses and poor white workers and poor farmers, starved robbed as never before, are beginning to fight against their oppressors.

After the questions one of the workers got up and spoke. He said that when they were ruled by czar, they too, were starved, murdered and jailed. The czar, also, used the same kind of lies in order to keep the Russian workers and poor farm-ers divided. Only when the working class and toiling masses of the many different nationalities and races got together and fought shoulder to shoulder did they overthrow the czar. Now they live in peace, in unity and as equals. The factories belong to the workers and the land to farmers

The Civilization They Tell us To Defend

General Holbrook, speaking at Camp Dix, N. J., let the cat out of the bag by telling the assembled war veterans that the United States govern-ment is preparing for war against th Soviet Union.

The London Conference of the Big Powers-United States, England, France, Germany, Italy, Japan—was a conference to prepare the war of intervention against the Soviet Union.

In preparation for this war-which may break loose at any day-the United States Government is rapidly rebuilding its war bases, building new type airplanes, manufacturing deadly poison gases.

They are telling the workers and farmers of this country that we mus fight to "save civilization from the reds."

What is this civilization that they want us to save? It is this: 10,000,000 unemployed workers in this country, starving with their

Open wage-cutting announced by the U. S. Steel Corporation, the railroads and other industries, fully endorsed and supported by the Hoover starvation government.

The shooting down, clubbing and beating of miners fighting against starvation in Pa., Ohio, W. Va., and Kentucky.

The massacre and lynching of Negro share-croppers at Camp Hill,

Ala., for demanding bread.

The lynch-law death verdict against nine innocent Negro boys at Scottsboro, Alabama.

These are a few things that this civilization stands for. It is a civilization of starvation, murder, oppression

Against this system workers thruout the world are demonstrating on August 1st! Join them!

day when the declarations of war were exchanged which opened the great world slaughter. This will be the 17th aniversary when the armies began to march which for four years killed one another to defend their respective so-called fatherlands, which fertilized the fields of Europe with world war is haunting us. the blood of the working class, which destroyed villages and cities, home and factories

On this 17th anniversary of the be ginning of the world war we have good reason to recall to our memory the scenes and experiences which we witnessed as participants in this great slaughter. The atmosphere preceding that memorable first of August, 1914, is the atmosphere of today. War is in the air again. Armaments are being produced wholesale; poison gases are being developed; warships are being constructed: bombing planes and tanks are being built.

In this hour and with the memory of August 1st, 1914, haunting us, appeal to you to fight against the repitition of that slaughter.

You millions of working women the mothers, the wives and the sisters of the soldiers in the last war remem ber the days when you accompanied your son, your husband, your brother to the station. Remember your tear-drenched handkerchiefs. Remember the waving hands and hats signalling good-bye as the train left carrying your beloved one to the training camp or to the front. Remember the tears shed during the long months and years of war. Remember the fearful apprehensions with which you re ceived the official letter that told you that your son, your husband or your brother had died the "death of honor' upon the battlefield. To remember those days means again to live thru the anxieties of these months and years. It means again to remember the pains of hunger, again to feel the threat of epidemics. It means again to remember the nausea caused by all the artificial food and dried vegetables so aptly dubbed by popular voice as "barbed wire." It means to recall the memories of people dying from starvation and of children pitifully crying for bread.

And you veterans of that war, the soldiers that marched in the German, the French, the Austrian, the Italian, the British, in the American armies emember the marches to the martial tunes of the military bands. Remember the flowers handed to you by nice bourgeois ladies-in anticipation of the flowers that may soon grow ou of your graves.

You veterans of all countries, remember the prayers which the minisamidst the thunder of the cannons; the German, the Austrian, the Russ ian, the Italian, the American minis ters of all religions praying fervently States Government just ordered 120 praying to the same god urging vio tory for their respective fatherlands.

Today again, 17 years after that memorable first of August, 1914, the atmosphere is charged with war. The diplomats of all governments are busy hurving back and forth between the tions. They are busily engaged in misusing language to conceal their aims. They talk of peace and cook up war They talk of disarmament and throw into jail the poor illusionary who takes them seriously and develops anti-war ideas.
