The rising tide of working class reality helping the boys, while in militancy, the rallying of masses throughout the world against the lynch verdict of the Scottsboro court, the flood of letters, resolutions and telegrams of protest, clearly indicate that the time has passed when campaigns of murder against workers even though disguised by capitalist ourts, can be carried out without determined resistance to the ruling class The eyes of hundreds of millions throughout the world are upon the Alabama Supreme Court, highest judicial lackeys of the boss lynchers, and the explosion of Anderfeel as they play their part in this dy of Willie Peterson in the Sheriff's criminal conspiracy to murder inno-cent boys as a part of the terror drive room on the same side as the jury, against all workers—Negro and white while the room was full of "friends"

In desperation the mine owners, their county and city sheriffs, police, courts and gun thugs have launched a new wave of terror and extended their murderous campaign from Harlan and Bell counties into Tennessee.

The kidnapping was effected by Hugh Ryder, Claiborne county depu-ty sheriff, and he and Sheriff Frank Reilley, sheriff of the county, turned the men over to the Harlan thugs. The state administration of Governor Horton sent in Adjutant-General Caswell Boyd on the pretext of investigating the affair, but Boyd, who last year ordered the state militia into Elizabethton against strikers, tried to whitewash the Tennessee sheriff and his deputies who have hands with the murder gang of Sheriff Blair of Harlan county, Kentucky.

Many delegates have reported back to the section committees regarding the manner in which the sheriff's and police forces and 75 newly sworn in thugs broke up the groups going to the meeting and prevented it being held. Instead of intimidating the delegates, they are now busy reporting the facts to the locals and striving to spread the strike still further.

LYNCH VERDICT | Child Appeals for IN FRAME-UP **AGAINST JONES**

Orpan Jones, aged Negro farm hand, framed up on a murder charge, has been found "guilty" by the lynch court at Towsan, Maryland. The jury, hand-picked from friends of the lynch sheriff, was out but 34 minutes, which fact alone proves they did not even discuss the case and that they were selected to help in a job of legal lynching and they did it. Since there was no recommendation for "mercy the death sentence is mandatory.

Bar Negroes From Jury

International Labor Defense, Negroes were barred from jury service in the case. The lynch judge rul ed out the motion for Negro jurors.

The defense proved a frame-up against the aged Negro victim and showed the probable guilt of a white farmer who lives near the murdered Davis family.

Over the protests of attorneys for "Just a Little Something To Eat While We Fight"

The Workers' International Relief made working class history on January 1st, 1932, in Pineville, Ky. Simultaneously with the calling of the Kentucky miners' strike by the National Miners' Union, food was being delivered to the most destitute families throughout the entire strike area. On December 31st at the strike committee meeting in Pineville, where the organizers of the various mines that were to strike the next

day, January 1st, were discussing the possibilities of pulling the various mines 100 per cent, the question of relief was one of the paramount factors discussed.

The organizers for the Colmer, ommodore and Kettle Island mines, together with 30 or 40 other organ izers of the mine sections, stressed the militant desire of the miners to is the gist of what many of the miner lay down their tools and fight for ers and the women were heard to say. their demands and against starvation and terror. However the question of the need for immediate relief because of the long period of starvation was sharply emphasized. "Just a little something to eat while we picket and fight," is the way they put it. Some said that "they can't strike unless they feel sure that something to eat will come soon," because actual starvation stares the women and children in the face.

The miners were facing stark star vation while working in the and the women and children slowly dying of hunger. Many of them died of that dreadful disease,

None realized more characteristics who participated in the meeting the need of relief, and the meeting the need of relief. They assured the miners that effort was being made by the Workers' International Relief to support the strike. The W.I.R. told them that they could go back and assure the miners in their respective sections that food would go out the day of the strike to the most needy families and that within a few days more food would be shipped from all sections of the United States to aid the

It was a stirring sight to see hundreds of miners in chain formation passing sacks of flour, coffee, beans potatoes and long strips of bacon on to the trucks for distribution among 2,000 starving miners' families.

When Comrade Binkley was arrested Comrade Witt immediately got him out on bail and took an active part in the court room while Binkley was being tried, so the bosses thought they had better get Witt out of the way so that he and Binkley could not do anything to help the workers resist the wage cut in the mills here on the 25th of this month.

Pollard Demands Special Police to Deal With Strike

DANVILLE, Va.— A Richmond
dispatch today commenting on the message of Governor Pollard to the Legislature, said:

"Calling attention to the strike in the Riverside and Dan River cotton mills at Danville last winter and the calling out of the national guard to preserve order, the governor asked for consideration of a bill authorizing the governor to mobilize temorarily, under single control, parts of the pe lice forces of the cities, towns and counties and to swear in special po-lice if necessary. When Brodsky raised the question of the boys' being "deprived of due process of law" because there were Negroes on the jury, the lynch judge, Anderson, had more than he could stand for one day, so he hastily adjourned the court until the following day.

Demonstration Plot Failed

The demand for Negroes to serve on juries so infuriated the whole lynch gang that frantic efforts were made to prepare a hostile demonstration in the court room when argu ments were resumed next day. This falled in spite of the fact that Negro workers were not admitted to the court room. At no time was it possible to induce the white audience that filled the court room to make a demonstration against such a demand.

Although barred from the court room large numbers of Negro workers pressed around the doors and win-, listening eagerly to every word of defense counsel.

CHARLOTTE, N. C .- I have been working for a family for two years and I was getting seven dollars week and now they cut me to \$4.50. I have to go on at 7:30 a.m. and get off at 8 and 8:30 p.m. I have all kinds of dirty work to do, such as scrubbing floors, waxing and polishing furniture and washing, all for just \$4.50 a week.

I am not able to buy any clothes. After I pay rent of \$3.50 a week and \$2 furniture bill, I have nothing Pennsylvania, allot 27 cents a week left to get groceries and clothes. So to feed an unemployed starving it's time for everybody to organize

TAMPA TRIALS To Tampa Strikers VA. WAGE CUT

(By a Worker Correspondent)
DANVILLE, Va.—The Dan River and Riverside cotton mills have posted a notice of a wage-cut of 10 percent for "workers" and 10 to 20 per-cent for "salaried men." to take effect on January 25. The excuse the company gave for the wage-cut was that a curtailment in overhead penses would give the mills a larger opportunity to sell goods and thus in-

The company admits in the announcement of the cut that it will mean a saving to the company of \$300,000 per annum and will en them to pay preferred dividends more quickly.

The Southern Worker

ISSUED WEEKLY BY THE COMMUNIST PARTY, U. S. A.

Jim Allen, Managing Editor Chattanooga, Tenn. Box 1653

Subscription Rates: \$1.00 A Year; 50 cents a Half Year

All Readers of the Southern Worker Must Rally to Save Paper.

Because of lack of funds the paper was almost a week late last issue. We do not know from one week to the next whether we will be able to get the paper out. We face the danger of seeing the Southern Worker die. This threat does not come from the camp of the capitalist class. It is not the enemy that has put us in a position where we may not be able to carry on. If it were the enemy we would consider it no disgrace. It is no disgrace to go down fighting, face to face with our class enemy. No revolutionist fears that sort of thing.

But it is disgraceful to have to go down because the class conscious workers and sympathizers, and ABOVE ALL, responsible Party members, will not exert themselves to obtain money to enable us to carry on. In this emergency we need donations; that is we will gladly accept donations. BUT THAT IS NOT WHAT WE ARE INSISTING UPON NOW. ALL WE HAVE ASKED NOW IS THAT THOSE COMRADES AND THOSE ORGANIZA-TIONS WHO HAVE BEEN GETTING BUNDLE ORDERS PAY FOR THEM. There are a large number of bundle orders that go out every week and the comrades who get them do not even exert themselves to PAY POSTAGE on them, to say nothing of paying for the paper. We must, in this case, say plainly to the responsible Party functionaries: THIS HAS GOT TO STOP! We can't continue to jeopardize the Southern Worker because our own Party members. cause our own Party members do not meet their obligations.

With the attack against the working class becoming more vicious, with mass hunger becoming worse every day, with thousands of miners facing sudden death at the hands of hordes of gun thugs or slow starvation, with the lynch fury striking out madly against Orphan Jones, Willie Peterson, the Scottsboro boys, with the war clouds growing darker every moment and threatening war against the Soviet Union, with the bandit drive against the Chinese revlution intensifying, we need now more than ever such paper as the Southern Worker carrying its weekly message to the op-pressed of the backward South.

Especially is this paper needed when, as a reply to the increasing terror, the intensified lynch drive, we have in answer thereto a rapid rise of working class militancy, an increased determination to fight on the part of the workers and farmers. The masses want just such a paper as the Southern Worker. Many readers of our paper would be astonished to know that, in face of such favorable conditions for Communist work and growth, we face suspension, not because the bosses are attacking us as they are, but because those who owe us money will not pay their debts.

We do not want to be driven to the point where we will have to publish openly in our columns the list of those who have, through refusal to pay for bundle orders, placed us in this position, but if this paper is forced to suspend on account of such a thing, we will regard it as our revolutionduty to place the blame precisely where it belongs, if we have to do it in the last issue we print.

The situation is so serious that we ask those who have accumulated bills owing us to rush funds at once by wire or special delivery.

FACTORY PENETRATION AND FIGHT AGAINST IMPERIAL-IST WAR

Comrade O. Piatnitsky, speaking or the fluctuation of membership in the Communist Parties, and the necessity for a decisive turn toward the facto ries, before the Eleventh Plenum of the Communist International, said:

"The absence of a great change in the matter of transferring the centre of activity of Party and trade un ion work to the factories does not really make it possible for the Com-munist Parties, the Red Trade Unions and the Trade Union Opposition to fight against the influence of the Social-Democrats and the reformists in the factories, to enlarge their membership by an inflow of workers from the factories, to know the feelings of the workers, to organize the struggle against the attacks of the capitalists. When the active elements of the Communist Parties, the Red Trade Unions and the Trade Union Opposition are removed by the bourgeoisie during the time of war the mittee only possibility for successful work tional. in the industrial centers, in the factorits will be on condition that there are well-functioning nuclei."

This bears with special force upon the main weakness of our Commun ist Party, especially in the Southern

ed willingness to fight, furnishes our Party with splendid opportunities to attract these workers to us. Many workers in the South have been unler our leadership in industrial strugglies, many are under our political influence. We must be able to conolidate this influence organizationally by bringing hundreds of the most advanced into our Party during the present recruiting campaign.

ORGANIZATION IN THE FACTORIES ESSENTIAL

"What can the proletariat put up in opposition to the power of finance capital with its trusts, its cartels and its fighting fascist gangs? Only organization in the factories. January "Communist" Splendid Number for Guide to Action

The January "Communist" is Leninist classics in popular literature worthy of special mention inasmuch of the Party. as it more clearly than for quite some time justifies its sub-head "A Magazine of the Theory and Practice of Marxism-Leninism."

The article by Comrade S. Willner ers' Strike," is an excellent piece of careful analysis of the achievements and the shortcomings of the miners strike in Pennsylvania. Of great importance is the part dealing with the unity of the employed and unemployed workers; a fact that ensured the stability of the struggle for a long time. The author of the article deals quite comprehensively with the political and organizational mistakes and shortcomings in the preparation and carrying on of the strike. Comrades of the Party and those generally who are engaged in the day to day work of fighting against wage cuts, unemployment, etc., should obtain the January number of the "Communist" if only to study carefully that article on the experience of the Pennsylvania mine strike.

The six-weeks' textile strike Lawrence, Mass., brought out clearly many of the weaknesses of our Parand trade union work, especially relation to the practical attempts build an effective united front. Comrade William Weinstone contrian article on "The United Front Tactics in the Lawrence Strike" hich brings out clearly the fact that it is wrong to merely set up a narrow strike organ of the union and call it a "united front" instead of building a united front that is actually the weapon of the workers themselves. In all the practical work of putting into effect the policy of independent leadership of strike struggles will meet with conditions similar to those that existed in Lawrence where the A. F. of L. fakers will use every kind of demagogy to behead the movement. A careful study of Weinstone's article clear up many foggy notions of how to build a united front.

A number of other articles in the January number of the "Communist" also emphasize the fact that our writ ers are effectively combining theory and practice in the light of our everyday problems.

Bill Dunne, in an article on "Unemployment and the Communist Way Out of the Crisis," explodes some of the capitalist theories, show ing the effect of the crisis upon the working class generally and correct ly urges the use of more Marxist

Mine Explosion Kills Six Miners ups

PARROTT. Va.-Six workers were killed in an explosion deep in the Pulaski anthracite mine here. The explosion was due to accumulation of gases as a result of the neglect of the company to supply proper venti-lation facilities. The state mining inspectors are trying to cover up the cause so that the company will not have to pay death claims to the fami-lies of the six men.

The dead are: Frank Seffered, Dew-ey Seffered, Harvey Seffered, none of them brothers, but more distant relatives; Ernest Stead and Foster and Archie Boyd, brothers. The condition of the bodies indicated that all of them had died instantly.

There should be organized big mass meetings and protests against such criminal neglect on the part of

of the Party.

There are informative articles by Comrades Bittleman and Steuben, be sides a reprint of Lenin's article on the Irish rebellion of 1916 (Easter Rebellion); a translation of an arti-cle by K. A. Wittfogel on the Hundredth Anniversary of the Death of Hegel; a long article on the theoretical foundations of Marxism-Leninism by V. Adoransky and the resolution of the Eleventh Plenum of the campaign." The campaign is Executive Committee of the Complexes t munist International on the Danger.

There is also published the now world-famous article of Comrade Stalin on "Some Questions Relating to the History of Bolshevism," which was the signal for all Communist questions of theory in all our work

Every Communist, every worker, who wants to be equipped to more if effectively fight against capitalist des potism should read and study the January number of "The Communist."The address is Box 148, Station D., New York City.

NANKING GOVT. TROOPS FLOCK TO RED ARMY

The mighty upsurge of the revoluionary movement in China is rapidly disintegrating and destroying the armed forces of the Kuomintang regime at Nanking. In carrying out the policy of the Chinese capitalists and the wishes of the imperialist powers the Nanking government is engaged in a "Communist suppression because tens of thousands of the government troops are deserting the nationalist-imperialist forces with guns and munitions and going over to the Red army, which is the shield of the Soviet districts of China.

Capture Many Cities

Twenty thousand Nanking troops which were sent out on the campaign o crush Communism revolted and joined the Red Army. This tremendously strengthened the Red forces and immediately thereafter Tingchow and several other cities in the Fukien province were captured.

The Red Army is now besieging Nanchang, capital of the Kiangsi province and the last stronghold in that province of the Nanking government. Hankow, in the Hupeh province also faces momentary danger of falling before the Red Armies. Nanking troops protecting many cities have revolted and opened the way for the Red forces
