THE CONDITIONAL FUND OR UNCONDITIONAL FAILURE HEADQUARTERS OF It Must Be One or the Other, and That Soon .- No Amount Too

Small if Faithfully Pledged .- Your Pledge Will Be Reduced as Fast as the Deficit Is Reduced, and You May Be Released Entirely Before the Year Is Up.

By W. W. PASSAGE.

President of the Workingmen's Co-operative Publishing Association

Friends of The Call, do you realize what the success or failure wes of Elkins-Widener street of The Contingent Pledge Fund means to the management of The Call? This fund is really the only basis we have for our financial operations, and there can be no progressive, constructive or reorganizing work done until it is completed.

The present paralysis must continue until either the fund is completed or the life of The Call is extinct.

But with this fund completed and in hand, our present creditors can be induced to extend time for payment; the Publishing Association, with the aid and advice of the Party Membership, can reorganize the business and editorial departments; that part of the help now engaged in frenzied financial operations can be dispensed with or can return to their legitimate work of building up circulation, thus enabling The Call to fulfill its mission by reaching the people with the message of Socialism, and at the same time reducing the deficit; our friends, with a little ready money, KNOWING THAT THE CONTINUATION OF THE CALL IS ASSURED, would be willing to advance money to buy a press and put the printing plant in condition to take on outside work to keep it in constant operation, and to become a source of profit whereby the the case of our "esteemed contemporary;" and finally, the adverdeficit will be completely wiped out, just as it has been done in tising department can be strengthened. Experts in two of the most important branches of advertising have recently offered their services, and a profitable income from this source is assured if we can but survive the present crisis.

THE EDITORIAL DEPARTMENT CAN BE MADE JUST WHAT THE MAJORITY MEMBERS IN THE EAST WILL EXERT THEMSELVES TO MAKE IT. The Publishing Association has never desired anything else, although it may have failed to ascertain the sentiment of the Party. Membership regarding this. The will of the Party Membership should be ascertained, and THAT WILL SHOULD PREVAIL. Once the will of the majority has been ascertained, the editor selected should regard it as an imperative call to duty, and those who may have preferred some one else, equally with those who have chosen the editor, should unite heartily in holding up his hands so long as he shall remain in the position of responsibility.

Comrades of all factions of the Socialist movement must learn the lesson that in the management of the internal affairs of our party and in the conduct of our great party institutions a sweeping victory in which the feelings of the minority are ruthlessly crushed, IS NOT A VICTORY BUT A DEFEAT. A real victory in a voluntary organization can be claimed only when the opposing elements have reached a common ground upon which practically all can co-operate-a "working agreement" along the lines of least resistance from those whose demands have not been fully met. Our Brutal Attempts at Repression o guiding principle should be "in essentials, unity; in non-essentials, liberty; in all things, charity."

In this spirit, Comrades, put your shoulder to the wheel and lift on this Pledge Fund. You are not asked to do much, but if you who read this will do your part, however, small the amount may be, you will save The Call. But the time is short. The Board must know by Tuesday evening what it can depend upon. See details of plan in previous issues. Sign now for the amount you can afford and mail the Pledge immediately. Only \$200 more is needed to complete the Fund, WHICH IS THE ONLY THING THAT CAN POSSIBLY SAVE THE PAPER

Socialists know that the Free Press is a thorn in the side of the capitalists and realize that the fight will center about that paper which has been rapidly growing in circulation and influence. The immediate cause of the attempt to suppress the paper was an attack on M. L. Cuckerbraum, a prominent merchant of this city, who is also a member of the councils. The Socialist newspaper proved that he was connected with an unsavory scandal.

recently made in the reichstag by one of the Socialist members that the con-troversy over the Prussian franchise bill "would yet drive Germany to revolution," is one step nearer fulfill-ment today, in the opinion of many politicians, as the result of yester-day's admittedly unwarranted attack upon a Socialist gathering near Treptow park, in which five Socialist sym-pathizers were seriously wounded by the provincial police and probably

one hundred slightly hurt.

The local authorities are seeking to escape blame for the affair by saying that the provincial police, who were imported by the hundreds, unused to dealing with such crowds, lost their heads and precipitated the clash that might easily have been avoided.

This explanation does not satisfy the Socialists, however, and the greatest wave of resentment is today sweeping over this city and the other Socialist centers, that has yet marked the government's program of interfering with the Socialists' demonstration in opposition to the Prussian fran-chise bill.

Yesterday's clash occurred just a Socialists started from Treptow Park to the Tiergarten where, by a ruse, the real demonstra-tion was held, owing to the show of military strength at Treptow. growd was not in the least unruly, but the provincials became alarmed and began using their sabers and revolvers on the crowd.

AMENDMENT MADE IN RAILROAD BILL

House Committee Strikes Out Provision on Mergers - Favors Creation of Court of Commerce.

WASHINGTON, March 7 .- Senator Elkins, of West Virginia, submitted to the senate today the favorable major ity report of the committee on interstate commerce on the administration's railway bill. The bill reported provides for the creation of a new court to be known as the "Court of Commerce" and makes amendments to the acts relating to interstate com-

The administration bill as originally drawn provided "that no railroad corporation which is a common carrier shall hereafter acquire, directly or inkind in the capital stock, or purchas or lease the railroad of any railroad corporation which competes with such first-named railroad corporation.

Strenuous objection was made to thi provision by leading railroad men, contended that in operation its effec would be to dissolve a number of preser mergers that were not obnoxious to the present law and result in great confusion in the railroad world. The case of the York Central and the West was cited as an instance in point. Here it was pointed out the New York Central controlled a majority of the stock of the competing line. Under the provision to which exception was taken, it was contended, the New York Central would be forced to dispose of its holdings on

After a conference with railroad men the President and the Attorney General agreed to the insertion of a provise that would not interfere with existing mergers, but would have pre-vented mergers of competing lines in the future. Since the provision was ed to, it is contended many railoads have been quietly at uiring stock in competing lines, proceeding on the theory that the Town send bill in this particular was to be

nacted into law without change. The house committee on interstate and foreign commerce considered this merger provision of the Townsend bill at great length, and came to the conclusion that if enacted railroad con colidation in the United States would be carried to greater extremes than had ever before been attempted.

Members of the committee believe would have legalized the Harriman merger of the Union Pacific and th Southern Pacific which the government is now trying to dissolve unde the authority of the Sherman antitrust act.

There are eight such dispensaries in Chicago, and they were run during the year 1999 for \$10.825. It is hoped that \$15.000 can be secured to run them during the present year. This only shows that the packers'

endowment was hardly enough to run the institute during half of the first year. Whether it was because of the the limited that the packers' gifts were not as munificent as might be expected, or whether they do not appear well standing alone, nevertheless, it is a fact that they are not used directly the stock yards dispensary. to support the stock yards dispens but instead put into the general fund with all other contributions.

The only conclusion to be drawn in that the packers through "the trust" intend to rob the toiler of as much of his wages as is possible, just as the consumer is robbed. New Mark for Twenty-mile Run Expected to Be Set Up in Madison Square Garden.

It is being freely predicted among authorities in athletics that the twenty-mile race, which will be held at Madison Square Garden next Monday night, will witness the breaking of all ecords for the distance.

There are six men now entered for

the event; Fred Meadows, the speedy Canadian, who won the recent fiftwice defeated Dorando: Har Cohn, the ex-Irish American A. five-mile star, who is making his first professional appearance; Jim Crow ley, who hung up a record for the twenty-mile mark in the Marathon event last Tuesday night in the Sixty ninth Regiment Armory, and Fran Clarke, the County Mayo Irishman Edinburgh Marathon this year.

With such material as this, com-prising both speed and endurance the race of the year is promised.

THE WAR OF CLASSES.

The War of Classes is on. There is no evading it.

Ministers may preach Christian brotherhood. Professors may teach the economic harmonies. Politicians may spout patriotism and the inalienable Rights of Man. Editors may rehash the entire mass of nonsense in their editorials. Labor leaders and labor exploiters may sit down together to sumptuous banquets, and then treat each other to silly platitudes and flattering applause.

But the War of Classes never ceases. In one form or another the war goes on, relentlessly demanding its countless toll of victims.

The War of Classes goes on, hidden or open, on a small or on a large scale, unnoticed of the eyes of men or engaging the attention of the whole country and of the world.

The War of Classes goes on when mothers are torn from their babes and drawn into the factory, to take the place of their higherpriced husbands and to produce more profit for Capital. The war is on, but it is a one-sided war.

The War of Classes goes on when children are drawn into the factory, to take the place of their higher-priced fathers and mothers and to produce more profit for Capital. The war is on, but it is a one-sided war.

The War of Classes goes on when the workers are killed and maimed, tens of thousands and hundreds of thousands every year, and the places of the disabled ones are filled with fresh recruits fine body and brain into a wreck beimported from every section of the globe. All this is being done in cause they cannot get it. Then the are well how dignified and how hones the name of Industrial Progress, and for the greater glory and profit growing older, has to keep up the ties without giving anything in return of Capital. The war is on, and Labor is the unresisting victim.

The War of Classes goes on whenever wages are cut down, the and would in many instances be hin-low. working day lengthened, labor intensified, rents and prices raised, sistance from her husband in any but church has pronounced on the im Labor's standard of living cut down, for all this is done to increase the coarsest drudgery. His skill and portant subject of the headship of the the profit of Capital.

The War of Classes goes on whenever injunctions are issued to rob Labor of its right to strike, whenever Bucks Stove and Danbury Hatters decisions are issued to rob Labor of its right to boycott, whenever the police and the militia are called in to "restore order" and settle strikes, whenever labor leaders are arrested or threatened with arrest, and whenever labor leaders are corrupted and bought off. For all this is done for the profit of Capital and to the hurt of Labor.

This war can end only with the ending of Capitalism. The country, the civilized world cannot endure half slave, half free. Either Capital will subjugate Labor, restoring serfdom and slavery, converting Labor into an integral part of its possessions; or Labor will subjugate Capital, taking of it complete possession, and using it for its own benefit.

This is the alternative. There is no third choice. Man must be subjected to Matter, to the instruments of his own creation; or Matter must be subjected to Man, the creations of the human mind Lead. South Dakota. to the mind that created them.

The issue is between Capitalist Class and Working Class, collective Capital and collective Labor. Witness the fight between the Philadelphia Rapid Transit Company and the Philadelphia Rapid Transit Company and the carmen. The former is receiving assurances of support from all the leading corporation interests of the country; the latter from countless labor organizations. The fumes of Civic Federation banquets have vanished. Once more we are on solid earth, with its grim realities of strife and consequent suffering confronting us and inexorably demanded that we range ourselves on one side or the other.

All Socialists know where their station is in the battle that has been joined.

BANKER AND DEMAGOGUE.

Jacob H. Schiff financed the Japanese loans in this country during the Russo-Japanese War. That war could not have been Thomas. won by Japan without the money advanced by America and Eng-

As the financial agent of Japan, Mr. Schiff was naturally regarded as a sort of semi-official spokesman for Japan in this country. But last Saturday Mr. Schiff suddenly turned around and spoke of a "mighty war coming" between the United States and Japan, as a result of Japan's joining hands with Russia against Secretary Knox's Manchurian railway proposals. Incidentally "perfidious Albion" came in for its share of criticism, because of the support it is lending to the Russo-Japanese combination.

It would be invidious to ask for the cause of Mr. Schiff's sudden change of front. Has he ceased to be Japan's financial agent for nated by the Socialist party. America? Have all the Japanese bonds been disposed of, and are there no new ones in sight? For surely Mr. Schiff would not propose that the American people engage in a "mighty war" because of Manchurian affairs. What is Hecuba to us, or we to Hecuba?

But Mr. Schiff's words are grist to the mill of our jingoes and fice. militarists and marinists. Thus Hearst's American promptly uses Mr. Schiff's words as further proof of the need for an enlarged navy and for ship subsidies. The great banker and the great demagogue have joined hands.

Whenever our great capitalists' chestnuts are to be pulled out of the fire, Far Eastern or other, Mr. Hearst can always be depended taken up and the "union" alderman upon to present the job in the most agreeable light to the American and all but two other aldermen voted upon to present the job in the most agreeable light to the American people. The self-styled friend of the people is always ready to sacrifice the people's blood and treasure in order to back up capitalist adventures in foreign countries.

THE BRIAND MINISTRY.

By Charles Rappoport, of Paris, in Die Neue Zeit. (Translated by Harry T. Smith.)

(Continued from yesterday.)

III.—Briand as a Minister.

Briand was elected to the chamb of deputies for the first time in 1902
—not without a little help by the government. Thanks to his close conne ficials, he was able to provide metal workers of his electoral district of St. Elienne with work by havin government orders placed there, thu winning great popularity in that sec tion. When he made his maider speech in the chamber, Le Temps, the hat Briand was made of ministeria timber. What made this comment the his interpellation apparently was upo subject which had nothing to do

Briand criticized, or rather seems to criticize, the government regarding the massacre of workingmen dur ing a recent strike. But this deceitfu enveloped his attack in so mai ine nuances that the supporters of the government recognized the tone of an opponent, but of a future ague. Nobody can equal Briance colleague. in playing the role of an upright man over a horrid deed. Better than any ody else does Briand understand the unawares, and throttling them. If he had acted Judas' part in betraying Christ he would have done so with a smile upon his lips, and an amiable bow, not forgetting to use his favorite "I am a man of honor.

The desire of the whilom general strike advocate was too strong, how ver, to be restrained by the feeble conds of friendship when a favorable opportunity arrived. Despite the who stood very close to him, and who collaborated with him in founding he allowed Sarrien, the first Radical who came along, to hitch him to government car of the bourgeoisie. He lustified his action by declaring it to the completion of the separation of and state, which he

The Socialist party, however, was feeling of Briand and the nationa committee promptly expelled him from the party. The party nipped the "Briand case" in the bud, whereactivity of the party during several

Briand was made minister of public instruction. He never put through even tthe most unimporttant reform On the contrary, he summarily dis-missed a number of teachers who advocated syndicalism, his old-time fellow-believer, whom he found guilty of lese majeste ministry. Their crime consisted in reminding Clemenceau of

Clemenceau then recommended cult? Briand to the president of the Republic as his successor. Perhaps he did anyth with the noble idea of putting the erstwhile revolutionary Socialist publish upon the edge of the same abyas which had swallowed up the last bit of his own democratic honor and respected past.

The bourgeois papers of all shades Left, hailed the new ministry with The Radical party. great jubilation. which represents the class interests of the small bourgeoisie, never even the representatives of the Radical parliamentary majority from the gov-ernment. A single leader, Louis Laferre, the well-known Free Mason felt the necessity of making himself because everybody knew that he was one of the men over whose heads Briand had jumped.

Briand well knew how to size up the lack of character and dignity of the bourgeois Radicals. He knew that they would give way to him, because he, according to an old custom of the time of the empire which has been perpetuated in the good bourgeois republic, could practically decide the question of their re-election at the elections due this coming May. Briand, supports himself upon the egotism of the average man. He is the dictator of the bourgeols mediocrity which shrinks away from every battle like Mephistopheles from the cross. He is the great statesman of the pleasure seeking crowd, the king of the mot

of job hunters, the idol of the political demi monde program Briand exposed his beautiful that he should not be judged by his Socialist past, but by his governmental acts. "I have adjudged myself to my office." he proclaimed to the chamber assured the bourgeols world that he protector and defender of the bourgeois "order" to the best of his ability. He promised no reforms. On the contriguing against Clemenceau in the trary, he gave the Radicals who were worrying about being re-elected to un-derstand that he would acced to their a parliamentary victory in a long se- proportional representation, although this demand is incorporated in ever tem of so-called majority elections minority of the people jority in the chamber.
