# AFFECTING SCENES IN KIEF EXPULSION

#### The Poor Are the First to Be Driven Milwankee Social-Bemocrats' Victory Out, of Course-Misery and Confusion.

ST. PETERSBURG, May 26 .- The has begun. The total departures from that city up to last night were 300 proscribed families, belonging exclusively to the poorest classes.

The expulsion is attended with harrowing sights. It is compulsory and in fulfillment of the order of Russian government that all Jews who cannot establish a legal claim to residence outside the pale return forthwith to the confines defined in the original Jewish segregation law. The pale was formed by the Polish provinces and the Ukraine.

The scenes in the streets of Kief yesterday were affecting. The evicted ones were veritable paupers lacking all means of sustenance. moment the Jewish families possessing some means were undisturbed.

Throughout the day a straggling train rying the miserable bousehold effects of the banished. All was confusion. bing women clinging to their little one were alike escorted outside the town limits and told to reurn to the places o ftheir birth.

A different procedure is adopted toward the Jews who have some wealth. They, however, are put to great expense, being to secure new permits for a visit to Kief on the ground of urgent personal business. These permits are issued for limited terms, and so require frequent renewal at the mercy of the police officials.

The authorities explain that part of the number being expelled are recent arrivals in Kief, and that the expulsion is an annual occurrence follow ing the customary spring influx of Jews from surrounding localities, who are trying to gain a foothold in Kief. The authorities add that heretofore

many of the incoming Jews have suc ceeded in gaining a residence thro connivance with minor police officials but that this year strict orders have been given that each case be thorough ly investigated.

### Comes in for Some Criticism and Is Also Defended.

The Collective Society held its fifth exodus of Jewish families from Kief annual meeting and dinner, for the restuarant, 16 Park place. After a fine spread at a dollar s

plate. Prof. Charles P. Fagnani, of the Union Theological Seminary, who presided, made an interesting talk the Milwaukee election. He said the tendency generally was along the same lines all over the country, even on the part of others not Socialists He said he thought the capitalists would give society something which they claim is not Socialism, but nevertheless is. He said these capitalists in many instances, really do not feel like giving the Socialists the glory of bringing in the new order of things Prof. Fagnani's speech was richly humorous at times.

Frank Bohn was then called upon as the first speaker. Bohn, while he pointed out that there was educational value in the Milwaukee victory sald it was not Socialism. He declared it was won by compromise he went back into the history of social movements to prove his point. He emphasized the importance of an out and out revolutionary program in behalf of the workers J. G. Phelps Stokes then followed.

He was more critical of the Milwau-kee "so-called victory," as he termed, than Bohn. To prove his conten tion, he quoted Berger and other Democratic Herald, etc. In teaching Wisconsin held that the capitalists "In taking the risks should have a fair profit." he held that they were teaching principles opposed to Social ist dectrine. He said the Milwauke victory, and the methods employed

# CHURCHMEN JOLTED HIT WITH JULIANA BY NEW PROBLEM

Find Out What Social-

ism is.

(Special to The Call.)

BOSTON, May 26 .- What appeared to be merely a series of harmless resolutions later developed into material for a hot debate on Socialism in the convention of the Unitarian ministers being held here. A leader of the discussion was John Haynes Holmes, of New York, and the conservative element found him to be an and the conservative element found him to be an account. out-and-out Socialist. #### The Real Fun.

But the real fun of the Unitarian nvention was brought out by the Catholic Order of Foresters, which also holding a convention in Boston. Archbishop O'Connell though born of Irish immigrant parents and knowing what poverty is fights vigorously against all attempts on the part of the working class to tetter its condition. In an address before the Foresters he spoke in part

"Fortunately for manking, there a humorous side to even the solemn things of life. The reunion in Boston of a number of good men to discuss the religious problems of the age is undoubtedly a solemn and a serious spectacle. But I hope will not be misunderstoot by these sportles of free thought, if I say that perhaps quite unconsciously it had er element or humor in its proceed. nge."

careful. We are not and never will be Socialists. But that is not because materially we should not be the gainers, and incidentally who would be the losers?

It is for the other reason, which we suppose, being idolatrous and the rest of the string of time-worn adjectives), are beneath the lofty consideration of these supremely englightened men of transcendent intelligence.

We hope, we repeat, however, that it is wise for our Unitarian friends that our people believe in these moral principles, and we are restrained by them. # ALBANY CAR MEN TO STRIKE TODAY

United Traction Company Breaks Agreement and Union Orders Oar-Day Revolt.

> By P. C. PHOENIX. (Special to The Call.)

ALBANY, May 26 -A strike of th street car men has been ordered for tomorrow by the local division of the Street and Electric Railway Employes. The strike order is the result of a disagreement between the officials of the United Traction Company and the officers of the union.

There has been an understanding between the company and the union that cars from Rensselaer should proced no further than Clinton avenue in this city, and Albany cars were to run no further than Clinton ave-

On Friday the Barnum and Bailey circus will be in this city, and as the circus' grounds are out beyond Clinton avenue the company decided torun cars straight through to the grounds without change.

There is an understanding between the Albany men and the Rensselaer men that there shall be no encroachment of either group into the territory of the other.

In view of the company's order that the men should run their cars straight through without change, the union decided to take the last resort and strike. No cars will be run Friday, the men say,
A serious time is expected if the

company refuses to let the men re turn to work Saturday.

# The New York Call Conference

While every individual effort directed to the support of The New York Call is welcome, there is no better and more effective manner of doing it than through an organized body.

The N:w York Call Conference is the organization where all those desiring to see the English organ of the workers in the East/placed on a solid foundation ought to be represented. It is a delegated body composed of two delegates from progressive labor organizations, branches of the Socialist party and other fraternal and social organizations in sympathy with the principles advocated by The New York Call.

The object of The New York Call Conference is to "promote the interests of The New York Call" and its duties "to devise, suggest and provide ways and means of sustaining and supporting The New York Call and to aid in promoting its circulation."

Every reader of this paper belonging to an organization as above stated should see to that it is represented in the Conference, and if represented that the delegates attend the meetings of the Conference and render proper report of the work undertaken. Through united effort only will we succeed in having in The New York Call a strong and effective weapon rendering great services to the workers struggling for their emancipation.

The New York Call Conference meets every second and fourth Wednesdays of the month at the Labor Temple, 243-247 East 84th street. All those desiring further information should communicate with Rosa Laddon, 561 West 180th street, who is the secretary of the Conference.

#### OUR ANNIVERSARY ISSUE.

Today The Call ends the second year of its existence: tomorrow It begins the third. Whatever there has been of hardship or trial as more than compensated by the fact that from the first issue to the present one The Call has been conducting a live fight.

So tomorrow it is going to get out a special number, one of which those who have been intrusted with the great and responsible work of conducting The Call feel proud; and one which the readers of The Call will find of the utmost value in their work for Socialism. The aim has been to make it thoroughly representative of the ideas and ideals of the Socialist party, and in doing so to fight vigorously and manfully against the wrongs which at present make human

In order to gain that end as many representative Socialist writers as possible will contribute articles for tomorrow's issue. Every one of them throbs with the spirit of revolution, and is filled with the impulse to form a greater and better civilization. seldom that such a splendid propaganda issue comes forth in English, and Socialists everywhere should seize it and spread it broadeast in order that they may make known to all men the things for which the Socialist party works.

In variety this issue has never been equaled, nor has it ever been equaled in the vigor with which Socialist principles are set

Therefore spread tomorrow's Call. It will be a mighty means of bringing our message to the workers of this country, and the only limits its good work will know are those which restrict its circulation.

#### REBELS ALL.

Probably President Taft does not much regard the insurgent ovement in Congress. But outside of Congress there is a real insurgent movement that means much. It is the one that actuates the movement that forces the insurgents within Congress to fight against the conditions that have prevailed so long. However it comes out, one thing is certain: It will never again be possible to return to the old and simple days when all a trust had to do was to apply to Congress for what it walled. Socialist idea is sinking in. Later it will bear fruit other than mere

But in the meantime President Taft is threatened with insurcy in his church, the Unitarian Church that has done so much for liberality of thought and of culture in this country. In the present convention being held in Boston, in spite of all evasions, twists and turns, there is evidence of a well-defined Socialist spirit in the church. President Taft, profoundly and stupendously ignorant of what Socialism means, has pronounced himself against it. His church, guided by men who must and who finally do labor among the people of this country, has made an advance toward Socialism such as has not before this been recorded in any denominational

Splendid! We shall yet see Mr. Thomas Slicer. Mr. John Haynes Holmes, Mr. Robert Collier and Mr. Wright lined up for the Socialist movement, even if Mr. Taft, highest Unitarian officeholder, is against it.

### INFANT DAMNATION AND LABOR.

Advance must be recorded all along the line. The Southern Presbyterian Church in its general assembly, held at Lewisburg. W. Va, has decided that the "infant elect" clause, which has held for two and a half centuries, is not good doctrine. This means that they no longer believe in infant damnation.

Beyond that there is another great step for the Presbyterian Church to take. It must put itself against infant labor on this earth as well as infant damnation in the next world. At present children who should be toddling about, or should be playing with toys, are put to work. That happens not only in New York city, but in the great South, where the Presbyterian Church has many followers. The little sweatshop infants here, wearily painfully pulling out bastings, have their counterpart in the stunted, driven

a theoretical one. The matter of infant damnation in industry is an actual fact. The general assembly has pronounced against the theory. Now they have a chance to be men and pronounce against the the fact.

It will render their labors and their oratory worth while.

### ROOSEVELT AS AN AUTHORITY ON HIMSELF

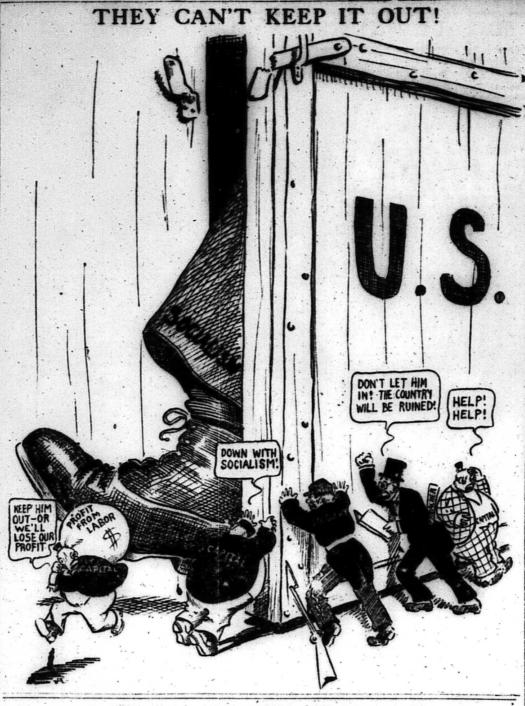

The World is in doubt as to whether Mr. Roosevelt, when President, said: "Cannon has been the greatest obstacle in the way of my efforts to obtain good legislation for the country throughout the seven years of my Administration" (as reported in the Times). or whether he meant what he said when he wrote to James E. Watson, Member of Congress from Indiana: "With Mr. Cannon as Speaker, the House has accomplished a literally phenomenal amount of good work."

There is nothing incompatible with Rooseveltian ethics in his having said the first and written the second. He has and always has had the remarkable faculty of being on both sides of a question. hile it was under consideration. When it was decided he could flop to the winning side and point with pride to one opinion and scornfully contradict the other. He could do it in unmeasured terms and unlimited words, and the man who stood against him was to be pitied.

All this is only a little Rooseveltian characteristic. He is many-sided. Yet, in spite of all, there is no one who has yet had the audacity to stand up and assert that he fights fair.

If there is not a label on your bread it is not union bread, and ts therefore dangerous. Remember that. Buy only union bread. One firm in its desperations advertising for "bakers, not busters." The only things the union bakers, the real bakers, seek to bust are the inhuman hours and the unsanitary conditions the scab bakeries seck to force on them. Don't buy bread without the label. It costs nothing to ask for it. There is no trouble in getting it. If you do get it, you help the bakers win.

The sum represents a total of six hundred and sixteen million dollars. That is what the steel trust gets and the bribe they give in pensions its eight miserable, scrawn, million dollars. There are about two hundred them, sand employes of the United States Well, if each and every one of those what it is craebed up to be in the matter of a steady, well-paying job, young sumployers were to contribute a sum what it is cracked up to be in the matter of a steady, well-paying job, young first with only the prospect of passible their boxes that would equal the profits of the steel trust.

And if the bosses were to give back that Socialist pension fund.

And this simply means that after the steel trust has given its eight million dollars to the workers it has six hundred and eight millions left in its pocket to promote its kind of Socialist.

Now consider what this six hundred and and sixteen.

Why do so few Socialists commit suits of the matter of a steady, well-paying job, young girls with only the prospect of passing the profits of the steel trust.

It is nod think, think about it.

Why do so few Socialists commit suicide?

There may be an exception when a Socialist's mind, driven by despair or other trouble to insanity, may have become tablatanced. But even such a case has never cenie to my notice.

Before the writer of this message became a Socialist, many years ago, he was as confirmed a pessimist as the ever met before or since. But when he thoroughly understood the message of Socialism he became just and only hope.

Then examine our government sta-tistics. They will tell you that the number of suicides in presperous, happy, contented Uncle Sam's land rams into the thousands every year. I don't remember the exact number; but you look it up.

Now, let me ask you, did you often hear of Socialists committing suicide: There must be a reason for this fact.

Spell this word reason with a capital R and think think about it.

and later the state as the foundation of the scheme of government, Later also the city had reason to contest with the state for a share in the gov-ernment of the community. The national government has grown to its present colossal constitutional pro-portions because of the evolution of a national market and industrial or-ganization. The city has grown to play so prominent a part in the body politic because industries for a century have been marching steadily from the country to the city. The first country industry to come to town was the manufacture of cloth. Next came that of nails and other hardware. Finally furniture came to be made by machines and also sought the society of its machine-made companions. Lastly food, though drawn as raw material from the country, is being prepared for consumption by the machine process in the city, large amounts being returned in a manufactured state to the farms from which it came. ### FROM THE DIARY OF A STRIKING WAIST MAKE

I left the house very early this morning-this was the day of our reat protest meeting, and there was so much to do. Us girls were determined to make it a howling success; we want the whole city to hark to the cry of protests against the outrageous treatment we were receiving.

I undertook to make the round of all the meeting halls in order to remind the sirls that they must be on

mind the girls that they must be on hand long before the hour of the meeting. In every meeting room I encountered the same sight—girls a: wided into small groups talking earn-estly about their sad plight and help-lessness. They were all deeply inter-ested in the subject, but not all of them agreed with the decision to hold out as long as it may appear neces-zary. Having done their duty for over six weeks, the girls were now getting tired, and I hardly think that I could blame the many who demanded that we go back without further dickgring

we go back without further dickgring about the union.

As a listened to the girls I thought that it was, rather fortunate for our cause that so many of us felt the grip of a policeman's rough hand. In most cases this was the finest eye-opener. Us girls couldn't help understanding the injustice of it all. We were only of a pole-man's rough hand. In most cases this was the finest eye-opener. Us girls couldn't help understanding the injustice of it all. We were only too glad to get up on that Carnegic stage and by the inscription of our sashes show the people how many of us suffered for refusing to work for starvation wages.

It is easy to say—six hundred of us girls erowding on that platform. A bunch of innocent girls were arrested and placed on trial at one time or an-
