BOSTON DEFENSE LEAGUE FORMED

Rebbery Was Confiscation by Revolutionists Who Controlled Government of Province at Tim.

BOSTON, Mass., Aug. 18 .-- It began to look yesterday as if the attempt of the Russian government, through its representatives in the United States, to railroad through the extradition of Julius Vezosal, the Lettish Socialist editor, on the trumpedup charge that he was participating n the robbing of the subtreasury in

Tifis Caucasus will fail.

Simon O. Pollock, representing the
Political Refugees Derense League of New York, arrived in Boston and took charge of the case. At the close of the day he had su-seeded in establishing the following facts;

First-The so-called robbery of the subtreasury in Tiflis was not a robbery at all. It was revolutionary confiscation ordered by the revolutionary party which was in control of the government in that province at

Second-Proof that the act was revolutionary act and not ordinary robbery was established by the fact o have some of the participants in the confiscation who are now in exile in various European countries extradited, but the governments of these countries refused to grant the demand of the czar on the ground that the acts with which the Russian government charged the men, whose dition it sought were revolutionar; acts, and hence the persons sought could not be extradited. Rally to Defense.

Third-Attorney Pollock learned definitely that Vegosal was never in Tiflis, and that at the time he is charged with being there he was in Zurich studying philosophy at the university of that city.

A Boston branch of the Political Refugees Defense League is being formed and Attorney Michelman was put in charge of the case locally. Attorney Pollock, whose office is at 320 Broadway, New York city, is especially anxious that a man named Stepinsky, a lawyer or law student, municate with him. Another man who might be of great, value in saving Vezosal is J. Brauer, who knew Vezosal in Zurich: Attorney Pollock sent out notice to all the Lettish papers in the United States to adve tise for these men, stating that they would be of great value in establishing the innocence of the Lettish revoelect a committee to go down to the Russian government has trumped up against him.

In company with Michelman, Pol-lock visited Vezosal in jail. After the visit Attorney Pollock said:

"This man's name is not Rullor is not an anarchist and never had any affiliations with them. He is a member of the Socialist labor party. "This money was lost to Russia

during the Tiflis rebellion and already the offense in different countries and extradition has been refused in every case because the governments decided that it was confiscation of proper one man was one in Stockholm.

one man was arrested in Paris and one in Stockholm.

"We can prove an allisi perfectly with regard to Vezosal's presence in Tifits. At the time of the affair he was studying philosophy at the university of Zurich, and we can and will it necessary bring over three or four professors in whose classes he was working to prove this.

"Vezosal left Russia in October, 1906. He left Cherbourg for New York by the American line and arrived some time in October, 1909. When he arrived at Ellis Island he was detained three days by the immigration authorities because he had only \$1\$ in his pocket. He could not have had these bonds with him at that time.

"At the trial we shall show how he honestly and decently came to have them at Tiffits. While we could prove an alibi easily, we want to go into the matter thoroughly in order that the public and the court may be perfectly satisfied."

ROME, Aug. 18.—Th, cause of the epidemic of cholera, which is new prevailing in several of the towns and villages of the province of Eari delle Puglie, on a peninaula in the Adriatic sea, has not been officially determined. By some its origin is attributed to a tribe of gypsies, who have been wandering through the district; by others, to a party of Russians from Gossa, who went to Bari to visit the relics of their parons saint. St. Nicholas, and afterwards tramped about the province sightseeing. They employed for washing their clothing the buckets used in drawing drinking water from the wells, and in this way may have contaminated the water supply in many districts.

Jersey City's Chief Explains Supplies Sold to Board of Education - Says He "Didn't Kncw."

The committee from the New Jersey state senate that for several weeks has investigating methods of handling nalities of the stare got to the interesting part of its investigation in Jersey City yesterday. Methods of laying contracts which bills are paid, came in for close scrutiny, and during the course examination Mayor H. Otto Wittpenn was subjected to a line of questions by sunsel for the committee.

Mayor Wittpern is a member of the firm of Houghtaling & Wittpenn, dealers in brick, of 44 East 23d street. This firm supplied bricks to be used in the con struction of Jersey City schools, and the mmittee wanted to know what Mayo Wittpean knew about it. He admitted frankly that his firm for many years previous to his becoming mayor had sup plied bricks to the board of education but he denied that with his knowledge any such supplies had been furnished

At the hearing on Wednesday it had been brought out by the testimony of Supervising Architect John T. Rowland that bricks supplied by Houghtaling & Wittpenn for the construction of Public School 32 had been rejected because Rowland considered them of inferior quality. Asked about these supplies, the mayor said they had been sold by his contractors, and that he did not know what they were to be used for. Had he known it, he professional thief arrested in a said, he would not have permitted the contract to be carried out. He said he was positive that as a member of the brick concern he had violated neither the letter nor the spirit of the law that YORK, Pa., Aug. 18.—Elsie Eagle forbids an official to sell anything to the public body with which he is directly or ndirectly concerned.

Thrifty Real Estate Operators Made Rich Clean-ups in Adirondack Deals.

LBANY, Aug. 18.—The investiga-into the affairs of the state for-seh and game commission and the chase of Adirondack lands by the

pusebase of Adirondack lands by the state, which Governor Hughes inaugurated last February, reached its first public stage today.

George N. Ostrander, an attorney of Albany and Glens Falls, was the first witness at today's session. He has been largely interested in Adirondack real estate for many years, and has been selling land to the state since the land purchasing board was ormanized in 1897.

Mrs. Getrader was questioned as to his dealings with Frank L. Bell, a former attorney for the International Paper. Company, who has been employed as one of the special counsel to the forest, fish and game commission since an action involving a land deal-in the Adirondacks in which Bell was one of the defendants, was settled by the payment to Bell of \$25,000. Bell has been subpoenaed by the investigators.

Also included in this 42,000 parcel originally were 3,872 acres, which Ostrander afterward sold to the state for \$\frac{1}{2}\$ an acre. Commissioner Austin brought out that Ostrander himself, in letters on file with the state land purchasing board, agreed this land was worth but \$4\$, \$5\$, \$6\$ and \$7\$ an acre. Ostrander insisted that Commissioner Austin must have copied the missioner Austin must have copied the figures wrong, and that the figures quoted were ridiculous. Another par-cel of land bought for \$4,667 was sold to the state for \$11,536.

BANKER GETS THIRTY DAYS FOR SPEEDING

ST. PAUL, Minn., Aug. 18.—Frank W. Waterman, president of the Ramses County State Bank, was sentenced today to the workhouse for thirty mays for automombile speeding.

Waterman, with four male companions, last night collided with a vehicle occupied by a man and woman, wrecking the latter vehicle, throwing the occupants to the street and falled to stop.

Waterman was balled and appeared in court today without an attorney and was almost breathless when sentence was pronounced. He was taken from the police court in the "black maria" along with several "drunks. At the workhouse he was required to take the regulation bath, change his with the dining room.

The bankser was put to work this afternoon in the broom factory. It is declared no special consideration will be accorded him.

BEVERLY, Mass., Aug. 18 .- Retion, it is generally believed here of Ohio, today, gave out a statement support Joseph G. Cannon again for that Cannon can be re-elected. This fight on Speaker Cannon.

It had been regarded as significan It had been regarded as significant for several days that Longworth had been called into all of the recent conferences of a political character held by President Taft. Longworth was present yesterday afternoon when the President and Vice President talked together. It was reported then that a statement adverse to Cannon was being prepared in quarters close to the administration; and it was also intimated that Sherman, who, like Longworth, has always been a supporter of Cannon, has become reconciled to the fact that Cannon must

that a close understanding between Beverly and Oyster Bay as to recent events in New York is to be had.

Part of Longworth's statement is as follows:

"I shall oppose Cannon's election as speaker, and I shall do so in the manner that I consider proper and effective on the settlement of controversies in my party, namely, in the Republican caucus. I made up my mind before the adjournment of the last session of Congress that Cannon could not be re-elected speaker, and my opinion has been strengthened since through correspondence and talks with my colleagues. I am not referring to those who have openly opposed him in the past, but to those who, like myself, have supported him."

ROOSEVILT MUST NOW COME INTO OPEN

It appears that President Taft and Theodore Roosevelt are about to sever their political friendship. The "breach," it is announced, is daily growing wider. The arrogant interview which Vice President Sherman, whose connection with the Indian land scandal has not been probed, gave out Wednesday, did not help matters any. How much of this so-called breach between the leaders is a frame-up arranged for the purpose of joshing the voters, of course, is not known. Sooner or later Roosevelt must come out into the open, head the revolt of the little capitalists against the big capitalists, and "save the country from Socialism" again. It appears that President Taft and

Although leaning strongly to the Although leaning strongly to the side of the insurgents. Roosevelt up to the present time has not made one public utterance to show that he thought either good or iil of the Taft administration. But since the colonel's name was voted down by the New York state Republican committee the other day and Vice President Sherman was indorsed for temporary chairman of the state convention, there has been a difference in the political atmosphere at Oyster Bay.

chairman of the state convention, there has been a difference in the political atmosphere at Oyster Bay. There are veiled hints of a plot to defeat Roosevelt; rumors of a combination between administration leaders and the Wadsworth-Woodruff-Barnes faction; stories that the New York Old Guard Republicans are willing to pledge their support to President Taft in 1912 in exchange for assistance in the coming battle for control of the New York state convention. It is suggested that there is significance in the fact that Timothy L. Woodruff saw President Taft before the recent state committee meeting and that Vice President Sherman left Utica so promptly for Baverly after being notified of his indorsement over Roosevelt as temporary chairman of the state convention.

thought that they ought to have a strong national committee of their own leaders and their white friends to guide them in solidarity. Indeed, he thought that the great liberators after the civil war had shown a lack of wisdom in not organizing such a committee. So a year and a haif ago he had started one, he said.

Scott Bond, of Arkansas, a direct and aggressive delegate, said that he had settled in Arkansas in 1879, married and now owned nineteen farms, and was worth more than \$50,000. He said that city people didn't know anything about living, and urged the negro to go to the country and work a farm. Bond said that the reason the negro was such a sufferer from tuberculosis was that he had imitated the white folks' fashions. "You never heard of a negro having tuberculosis before emancipation," he said, "when they were a jean shirt and a pair of overalle and the rooms, callos drasses."

Washington Sees Roosevelt-Taft Fight in 1912, or Sooner, and Recalls Harrison-Blaine Affair.

gloomier aspect from the Washington foresee a split in their party but believe that Roosevelt will be a candidate for the Republican nomination in 1912. Whatever the outcome of the fight in New York may be. Republicans here expect that the rent in their party will become nation wide and that even if Roosevelt's friends fail to prevail in the state convention over the organization, his friends in the West and Middle West will take up the fight for him and a situation may be created similar to that in 1892 when the Democrats throughout the country forced the nomination of Grover Cleveland down the throats of the Democratic organization in New York, which had declared for Hill and which protested to the very last against Cleveland. but believe that Roosevelt will be a

Such a situation would impair the chances of Republican success in 1912. There are a large number of Republicans who believe that Presi-dent Taft could be renominated even dent Taft could be renominated even if Roosevelt is a candidate, just as President Harrison was renominated in 1892 over the very formidable opposition which was conjuring with the name of Blaine. But the Republicang who take this point of view feel that the very thing that happened to President Harrison in the national election that followed would happen to President Taft. The disgruntlement, following the disappointment of Colonel Roosevelt's enthusiastic followers would probably lead to the defeat of the Republican national ticket.

Among the developments that have accentuated the gloom of the Republicans is the result in California which was a surprise to the insurgents themselves. While the insurgents expected to carry two or three congressional districts, they had very little hope of nominating their candidate for governor. They told Chairman Lloyd, of the Democratic congressional committee when he was increasional committee.

The defeat of Representative Dun-can E. McKiniey is a blow to the ad-ministration as well as to the Repub-lican organization in the house, and to the Republican Congressional com-mittee. Representative McKiniey to the Republican Congressional committee. Representative McKinley was a close personal friend of President Taft, and had been entrusted by the President with a number of delicate political missions that required diplomacy and skill. Last winter, McKinley, at the request of the President, and acting as the representative of the Republican Congressional committee, made a trip into Wisconsin, Iowa, and as far West as the Pacific coast, returning by way of the South, He made a number of political addresses and on his return reported on conditions.

It was he who really sounded the first alarm concerning the growth of insurgent sentiment in the West and Middle West. The insurgents take more than the usual comfort out of the defeat of McKinley. At one time he showed symptoms of becoming an insurgent himself, but relaxed, and in time evolved into a very useful wheel in the machinery of Speaker Cannon.

in time evolved into a very useful wheel in the machinery of Speaker Cannon.

There is a growing demand here among Republican politicians that certain prominent political Jonahs be cast overboard. Most of the Republicans ascribe their troubles in Kansas and California and in other parts of the West to the close relations between President Taft and Speaker Cannon and to the retention of Secretary Ballinger in the Cabinet. The cry for a "reorganization" such as was suggested in dispatches from Beverly a few days ago is being taken up here by Republicans who are claused ordinarly as "regulars."

Meeting With Two Mishaps, Aviator Was Forced to Stop Twenty-Iwo Miles From Gool.

LONDON, Aug. 18.—John B. Mois-sant, the Spanish-American aviator, met with two mishaps today in at-tempting the last stage of his Paris to London-aeroplane flight, the last of which badly damaged his Bleriot monoplane and will necessitate his remaining at Upchurch until tomor-row before completing his trip.

remaining at Upchurch until tomorrow before completing his trip.

At Upchurch, which is twenty-two miles from London, one of the stays of Moissant's machine broke, fouling the engine. This injury was slight, and could easily have been repaired, but in alighting the propeller and part of the chassis were also broken, and the machine narrowly escaped crashing into a tree as it was brought down from a height of 400 feet.

Moissant landed in an unused brick pit. The daring aviator immediately wired to Paris for a new propeller and other needed parts, but it will be impossible for these to arrive before tomorrow. Moissant and his mechanician, Albert Fileux, whom he was carrying with him, were badly

Workers on Aqueduct.

OSSINING, N. Y., Aug. 18.—An inquest was held last night on the feeths of Elijah Thompson and Elisey Cannon, who were killed on July 20 by an explosion of dynamite at the new aqueduct, at Klichawan. The coroner could find nothing to throw light on the cause of the accident, but one theory is that lightning exploded the dynamite. The dead men, and two other men, both of whom were injured, were at work in a tunnel, when ten pounds of dynamite suddenly went off. A severe thundersterm was raging at the time. FRIDAY, AUGUST 19.

THE BEGINNING OF THE END.

Since his return from his triumphal journey through Europe, odore Roosevelf has had the lesson administered to him that an ex-President is not the President of the United States.

The majority of his own party's representatives in the legislature of his own state contemptuously rejected his advice in regard to the direct primary bill, and voted in obedience to the bosses of

And now the state committee of his own party in his own state votes down a proposition to recommend him for the temporary chairmanship of the Republican state convention, and names Vice dent Sherman instead.

Woodruff and Barnes and all the other Republican bosses and bosslets of the state machine are represented in the newspapers as laughing with glee over the defeat they administered to Roosevelt.

They have good reason for rejoicing, for by defeating Roosevelt they have demonstrated the superiority in American capitalist ics of the political machine over any and every individual poli-

fician, however great his prestige, his reputed power and influence.

And the Republican bosses of this state stood in need of such monstration. There is a widespread revolt within the Repub an party. The revolters have triumphed in several states. And if the revolters were not crushed from the very start in this state, the entire Republican machine would have been in a perilous condition.

These defeats of Roosevelt show how greatly inflated his prestige been, how grossly exaggerated his influence and his power have been. Also the fear of him, not only in capitalist circles, but even among Socialists.

So long as he was President of the United States and in control of a vast patronage, his word was law to the politicians, though by no means to the magnates of capital. Harriman could defy him with impunity, but every officeholder, every political boss, every representative and cenator had to be on good terms with the man who held their offices, their patronage, and their political lives in the hollow of his hand.

But now that he is merely an ex-President, there is not a boss-let that does not dare to defy him. His glory has departed. His influence and his power are proven to have been purely factitious and transitory. They were his, not by virtue of superior ability, but by virtue of the office into which he was, involuntarily and accidentally, kicked by Platt. The supposed political giant is found to stand on feet of clay. Even the obese Taft could become such

In a sense, the inglorious end was inevitable. Throughout his entire political career Roosevelt never broke with the machine poliicians and the bosses. As governor of this state he used to confrom Albany to this city. As President of the United States he was ever on the best of terms with Quay and Platt and Aldrich and Cannon and all the other powerful corruptionists and servants the plutocracy. Whenever necessary he was not ashamed to begging himself for huge sums of money wherewith to corrupt electorate. Not once did he manifest a bold and independent spirit. His cringing attitude before the powerful was only equaled by his arrogance and severity toward the weak. Devoid of original ideas, devoid of the capacity to comprehend great ideas, devoid of moral integrity and independence of spirit, he naturally shrank from a decisive encounter with the forces of loot and corruption. Good luck and compromise of every principle were the main factors in the man's unprecedentedly rapid rise to greatness. But good luck does not last forever, and playing fast and loose with friend and foe does not give a man a permanent hold upon the affections of his countrymen. The defeats administered to Roosevelt by the Republican legislature and the Republican state committee have left the people cold and unaffected. The zenith of Roosevelt's career has been passed. His defeats within his own party in his own state mark the beginning of his end.

"GET RICH."

"Enrichez vous!" was the cry of Guizot, the Prime Minister of France under Louis Philippe, to the bourgeois of his day. Make money, get rich, and give up thinking of revolutions and revolution-The old order has been overthrown. Your bourgeois form of property is firmly and irrevocably established. You have a Liberal Constitution, which gives you the preponderance of power in the state. Your revolutionary task has been accomplished. Now

and victous. If he was the leader of a people living in a disease-breeding swamp, he would thunder against the malaria and the pestilential diseases, but he would oppose draining the swamp to put an end to the disease. Reasoning from his past attitude we are safe in saying he would go farther. He would condemn and seek to punish those who sought to drain the swamp. He would invoke against them both The words of the French bourgeois statesman and historian inevitably recur to the mind on reading Booker T. Washington's address to the National Negro Business Men's League, now in session in this city.

"To him that hath shall be given." These words were the dained refrain of his speech, its constantly recurring leading motive. "To him that hath shall be given;" therefore, get rich, so you may be-

him that hath shall be given;" therefore, get rich, so you may become richer. The negroes of Georgia have acquired 1,536,766 acres of land; therefore, get rich. The negroes of Virginia have acquired 1,517,500 acres of land; therefore, get rich. The negroes of this country now own property valued at \$600,000,000; therefore, get rich. The wealth of the negroes is increasing every year by from \$12,000,000 to \$15,000,000 a year; therefore, get richer.

One must read Booker T. Washington's speeches to the members of his race in order to appraise at its true value his great reputation among the whites—the rich whites, of course—not only of the North, but also of the South. This black man, they feel, is flesh of their flesh and bone of their bone. He is as "practical" as they are. His spirit is as mean and groveling as their own. He finds that wealth is the dominant thing in this age, and he advises the members of his race to posses themselves of it. Every ideal aspiration is as foreign to his soul as it is to all the white money-grubbers themselves. He is the very antipodes of that other noble negro leader, W. E. Burghardt Dubois.

The Frenchman called upon the bourgeois of his day to get rich, for the reason that their main political task—the overthrow of

The Frenchman called upon the bourgeois of his day to get rich, for the reason that their main political task—the overthrow of absolutism and feudalism—had been accomplished. He advised them to utilize their political achievements for their economic gain.

The negro leader calls upon the members of his race to get rich, although they have made no revolution and have lost their political rights. Presumably he thinks that with the acquisition of wealth their political rights will be restored to them.

He is sadly mistaken. The bulk of the negroes, like the bulk of the whites, are bound to remain poor workers and drudges. And their political and economic salvation will have to be sought in an antirely different direction.

For the coming elections the German capitalist press predicts outcome of no less than 120 Socialist representatives to the chetag. But the Socialist press has given warning to the workers to permit themselves to be fulled into a sense of security. It is nited out that 120 is a most improbable number of seats to be won the Socialists; that the latter must not indulge in extravagant actations if they wish to avoid unpleasant disappointments; that the Reichstag, which, perhaps, can be won only with the aid of diagruntled bourgeois radicals; and that, in any case, the victory ald not be pocketed before it has been earned. And we may be that the German workers will sarn their victory, be it great

They must endeavor to voice the demands of the working class, even at the risk of abuse, even if they should, therefore, be read out of the pale of respecta-bility as understood in conventional capitalist circles. They must study the rules of the house, and play ob-structionists, if any tendency at shut-ting them up is manifested. They

ting them up is manifested. They must secure a hearing at any cost. If the capitalist press meets their attack with the conspiracy of silence. the Socialist press, weak as it is as yet, and the public platform, will seyet, and the public platform, will secure an audience for them. And there is the Congressional Record, too, that can be used to considerable purpose.

A Socialist representative will get a hearing by the masses, where a mere Socialist agitator will scarcely be noticed. Such is the experience of our movement in other lands.

The opportunities for vigorous atfects are practically without limit.

fack are practically without limit.

There is, first of all, the question of labor legislation. It has already atthat it may be termed an issue, one of the great problems of the day. Workmen's accidents, old age pen-

sions, safe guarding of mines, mills, building construction and workshops have become pressing problems of our working class. How to secure such remedial measures and how to en-force them when enacted—is there not an immense field to be plowed? At present the demands of the workers are not denied outright, but italism are steadily shaken out of sidetracked with devilish cunning. The fetlah of our time-honored constitution is invoked against them. We are told that all these matters are renomads of civilization. Upon them are advised to wage fifty campair in fifty different commonwealths. As if economic forces had not long curse. It intensifies it.

not understand, and he probably never will understand, that the economic foundation of Rome had been out-

grown, and that new conditions were necessary. The old order gave away to a new one, and while the new was born in blood and sustained by

vijolence, it had the seed of progress in it. The old order had not, and there is no reason to weep for its passing. The great disparity that existed between passessors and non-possessors was but an indication of basic de-

"Still the cardinal believes Rome would not have fallen had the gospel of Christ not come too late. If that is so, then the gospel of Christ is vicious and dangerous, for it would have helped sustain ohe of the most appallingly avrocious systems that ever existed. How could it have maintained "the greatness that was Rome?" In one way only, by forcing the preducers to rest content with their let, by holding them subject to their masters, by making them "content with the evile of this world that they misted enjoy the richness and everiasting biles of the next."

It is such a sospel the cardinal preaches today, only he is meany about its acceptance. He finds the working class not content, and while he is willing the capitallat class should appropriate wealth it does not preduce, he does not wish it displayed so estentatiously. He would probably be much better satisfied if the rich gave more of their stealings to the Church. Then the preachers in the Church could labor uneffectively in keeping the poor meek and submissive.

Bo far the cardinal's fear is really

This fact must be impressed upon the nation, and particularly upon the working class. To be of any real ben-efit to the workers labor legislation of the kind mentioned above must be on a national scale. And the power to enforce it will grow in the same ratio in which the working class is ratio in which the working class is roused to its own needs and its own mission. Begging and wheedling will gain nothing, show of power—every-thing.

Right here may be set forth the next, if not he most, important task of our spokesmen. They must merci-lessly and relentlessly expose and fight the usurpation of our judiciary in nullifying under flimsy pretexts laws enacted by the lawmakers. They must likevise attack the growing evil of labor injunctions, the wicked scheme of abolishing trial by jury in labor troubles, and establishing in-stead, the tyranny of an irresponsible

The recent prizefight at Reno, Nex, justly arouses the indignation and protest of the whole country, and efforts are being made to prevent pictures of the brutal encounter from being exhibited. But there is another fight in progress that is in many respects worse than that at Reno, that, strangely, arouses very little protest and indignation. It is in fact accepted by most people as the regu-lar and proper thing, and those who would abolish it are thought to be dis-

an opponent when he is down, he do necessary cruelty. The prizefight is of brief duration, with frequent rests. Sym-pathetic seconds give constant attention, frequent rubdowns, refreshment, comfort and advice. Except by accident neither is seriously injured. Even the loser wins. Jeffries, it is said, gets over \$100,000 from this one fight. Furthermore, the contest took place in a distant part of the country, witnessed by comparatively few

financial giants. And not only the untrained, but the weak, the women, the
children, the crippled, the aged, are
forced to enter the unequal contest with
the gladiators of finance. No care whatever is taken that the contestants shall
be evenly matched. The weaker the combatants, the harder the conditions. There
are no referees to see that the fight is
fair. The blows beneath the belt and
kicks and strikes when an opponent is

LETTERS TO THE EDITOR

Editor of The Call:

Kindly allow me space to say a word about Comrade Rev. G. W. Woodbey's latest book, "The Distribu-tion of Wealth." In the preface the author says: "This book is written to

and teachings.

There is another matter that makes the mournful fears of the cardinal still worse. Of late, his Church has organized a campaign of slander and vilification against the very people who alone are working effectively for the abolition of, present iniquities. He has not uttered a word against the anti-Sceialist campaign. Probably he favors it, and helps it alone. So he of all men has little right to "view with alarm." He is responsible for helping uphold the conditions that cause the existing horrible state of affairs. Any change he would introduce would be worse even than the disease.

In the past the Church, of which he is such a worthy member, has a record only of reaction. In our days it is preparing for further reaction. But on this occasion reaction will not prevail.

AGITATION AMONG ARMY MEN. Editor of The Call:

Re agitation among the members of the United States Army, I think it magnificent propaganda. I think the Naty is even a better field. I remember seeing a few years ago five sailors on the U. S. S. Texas, reading Socialist pamphiets on the main deix, when the yessel was tied up at the Cob Dock in the Brooklyn Navy Yard.

TWO PRIZEFIGHTS.

The contestants contestants at Reno were only The contestants at Reno were only two in number. They were neither of them compelled to enter the areas. They were trained to the business. The fighters were as equally matched as possible. Featherweights or middleweights are never pitted against heavyweights. One or more referees are at hand to see that the fighting is fair, that the rules are observed. There must be no blows beneath the belt, nor striking or kicking an opponent when he is down, no unnecessary cruelty. The prizefight is of brief duration, with frequent rests. Sym-

Moreover, prizefights are rare.

On the contrary in the struggle for existence all the people, except the few rich, are compelled to enter the arena

that the prizefight cultivates some monestiments like valor and courage. The struggle for existence "sets a constant premium on the meanest, falsest and most cruel propensities of human nature." They who lift up hands in holy horror at the brutality of the prizefight but tranquilly ignore the battle against poverty, which costs more lives and suffering in a day than the prizefights of a generation are certainly straining at a gnate of the suffering that the prizefights of a generation are certainly straining at a gnate of the suffering that the prizefights of a generation are certainly straining at a gnate of the suffering that the

author says: "This book is written to show those who are anxious to know how it is possible to distribute the wealth produced by collective labor, after Socialism has overthrown the capitalist method of distribution. All I ask of the reader is a fair, honest consideration of what I have written."
This book is a series of letters written to a friend explaining the distribution of wealth under Socialism, and before one is through the fifth letter he wishes the book was larger that he might enjoy more of it.
