"She does not know that she should not ⁴⁵Sho' does not know that she should not steal. But you and I ought to thank. Heaven's that as strong as we blink our principles to be, they liave not been tried by temptations such as hers. We do not know what it is to be hung yr and, cold, and see our little ones shivering around us, erying for bread, while our neighbers have enough and to spare." Vory well," said Mrs. Emery, rather indig-

⁴⁴ Vory well,⁹ said Mrs. Emery, rather indig-nandly, ⁴⁴ we shall see how you like to have your 'clotheshine and your frait trees robbed very now and then.⁹ ⁴⁵ That will be very umplexpant, if it occurs,¹⁹ was the quiet reply. ⁴⁴ But I believe that a-cifet is guilty for a great deal of the mischief it suffers from such persons. They are educa-ted in poverty and vice. ¹⁰ No suffes of loss fail on their, cheerless childhood—no kind veice warns them, of the evits which surroum their path—no kind hand is actended to rise them in when failing. ⁴ Out way are often (repelled the surrout failing.⁴ The year often (repelled) pan-no kind name is extended to have here up when falling, but they are often repelled with aversion and contempt, by those who pro-fess to be Christians and philanthropists."

fees to be Christians and philanthropists." "You have singular noison, Mrs. Austin," reported her friend. "For myself, I must con-fees frameth helps feeting an aversion for such scale of the singular state of the second scale of the second scale of the singular scale of the hastin, thoughtfully. "If this family cannot be improved, it may be very unpleasant living by them."

A fewidays after the above conversation, Mr. A few days after the above conversion, Mr. and Mrs, Austin took possession of their new home. ThBy-ageré humble, unpetconling peo-ple, but they were Chrisipans, and they had learned, to believe it their duty to imitate the example of their Master, who came to seek and save that which was lost. They were not among those whose sympathics are inactive, when excited by the mineries which pass be-fore their reve.

ore their eyes. They had entered upon a sphere They had entered upon a sphere which was to give a trial to their patience, and an opport-mity for the exercise of their Christian benevo-lence. As soon as they were spettled, Mrs. Aru-tin called on the Watens. It was not without a fooling of lodding that she enjered their ru-inous hovel, but she was resolved by get ac-quained with them, and, it possible (no to them good. The children, poor high, loke of sur-gring, rose up and offered her a broken chair ji'we haive just come into the place?, "and

"We have just come into the place," said she, "and as I am anxious to become acquaint-ed with my neighbors, I have taken the liberty to call."

call?" "I am much obliged," replied Mrs. Watsor cople seldom take so much notice of us." "People's

⁴⁰ People eiddom take so much nollee of us.⁹ Mrs. Auslin inquigd kindly' respective her health, and found that the poor wormain was far from heing well. The ohildren began to creedy around, ... She displayed a handfoll of apples, which she tock from her pocket, and they soon gathered around her. The gather each an apple, and patted heric culy heals, with kind and gothe words. The lithe creatures looked wild-ly at her, as it mush to comprehend the cause of such number do far one in denort she akked.

of such unwonted kindness. When the kind had yreas to depurt, ahe aaked Mry. Watson te led Mary, a child of seven yaars ald accompany her home; that she might send her scope medicines. The child sprang forward with a cry of pleasure, and placing hor Jand in Mrs. Austin's, looked up affectionalely into her face; theg starting back, she looked at her mother, who she is membered had nyt given her consent. "Mrs. V told Jary her might yes but promised her a whipping if she was not back soon.

Mrs. Austin took the child by the hand, and

During and some medicines for her mother. The child had, never been so happy before, as she was when she tripped home that night. She was not only delighted with the presents she had received, but the kind words and kind loops of her new friend, had fallen like son-ther on her heart.

very man should be guarantied a permanent home on the earth, the choice of industrial pursuits, the power to limit, at will, the hours of labor, an equivalent for what he produces, the best opportunities for educa-tion, and freedom in every thing.

BOSTON, THURSDAY, JULY 20, 1848.

FRANCE

Another budget of horrors, has been brough us from noble, suffering France; in ideas, the us from nöblo, suffering France ; In itlens, the noblext of all the nations ; in sufferings a Social Seavar, espitaling the crimes of human socie, fires. Had hat portion of the jeople of France ; whose business it ways to have incarnited the ideas which vaccomplished the revolution of Pebruary, but exercised the good sense and justice towards that class of their fellow utizens by whom the revolution was achieved, which the greatness of their sets emitted them to, this has not of their sets emitted them to, this the greatness of their acts entitled them to, this last act of blood, in this grand drama of social transition, from the reign of anarchical industry and commercial feudalism, to the organization of labor and integral justice, would have been

and commercian inegral justice, would have been saved the acting. It is to be regretted, that there was not largeness enough, of infellect and heart either among the people or the members of the Provisional Government, to have seried the occasion of diong aimple justice to the vork-ment. This was the only difficulty to be au-mounted, the only obscile to the complete restoration of order. This surely might have been done. Long and with singular patience, did the famishing people rest upon the mere promise that employment should be epasied them. They view co solited with words even, because they were a form of right—they vefer an a sknowledgement of piniopiles, hultot to just because unity were a norm to fragm-unity very an acknowledgement of principles, likhtett ui-fanored, or denied if perceived. "It was not unlil the goverimments betrayed veschisses and indexi-ioni, added to the sented hostility of the bord-gover, hat any keelings but these of confidence were exhibited by the workmen. There was, as violence or deporter, unlit the character of the National Assymbly was discovered by be-hostile to the exploration of the abort, per even then, unlit the Qovernment had abandoned even its prousies, dispensed with the na-tional workshops, and had actually dirven the workmen. forph-form Paris, telling them that they must shuft for themselves, that discontent reas to muity and rage. Utility decived and betrayed, and likely to be chested out of any participation [in the binefits of the Revolution, which they find achieved, the working classes , weee now ready to unity with any allies, for the an acknowledgment of principles hithert participation ju hite "bojefits of the Revolution which thigh find a chieved, the working classes were row ready to unity with any allies, for the orientry of a government which had first fint-tered, them, descived, and finally spurned and betrayed, them. They were so many blazing torekse, in the dencesled hands of legitimists, Phillipsis, and mircenary, republicans, io figures have used the dencesled hands of legitimists, Phillipsis, and mircenary, republicans, to figure share used them, phd exis behice the dencesled states by mitary hands, in friends and brothers, data by mitary hands, in friends and brothers, data estimation hands, in friends and brothers, data estimation have a large are the only they somy which fools will comprehend *i* and such as Providence vouchalters is final lefford, to work, on the spark of latent bases, in nations thus doomed by selfishness, ivid shall accept them will be the state of the source of the source end or superior methoding for such to archi-cement of the state to have the ac-cent of the twention the despiration of these-time comparent methoding for such horitor frame days with the despiration of them. The campees of this instruction only and upon them, agains agenots.

The causes of this insurrection only soled upon them, as its against. The apparent cause is not here the real one: To most minds, the insurrection spring out of the institly of the government through finan-cial degaagement, to inset the wasts of the our rar. Huit this was not the fast, nulses France was, and is to sink inserhably and irre-tingably into utter non-existence. She was in: Frace was, and is to pink inerVahlyTend irre-tierably induce noievisites. She was 'mi-ioral financially by Lozik Philippe, before even the demaids of the volkness had been made. Suppose the revolution in all transpired with a simple-substitution of republications for 'mon-avbi', without any movement on the part of the Forkmen, how would France have extrinded thereoff fram her embaryagement. In the same-way that she new paperses to do it; by extend-labor and enginal. France is to be, ared by *faidi*, which is credit. Without this, there is no salvation for herg. Faith in there its one all the interpret of the same way the she real weight without in their capabilities. The is about to reserve to paper currency, which is as valuable as any (other, when there is only currency) without is constituent or real weight which surgery rep-ressing. Unlarg also flow profisiely what the willest of these lines reliable and in the matter equally anoigh are cilizons, the matter inter-tor material part currency with the same is and the form of credit, through a be labor burdent open potenty; through a 'paper currency, do look form of credit, through a 'paper currency is the form of credit, through a 'paper currency is able form of credit, through a 'paper currency with for the same terms of the transon equally anoigh for the form of credit, through a 'paper currency with for the same terms of the transon equally anoigh for the same terms of the transon equally induces the form of credit, through a 'paper currency with the same terms of the same terms of the transon equalles the same terms of the same terms of the terms of the same terms of the terms of the same terms of the same terms of the terms of the same terms of the terms of the same terms of the same terms of the terms of the same terms of the terms of the terms of the same terms of the same terms of the terms of the same terms of the terms of the same terms of the terms of her burdens upon posterity, through a pourrency, or other form of credit, trusting

the joint generation will cancel them. more quotation from this *friend* of the laboring classes. "We have always found; and always expect to fad, that these side clasmot the foldest about dwartedden humanity, the oppression of the verking classes, the aristofrary, and so on, be-come the most haughly and overhearing, the mass tellist and copressive yowned others, the moment they are dulo to do so." Who will doubt, after reading the above, that Mr. Harris, is just the main to publish and edit the New England (dforing ! How begutfully he ac-presses Jimiself. "Evendo' reformers clasmor this logidos", ".e. See how complaints he is, "We have alrienge found, and alrenge separet to form", see. New I would ask the gentleming, how imany such he has found! Can be some over? Bot supposing file can, it proves nothing; there wide, a Judias arong i vertice disciples." Foris men balked just ea about Cirisi, when he was on earth; just if a was above a canth noy. MJC. From some arket jast so nood Critist, when in or was on early, and if he was on earth now, Mr. Harris would brand him as a passed reformer, as base fellow, who chamarout the buildest about down-forder humanity. - Even the Church, which Mr. Harris love? so well, would reput-ate him, almost to a man?

Correspondence of The New Era of Industry COME UP TO THE WORK.

CORE OF 10 HID NOTE. Lowen, J quy 19th, 1845. Ma. Envrons-F. Krey one who has the good of the labring closes at heart, should and an as-taining the *Not Rea of Industry*. If the paper could be scattered broadcast through all our fine-tory villages, it would do an immense amount of good. Not only in factory dilates, but ev-erywhere, the laborer is depixed of his rights. How many not women made white for a size reychore, the labour is deprived of his rights. How many performant makes white for a six-mene appear, or bind share for two and a half one and women are labouring for a small pit-tance. Use the second state of the second method and the second state of the second method and the second state of the second method and second states and bally together. In Lowell, the comparisons are cuiting down the price of labor, that the owneds may sail more enrich themestics. The agends and oppingers are not ent down, but the poor girls, and have where an loss all whet is the second state of the second state of the second state of the second state and the second states and the second second states and states are set of the second states and the can loss all whet is the second states are sample to satissically which shall seek can states in ball of the oppressed labour!

paper to ensistance a which that is peak caractery of the bahaf of the optimised, halfer a sprinted is bahaf of the optimised, halfer a sprinted is the City Hall Robbit Tere State and the State and

highest encouragement to the friends of true Soli-FREE Soli. Asvocarz.—This is the full of a new comparing paper, just based at Harford, under the editorial point of the full set is a Smith. It is decreded as its name imperts to the globous arriggle now going bio for the preservation of cone do shares. It is an able, right the set and high-forced pound, and will do sign altervise for the cause. It should be sustified to following from the Callens' introductory which clearly indicates where he is to be found.

Which crearly indicates where the advectory of the food. "Though we have ourself labored with zeal for the Wile party, while at promised true faith and all engineer to the holy rause of liberty, yet having been regulated from it by the treachery of the Philadolphia Convention are will labor with the same actor advectory and will be advectory to the same actor advectory and will be advectory to the same actor advectory to the same actor advectory to the same actory and will be advectory the same actory and will be advectory to the same actory and will be advectory the same actory the same actory the same actory to the same actory to the same actory and the same actory and the same actory and the same actory and the same actory such man as a brother and clique laborer."

The Corporations in Lowell are reducing wages. Times will tighten, for the poor devil operatives, as the Presidential election ap-proaches. This will compel them to vote for a proaches. This will compare them to vote for a traff, quader that promise of totate wayes. Their hopes will be specify realized, since the once ardent expectant of the nomination for the Vice Freideucy and now of Golimot plundary fit. Abbot Lawrence, has become a "laboring manil and can sympachize with them. Unless it hap-pent that the great expectant, fets the office of superintendence or overacering the mills, wages will specify will henceforth invest labort We shall go to Lovelly on purpose to see the great expectant while at work. It will be as in-teresting as to see a monagerin feed.
