Bosses Started Lynch Spirit At Anti-Communist Mass Meeting Last Thursday; Not Able to Break Workers Ranks

#### BULLETIN

VACAVILLE, Cal., Dec. 5.-Kidnapped from jail by a band of unidentified thugs, six arrested agricultural strikers were today taken for a ride. They were beaten badly, painted red and warned to not return or they would be given a worse taste of the lynch terror program.

The six were among fifteen arrested yesterday when police, aided by armed thugs and legionnaires, broke up a parade of strikers in front of the public library. Nora Conklin, I. L. D. organizer of Sacramento, was addressing a crowd of more than a thousand workers when the police interfered.

Chief of Police Alley, who is said to have assisted the thugs in their cidnapping of the six arrested leaders, says he "does not know where the raiders obtained the key." He was conveniently absent at the time. No trace has been found of those kidnapped. There were 15 arrested and placed on from \$200 to \$500 bail each.

A mass meeting will take place on Friday, December 9, 8 P. M., 1223 Fillmore St., where one of the strikers will tell the story. There will also be the latest report from the Hunger March to Washington.

Charity Graft Established As Basis Cause for Mass Sickness

SAN FRANCISCO, Cal., Dec. 2.-Despite the rigid censorship maintained by Wollenbeg's charity ap paratus, the fact has now been established through workers at the Laguna Honda Home, that 130 of the inmates have been poisoned, of whom 80 were seriously sick.

The capitalist press hushed up the matter, giving only 2 inches of space in an inside page.

It is now learned on reliable autority the poisoning was caused by an infection from the pickled pigs's head and feet which were served for an evening meal.

Such an infection is caused by the Paratyphus germ found in meat prepared under unsanitary conditions. It is said the pork came from pigs raised and pickled at the "Home."

"Maybe all the workers have pawned their radios."

"There is still a few left," said the capitalist

The janitress dropped her work and came over wiping her hands. "I got a radio," she said. "Maybe I can help you.

"The capitalist frowned. "Well, did you listen in yesterday?"

"Oh, yes. No workers would listen to Trotsky, anyway; we got more sense than to believe that renegade traitor says. But they had the swellest new crooner on. You couldn't understand a word but he had such a soft, tender pleasing voice, better than Rudy Valle. He....

Socialist Party Sabotages United Front for Relief

SEATTLE. Wash., Dec. 3. - On December 5, the same day that the national hunger marchers will be laying their demands before Congress, the unemployed of King County, Washington, will march upon the county commissioners. The workers demand:

. Every unemployed worker to re ceive the amount of relief specified in the county schedule for food distribution of October 1932, without discrimination of any kind.

. All labor to be paid for at union wages with a minimum of \$4.50 a day for common labor.

No evictions. No water or light

. Free hot lunches, including milk, and free transportation for school children.

These demands were drawn up at Unity Conference of delegates from the Unemployed Councils, various locals and the central federa tion of the Unemployed Citizens Leagues, locals of the United Producers of Washington, the Communist Party and several A. F. L.

An unofficial delegate from the Socialist, Party, when he saw the overwhelming sentiment of the workers at the conference for a county hunger march, appeared quite enthusiastic for a march with the usual Socialist tactics, cau questions out of it. #### THE BOSSES FEAR MASS ACTION

Close on the heels of the tremendous Civic Auditorium | horde of White Guard Russians mass meeting for the freedom of Tom Mooney, a delegation of 15 organized by the Civil Liberties Union, pre tacked a soap boxer without warnsented a new appeal to Governor Rolph for a Mooney

The delegation was composed of what the newspapers characterize as "famous Americans" and headed by the killed our czar, and drove us out, liberal lawyer Aaron Sapiro. The 15 preachers, journalists, and writers personify most ably the policy of resorting to appeals in the name of "justice," to legal loopholes, and other pacifist methods which charaterized the Mooney defense until about a year ago.

It is very significant that this group hastens into the declared. limelight precisely at the moment when there is such a great increase in activity for a mass movement behind | white guard wearing a big Greek the Mooney case, in which the Communist Party plays a leading role, and immediately after the granting of a new trial for the Scottsboro boys. They feel that a staggering blow was delt to liberalism. They feel that the the hospital as the entire San Franincreasing mass force developed by the movement is actually bringing success and therefore want to again divert rather disgustedly at the departing the movement behind their liberal policy.

#### SAPIRO AGAINST DEMONSTRATIONS

That this is the purpose is clearly revealed in Sapiro's actions.' A year ago, when the Mooney hearing was tak- that had an S. O. he virtually admit having been a dynamiter. This was the cause of the recent split between him and Mooney.

#### FIGHT BEING RENEWED

The answer the delegation received from Rolph and Sullivan is another example to show that the bosses are not afraid of "famous Americans." The language the bosses and their political servants understand best is that spoken by the 18,000 workers on November 6th at the great Auditorium Meeting. Or as given in Watsonville last week, when 2000 battled police and fire hose for the right to hold a Mooney Meeting.

That meeting was only a beginning. The Vacaville bosses are now planning to resort to Flag has flown aloft in many parts hat they hope will turn out a trump card in the strike of Southern China. Under the lead- fought in vain! The Canton Com- from American ports to the Far situation. Lynching!

The lynch spirit is already being prepared. Last Thursday's mass meeting of the big ranchers and business men in town, together with all armed thugs and scabs that powerful Chinese Red Army of 300, could be gotten at their service, was the opening gun. The speakers who were a Judge and a Preacher openly advo- tion. The Canton Commune created cated lynching.

A delegation from the Committee for the protection of political prisoners, visiting Vacaville to investigate the situation, interviewing Fruhling, a minister in town, was told that "The situation in Vacaville is such that a lynching was necessary." And further referring to a famous lynching that "They did in Santa Rosa 12 years ago and there was no trouble in that town ever since.'

This thirst for blood has been seized upon by many capitalist papers in the county and state to work up an alarm against the Communists and Agricultural Workers Industrial Union, knowing that the Vacaville strike is a clarion call for similar action to other parts where such low wages are paid.

#### **BOSS PAPER WANTS LEGAL STRIKEBREAKING**

But the Sacramento Union "California's State Capitol Newspaper" came out with an editorial in which it endeavors to present a "liberal" policy, and strongly condemns the lynch idea. Not, however, because it considers realism of acting and background, surprised and embarrassed, howthat workers cannot live on \$1.25 a day. But because and sharp assembling of scenes for "they (Vacaville ranchers) have all the forces of the which he is noted. State of California at their command, if the State cannot handle the situation there still remains the national government."

The Sacramento Union representing the big bosses is basis of the story and the flight of is the following: for a strike-breaking policy, but in a "legal" way. Have the central character, who joins not many strikes all over the country been broken thru the Red irregulars fighting the local, state and national armed forces, which are after all British invaders. Captured, he is especially designed for that purpose?

It is the same Sacramento Union, which at the outset of the struggle refused to recognize a strike situation but planned, a puppet, as was Pu-Yi in instead carried alarming stories of threatening race riots. The hope at that time was to introduce the traditional strike-breaking method by pitting one race against another. The failure of this tactic and splendid solidarity displayed by the workers compelled this boss sheet only to change its strike-breaking methods.

#### PICKETING MUST INCREASE

The lynch threats will not weaken the militancy and fine solidarity of the workers. On the contrary it proves to the workers that the bosses are powerless to break the strike. They have so far not been able to bring in scabs | Siberian division. despite protection by the police and armed thugs.

Especially at this moment it is necessary to mobilize every worker in Vacaville for the biggest and most militant picket lines. Not a scab should go through!
