GROWTH OF UNION SHOWN IN REPORT BY SECRETARY

SAN FRANCISCO, Jan. 17.-The steamschooner situation remains unchanged as shipowners have apparently focused their full attention upon the I.S.S.U convention now under way.

With a total of sixty-one crews laid off by an enforced lock-out the District Council No. 2 of the Maritime Federation has elected a committee to force relief from local officials for the seamen.

WASHINGTON, D. C., Jan. 16.—The first day's session of the International Seamen's Union Convention was marked by a sharp fight over the seating of rank and file delegates from the Boston ocal of the Marine Firemen's Inion as fraternal observers,

The two delegates challenged, Moe Byne and Jack Montal, were nominated some months ago as candidates for election as regular delegates but the reactionary election committee of the Firemen's Union ruled that there would be no election and appointed three delegates of

their own choosing. Deprived of their opportunity to send their own delegates the locat sent these two as observers. It is reported a bitter fight developed over the seating of these two and s vet no decision has been

ANTI - JEWISH CAMPAIGN IS CARRIED ON BY FASCIST GROUP

Germany's directed influence in Holland is making itself felt through the Dutch "National Socialist Movement," an undisguised Nazi agency, supported by Dutch financial and industrial interests with investments in Germany. In the "Movement's" official press appear incitements against Jews, items on "race ideology," "superiority of the German race," "Holland for the Dutch," etc.

The weak, newly-founded Colijn government is aggressively pursuing a policy of suppression of democratic rights, and is proposing to take the following meas-

(Continued From Page 1) generals who support Calles, Medinaveytia, chief of the garrison at La Plaza, and Amaro, the head of the military college; the suspen sion of privileges for callista senators; the suppression of the subversive propaganda of Calles himself-all this places the leader of the reaction in the dilemma of either resorting to arms or disappearing definitely from the po-

litical scene. It is necessary to realize th danger and to act decisively.

The victory of callismo would mean the end of liberty and of democratic rights; it would signify the destruction of workers' and peasants' organizations, the setting up of a reactionary military dictatorship, with its accompanying orgies of blood and terror, let loose by the "Gold Shirts," the thugs of Morones, and the white guards. and finally the complete colonization of the country by imperialism.

Already Nicholas Rodriguez is announcing the terroristic methods to be used against working class organizations and their functionaries. Already Morones is arming his hired bandits to "defend Calles." The country is infested with hoodlums and white guards, protected by some of the reactionary generals.

Immediate and energetic action by the government and the people is the urgent need of the hour.

It is necessary to forge, without any loss of time, the widest united people's front of workers, peasants, employees, students, small business men, small proprietors, etc. in a close alliance with the Army, in order to support the government of Cardenas, and to crush the reaction without mercy. The workers' trade unions must take the initiative.

The workers of the CROM (Confederacion Regional Obrera Mexicana, controlled by Morones' and the CGT (Confederacion General del Trabajo) s'hould leave Morones and Ramirez, who are but instruments of Calles, and should unite with the whole people in its struggle against reac tion. Today, more than ever, it is imperative to have trade union unity of the proletariat and the unification of the peasant masses

It is necessary to organize large, powerful mass demonstrations in the streets.

It is necessary to be prepared to paralyze any military mobilization of callismo by means of a strike of all railroad workers, electricians, city transport workers,

It is necessary to form detachments of workers and peasants, armed with the aid of the government, for its own defense, and for the defense of the workers themselves.

The organs of the National Revolutionary Party Should answer the call of the Communist Party for common action, to support Cardenas, and to fight callis-

#### SUPPORT STRIKE

SAN FRANCISCO, Jan. 17.-The striking seamen of the intercoastal passenger liner, Pennsylvania which sneaked out of the harbor early this week with a skeleton crew of scabs, received inspiring support from the crew of the sister ship, the California, now laying at San Pedro.

In hearty approval of the ac tions of the Pennsylvania crew, all three unlicensed departments of the California adopted resolutions protesting the re-signing of the 1935 agreement between the I.S.U. East Coast District Committee and the operators.

To support the crew of the Pennsylvania who, were left stranded, the men on the California demanded of the local agents of the operators that the abandoned seamen be sent back to New York to their ship without discrimination. At the same time the demand for West Coast scale of wages was raised. The ship is scheduled to sail on Sunday evening for the East Coast.

#### STRIKE COMMITTEE

A committee of three, one from each department, was of six of the most powerful banks elected to come to San Fran- in France, are directors of 95 comcisco and work with the strike committee of the Pennsylvania crew. The entire membership of the Califorina voted to assess themselves two dollars each to feed and shelter the destitute seamen. District Council No. 2 of the Maritime Federation to whom the striking seamen appealed for aid has elected a committee to force civic relief for the men.

The action of the Pennsylvania crew was the opening gun in the struggle for equal pay on both coasts. Since this action the crews of the Grace liner, Santa Paula and three Luckenbach ships have sailed from the West Coast after gaining the West Coast scale.

In New York the crew of the Virginia, third of three superliners involved presented demands o the company officials for West Coast wages and conditions, but due to confused understanding of the situation the men were prevailed upon to sail the ship out with a promise of action at the end of the month. # Revolution in Italy Is Main Fear of England in European War Crisis

#### DUCE REPORTED FACING BAD **WEATHER**

By Henry Zon. (Federated Press)

The British government, though terror-stricken by fear that Mussolini will fall and that his fall will give tremendous impetus to left sentiment in Europe and colonial revolt in Africa, has been forced, for the time being at least, to beat a retreat from its plan to save Italian Fascism at the expense of Ethiopian independence.

The appointment of Capt. Anthony Eden, former minister for League affairs, as foreign \*secreary, is a gesture to placate the popular indignation of 11,000,000 British peace balloters and allay the shocked nausea that was felt even in staunch Conservative circles at the disclosure of the Hoare-Laval deal.

#### EYES ON EDEN The appointment of Eden, re-

garded as favorable to application of sanctions against Italy, has been sympathetically received by the British public. The question now remains as to what course Eden will take in the face of heavy pressures from the pro-Mussolini Tory crowd now hoping to smuggle their plan in by the back door. Eden's enormous popular following will queckly vanish if he is revealed as a party to the same game the cabinet has been playing the last six months. It is not only the conservative sections of Britain's ruling class who fear the fall of Mussolini. Albert, King of the Begians, has not been visiting London because he likes the raw, foggy winters

Despite the Administration's vowed policy of curving exports of war materials to Italy, there has been a tremendous increase. The monthly analysis of foreign trade by the Bureau of Foreign and Domestic Commerce in its latest report showed: "In Nov., 1935, we exported 620,244,000 lbs. of unmanufactured cotton, valued at \$75,062,000, as compared to 390,-755,000 lbs. valued at \$45,873,000 i October, 1935, and 310,899,000 lbs valued at \$43,434,000 in November of last year." Sharp increases were also shown in the export of oil metals, machinery and vehicles.

The weapons were turned against the would-be vigilantes by the students who had just settled back to continue their studies after the police had "arrested" five of the faculty. In short order the band of aspiring fascists were completely routed, so thoroughly in fact that the Hearst camera man on the job waiting for an action photo could only find a picture o a badly beaten vigilante being aided from the building to snap.

Immediately following this abortive attack Mayor Smith, of strikebreaking notoriety, stated to the press, "It is too bad we are so short of men or we might e been able to prevent that

The American Legion hastily de nied any knowledge of the a fair when a storm of protests from the entire Northwest by liberty-loving people flooded Mayor Smith's office.

#### HEARST AND LEGION

The Hearst rag, the Daily Post, launched a front page campaign against the proposed school invoking the use of every possible red-baiting phrase in Hearst's comprehensive file.

#### UNDEFEATED

Standing firmly on their constitutional rights the faculty went right ahead making plans for the opening of the schools. Over a hundred pupils were enrolled in trade union courses. An open invitation was extended to the Mayor and any Legionaire who cared to enroll.

In answer to the Mayor's statement that the school cannot be closed until the police have proof that, the law is being affronted, the local Hearst rag in very subtle manner hinted that a band of "sincere Americans" was all that was necessary to close the school of "radical doctrines."

Co-incidentally—the police descended upon the school and arrested Morris Raport, dist. organizer of the Communist Party. Four others who refused to answer questions hurled at them by the ing squad were also taken,

#### THUGS FOLLOW COPS

No sooner had the official raid squad left the door of the building when the "band of sincere 'Americans' came charging into the rooms. LONDON, Jan. 15.—The Egyptian people have recently succeeded in getting the reinstatement of 1923 constitution, although they have not given up their fight for further assurance of their freedom from British control, namely

1. Removal of British influence from Egypt.

2. Formation of an efficient Egyptian fighting force.

3 Abolition of reserva 4. Admission of Egypt to the League of Nations, (Great Britain opposes Egypt's admission into the League of Nations for fear that Egypt might seek the support of other League members against her.)

While Great Britain formally enounced her protectorate over Egypt in Feb., 1922, she grante herself several important reservations when the Egyptian Constitution was first enacted in 1923. These are as follows:

1. Security of communications of the British Empire in Egypt.

2. Defense of Egypt against all foreign aggression or interference, direct or indirect. (Great Britain at present maintains a standing army of occupation in Egypt of 60,000 soldiers.)

3. Protection of foreign interests in Egypt and protection of the minorities.

4. Control of the Sudan (an area of 1,014,000 square miles.)

Too much rich food and too many drinks at swell hotels have apparently upset the delicate balance of Frank Y. McLaughlin who like a trick circus rider has stood with one foot on WPA, the other on SERA while riding down the Labor Council on January 7th two relief budgets in California.

The reins of SERA are being tossed to another Merriam stable boy Schottland who is due for a rough ride while rumors fly thick be held by the League with Dr. and fast that poor Frank may prove unable (barring a long rest) to maintain his balance on WPA.

As a punishment for insubordination, Boss Walker on the La Brea and Exposition WPA job had Foreman Gene walk 25 of the men 15 miles. There was great excitement as they passed near Wilshire and Sixth. A business man in a swanky automobile almost had a cataleptic fit, stopped his car, grabbed the foreman and pointed to the head of the column.

There the old Townsendite who had been guarding the project crossing was walking at the head of the gang, carrying . . . his RED FLAG.

At last a way has been found to dispose of the canned corpses of drouth stricken cattle called "canned beef" and other inferior commodities formerly distributed free by the Surplus Foods Corporation.

Relief clients "cared for" by the SERA will be assigned a definite monthly amount of this surplus "food," which refused or accepted will be deducted from their cash food allowance . . . at retail prices.

The total monthly surplus commodity deduction for a family of five is \$4.23.

The Norwalk Storm Drain WPA Project N-644 is costing over three-fourths of a million do-l lars. The tile in the section of this drain located between Fair Park and Colorado Blvd. on Ellenwood Drive was laid loose in - the ditch, without being cemented, and under supervision of Boss Thayer the dirt was hurriedly shoveled back into the ditch.

H. R. Erdman is the project engineer on this job and John Huff of 1000 Brand in Glendale is over him. A "hell of a lot" those two care about the Storm Drain construction. Their main interest the last few days (besides drawing their pay), has been to figure out a way to discover and transfer union organizers off the project.

UNION DELEGATES WANT TO KNOW ABOUT THE AMERICAN LEAGUE

BAKERSFIELD, Calif., Jan. 15.—At the meeting of the local members from the city committee of the American League Against War and Fascism spoke, urging support for a mass meeting to Harry Ward, national chairman, as a speaker.

The council also was asked to send a delegate to the League committee meetings. (Two council members already are members of this committee.) When the League representative left a motion was made to send the delegate.

E. B. Daniel of the Oil Workers' Juion and labor commissioner for Kern county, immediately raised the "red scare" in true Hearst style. Al Sessions, editor of the Labor Journal, was in favor of further investigation of the League, as was a member of the Butchers' Union. Two members of the council told of their experiences in the League and recommended lit as an effective weapon against the twin dangers to the labor movement facing us today.

#### RAPS NEWSPAPER

One member of the council recommended that labor in Kern County take apropriate action in response to the red-baiting editorials which appeared in the I from Turkey, to enslave Persia, local daily paper, the Bakersfield Californian.

The discussion whetted the curiosity of another member. He asked what Communism was. It was finally left to the executives to define a "red" as one who demands higher wages on the job. The inquisitive brother pointed out that the capitalists seem to have something to fear from the Communists, but not the working man.

Another member pointed out that the working class needs to hold a solid front and that the League Against War and Fascism offered organized labor in Kern County a chance to unite with other liberal, progressive and working class organizations for mutual uries of the great powers. The protection.

On an FERA project at Key West, Fla., when 450 World War veterans struck against bad conditions, troops restored "law and order." In Omaha, Neb., when 250 street car workers struck, 1800 militiamen were used to "cooperate with the citizens." Last June in Gallena, Kans., machine guns were used to protect strikebreakers at the lead and zinc mines. Martial law was declared, and 32 were convicted in a military court. In the lumber strikes in Washington, Oregon and California, about 1000 guards were stationed to protect strikebreakers and company property; and in Eureka, Calif. even the streets outside the strike zone were patrolled by guards. When the "general strike" broke out in Terre Haute, Ind., 2000 guardsmen tear-gassed and attacked onlookers as well as strik- pines early in February. The reers. #### The Shipowners' Attack Requires Unity of All Maritime Workers

Using the sailors' demand for a six-hour day on steamschooners as the long-awaited excuse, the shipowners have launched an attack on the whole Maritime Federation, and are counting on the support of the Scharrenbergs in the I. S. U. officialdom to help them by declaring war on the West Coast unions and revoking their charters. The shipowners are hoping to create a split in the Maritime Federation, and think that they can do it by locking out the steamschooner men, and isolating the sailors from the other maritime crafts. The sailors as well as all other maritime workers must be on guard at this critical moment, against any action that might tend to create a rift in the Maritime Federation. It was only by unity and solidarity of all the marine crafts, through the building of a powerful Maritime Federation, that the waterfront workers have withstood every attack of the shipowners and the Scharrenbergs, and weathered every attempt to wreck the unions and the working conditions established through united struggle.

The danger is that this unity will be weakened if any single craft tries to fight alone. Only the strength and influence of the Maritime Federation can defeat the lock-out of the steamschooner men, can re-instate the crew of the S.S. Pennsylvania, and can develop sufficient mass pressure to force negotiations with the shipowners and win concessions from them. The Maritime Federation, controlled as it is by the rank and file through their elected representatives, can give effective support to the sailors' fight if a common program is worked out by all the maritime crafts involved, in accordance with the Job Action resolution unanimously adopted at the Emergency convention of the Federation.

It should be clear by now to all sailors that the steamschooner fight is not a question for the Sailors alone to battle out, but involves all the maritime unions, which are now faced with the concerted attack of the shipping interests. The attacks in the newspapers on Bridges and Lundeberg are the opening guns of the employers' drive to smash the unions and the Federation, and throw overboard all the gains won in the past two vears Dispatches from Washington dated Dec 30th, to the New York Times report the following of the shipowners' plans:

"Retaliation by shipowners in the form of a general anti-union movement which would mean a 'fight to a finish' on the West Coast in an attempt to smash all maritime unions. According to reports received here today employers on the Pacific Coast virtually have completed formation of a coast-wide 'vigilante' organization to protect their interests in the event that they find themselves unable to obtain redress from the government should the international unions continue to be unable to discipline their Pacific Coast local unions. It is a question in labor circles here whether or not the demand on behalf of the eamen is not the 'showdown' signal for which the employers have been waiting. The International Seamen's Union has a convention next month. The employers may await the outcome of that meeting. If the parent body fails to take hold of the West Coast situation, the shipowners will be prepared to make their

The Sailors' Union has already asked the Maritime Federation District Council for assistance to the Relief and Publicity Committee of the steamschooner men, to help them conduct their fight. I. S. U. locals up and down the Coast have voted to have the steamschooner fight placed in the hands of the Federation. Any further delay in doing so will only encourage the shipowners to hope that they can create confusion and dissension in the ranks at a time when all maritime unions are threatened with attack.

A program of action is needed, not drifting! The steamschooner men and all sailors should vote to place the further conduct of the fight in the hands of the Maritime Federation, without any further delay! Al other maritime crafts must be prepared to give all possible support to the sailors. Collectively, the maritime unions will present a solid front that will break the shipowners' lock-out!

#### The Frazier-Lundeen Bill, Toward Social Security!

Social security, the issue of the greatest interest to the greatest number, is due to play a central role in the coming political campaign, particularly in its preparatory stages. It means protection from unemployment, sickness and old age; maternity benefits; protection of the rights of youth; maintenance of trade union rates of pay; the elimination of worries that destroy health and boost the suicide rate.

But this "Social Security" is not the halfhearted, deliberately thwarted measures of the Roosevelt administration. Even the meagre benefits promised by the New Deal have been trimmed down and are threatened with complete elimination in the major political battle now emerging, forcing the New Dealers further onto the defensive-into reaction!

Similarly, the widespread Townsend movement, sincere, though unrealistic politically, is already meeting irresistible force and is being declared fantastic by many of its sponsors. But the principle remains sound, and a realistic program of old-age pensions must be popularized among the Townsendites.

Where can we find a unified program that appeals to the unemployed, to mothers, to youth, to the aged and to the sick?

The Frazier-Lundeen Workers' Social Security Bill is the answer. Based upon the Lunden Bill of last Congressional session the bill has been amended by experts to meet the expressed needs of all workers by hand and brains. Never has such a forwardlooking, all-embracing, practical piece of legislation been submitted to any legislature in the United States. It represents the fruits of long and bitter struggle by unemployed workers, farmers and professionals to achieve minimum rights in a crisis-crazy, monstrously cruel economic system.

The bill is still in the draft stage, open to amendment by organizations of women, youth, aged, employed and unemployed, before being introduced in the House of Representatives by Congressman Lundeen and the Senate by Senator Frazier. In its tentative form it was printed in full by the Daily Worker on January 4, 1936. We urge members of the Communist Party and all progressives to bring the bill to the attention of their mass organizations.

This bill must be brought to the attention of all organizations whose interests are affected, not only the unemployed bodies, but professional, church, fraternal and political groups, Epic clubs, Townsend supporters, Socialists and Communists.

Rally support behind the Frazier-Lundeen Workers' Social Security Bill! Build the united front for Social Security!

#### Honor the Memory of Lenin

On January 21, 1924, V. I. Lenin, leader of the international working class and its fighting organ, the Communist International, died as a consequence of lingering illness brought on by an assassin's bullet. Beloved of the workers and peasants whom he guided with sound Marxian skill through the difficult years of wartime reaction, revolutionary upheaval, civil and interventionist war, finally showing them the path to the successful building of Socialism, he is revered today in every country where man struggles to break the shackles of serfdom and wage-slavery.

He was not only a skilled writer and debater, but a splendid organizer who combined the theory and practice of revolutionary growth, preserving Marxist ideas against those who distorted them while giving lip-service to Marxism, and applying them in the new, imperialist epoch of capitalist growth—the period of wars and revolutions, of battles for imperialist redivision of the colonial revolts and growth of fascism.

He has enriched Marxist literature with Leninist writings, without which no revolutionary movement, however energetic and resourceful, can find the clearest and surest

The campaign which culminates in the series of Lenin memorial meetings throughout the state should by no means be permitted to die. The meetings must be made a rallying point for a systematic drive to wider distribution of Leninist pamphlets and books, to arouse interest in the Russian revolution and the growth of Soviet Socialist power as the beacon for oppressed workers and farmers everywhere.

Bring neighbors, friends and fellow workers to the celebrations. Call their attention to the popular pamphlets about Lenin and by Lenin. Honor the memory of the man who led the Russian workers to victory. Rally support behind the peace policies of the Soviet Union. Win ever new masses to the revolutionary banner of Lenin and Stalin, who, following Lenin's path, today leads the international working class toward a better life, toward unity of action against fascism and war, toward achievement of the dictatorship of the proletariat and Socialism!

It is necessary to turn all our energies to the central task of the period-to the building of a broad, aggressive Farmer-Labor Party in every town and city, in every state and in the whole nation in preparation for the election struggles and for the decisive election of 1936.

#### Experiences of Taxi Concentration Unit

I would like to bring out some highlights, experiences, and mistakes made during our successful concentration on the Yellow Cab Company taxi drivers who belong to Local 265, A. F. of L.

Unit 1. Downtown sub-section, San Francisco, chose the Yellow Cab garage as the concentration point in August, 1934. At that time we had not a single contact and did not know anybody working there. We sent a call through the San Francisco Section asking if there were any cab drivers in the Party and found that we had one comrade who used to drive a cab and had contacts among the drivers. We had him transferred to Unit 1, Downtown.

The unit then discussed the possibilities of starting a rank and file paper, such as money, paper, ink, stencils, distribution, contents, etc. An ex-driver was made the editor of the paper The Taxi Worker. When the first issue came out there was a great deal of excitement amongst the comrades and the distribution was excellent. However, with the appearance of the second issue, our comrades encountered stiff opposition by the Yellow Cab Company and their agents—the top of icials in the union.

Our comrades who distributed the paper were beaten up by thugs and local police and thrown in jail. This terror lasted for about two months. We exposed the thugs in our bulletins, and the rank and file, seeing that the bulletin was written in their interest, fighting for higher wages, etc., began to protect our com-

When the wage agreement came long, the taxi workers took a stand for \$4.00 a day. (At present the drivers get \$3.00 for 9½ hours work.) We popularized the demand for \$4.00 and not a cent less. When the election came in January, 1935, our comrades made showed to the workers in practice some very serious mistakes. In the first place, they didn't do enough contact work except with those people whom they selected to run for office. Secondly, very few rank and file meetings were held before election. ### STRENGTH TO FIGHT

The book closes on the preparations for a mass funeral, with the revolutionary movement strengthened rather than weakened through the loss of its leader. Around this simple honest plot

Grace Lumpkin has woven the dynamic tapestry of a society in decay. A dying society yet one still strong enough to crucify its Christs. Like Angelo Herndon in

Georgia and Shoemaker in Florida, Denis is persecuted for daring to be right.
