Knitgoods Strike Splits Boss Ass'n; 65 Mills Sign Up

Boss Violence Fails To Halt Mass Picketing; **Many Arrests Made**

The general strike in the knitted goods industry appears to be well on the way to successful conclusion having brought out practically all the workers in the industry and paralyzing production. Packed meetings of strikers are being held daily and mass picketing has been found to be most effective.

Altho Mr. Sylbert of the Metropolitan Association continues to prate about the solidarity of the employers, Louis Nelson, head of the union states that he knows better. The committee, he said, has been working steadily, signing up members of Mr. Sylbert's Association. At this writing more than 60 shops have already signed up with many more waiting to place their name on the dotted line. 85% of the shops which belonged to the Association have already been signed up.

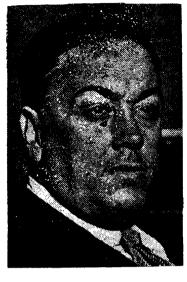

A number of die- hard employers are getting a little panicky at the manner in which the union is sweeping the industry. In Brownsville an employer arrested two pickets on the charge of kidnaping a scab but he thought better of it and withdrew the trumped up charge. Another employer, this time of the Prospect Knitting Mills, hysterically fired six shots at an imaginary union committee. Despite all this attempted intimidation and terrorization workers continue to stream into the union. A signal victory for the union was scored when it finally succeeded in lifting the injunction which the Commodore Knitting Mills had secured two years ago and which

made picketing extremely difficult.

Among the speakers who have addressed the enthusiastic workers are David Dubinsky, president of the ILGWU, Charles Zimmerman, manager of Local 22, Joseph Greenberg, manager of Local 91, and D. Benjamin of the New Workers School.

The sixty-eighth annual congress of the British trade unions will be held in Plymouth, from September of Railway workers call on the ed Clothing Workers of America. 7 to 12. A good many of the resolutions coming in from the various unions seem to be concerned with the question of fascism, war and peace. The resolution to be submitted by the General Council follows the general outline of the resolution adopted at the recent congress of the International Federation of Trades Unions. It backs the League of Nations and places great weight on the collective peace system. (See "Workers Age," August 8, 1936). A resolution submitted by the National Union of Distributive and Allied Workers calls also for the abolition of the private manufacture of arms and the nationalization of the armament industry. The Furnishing Trades Association submitted a

Spain Protests Embargo On Arms As Generals Get **Aid from Fascist Powers**

French Workers Resent Neutrality Stand; Unions Send Jouhaux To Investigate; Radicals **Dictate People's Front Policy**

The third week of the fascist civil war in Spain has ended with the better trained and infinitely better equipped fascist troops still holding large sections of the country. The bloody war in the mountains around Madrid appears to be a stalemate. The battle scenes have therefore shifted to the south, west, and north of Spain. In the south government battleships had carried out a most effective bombardment of Algeciras, threatening thereby to disrupt completely General Franco's transport of Moroccan troops to the Spanish

mainland. British intervention silenced Madrid's battleships and made it possible for Franco to reestablish his lines of communication with Morocco.

In the west a bitter battle still rages around Badajos for control of the city and province. The city is of strategic importance for the fascists since valuable assistance may then be secured from the profascist government of Portugal. In addition capture of Badajos constitutes the first step in the final merging of the northern army of Mola with General Franco's command.

In the north San Sebastian and Irun have been under constant bombardment from fascist planes and battleships with both cities still in the hands of the workers. In the northwest the Asturias miners are dislodging the fascists from the munitions manufacturing center Oviedo after two weeks of

The French proposal for a neutrality pact seems to have failed miserably precisely where it intended to count. It was primarily the outcry against direct military aid to the Spanish fascists by Italy and Germany that led France to make its proposal but these powers, having accepted the proposal in principal, continued merrily

(Continued on Page 4)

THE Council for Industrial Progress reports that an analysis of steel production from 1919 to 1929 shows that the yearly productivity of each wage earner rose from \$2,873 to \$3,718, an increase of 29.4%. In the same period the average yearly wage of the steel workers increased only from \$1,450 to \$1,568, an increase of 8.1%....

PRODUCTION HIGH

BUT WAGES LAG

The expansion of the activities of the Baltimore district of the Steel Workers Organizing Committee is beginning to be felt here. This is shown not only by a rapidly developing response of the workers to the appeals of the Committee; it is also shown by the bee-hive activity of the steel companies and their stooges. Shells of company unions from the Bethlehem Steel and elsewhere have been dug out of their moth balls and given all kinds of injections to make them give the appearance of

Having carefully organized its apparatus, the Baltimore section ot know. It depended very much, launched the drive and has brought it to the doors of the steel mills. By means of a two-fold activity. First, there was the concerted distribution at the mill gates of 10,000 copies of the official organ of the Steel Workers Organizing Committee, STEEL LABOR. The strong desire for genuine organization that prevails among the steel workers is in some measure indicated by the friendly reception given this paper.

Secondly, to bring the message of unionism and the purposes of this drive directly to the steel workers, a series of mill-gate and street-corner meetings has been arranged in which an especially equipped sound-amplifying truck is used. The first of these meetings was held at the corner of Eastern Avenue and Oldham Street | This is an important section of the on Monday, August 3. At this meeting approximately 500 workers listened for an hour to addresses by the State Director of the campaign, Senator Robert B. Kim-

ble, and I. Zimmerman of the local organizing staff. This meeting was followed by a similar meeting in Labor Party would survive the of the Steel Workers Organizing front of the Tin Decorating Company Linwood Avenue and Boston Tuesday, August 4. moon on The speakers at this meeting were J. Fred Rausch, a local steel organizer and former Executive Secretary of the Building Trades Council of Baltimore and Dorothy Rose who is business agent of the Stenographers, Typists, Bookkeepers, and Assistants Union, and who is also a volunteer worker in this drive. The third of this series of meetings was held at 3 P. M. on Tuesday, August 4 in front of the Continental Can Company on Riddle Street. This third meeting was addressed by J. Fred Rausch, Dorothy Rose and I. Zimmerman.

The two meetings last mentioned were in connection with a drive to organize the can company workers and workers in the other plants manufacturing metal products. work of the Steel Workers Organizing Committee and is being carried on simultaneusly with the major effort to organize the steel

Meaning of French General Strike

When the Blum government took office it was faced with the necessity of dealing with the strike situation. The strikes had started in the Paris metal industry whence it spread throughout the country It was not confined to a few in dustries: the whole French working class joined in it. The best proof of this is the fact that working class groups that are, as a rule, not very militant in the defence of their rights, like the white collar workers in the insurance companies, department stores, and the hotel industry, came out en masse in full support of the strike.

Why the Strike Wave The economic crisis makes itself still very much felt in France and is rather difficult to make a French the signs that point to a change workman realize why it is imcivil service officials, petty bour- or party discipline, and take an geois proprietors and peasants has interest in theoretical discussions. (Conditions are different in the flationary measures of the various North, once the stronghold of consist of theoretical lectures but governments, especially the Laval Guesdism, where the Belgian indecrees, having led to a lowering fluence makes itself felt.) This lack of the living standard of the mass- of interest in the routine work of

ment of the united front between socialists and communists: the labor and by the victory at the be given to the last point. The various parties that formed the People's Front did not meet with equal success in the last elections. While the socialists and communists won votes and seats, the radical socialists and the U.S.R. (Union Socialiste Republicaine) suffered heavy losses. Although the socialist and communist leaders had, in the interest of the people's front policy, represented the radical socialists as staunch fighters against fascism and the big capitalists, many members and sympathisers of the radical socialist party went over to the workers parties in protest against the radical socialists' support of the deflationary policies of all preced-

Opinions as to the future actions of the government of the People's Front differ. The leaders of the People's Front with so much enthusiasm not so much because they identify themselves with its program; they are for this government rather because they be-

aries of the metal workers union and the members of the working class parties in the Paris metal shops had acted on their own initiative. As spontaneously as the movement had started, it spread. That the official labor leaders did not set much hope in the successful outcome of a wage struggle is illustrated by the fact that the general strike of the French miners was called off shortly be-

fore the elections. At that time | sit down strike before, but on a the socialist and communist press large scale it was used for the clared on June 25th: "I wish to exconsidered it a satisfactory solu- first time in the French strike tion that an agreement was made movement of last June. SPAIN PROTESTS EMBARGO; ASKS AID AGAINST FASCISTS

(Continued from Page 1) with their assistance to the fascists. Italy's aid to the fascists is well known but Germany continued to deny it until the discovery of many "new German planes" in Seville, which "the German Consul here privately admits (they) were flown by German military avia-

"According to official German sources here", says Frank L. Kluckhohn in the "New York Times" of August 12, "the Nazi aviators will not fly the planes. but will instruct Spanish aviators how to use them." But he continues, "It is assumed this is merely official protection in case other powers question the acquisition of the new planes and it is generally believed the Germans will fly the planes themselves."

To continue to talk of neutrality in the face of these facts, which must be known to the People's Front government in France, is to play squarely into the hands of the fascist butchers.

Indeed, the very proposal is itself a blow against the Madrid government in the sense that it places the fascist rebels on a basis of equality with the de jure government of Madrid which was set up according to the best precepts of bourgeois democracy. Under the circumstances the neutrality pact, even if signed, would be little more than a transparent screen behind which the People's Front Government of France could hide its bankruptcy and impotence. It would under no circumstances halt the assistance which the fascist and "democratic powers" are extending to the fascist generals.

Thus, Great Britain warns its subjects against assisting "either side in Spain by land, sea or air" but cripples Madrid's bombardment of General Franco's terminals in the Mediterranean.

The United States, in the person of its president, raises its eyes in sanctimonious prayer for peace, pledges strict neutrality and says "We believe in democracy; we believe in freedom; and we believe in peace." But, the deposed King Alfonso prepares to return to Spain in an American plane, and Robert Neville reports ("Herald Tribune" August 15): "Jordain took a military airplane loaded with dynamite to Seville by permission of the latter in a plane piloted by the French Vicomte Jacques de Sibour"

Of the latter gentleman we have already heard. He is the Spanish representative of the Standard Oil Interests. But who is John H. Jordain? He is the manager of Socony Oil Company in Spain. While the former has been reported in a deal with the fascists the latter shows his bitter hostility to the "democracy" in which "we believe" by personally taking a plane full of dynamite to Seville, headquarters of General Franco.

And the United Press informs us (August 13) that the official organ of the Communist Party of Spain, Mundo Obrero, "called the policy (of the United States) 'energetic and valuable'."

Neutrality is a fraud which must

be exposed. The world is presented with the edifying spectacle of the Spanish People's Front government (supported by the Communists and Socialists) lodging a protest against the ban on war materials to Spain adopted by the People's Front government of France (supported by the Communists and Socialists).. Says the report by James M. Minifie ("Herald Tribune", August 12): "The Spanish People's against the French ban on exports of war materials to Spain as DIS-

CRIMINATING AGAINST AN ESTABLISHED GOVERNMENT IN FAVOR OF THE REBELS. The protest was communicated to Yvon Delbos, French Foreign Minister, by Alvaro de Albornoz, Spanish ambassador here." (Our emphasis). No more damning indictment against the whole People's Front policy could possibly be made.

But Socialist Premier Blum is having no easy time in executing this policy. Speaking before mass meetings of workers he was heckled with demands for planes to Spain. The temper of the French toiling masses at the treachery to the workers and peasants of Spain can well be guaged by some of the pronouncements of Foreign Minisster Delbos (Socialist). He "made it clear that the pressure being brought to bear on Premier Leon Blum by his left wing supporters, who are infuriated by the delay in non-intervention negotiations and excited by constant reports of German and Italian aid to the Fascist rebels, could not be withstood much longer.'

Of decisive importance however, is not the widespread dissatisfaction among socialists and communists with this policy, but the fact that the Radicals-the bourgeois partners of the People's Frontcast the decisive opinion. Again it is illustrated in life that when the Socialist and Communist Parties entered the People's Front with the Radical Socialist Party, they checked their revolutionary class struggle policies at the door; they surrendered leadership to a party of the bourgeoisie. Today they are prisoners of their own policy. A revolutionary policy of international aid to the Spanish proletariat means a break with the People's Front in France.

MINERS HELPING

Wilkes-Barre, Pa.—A promise that there will be no further police intereference with the picketing of the Lesser Dress Co., the Pioneer Dress Co., and the Guzy Manufacturing Co. was exacted from both the Mayor and the Chief of Police by a delegation of 20 representing the I.L.G.W.U. Strike Committee and the General Mine Committee of the Glen Alden Coal Co., the latter of which has endorsed the local dress strike.

So brutal have the police been in their treatment of pickets that organized labor, as represented by the I.L.G.W.U., the original sponsor of the strike, Local 1407, U.M.W.U., and the Heights Branch of the Workers Alliance of America, has united in defense of its right to strike. The central grievance committee of the Glen Alden locals is not only sending men to the picket lines, but is planning to reprimand relatives of mine workers employed in the mills who have not yet walked out. The unemployed organization passed a resolution condemning police assistance to the manufacturers involved.

Arrests have been frequent and have not been restricted to members of the I.L.G.W.U. Frank Dorrance, a miner, and Simon Taresevich, a railroad track layer, were taken into custody after Officer Patrick Dougherty, cruising in the neighborhood of South and Main Streets, was hit in the head by a stone thrown by an unidentified assailant. Though both men denied in court that they had been dis-Front government protested today orderly, they were fined \$10 and costs.

The bosses have centered their sistance.

SPEAKERS AT CITY LABOR PARTY CONVENTION

Left to right: City Chamberlain A. A. Berle, guest speaker; Heywood Broun, President Newspaper Guild; Julius Hochman, Manager Dressmakers Joint Board I.L.G.W.U.; Sidney Hillman, President Amalgamated Clothing Workers; David Dubinsky, President International Ladies Garment Workers Union. At table, seated—Luigi Antonini, Chairman American Labor Party; standing—Alex Rose, Vice President Millinery Workers Union.

300 Unions Organize City Labor Party

(Continued from Page 1)

TY", New York Times, Wednesday August 12, 1936). They should know, he said further, that the industrialists began it. The National Manufacturers Association and various Chambers of Commerce have raised the question of a new party to represent their interests in a more direct manner, to establish their control over the nation in what is known as the fascist way.

Analyzing the record of Landon which he said "is a strikebreaker's record" Hillman branched off into an unsparing attack upon Norman Thomas. Without once mentioning him by name he spoke of "socialist spokesmen who send love letters to Landon," and of one of the most idealistic simpletons who asks Landon will be beat up labor organizers." In a similar vein he sent a broadside in the direction of President Hutcheson of the Carpenters who has become the chairman of the Republican Party's Labor Committee, referring to labor leaders of his type as "fools or knaves."

The many speakers who addressed the large gathering of New York's trade unionists were somewhat hazy as to the type of party which was in the process of construction. Sidney Hillman's hope to "find all the liberal forces in this state marching under the banner of the American Labor Party" and A. A. Berle's belief that such a party might make it possible for the liebral forces in the state to "coalesce" with it, were merely

fire on the "foreign agitators' whom the I.L.G.W.U. has sent into the town. Thus Arm Landy, New York organizer and Harry Schind ler, district representative, have been served with warrants which charge them with inciting to riot and assault and battery. Alderman Joseph Hendler held Miss Landy in \$1000 bail on the first charge but dismissed the other one. Supposedly impartial, he also released a formal statement attacking the union for bringing in outside as-

echoes of Major Berry's speech | to the American Labor Party. Manmade in Washington at the conference of the Labor Non-Partisan League in which he spoke of "the ment which we quote in part: permanent establishment of a liberal party, if necessary, in the United States in 1940." Others placed much more emphasis on the labor character of such a party, the remarks of Luigi Antonini indicating this. There also appeared to be varying emphasis on the possibility of making this state organization permanent.

Heywood Broun, President of the Newspaper Guild, recently admitted into the A. F. of L., raised the question of the inclusiveness of the American Labor Party. There is no necessity, he said, to draw the line on the right. There is no danger of the duPonts rushing in. And, he continued, "I don't see how you are going to have an examination to see how radical a fellow is before you will work with him.'

Telegrams and letters of greeting were received from Governor Herbert H. Lehman, George L. Berry and John L. Lewis, George Meany of the State Federation of Labor and Joseph Ryan of the dence." New York Central Trades.

The conference adopted 4 resolutions: endorsing the candidacy of BRADLEY'S Roosevelt and Lehman: establishing the American Labor Party as "permanent political organization of the wage-earners and all liberal elements in the population of our city"; authorizing solicitation of campaign funds from unions; approving minimum wage and maximum hour provision planks.

Dressmakers Union Local 22 I.L.G.W.U. has decided to affiliate

ager Charles Zimmerman explained the position of the union in a state-

"The events of recent months together with the experience of decades of labor history, have clearly shown that independent organization on the political field in the form of a labor party is fully as necessary to the working class as independent organization on the industrial field in the form of trade unions. . . . It is true that the American Labor Party does not yet correspond to the formulas and conceptions that we may have had when the labor party was still a matter of the future. It is true also that there are differences of opinion as to the wisdom or propriety of certain steps already taken by the American Labor Party. But all of these things are secondary to the paramount consideration that a labor party has actually been formed, that it is the manifest duty of all unions, progressive unions especially, to join this labor party so as to help build it and enhance its class indepen-
