Luanda. From the 5th to the 7th of October a so-called Congress of Populating has taken place at Luanda, which among other things were trying to find a way of transforming into settlers the terrorist hordes operating in Angola...

MR. VORSTER AGAINST THE HELP  
FROM THE WORLD CHURCH COUNCIL  
TO THE AFRICAN LIBERATION  
MOVEMENTS

Pretoria. Mr. Vorster the notoriously racist South African leader, has violently attacked the World Church Council's decision to give aid to the African Nationalist Movements, in the following terms: "In this moment they are assembling all their forces, because they know that this is their last chance in the coming years." We say to Mr. Vorster that the coming years will continue to be victorious years for the people of Angola under the flag of the MPLA, and therefore years of the defeat of racism in Austral Africa.

YET ANOTHER SHARK PARTICIPA-  
TING IN THE EXPLOITATION OF  
ANGOLAN RICHES

Lisbon. At the Ministry of the Colonies a contract between the Portuguese State and the OESTEDIAM (Diamond Company in West Angola) who is technically and financially supported by the American Company Diamond Distributors Inc., to permit the right of research and exploitation of the precious stones in a determined region of Angola, has been signed. The right of exploitation is of a duration of 30 years and can be extended in two periods of 20 years each.

POPE PAUL VI HAS RECEIVED THE  
BISHOP OF MOXICO (ANGOLA)

The Vatican. As expected the Colonial Portuguese Authorities are now trying every possible counter-attack, after that the Leaders of the People in the Portuguese Colonies were received by the Pope in a special audience. Now Monseigneur Francisco Dias Esteves, Bishop of Moxico (Capital of the district of the same name, under MPLA's control since 1967) presents himself at the Vatican, undoubtedly in order to deny what the facts so plainly demonstrate.

De 1 a 6 de Julho, realizou-se a operação «Zumbo 3/H», na zona situada pela picada Ubonza-Cuito-R. Cunde-R. Cuito-R. Cuito-R. com resultados altamente positivos.

Esta operação, corolário de uma acção iniciada em 21 de Maio, em que, paulatinamente, se efectuaram o empolamento de elementos e a destruição de posições, e, pela análise

**OPERATION ZUMBO 3h**

**FAILED**

\*

The Portuguese Command has distributed a communique trying to transform into victory the terrible defeat

they suffered in OPERATION ZUMBO 3/H. We will only mention the action which took place near river Cuvalai where two enemy pelotons were annihilated. The helicopters gathered the surviving and dead thrown in the river. This a splendid example of the "sucess" of OPERATION ZUMBO 3/H.
