

## Appendix I

### RESOLUTIONS ADOPTED BY EIGHTH CONGRESS ON SOME ISSUES RELATING TO PARTY ORGANISATION

#### 1. PARTY LEVIES

The Eighth Party Congress calls upon all the delegates and observers to this Congress to make utmost personal monetary sacrifice, to place at the disposal of the party the fund thus obtained with a view to giving financial assistance to the needy wholetimers who are always and mostly in financial straits.

In order to implement this decision, the Congress calls upon all the delegates and observers to donate to the party acreage of land above the ceiling to be determined by the party and the portion of urban property and bank balances to be decided by the party. The provision be made applicable to members of the National Council and state councils.

#### 2. PARTY UNITS AND DISPUTES BETWEEN STATES

In disputes about state borders or projects, etc. affecting two or more states every attempt must be made by the state units concerned to resolve them with the help of the party centre. In any case, no state unit has the right in such matters to publicly pursue a line which brings it into conflict with another state unit. If there is a difference of opinion and the units concerned cannot resolve it, then the decision of the National Council or the Central Executive, as the case may be, must be enforced as binding on the concerned units.

### 3. OTHER RECOMMENDATIONS

The Party Congress resolves to accept the following three recommendations of the Organisational Commission and to refer the same to the new National Council for implementation:

- (a) Several comrades in their speeches and amendments sought to stress the need for modification of the price policy of PPH books so as to make them available to readers at cheaper prices. The commission decided to refer the issue to the new National Council.
- (b) Many comrades raised the point about the renewal of membership for 1967 and 1968. The commission agrees that the renewal for 1967 will have to be skipped over and the time-schedule etc. for 1968 referred to the new National Council.
- (c) Many comrades laid emphasis on one point which was agreed to by the whole commission but which does not form part of the Organisational Report. This relates to the urgent necessity of making all the documents of the Party Congress available to the comrades in the regional languages and organising reporting to the party ranks all over the country.

The new National Council and the state councils are urged to plan and carry out this task in their respective spheres systematically and thoroughly.

APPENDIX II

QUOTAS FOR PARTY MEMBERSHIP, PARTY FUND, ETC. UPTO 1 MAY 1969

<i>State</i>	<i>Party Membership</i>	<i>Party Fund Coll.</i>	<i>Volunteers</i>	<i>Party Life</i>	<i>Central Journals</i>	<i>State Journals</i>
